U.S. Government End User Purchasers. The Documentation and related Services qualify as "commercial items," as that term is defined at Federal Acquisition Regulation ("FAR") (48 C.F.R.) 2.101. Consistent with FAR 12.212 and DoD FAR Supp. 227.7202-1 through 227.7202-4, and notwithstanding any other FAR or other contractual clause to the contrary in any agreement into which the Agreement may be incorporated, Customer may provide to Government end user or, if the Agreement is direct, Government end user will acquire, the Services and Documentation with only those rights set forth in the Agreement. Use of either the Services or Documentation or both constitutes agreement by the Government that the Services and Documentation are commercial items and constitutes acceptance of the rights and restrictions herein.

</table>

Setting up Training Center

To participate in a training session, you must set up Training Center on your computer. Once you schedule, start, or join a training session for the first time, your training session service Web site starts the setup process. However, to save time, you can set up the application at any time before scheduling, starting, or joining a training session.

</tr>
</tbody>
</table>
System requirements for Training Center for Windows

You can find the system requirements and other information about compatible browsers and operating systems on the User Guides page for your service:

1. Log in to your WebEx Training Center site.
2. On the WebEx Training Center navigation bar, click Support > User Guides.
3. On the right side of the page, under Release Notes and FAQs, click the link for release notes.

Setting up Training Center for Windows

Before installing Training Center, ensure that your computer meets the minimum system requirements. For details, see System requirements for Training Center for Windows (on page 2).

If you are not using the Windows operating system, please refer to our FAQ, which includes information about setting up Training Center on other operating systems.

To go to the list of FAQs:

1. On your Training Center Web site, on the left navigation bar, click Support > User Guides.
2. On the User Guides page, under Release Notes and FAQs, click the link for FAQs (Frequently Asked Questions).
   
   A list of questions displays, arranged by topic. Look for your information about your operating system under Minimum System Requirements.

To set up Training Center for Windows:

1. On the navigation bar, expand Set Up, and then click Training Manager.
   
   The Set Up page appears.
2. Click Set Up.
3. If a security dialog box appears, click Yes.
   
   Setup continues. A progress message box appears, indicating the progress of setup.
4  On the Setup Complete page, click **OK**.

You can now start, schedule, or join a training session.

**Note:**
- Alternatively, you can download the Training Manager for Windows Installer from the Support page on your Training Center Web site, and then install Training Manager on your Web browser. This option is useful if your system does not allow you to install Training Manager directly from the Set Up page.
- If you or another attendee plans to share Universal Communications Format (UCF) media files during a training session, you can verify that the required components are installed on your system to play the media files. For details, see *Checking your system for UCF Compatibility* (on page 3).

---

**Preparing for a training session**

To take advantage of the many features available in a training session, check your system and then install some tools to extend training session capabilities.

- Check your system for UCF compatibility (if you have presentations with animations, save them as .ucf so training session attendees can view these effects) *More…* (on page 3)
- Set up and install Cisco WebEx Connect *More…* (on page 4)
- Share a remote computer, if this feature is available *More…* (on page 4)

---

**Checking your system for UCF Compatibility**

If you intend to play or view Universal Communications Format (UCF) media files during the training session, either as a presenter or an attendee, you can verify that the following components are installed on your computer:

- Flash Player, for playing a Flash movie or interactive Flash files
- Windows Media Player for playing audio or video files

Checking your system is useful if you or another presenter plans to share a UCF multimedia presentation or standalone UCF media files.

**To check your system for UCF compatibility:**

1  On the navigation bar, do *one* of the following:
Chapter 1: Setting up and Preparing for a Training Session

- If you are a new training session service user, click New User.
- If you are already a training session service user, expand Set Up, then click Training Manager.

2. Click Verify your rich media players.
3. Click the links to verify that the required players are installed on your computer.

Note: The option to check your system for required rich media players is available only if your Training Center Web site includes the UCF option.

About WebEx Connect

Use WebEx Connect, the instant messenger for business users to send secure instant messages, invite or remind participants, and manage a training session. Connect integrates with Microsoft Outlook corporate directories and calendars, encrypts messages and scans them for viruses, and offers quick access to business conferencing services from WebEx.

To download WebEx Connect:
1. Log in to your Training Center Web site.
2. On the Training Center navigation bar, click Support > Downloads.
3. Scroll down to the section of the page describing WebEx Connect.
4. Click the link to learn more about this product and download it.

About sharing a remote computer

Use remote computer sharing to show all training session participants a remote computer. Depending on how you set up the remote computer, you can show the entire desktop or just specific applications. Use remote computer sharing to show attendees an application or file that is available only on a remote computer.

Attendees can view your remote computer, including all your mouse movements, in a sharing window on their screens.

You can share a remote computer during a training session for which you are the presenter, if:
- You have installed the Access Anywhere Agent on the remote computer
You logged in to your Training Center Web site before joining the training session, if you are not the original training session host.

For information about setting up a computer so you can access it remotely, refer to the *Access Anywhere User's Guide*.

**Note:** The training session host may choose to record the training session.

About Joining a Training Session

You can join the following types of training sessions:

- **Listed training session**—A training session that appears on the list of training sessions page.
Chapter 2: Joining a Training Session

- **Unlisted training session**—A training session that does not appear on the list of training sessions page.

- **In-process training session**—A training session that is in process, from which the host invites you by email, instant message, or text message (SMS)

If a training session host either invites you to a training session or approves your registration request for a training session, you receive an email message that includes instructions and a link that you can click to join the training session. The email message contains the training session password, unless the host has specified that passwords do not appear in email messages.

If you did not receive an email invitation or registration confirmation, you can join a training session that is currently in progress. You need not be an authorized user or log in to your Training Center Web site to join a training session, unless the host has specified that all training session attendees must have a user account.

**Note:** If you have not yet set up Training Manager on your computer, you can do so before joining a training session to avoid a delay. Otherwise, once you join a training session, your Training Center Web site automatically sets up Training Manager on your computer.

### Registering for a Training Session

If a training session host invites you to register for a training session, you receive an invitation email message. The email message contains a link that you can click to register for the training session.

If you did not receive an email invitation to register for a training session, you can register for the session on the Live Sessions page on the Training Center Web site:

If registering for a training session requires a password, you must provide the password that the training session host gave to you.

When scheduling a training session, the host may set a limit to the number of session attendees, as well as determine if there will be a waiting list for the session. If so, you may be allowed to register for a waiting list.
Chapter 2: Joining a Training Session

**Note:** If registration is required for a *Recurring single-session class* or a *Multiple session course*, you will be required to register for only one session. If you register again in a subsequent session, the previous registration will be canceled.

**Important:** The IM feature is not available for training sessions that require registration.

### Registering for a Training Session from an Invitation Email Message

To register for a training session from an email invitation that you received, follow these steps:

1. Open your email invitation, then click the link.
2. On the Session Information page that appears, click **Register**.
3. On the Register for [Topic] page that appears, provide the required information.
4. Click **Register**.
   
