## 1.2 Off-Net & On-Net Access/ Products Expedites & Miscellaneous Entrance Criteria

**Off-net Expedite Charge** - The expedite charge applies whether the new Customer Commit Date (CCD) is met. Customer must initiate verbal request. This is in addition to the expedite charges for on-net Services.

**Note:** Off-net services: Prices may change based on any potential construction needed. For ICB pricing listed please contact the Product Manager for that service.

**On-net Expedite Charge** - The expedite charge applies if Service installation occurs prior to the published Standard Order Interval date. [STANDARD INSTALL INTERVALS](#) Customer will receive confirmation of request in writing from Level 3. Additional NRC per service when an order is modified after CCD set. Off-Net is in addition to On-Net Access/ Services.

**Note:** Products or services that are not bandwidth applicable will have charges outlined in the Non-Access Expedite Fee (Table 1.3). For ICB pricing listed please contact the Product Manager for that service

## 1.5 After Hours Scheduled Activation with Field Dispatch

An After Hours Scheduled Activation event is when Level 3 personnel are engaged to support a service activation the customer requests to schedule on Monday-Friday between 6:01 p.m. and 6:59 a.m. local time, Saturdays, Sundays, and Level 3 Holidays.

Customers will be billed per site/per service during the event that occurs after hours in accordance with the following standard: Billing will be applied using 15 minute increments based on the total time of activation with the customer. Typical activation events range from an hour to two hours.

Example: An activation scheduled after hours for 2 hours: total time spent is 1 hour 30 minutes, resulting in a charge of \$225 (six, 15 minute increments,  $6 \times \$37.50 = \$225$ ).

Item	MRC	NRC

Field Dispatch	n/a	\$150/hour	\$150/hour	\$150/hour	\$150/hour

## 1.6 Post Activation Support

Post Activation support is when a customer requests additional support from Level 3 after service installation (a connection notice or similar notification was sent) for something not identified as a "trouble" scenario (i.e. the trouble is not found on the Level 3 network).

Through troubleshooting elements, if Level 3 determines no rework is required on the Level 3 network and a customer requests to use Level 3 support to isolate the issue further, customers will be billed in accordance with the following standard: \*Billing will be applied using 15 minute increments based on the total time Level 3 resource(s) is actively working with customer to resolve issue.

Example: A customer contacts Level 3 for additional support after they receive a connection notice: total duration spent is 1 hour, resulting in a charge of \$350 (four, 15 minute increments,  $4 \times \$87.50 = \$350$ )

## 1.7 Scheduled Appointment Cancellation

If the customer cancels a scheduled appointment with less than 1 business day (24 hours) notice, or the customer is not ready or able to assist during the scheduled appointment, the following fees are applicable on a per site\* basis:

Item	MRC	NRC			
	All Regions	N. America	Europe	Latin America	Asia
With Dispatch	n/a	\$500	\$600	\$750	\$950
Without Dispatch	n/a	\$250	\$250	\$250	\$250

With Dispatch: A Level 3 technician or vendor is dispatched to customer site or remote network location.

Without Dispatch: A Level 3 technician or vendor was scheduled at a site that did not require a dispatch.

\*Events may require personnel to be scheduled and/or dispatched to one or more sites.

## 1.8 Cancellation by Customer

Customer may terminate Building Extension Service prior to work commencement by providing Level 3 with not less than 5 days written notice, provided that Customer shall pay Level 3 a cancellation charge of **\$250**. If Customer terminates Building Extension after work commences but prior to completion of such work, Customer shall, in addition to the cancellation charge, pay Level 3 for Level 3's incurred costs.

## 1.9 Emergency Re-routes

The E-REROUTE work order type is to charge for emergency re-routes requested by the customer and are not associated with an outage within the Level 3 network or underlying networks within our network. This work order type bills \$250 per phone number. This should be applied in vanity cases only; not when leveraged by customers to ensure business continuity due to a trouble on their underlying voice service.

## 1.11 DDoS Scrubbing

DoS Protect is a development of filters that are placed on Level 3's network to protect customer businesses. DoS Protect differs from DDoS Mitigation in that DDoS Mitigation proactively notifies customers that an attack is underway. DoS Protect is a reactive service. Customers that have not purchased DDoS Mitigation Service may still find they are undergoing a DDoS attack.

## 3. Disconnects

### 3.1 Disconnect Due Date Changes or Cancellations

	COMMENTS
<b>Disconnect Due Date Change = \$250 per request</b>	After Customer has submitted a disconnect request and Level 3 has acknowledged the request, the Disconnect Due Date Change Fee will be charged should the customer request a change to the disconnect due date. Level 3 will attempt to accommodate the date change, but the disconnect date change request cannot be guaranteed once processing has begun.
<b>Disconnect Cancellations = \$250 per request</b>	After Customer has submitted a disconnect request and Level 3 has acknowledged the request, the Disconnect Cancellation Fee will be charged should the customer request that Level 3 cancel the requested disconnect. Level 3 will attempt to accommodate the cancellation, but a cancellation of a disconnect request cannot be guaranteed once processing has begun.