   Once the host approves your registration, you receive a registration confirmation email message. You can then join the training session from the email once it starts.
   
   If the training session is already in progress, and the host has chosen to approve all registration requests automatically, click **Join Now** to join the training session immediately.

### Registering for a Training Session from the Live Sessions Page

To register for a training session from the list of sessions on your Training Center Web site, follow these steps:

1. On the navigation bar, expand **Attend a Session** to view a list of links.
2. Click **Live Sessions**.
   
   The Live Sessions page appears.
3 In the list of sessions, locate the training session for which you want to register.

**Note:** You can register for only those training sessions with a status of Register or Waitlist, in which case you would be registering to be put on a waiting list for the session.

To locate a training session quickly, you can

- sort the list of sessions by clicking the column headings. For details, see *Sorting the Live Sessions Page* (on page 22).
- search for a training session. For details, see *Searching for a Training Session* (on page 22).

**Tip:** If the session you are looking for requires registration, select the *Show only sessions that require registration* check box.

4 Click **Register** (or **Waitlist**) next to the name of the training session for which you want to register.

5 On the Register for: [Topic] page that appears, provide the required information.

6 If necessary, select the session date for which you are registering.

**Note:** If you are registering again for this training session, your previous registration will be lost.

7 Click **Register**.

Once the host approves your registration, you receive a registration confirmation email message. You can then join the training session from the email once it starts.

If the training session is already in progress, and the host has chosen to approve all registration requests automatically, click **Join Now** to join the training session immediately.
Tip:

- You can obtain detailed information about a selected training session or its agenda before registering for it. For details, see *Obtaining Information About a Scheduled Training Session* (on page 19).
- You can display all training session times in another time zone. For details, see *Selecting a Time Zone on the Live Sessions Page* (on page 23).
- You can refresh the training calendar to ensure that you are viewing the most recent information. For details, see *Refreshing the Live Sessions Page* (on page 23).

Adding a scheduled training session to your calendar program

When you receive a training session invitation via email, or are directed to a Web site by the host, there may be an option for you to add the training session to a calendar program, such as Microsoft Outlook or Lotus Notes. This option is applicable only if:

- this feature was enabled on the host's site when the training session was scheduled
- this feature is enabled on the host's Training Center Web site when directed to find the training session information there
- your calendar program supports the *iCalendar* standard, a common format for exchanging calendaring and scheduling information across the Internet

To add a scheduled training session to your calendar from an email:

1. In the email invitation that you receive, click the link to add the training session to your calendar.
2. If necessary, add the appropriate session and click **OK**.
3. In the File Download dialog box, click **Open**.
4. Select the option to accept the training session request. For example, in Outlook, click **Accept** to add the training session to your calendar.
To add a scheduled training session to your calendar from a Training Center site:

1. Go to the Training Center Web site as directed by the host.
2. Find the training session name on the Live Sessions page and click the topic name.
   The Session Information page appears.
3. Click Add to My Calendar.
4. If necessary, add the appropriate session and click OK.
5. In the File Download dialog box, click Open.
6. Select the option to accept the training session request. For example, in Outlook, click Accept to add the training session to your calendar.

**Note:** If you receive an email message that the host has canceled the training session, you can remove it from your calendar program by clicking the link within the email, and then following similar steps that you used for adding the training session.

**Downloading Course Material Before the Training Session**

If your training instructor uploads course material to the Training Center Web site, you can download it before the training session.

To download course material:

1. On the navigation bar, expand Attend a Session to view a list of links.
2. To view a single list of all training sessions, click Live Sessions.
   The Live Sessions page appears.
3. On the Live Sessions page, locate the training session for which you want to download course material.
   To locate a training session quickly, you can do the following:
   - sort the list of training sessions by clicking the column headings.
   - display the calendar for another date by clicking the calendar icon.
Chapter 2: Joining a Training Session

- view the scheduled sessions for the current day, future sessions, daily, weekly, or monthly recurring sessions by clicking the tabs: **Today**, **Upcoming**, **Daily**, **Weekly**, and **Monthly**. The recurring sessions tabs appear only if recurring sessions have been scheduled.

- search for a training session by its host or presenter name, session topic, or any text in the description or agenda.

4 Under **Topic**, click the name of the training session for which you want to download course material.

The Session Information page appears.

5 Optional. If the training session requires registration and you have not yet registered, do the following:
   a) Click **Register**.
   b) Enter any required information, and then click **Register**. The Registration Confirmed page appears.
   c) Click **OK**.

6 If no registration is required, or if you have already registered, click **View Session Details**.

7 Enter the session password and click **OK** to see the complete session information.

8 Next to **Course Material**, click the link for the file.

   The File Download dialog box appears.

9 Click **Save**.

   The Save As dialog box appears.

10 Choose a location at which to save the file. Click **Save**. The file downloads to your selected location.

11 If applicable, download additional files.

12 Once you finish downloading files, click **Close**.

13 Click **Go Back**.

**Note:** If the host has published a file in the Universal Communications Format (UCF), which has a **.ucf** extension, a security warning dialog box appears, asking you if you want to install WebEx software that caches, or stores, the file on your computer. Click
Yes or OK to install the software. Once you download the UCF file, the software also downloads the UCF file to the C:\My WebEx Documents\Cache\[SessionNumber] folder on your computer, in addition to any other location that you specify. Once the session starts, the UCF file that you downloaded automatically opens in your Session window. During the session, you can view the file’s content much more quickly than if you did not previously download the file.

## Joining a Listed Training Session

If you received either an invitation or registration confirmation email message for a training session, you can join the session from the email message. Or, you can join a listed training session by locating it on training calendar on the Live Sessions page.

If the training session requires a password, you must provide the password that the training session host gave to you.

### Joining a Listed Training Session from an Email Message

To join a listed training session from an invitation email message, follow these steps:

1. Open your invitation or registration confirmation email message, then click the link.
   
   The Session Information page appears.

   **Note:** If the training session requires registration, a Register button appears on the page. If you have not yet registered for the training session, you must do so before you can join it. For registration information, see Registering for a Training Session from an Invitation Email Message (on page 9).

2. On the Session Information page, enter any required information and click Join Now.

   The Session window appears.

   If the training session includes an integrated audio conference, the Audio Conference dialog box appears. Follow the instructions in the dialog box to start the audio conference.
Joining a Listed Training Session from the Live Sessions Page

To join a listed training session from the Live Sessions page on your Training Center Web site, follow these steps:

1. On the navigation bar, expand **Attend a Session** to view a list of links.
2. Click **Live Sessions**. The Live Sessions page appears.
3. Click **Join** for the training session that you want to attend.

**Note:** If the training session requires registration, a **Register** link appears next to the training session listing. If you have not yet registered for the training session, you must do so before you can join it. For registration information, see **Registering for a Training Session from the Live Sessions Page** (on page 9).

4. Enter any required information, and then click **Join Now**.

The Session window appears.

If the training session includes an integrated audio conference, the Audio Conference dialog box appears. Follow the instructions in the dialog box to start the audio conference.

**Tip:**
- You can obtain detailed information about a selected training session or its agenda before registering for it. For details, see **Obtaining Information About a Scheduled Training Session** (on page 19).
- You can display all training session times in another time zone. For details, see **Selecting a Time Zone on the Live Sessions Page** (on page 23).
- You can refresh the training calendar to ensure that you are viewing the most recent information. For details, see **Refreshing the Live Sessions Page** (on page 23).

Joining an Unlisted Training Session

To join an unlisted training session—that is, a training session that does not appear on the Live Sessions page—you must provide the training session number that the training session host gave to you.
If you received either an invitation or registration confirmation email message for a training session, you can join the session from the email message. You can also join the training session from your Training Center Web site.

**Joining an Unlisted Training Session from an Email Message**

To join an unlisted training session from an invitation email message that you received, follow these steps:

1. Open your invitation email message, then click the link.
   
   The Session Information page appears.

   **Note:** If the training session requires registration, a **Register** button appears on the page. If you have not yet registered for the training session, you must do so before you can join it. For registration information, see *Registering for a Training Session from an Invitation Email Message* (on page 9).

2. On the Session Information [Topic] page, click **Join Now**.
   
   The Session window appears.

   If the training session includes an integrated audio conference, the Audio Conference dialog box appears. Follow the instructions in the dialog box to start the audio conference.

**Joining an Unlisted Training Session from Your Training Center Web Site**

To join an unlisted training session from your Training Center Web site, follow these steps:

1. On the navigation bar, expand **Attend a Session** to view a list of links.

2. Click **Unlisted Session**.
   
   The Join an Unlisted Training Session page appears.

3. Type the session number that the host gave to you in the **Session number** box.

4. Click **Join Now**.
Chapter 2: Joining a Training Session

Note: If the training session requires registration, a Register button appears on the page. If you have not yet registered for the training session, you must do so before you can join it. For registration information, see Registering for a Training Session from the Live Sessions Page (on page 9).

5 Enter any required information, and then click Join Now.

The Session window appears.

If the training session includes an integrated audio conference, the Audio Conference dialog box appears. Follow the instructions in the dialog box to start the audio conference.

Joining an in-process training session

During a training session, a host may invite you to join. The invitation may arrive via email, via WebEx AIM Pro instant message, via other instant message program, or via text message (SMS).

Joining an in-process training session from an email message

To join an in-process training session from an email message, follow these steps:

1 Open your email message, and then click the link to join the training session.

The Session Information page appears.

Note: If the training session requires registration, a Register button appears on the page. If you have not yet registered for the training session, you must do so before you can join it. For registration information, see Registering for a Training Session from an Invitation Email Message (on page 9).
Chapter 2: Joining a Training Session

2 On the Session Information [Topic] page, enter any required information and click Join Now.

The Session window appears.

If the training session includes an integrated audio conference, the Audio Conference dialog box appears. Follow the instructions in the dialog box to start the audio conference.

Joining an in-process training session from an instant message

To join an in-process training session from an instant message, follow these steps:

1 Open your instant message, and then click the link.

The Session Information page appears.

2 On the Session Information [Topic] page, enter any required information and click Join Now.

Note: If the training session requires a password, contact the training session host if the password is not provided.

3 Click Join Now.

The Session window appears.

If the training session includes an integrated audio conference, the Audio Conference dialog box appears. Follow the instructions in the dialog box to start the audio conference.

Joining an in-process training session from a text message (SMS)

If a training session host invites you to a session via text message, you will receive the following on your mobile device:

- A number you can call to join the training session
- The account code
Training Session topic
Training Session start time
The host name
A reply code to receive a call from the meeting.

To join an in-process training session from a text message (SMS), follow these steps:
1. Open the text message on your mobile device.
2. Enter your information as necessary.
3. To have this information saved for this page, select the Remember me check box.
4. Select Call me back to receive a call back.

Obtaining Information About a Scheduled Training Session

Before joining or registering for a training session, you can obtain information about it—such as its description, host, and other details; or its agenda.

To obtain information about a training session:
1. On the navigation bar, expand Attend a Session to view a list of links.
2. Do one of the following:
   - To view all listed training sessions, click Live Sessions. The Live Sessions page appears, displaying all the scheduled sessions and times.
   - To view the unlisted sessions that require a password, click Unlisted Sessions. Type the session number that the host gave to you in the Session number box.
     The Unlisted Sessions page appears, displaying information for the unlisted session.
3. If necessary, click the time zone link to select the time zone in which you are currently located.
4. On the Live Sessions page, locate the training session for which you want to obtain information.
To locate a training session quickly, you can

- sort the list of training sessions by clicking the column headings.
- display the calendar for another date by clicking the calendar icon.
- view the scheduled sessions in another calendar view by clicking the tabs: **Today**, **Upcoming**, **Daily**, **Weekly**, and **Monthly**.
- search for a training session by its host or presenter name, session topic, or any text in the description or agenda.

**Tip:** If the session you are looking for requires registration, select the **Show only sessions that require registration** check box.

5. Under **Topic**, click the name of the training session for which you want to obtain information.

The Session Information page appears.

6. Click **View Session Details**.

7. Type the password that the training session host gave to you and click **OK**.

   If you received an invitation email message, the invitation contains the password.

   The Session Information page now shows complete information.

Chapter 2: Joining a Training Session

If you want to... See...
select a time zone on the Live Sessions page Selecting a Time Zone on the Live Sessions Page (on page 23)

About Using the Live Sessions Page

The Live Sessions page on your Training Center Web site provides information about all listed training sessions that are either scheduled or in progress. However, the Live Sessions page does not provide information about unlisted training sessions.

You can navigate the list of sessions to quickly find a listed training session. You can also sort the list of training sessions that appear on the page that you are viewing, and refresh the list at any time.

The Live Sessions page provides a list of all scheduled training sessions.

On this page, you can

- search for a training session by its host or presenter name, session topic, or any text in the description or agenda
- view the scheduled sessions for the current day, future sessions, daily, weekly, or monthly recurring sessions by clicking the tabs: **Today**, **Upcoming**, **Daily**, **Weekly**, and **Monthly**
- sort the list of training sessions by clicking the column headings
- show a list of training sessions that occurred in the past
- show a list of only training sessions that require registration
- view the calendar and select another date on the calendar, using the Calendar pop-up window
- navigate forward and backward in the calendar, using the **Next Day** and **Previous Day** arrow buttons
- join a training session in progress
- obtain general information about a training session or a training session's agenda
- register for a training session that requires registration
- register for a training session's waiting list (if available)
Chapter 2: Joining a Training Session

Searching for a Training Session

On the Live Sessions page, you can locate a training session by searching for its host or presenter name, session topic, or any text in the description or agenda. You cannot search for a session number.

To search for a training session:

1. If you have not already done so, open the list of sessions.
2. Type the text for which you want to search in the Search for box.
3. Click Search.

The Search Results page appears, listing all training sessions that contain the search text.