### 3.2 Early Termination Liability Charges

This provision applies in accordance with the Order Terms if Customer’s service agreement does not expressly provide early termination liability charges. A “Connection Notice” is a notice from Level 3 that the Service is installed and/or that billing has commenced.

Customer may terminate a specified Service after the delivery of a Connection Notice upon 30 days’ written notice to Level 3. If Customer does so, or if Service is terminated by Level 3 as the result of Customer’s default, Customer will pay Level 3 a termination charge equal to the sum of: (i) all unpaid amounts for Service actually provided; (ii) 100% of the remaining monthly recurring charges for months 1-12 of the Service Term; (iii) 50% of the remaining monthly recurring charges for month 13 through the end of the Service Term; and (iv) if not recovered by the foregoing, any termination liability payable to third parties resulting from the termination and any out of pocket costs of construction to the extent such construction was undertaken to provide Services

hereunder. The charges in this Section represent Level 3's reasonable liquidated damages and are not a penalty.

### 3.3 Temporary Disconnects

The Temporary Disconnect work order type is to charge for temporary disconnects requested by the customer, and not related to any activity with Level 3 Credit and Collections. This work order type bills \$250 per circuit. This should be applied in customer requested cases only, when leveraged by customers to request a temporary interruption of service to their end user.

## 4. Cancellations

### 4.1 Order Cancellation Charges

This provision applies in accordance with the Order Terms if Customer's service agreement does not expressly provide cancellation charges. A "Connection Notice" is a notice from Level 3 that the Service is installed and/or that billing has commenced.

Customer may cancel a Customer Order (or portion thereof) prior to the delivery of a Connection Notice upon written notice to Level 3 identifying the affected Customer Order and Service. If Customer does so, Customer will pay Level 3 a cancellation charge equal to the sum of: (i) for "off-net" Service, third party termination charges for the cancelled Service; (ii) for "on-net" Service, 1 month's monthly recurring charges for the cancelled Service; (iii) the non-recurring charges for the cancelled Service; and (iv) Level 3's out of pocket costs (if any) incurred in constructing facilities necessary for Service delivery.

\* A faulty truck roll occurs when a Technician is dispatched to Customer premises in response to a fault, and that Technician determines that the fault is or was not caused by any fault or failing in the Managed Device or in the related Converged Connection Type or Service Application provided by Level 3.

\*\* 5 Basic Standard Configuration changes are included per device as a part of the monthly service. Changes beyond the initial 5 are charged at the rates as listed – all other configuration changes are by agreement on a case by case basis between the parties and additional charges may apply:

- o Updating a firewall policy rule to add or remove up to two addresses or existing address groups, up to two services or existing service groups, and/or a schedule; or creating a new address or service group of up to five items or adding up to five items to an existing address or service group; or deleting an address or service group; or defining a new schedule with up to five start and end times.
- o Updating web filter rules (whitelist, blacklist, local categories and ratings).
- o Enabling or disabling an intrusion prevention signature, or changing the defined action for a signature.
- o Changing the AV settings for file filter configuration, add exempt IPs, quarantine settings.
- o Enabling existing AV policy on a firewall policy.
- o Enabling existing AS policy on a firewall policy.
- o Changing AS settings for spam action, IP addresses, banned words, banned email addresses.
- o Adding/Removing/Changing a static Route.
- o Manually obtain health and performance statistics at customer request.
- o Addition/Removal/Changes for NAT configurations.
- o Changing Speed/Duplex of an Interface.
- o Modification to CPE DHCP server configuration.

For Moderate Changes:

- Adding/Removing a subnet.
- Addition of another device/access circuit.
- Logical Activation of a new Interface (e.g., a new DMZ, a new LAN interface, a new Untrust interface)
- Changing the default AV database (e.g., Extended, Extreme, Flow-Based)
- Adding new AV profile, file filter.
- Adding new AS profile.
- Changes to logging requirements (e.g., space limitations, logging servers, logging levels).
- Addition/Deletion/Changes to IPSec tunnel configurations.
- Addition/Removal/Physical Modification of Hardware.
- Adding DHCP Server configuration to CPE.

The level of effort will be determined by Design Engineering.

Total Charge calculation = Level of Effort \$ (LOE\$) + \$100 (# of nodes):

- Low - \$500,
- Medium - \$1000
- High - \$2000

The maximum Total Charges for Moderate Changes will be as follows (regardless of the number of nodes):

- Low effort - \$1000
- Medium effort - \$2000
- High effort - \$3000

For Advanced Changes: This will be on an Individual Case Basis.