On the Search Results page, you can do the following:

- Sort the Live Sessions page. For details, see Sorting the Live Sessions Page (on page 22).
- Join a listed training session. For details, see Joining a Listed Training Session (on page 14).
- Obtain information about a training session. For details, see Obtaining Information About a Scheduled Training Session (on page 19).

Sorting the Live Sessions Page

By default, the Live Sessions page is sorted by hours, in ascending order. However, you can sort the list of sessions by any column, as follows:

- Date & Time—Sorts the list of sessions by hours, in ascending or descending order.
- Topic—Sorts the list of sessions alphabetically by topic, in ascending or descending order.
- Fee—Sorts the list of sessions by cost. This column appears only if eCommerce is enabled for your Training Center Web site.
- Presenter—Sorts the list of sessions alphabetically by presenter—that is, host—name, in ascending or descending order.
- Duration—Sorts the list of sessions by duration, in ascending or descending order.
To sort the list of sessions by ascending or descending order:

1. If you have not already done so, open the Live Sessions page.
2. Click the column heading by which you want to sort the list of sessions.
   - The **Ascending Sort** indicator appears, and the list of sessions is sorted by the column, in ascending order.
3. Optional. To sort the list of sessions in descending order, click the column heading again.
   - The **Descending Sort** indicator appears, and the list of sessions is sorted by the column, in descending order.

**Refreshing the Live Sessions Page**

Information about training sessions on the Live Sessions page can change at any time. Thus, to ensure that you are viewing the most current training session information, you can refresh the list of sessions.

To refresh the public list of sessions:

1. If you have not already done so, open the Live Sessions page.
2. Click the **Refresh** button.

**Selecting a Time Zone on the Live Sessions Page**

On the Live Sessions page, you can access your Preferences page to select the time zone in which you want to view training session times. Your site administrator specifies the default time zone that appears on the list of sessions. You may need to change the time zone, for example, if you are travelling and temporarily in another time zone.

To select a time zone on the Live Sessions:

1. If you have not already done so, open the Live Sessions page.
2. Click the time zone link.
Chapter 2: Joining a Training Session

The Preferences page appears.

3 In the Time zone drop-down list, select another time zone.

4 Click OK.

About the training session calendar

The public training session calendar on your Training Center Web site provides information about each listed training session that is either scheduled or in progress. However, the training session calendar does not provide information about any unlisted training session.
You can navigate the training session calendar to quickly find a listed training session - either on the current date or any date - using one of several calendar views. For example, you can view a training session list for today's date only or for an entire month.

When viewing a training session list, you can sort the list and refresh it at any time.

You can view a list of training sessions that require registration.

**Viewing the training session calendar**

You can open *one* of the following calendar views of all listed training sessions:

<table>
<thead>
<tr>
<th>View</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Today</td>
<td>Contains a list of training sessions occurring on the current date, including all training sessions currently in progress and all scheduled training sessions that are not yet in progress.</td>
</tr>
<tr>
<td>Daily</td>
<td>Contains a single list of all training sessions occurring on the current date, or on another date to which you have navigated.</td>
</tr>
<tr>
<td>Weekly</td>
<td>Contains a list of scheduled training sessions for each day of the selected week.</td>
</tr>
<tr>
<td>Monthly</td>
<td>Indicates on which dates training sessions are scheduled for the selected month.</td>
</tr>
<tr>
<td>Upcoming</td>
<td>Contains a list of all upcoming scheduled training sessions. This list includes only those training sessions whose starting time has not yet been reached.</td>
</tr>
</tbody>
</table>

To open a calendar view of all scheduled training sessions:

1. On the navigation bar, expand **Attend a training session** to view a list of links.
2. Click **Live Sessions**.
   *The training session calendar appears.*
3. Click the tabs to navigate to different views of the training session calendar.
   *You can also view a list that includes past training sessions.*

You can view a list of training sessions that require registration.
To include past training sessions in your list of training sessions:
1. Select the **Today** or **Daily** tab.
2. Select the **Show past training sessions** check box.
   The list of training sessions displays accordingly for the tab.

To display a list of only training sessions that require registration:
1. Select the **Today**, **Upcoming**, **Daily**, or **Weekly** tab.
2. Select the **Show only training sessions that require registration** check box.
   The list of training sessions that require registration displays accordingly for the tab.

**Selecting a date on the training session calendar**

You can view a list of scheduled training sessions for any date on the training session calendar.

To display a list of scheduled training sessions for the previous or next day:
1. If you have not already done so, open the training session calendar. For details, see *Viewing the training session calendar* (on page 26).
2. On the **Daily** view of the calendar page, click the forward or backward arrow to navigate to the list of training sessions for the next or previous day.

   Friday, December 3, 2010

For details about the options on the **Daily** view, see *About the Daily view* (on page 35).

To display a list of training sessions for a specific date:
1. If you have not already done so, open the training session calendar. For details, see *Viewing the training session calendar* (on page 26).
   On the **Today**, **Upcoming**, **Daily**, or **Weekly** tab on the calendar page, click the **Calendar** icon.
Chapter 3: Using the Calendar

The Calendar window appears, showing the calendar for the current month.

2 Optional. Do any of the following:
   - To view the calendar for the previous month, click the forward arrow.
   - To view the calendar for the next month, click the backward arrow.
   - To view the calendar for a specific month, in the drop-down list, select a month.
   - To view the calendar for a specific year, in the drop-down list, select a year.

3 Click the date for which you want to view a list of training sessions.
The Daily view for the date that you selected appears.

   For details about the options on the view tabs, see the following:
   - About the Upcoming view (on page 34)

To display a list of training sessions for a specific date using the Monthly view:

1 If you have not already done so, open the training session calendar. For details, see Viewing the training session calendar (on page 26).

2 Click the Monthly tab.

3 Click the forward or backward arrow to navigate to the list of training sessions for the next or previous month.

4 Click a date for which you want to view a list of scheduled training sessions.
The Daily view appears for the date that you selected.
Searching for a training session on the training session calendar

On the training session calendar, you can locate a training session by searching for text in the name of the host or presenter, training session topic, or training session agenda. You cannot search for a training session number.

To search for a training session:
1. If you have not already done so, open the training session calendar. For details, see Viewing the training session calendar (on page 26).
2. Type the text for which you want to search in the Search for box.
3. Click Search.

The Search Results page appears, listing all training sessions that contain the search text.

Sorting the training session calendar

By default, training session lists on the training session calendar are sorted by hours, in ascending order. However, you can sort the training session lists by any column:

<table>
<thead>
<tr>
<th>Column</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Time</td>
<td>Sorts the training session list by hours, in ascending or descending order.</td>
</tr>
<tr>
<td>Topic</td>
<td>Sorts the training session list alphabetically by topic, in ascending or descending order.</td>
</tr>
<tr>
<td>Fee</td>
<td>Sorts the training session list by cost, in ascending or descending order.</td>
</tr>
<tr>
<td>Host or Presenter</td>

</tr>
</tbody>
</table>
### Chapter 3: Using the Calendar

#### Duration

| Duration | Sorts the training session list by duration, in ascending or descending order. |

To sort the public training session calendar:

1. If you have not already done so, open the training session calendar. For details, see Viewing the training session calendar.

2. In a list of training sessions on the **Today**, **Upcoming**, **Daily**, or **Weekly** tab on the calendar page, click the column heading by which you want to sort the training sessions.

An ascending or descending sort indicator appears and the training sessions are sorted accordingly.

#### Refreshing the training session calendar

Information about training sessions on the public Training Center calendar can change at any time. Thus, to ensure that you are viewing the most current Training Center information, you can refresh the Training Center calendar at any time.

To refresh the public Training Center calendar:

1. If you have not already done so, open the training session calendar. For details, see *Viewing the training session calendar* (on page 26).

2. Click the **Refresh** button.
Selecting a language and time zone on the training session calendar

On the training session calendar, you can access your Preferences page to select the language and time zone in which you want to view training session times. Your site administrator specifies the default language and time zone that appears on the training session calendar. You may need to change the time zone, for example, if you are travelling and temporarily in another time zone.

To select a language on the public training session calendar:

1. If you have not already done so, open the training session calendar. For details, see Viewing the training session calendar (on page 26).
2. Click the language link on the right side of the page.
   The Preferences page appears.
3. In the Language drop-down list, select another language.
4. Click OK.

Note:
- Your time zone selection affects only your view of your Training Center Web site, not other users' views.
- If you have a user account, all training session invitations that you send automatically specify the training session starting time in the time zone that you selected.
- If you select a time zone for which daylight saving time (DST) is in effect, your Training Center Web site automatically adjusts its clock for daylight saving time.

To select a time zone on the public training session calendar:

1. If you have not already done so, open the training session calendar. For details, see Viewing the training session calendar (on page 26).
2. Click the time zone link on the right side of the page.
   The Preferences page appears.
3. In the Time zone drop-down list, select another time zone.
4  Click OK.

About the Today view

How to access this page

On your Training Center Web site, click Attend a Session > Live Sessions > Today tab.

What you can do here

The Today view lists the live training sessions and on-demand hands-on lab sessions that are scheduled for the present day, including those in process, those concluded, and those that have not yet begun.

The training session information displayed in the list can be sorted by clicking the column headings. For details, see Sorting the training session calendar (on page 29).

### Option | Description
--- | ---
**Time** | Lists the starting time for each scheduled training session.
**Topic** | Lists the scheduled training sessions by name. Click the topic name to get training session information.
**Fee** | Sorts the training session list by cost, in ascending or descending order.
**Host or Presenter** | Lists the host or presenter for the training session.
**Duration** | Lists the scheduled length of the training session.
**Join link** | Click the link to join the Training Center from the Session Information page.
**Register link** | Click to open the Register for page, where you can enter the required information to register for the training session.
**Waitlist link** | Click to open the Register for page, where you can enter the required information to register for the waitlist for the training session.
**Full link** | Indicates that the training session is full.
**Start link** | (Host only) Click to start your training session.
**End link** | (Host only) Click to end your training session.
### About the Upcoming view

#### How to access this page
On your Training Center Web site, click **Attend a Session > Live Sessions > Upcoming** tab.

#### What you can do here
The Upcoming view lists scheduled live training sessions and on-demand hands-on lab sessions. This list includes only future scheduled sessions - that is, sessions where the starting time has not been reached.

The training session information displayed in the list can be sorted by clicking the column headings. For details, see *Sorting the training session calendar* (on page 29).

</table>
About scheduling a training session

When scheduling a training session you can accept the default settings that your Training Center Web site provides, or you can specify several options for your training session. These options allow you to customize your training session for your specific needs. Once you schedule a training session, you can modify its options. You can also cancel a scheduled training session at any time.

If another user has granted scheduling permission to you in his or her user profile, you can schedule a training session on behalf of that user. For details about granting scheduling permission to another user, see Allowing another host to schedule your training session (on page 106).

Choosing a level of security for a training session

You provide security for your training session by doing any of the following:

- **Require a password**—Most Training Center Web sites require that you specify a password for any session that you host. Attendees must provide this password to join the session.

- **Specify an unlisted training session**—When scheduling a training session, you can specify that the session is unlisted. An unlisted training session does not appear on the training session calendar. To join an unlisted training session, attendees must provide a unique session number. For more information about specifying an unlisted session, see About listed and unlisted training sessions.

- **Exclude the session password from email invitations**—When scheduling a training session, you can prevent the password from appearing in the email invitations that your Training Center Web site automatically sends to attendees. For details, see Excluding the session password from email invitations.

- **Require attendees to log in**—When scheduling a training session, you can require that attendees have a user account on your Training Center Web site. Thus, attendees must log in to your site before they can attend the session. For more information, see Requiring attendees to log in to your Training Center Web site.
Chapter 4: Setting up and Scheduling a Training Session

- **Require attendees to register for the training session**—When scheduling a training session, you can require each attendee to fill out a registration request that includes his or her name, email address, and other information that require, and then send the request to you. You can then accept or reject each registration request. For more information, see *Requiring registration for a scheduled training session* (on page 70).

- **Restrict access to the training session**—Once all attendees have joined a training session, you can prevent additional attendees from joining it by restricting access to the training session.

  Tip: Choose a level of security based on the training session's purpose. For example, if you schedule a session to discuss your company picnic, you probably need to specify only a password for the session. On the other hand, if you schedule a session in which you will discuss sensitive financial data, you may want to specify that the session is unlisted. You may also choose to restrict access to the session once all attendees have joined it.

### Setting up a scheduled training session

When scheduling a training session, you must specify a training session topic, date and time, and password. You can also specify several options to provide security for and customize your training session.

**Open the Schedule Training Session page:**

1. Log in to your Training Center Web site.
2. On the navigation bar, expand **Host a Session** to view a list of links.
3. Click **Schedule Training**.

   The Schedule Training Session page appears.

**Set up session and access information:**

1. Specify a topic and a password for the training session. For details, see *Setting up session and access information* (on page 49).
2. Specify whether the training session is listed or unlisted. For details, see *About listed and unlisted training sessions* (on page 50).
3 Specify whether the training session can support over 500 attendees. For details, see Supporting over 500 attendees (on page 51).

4 Specify whether to remove a completed training sessions from the training session calendar. For details, see Deleting sessions automatically (on page 52).

5 Specify whether you will receive a copy of the attendee email invitation. For details, see Receiving a copy of the attendee email invitation.

Specify tracking codes:

Required for some organizations. Specify tracking information associated with the training session. This option only appears if your site administrator has set it up. For details, see Specifying tracking codes for a scheduled session.

Specify audio conferencing options:

Under Audio Conference Settings, select whether you want a WebEx audio conference, VoIP-only conference, no conference, or other teleconferencing service. For details, see Setting up an audio conference for a scheduled session (on page 56) or Setting up a VoIP-only audio conference for a scheduled training session (on page 59).

Schedule the date, time, and occurrence:

1 Specify the date and time at which the training session starts, its occurrence, and its duration. For details, see Scheduling a training session time, occurrence, and duration (on page 64).

2 Optional. Specify a recurrence pattern for the training session by selecting an option next to Occurrence.

Set up Hands-on Lab:

This option appears on the Schedule Training page only if your site administrator has set up Hands-on Lab.

1 Reserve computers from a specific Hands-on Lab. For details, see Reserving computers for Hands (on page 67)-on Lab.

2 Check availability of computers and status of your reservation. For details, see Viewing the Hands-on Lab schedule (on page 68).

Specify registration options:

1 Optional. Specify whether to require attendees to register for the training session. For details, see Requiring registration for a scheduled training session (on page 70).
Chapter 4: Setting up and Scheduling a Training Session

2 Optional. Customize your registration form by adding option buttons and specifying required information to register. For details, see *Customizing a registration form* (on page 74).

Invite attendees:

Optional. Send email invitations to attendees. For details, see *Inviting attendees to a scheduled training session* (on page 76).

Invite presenters:

Optional. Send email invitations to presenters. For details, see *Inviting presenters to a scheduled training session* (on page 78).

Specify training session options:

1 Optional. Specify which session options you want to be available to all participants during the training session. For details, see *Specifying training session options* (on page 81).

2 Optional. Specify which privileges attendees have during the training session. For details, see Specifying options available to participants during a training session.

3 Specify a destination Web page. For details, see *Specifying a destination Web page after the session ends* (on page 85).

4 Optional. Choose an alert to play once a participant either joins or leaves the teleconference. For details, see Playing alerts when participants join or leave a teleconference.

5 Create a message or greeting that appears when attendees join the training session. For details, see *Creating a message or greeting for a scheduled training session* (on page 85).

Specify breakout session assignment settings:

1 Select whether to enable breakout session assignments prior to the start of the session.

2 If selected, specify whether to assign the attendees automatically or manually.
   
   For details, see *Setting up breakout sessions* (on page 89).

Select email messages to be automatically sent:

1 Select invitation email messages. For details, see *Sending an invitation to a training session* (on page 92).
2. Select email messages to be sent when any schedule updates occur. For details, see *Sending an update to a scheduled training session* (on page 93).

3. Send a registration notification to the host or to attendees. For details, see *Sending a registration notification to a scheduled training session* (on page 93).

4. Send training session reminders to attendees and presenters. For details, see *Sending a reminder for a scheduled training session* (on page 94).

Specify session information:

1. Specify an agenda and description for the training session, which attendees can view before the training session starts. For details, see *Setting your agenda* (on page 99).

2. Optional. Add a picture to the Session Information page, which attendees can view before the training session starts. For details, see *Adding a picture to the Session Information page* (on page 100).

Add course material:

Upload course material to the Session Information page for attendees to download before the training session. For details, see *Publishing course material for a scheduled training session* (on page 102).

Add tests:

You can add tests to the training session during scheduling. For details, see *Using tests in training sessions* (on page 104).

Add, select, or delete scheduling session templates:

You can save the Schedule Training Session settings as a template to be used when scheduling future sessions. For details, see *Using the scheduling templates* (on page 105).

Schedule or start the training session:

Do one of the following:

- If the training session's starting time is the current time, click **Start Session** to start the training session.
- If the training session's starting time is after the current time, click **Schedule**.
The Session Scheduled page appears, confirming that the session is scheduled. You also receive a confirmation email message that includes information about the scheduled session.

**Note:** For details about starting a training session, see Starting a scheduled training session on page 119.

If you invite an attendee to a training session when scheduling it, the attendee receives an invitation email message that includes information about the training session, including the training session password, unless you specify that passwords do not appear in email invitations.

If you invite an attendee to a training session when scheduling it, and require that attendees register to attend the session, the attendee receives an invitation-to-register email message. This message includes information about the training session, including a link that the attendee can click to register for the session.

Add a scheduled session to your calendar:

You can add a scheduled training session to a calendar program, such as Microsoft Outlook or Lotus Notes. For details, see Adding a scheduled training session to your calendar program (on page 108).

### Setting up session and access information

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>set a topic name and password for your training session</td>
<td>Setting up a topic name and password (on page 50)</td>
</tr>
<tr>
<td>get an overview of listed and unlisted training sessions</td>
<td>About listed and unlisted training sessions (on page 50)</td>
</tr>
<tr>
<td>specify whether a training session is listed or unlisted</td>
<td>Specifying whether a training session is listed or unlisted (on page 51)</td>
</tr>
</tbody>
</table>
Setting up a topic name and password

When scheduling a training session, you set up the topic name and password. You can edit the topic name and password on the Edit Scheduled Training Session page. For details, see Modifying a scheduled training session (on page 139).

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to Session and Access Information.

2. Optional. If scheduling the training session on behalf of someone else, select the person from the Schedule for drop-down list. For details, see Scheduling a training session for another host (on page 107).

3. Specify a topic for the training session in the Topic box.

4. Optional. Type a password in the Set Session password box.

5. Type the password again in the Confirm password box.

6. If you have completed specifying options, click Schedule or Update.

Note:

- A training session topic cannot contain any of the following characters: \ ` " / & < > = [ ].
- A training session password should contain a minimum of 4 characters, and can contain a maximum of 16 characters. A password cannot contain any of the following characters: \ ` " / & < > = [ ], and cannot be your username, the host’s name, the topic name, or the site name.

About listed and unlisted training sessions

When scheduling a training session or starting an instant session, you can specify whether the session is one of the following:

- Listed for all—The training session appears on both the list of sessions and the training session calendar to anyone who visits your Training Center Web site.

- Listed for authorized users only—The training session appears on both the list of sessions and the training session calendar to only users who have user accounts and have logged in to your Training Center Web site.
Chapter 4: Setting up and Scheduling a Training Session

- **Unlisted**—The training session does not appear on either the list of sessions or the training session calendar. An unlisted training session prevents anyone from viewing information about the session, such as its host, topic, and starting time; and helps to prevent unauthorized access to the session. To join an unlisted training session, an attendee must provide a unique session number.

If you invite an attendee to an unlisted training session, the attendee receives an invitation email message that includes complete instructions for joining the training session—including the training session number—and a URL that links directly to a Web page on which the attendee can join the training session.

### Specifying whether a training session is listed or unlisted

To specify whether a training session is listed or unlisted:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Session and Access Information**.
2. Below **This training session is**, select one of the following options:
   - **Listed for all**
   - **Listed for authorized users only**
     - If you select this option, the training session appears on either the list of sessions or the training sessions page for only authorized users who have an account on your Training Center Web site.
   - **Unlisted**
3. Click **Schedule** or **Update**.

### Supporting over 500 attendees

You can set up your training session to allow over 500 attendees. However, if you choose this option, some Training Center features may be limited and others will not be supported. These include:

- The multipoint video, private chat, and active talker visual cue features will not be available.
- Attendees will not be able to view the names of other attendees.
- Each Breakout session and Hands-On Lab computer will support a maximum of 100 attendees.
Chapter 4: Setting up and Scheduling a Training Session

**Note:** You will not be able to change this option within the session.

To specify whether to support over 500 attendees in a training session:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Session and Access Information**.
2. Select the **This session will have over 500 attendees** check box.
   A message box appears, describing the limitations of this option.
3. Click **OK**.
4. If you have completed specifying options, click **Schedule** or **Update**.

**Deleting sessions automatically**

You can choose to have your training session automatically deleted from the Training Center calendar upon your session's completion.

**Important:** Any tests that you associate with this training session will be lost if you select this option. All associated tests will be deleted along with the training session.

To specify whether to automatically delete a training session after it ends:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Session and Access Information**.
2. Select the **Automatically delete session after it ends** check box.
3. If you have completed specifying options, click **Schedule** or **Update**.

**Copying session information from another session**

You can copy specific session information from other live sessions that you have scheduled, or from those that have been scheduled on your behalf. Some scheduling information will vary from session to session, and therefore **cannot** be copied into the scheduler, including:
Chapter 4: Setting up and Scheduling a Training Session

- Date, time, and recurrence (except duration, time zone, and join-before-host options)
- Invited attendees and presenters lists (except estimated number of attendees and presenters)
- Registration data of registered attendees
- Hands-on lab information and reservation
- Course material and tests
- Tests

To copy information from another session:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to Session and Access Information.
2. Click Copy from.
   The Select a Session window appears.
3. Select the session from which to copy session information.
4. Click OK.

Specifying tracking codes for a scheduled session

Your site administrator can specify that tracking code options that appear on the Schedule Training page. Tracking codes may identify your department, project, or other information that your organization wants to associate with your training sessions. Tracking codes can be optional or required, depending on how your site administrator set them up.

To specify tracking codes for a scheduled training session:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to Tracking codes, and then select a code label in the box on the left.
   If your site administrator requires you to select a code from a predefined list, a list of codes appears.
2. Do one of the following:
   - If a list of codes appears in the box on the right, select a code from the list.
   - Type a code in the box on the right.
3 Repeat for each tracking code label.
4 Click Schedule or Update.

Tip: If your site administrator has also specified that the same tracking code options appear in your user profile, you can edit your user profile to specify the tracking codes. The codes then appear automatically on the Schedule Training Session page.

Setting up E-commerce (fee or pay-per-use training)

<table>
<thead>
<tr>
<th>If you want to…</th>

</tr>
</thead>
<tbody>
<tr>
<td>get an overview of using ecommerce in Training Center</td>
<td>About E-commerce for Training Center (on page 54)</td>
</tr>
<tr>
<td>set up fee-based training</td>
<td>Setting up fee-based training (on page 55)</td>
</tr>
<tr>
<td>get an overview about using coupons</td>
<td>About using coupons (on page 55)</td>
</tr>
<tr>
<td>set up pay-per-use training</td>
<td>Setting up pay-per-use training (on page 55)</td>
</tr>
</tbody>
</table>

About E-commerce for Training Center

Note: E-commerce is an optional feature. If provisioned for your site, it must first be enabled and set up by your site administrator.

Training Center allows customers to pay for training conveniently by using credit cards, debit cards, VeriSign Payflow Pro, or PayPal Website Payments Pro (US or UK). Training Center E-commerce includes the following two features:

- **fee-based training (for attendees)**—attendees pay a fee for attending your sessions. For details, see Setting up fee-based training (on page 55).
Chapter 4: Setting up and Scheduling a Training Session

- pay-per-use training (for hosts)—requires hosts to pay before they can start each training session. For details, see Setting up pay-per-use training (on page 55).

Setting up fee-based training

When you use fee-based training, attendees pay a fee for attending your sessions.

A fee-based training session requires attendee registration, and attendees must provide their payment information when registering.

To require a session fee for a training session, type an amount in the Session Fee text box on the Schedule Training Session page.

To turn on this E-commerce feature, contact your WebEx account manager.

About using coupons

Your organization can create discount coupons and send them to attendees. For example, you can have attendees pay in advance for a series of training sessions conducted on your organization’s Training Center Web site. In return, your organization gives them coupons that they can use for each session in the series. You could also send coupons to prospective attendees as an incentive.

Attendees type the coupon code on the Payment Information page to receive discounts for a training session.

To activate the Coupons feature and distribute coupons, contact your site administrator.

Setting up pay-per-use training

Pay-per-use requires hosts to pay before they can start each training session. Pay-per-use is designed for organizations that do not want to handle billing for every training session conducted on their Training Center Web sites.

For example, an organization that allocated a training budget for each division can now ask individual divisions to cover their own expenses for conducting training on the organization’s Training Center Web site. Then the organization can reimburse the costs.
To turn on this E-commerce feature, contact your WebEx account manager.

To set up a pay-per-use training session:

1. Click **Start Session** or **Schedule** on the Schedule Training Session page after you finish specifying options on the same page.

   The Estimated Session Cost page appears. This page displays the estimated cost of the session based on the number of people minutes, teleconferencing minutes, and the rate per minute.

   The number of people minutes is the training session duration multiplied by the number of computers connected in the session. The number of teleconferencing minutes is the session duration multiplied by the number of computers connected in the teleconference.

2. Optional. To modify session settings, click **Change**.

3. To return to the Estimated Session Cost page, click **Start Session** or **Schedule**.

4. Enter your payment information.

### Specifying audio conferencing options

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>set up a teleconference</td>
<td><em>Setting up a teleconference for a scheduled session</em> (on page 56)</td>
</tr>

<td>set up an Integrated VoIP conference</td>
<td><em>Setting up an Integrated VoIP conference for a scheduled training session</em> (on page 59)</td>
</tr>
<tr>
<td>review system requirements for Integrated VoIP</td>
<td><em>System requirements for Integrated VoIP</em> (on page 59)</td>
</tr>
</tbody>
</table>

### Setting up an audio conference for a scheduled session

Audio conferencing options may differ, depending on which options your organization uses.

**To set up an audio conference:**

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Audio Conference Settings**.
2. Select one of the following options:

- **Display toll-free number**—If your Training Center site provides toll-free call-in audio conferencing, both a toll-free number and a toll number are available. For toll-free call-in teleconferencing, your organization assumes the charges for the calls; otherwise, participants assume the charges for their calls.

- **Show toll-free dialing restrictions link**—Click to show a list of calling restrictions by country (www.webex.com/pdf/tollfree_restrictions.pdf).

- **Display global call-in-numbers**—This option provides a list of numbers—such as toll-free or local numbers—that attendees in other countries can call to join the audio conference.

- **Enable teleconference CLI authentication when participants call in**—CLI (caller line identification) is a form of caller ID, a telephony intelligent service that transmits a caller’s telephone number before the call is answered. Any dial-in caller with a host site account can be authenticated and placed into the correct teleconference without needing to enter a training session number. For more information on CLI, see Using caller authentication to start or join a dial-in teleconference on page 164.

- **Mute attendees upon entry**—Select if want the attendees’ audio to be muted when they enter the training session. This may prevent disruption, especially if the training session is in process.

- **Entry & exit tone**—Select the sound alert or announcement, if any, that you would like all participants to hear when an attendee joins or leaves the session.

**Note:** WebEx Audio conferencing supports up to 125 callers.

- **Other teleconference service**
  - Specifies that the session includes a teleconference that another service provides.
  - Enter instructions for joining the teleconference. These will appear on the Session Information page, in email invitations, and in the training session.

- **Cisco Unified MeetingPlace Audio Conferencing**
For Cisco Unified MeetingPlace audio conferencing, select one of the following:

- **Attendees call in**—Attendees call a phone number to join the teleconference and assume the charges for their calls.

- **Attendees receive a call back**—Attendees provide their phone numbers once they join the session, and then receive call-backs at the phone numbers they provide. You or your organization assumes the charges for the calls. Recorded instructions guide the attendee through the process of connecting to the teleconference.

- **Use VoIP only**—See *Setting up a VoIP-only audio conference for a scheduled training session* (on page 59) for more information.

- **None**—Specifies that no audio conference is necessary for the session.

3 Click **Schedule** or **Update**.

**Note:** Once you schedule the training session, instructions for joining the teleconference automatically appear

- on the Session Information page on your site, which participants can view before you start the training session
- in invitation email messages, if you invite participants using the Schedule Training page options
- on the Info tab, which appears in the content viewer in the Training Session window
- in the Join Teleconference dialog box, which appears in participants’ Session windows once they join the session

You can also set up an Integrated VoIP (voice over IP (VOIP)) conference, in addition to or instead of a teleconference. For more information about using Integrated VoIP, see *Setting up an Integrated VoIP conference for a scheduled training session*. 
Setting up a VoIP-only audio conference for a scheduled training session

You can use integrated VoIP for the audio in your training session. In a VoIP-only conference, participants use computers with audio capability to communicate over the Internet rather than the telephone system. You can assign a microphone to up to seven participants in an integrated VoIP conference.

To set up a VoIP-only audio conference:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to Audio Conference Settings.
2. Select the Use VoIP only option.
3. Select the Mute attendees upon entry check box if you want the attendees' audio to be muted when they enter the training session. This may prevent disruption, especially if the training session is in process.
4. Click Schedule or Update.

Note:
- If you set up an integrated VoIP conference, you must start the conference after you start the training session.
- Only participants whose computers meet the system requirements for Integrated VoIP can participate in the conference. For details, see System requirements for Integrated VoIP (on page 59).
- If you use WebEx Recorder to record the training session and want to capture audio in the recording, you must ensure that the correct audio compression scheme is selected. For details, refer to the WebEx Recorder and Player User's Guide.

System requirements for Integrated VoIP

To participate in an Integrated VoIP conference, you must ensure that your computer meets the following system requirements:

- a supported sound card
For a list of supported sound cards, refer to the Frequently Asked Questions page on your Training Center Web site. You can access this page from your site’s Support page.

- speakers or headphones
- microphone, if you want to speak during the conference

Tip: For better audio quality and greater convenience, use a computer headset with a high-quality microphone.

### Specifying date and time options

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of scheduling a training session time, occurrence, and duration</td>
<td>About scheduling a training session time, occurrence, and duration (on page 60)</td>
</tr>
<tr>
<td>schedule a training session time, occurrence, and duration</td>
<td>Scheduling a training session time, occurrence, and duration (on page 64)</td>
</tr>
</tbody>
</table>

### About scheduling a training session time, occurrence, and duration

You can specify the date and time at which a scheduled training session starts, its occurrence, and its estimated duration. You can also determine whether, and how many minutes in advance, to allow attendees to join the training session and audio conference prior to the start time.

### About the Date and Time options

**How to access this page**

On the navigation bar, click **Host a Session > Schedule Training > Date and Time**.
What you can do here

- Specify the date and time for the training session.
- Specify the number of minutes before the training session's starting time during which attendees can join the training session.
- If attendees are allowed to join the training session before the starting time, specify whether they can also join the audio conference early.
- Specify an occurrence pattern for the training session.
- Specify the time zone for the training session.
- Specify the duration for the training session.

Options on this page

<table>

<td>A class that comprises a single training session and occurs only once—that is, it does not have a recurrence pattern.</td>
</tr>
<tr>
<td><strong>Recurring single-session class</strong></td>
<td>A class that comprises a single training session and recurs on a regular basis.</td>
</tr>
</tbody>
</table>

**Note** Attendees register for only one session.

The **Recurrence** options include:

- **Daily**—A class that repeats on a daily basis according to the following conditions:
  - **Every ____ Days**—Select to schedule a training session to occur every specified number of days.
  - **Every weekday**—Select to schedule training sessions for each Monday through Friday.
- **Weekly**—Select the check box for the day(s) of the week on which the training session will occur each week.
- **Monthly**—A class that repeats on a monthly basis according to the following conditions:
  - **Day ____ of every ____ month(s)**—Specify the day of the month and the number of months for the training session to occur.
  - **[which] [day] of every ____ month(s)**—Choose the day of the month and specify the number of months for the training session to occur.

The **Ending** options include:

- **Ending**—Choose the date for the last training session.
- **After**—Specify the number of training sessions, after which no additional training sessions will occur.
### Chapter 4: Setting up and Scheduling a Training Session

<tr>
<td></td>
<td>▪ <strong>Irregularly</strong>—A class that repeats on an irregular basis according to the following conditions:</td>
</tr>
<tr>
<td></td>
<td>□ <strong>Session 1</strong>—Choose the date and time for the first training session to occur.</td>
</tr>
<tr>
<td></td>
<td>□ <strong>Add another session</strong>—Click the link and then choose the date and time for additional training sessions to occur.</td>
</tr>
<tr>
<td><strong>Plan session time zones</strong></td>
<td>Select the time zone in which the training session time will appear in the list of sessions and on the training calendar.</td>
</tr>
</tbody>
</table>
### Option

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Estimated duration</td>
<td>Select the length of time that you estimate that the training session will last.</td>
</tr>
<tr>
<td></td>
<td><strong>Note</strong> The estimated duration is provided for planning purposes. The training session does not end automatically once the specified duration elapses.</td>
</tr>
</tbody>
</table>

**Note:**
- If you invite an attendee to a training session, the attendee receives an invitation email message that includes the training session's starting time and estimated duration.
- If you invite attendees to a training session, their invitation email messages specify the training session's starting time in the time zone that you specified. However, if attendees reside in a different time zone, they can view the starting time in their time zones, in the list of sessions on the Live Sessions page.

---

### Scheduling a training session time, occurrence, and duration

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Date and Time**.
2. In the **Starting time** drop-down lists, select the month, day, year, hour, and minute at which you want the training session to start.
3. Select whether to allow attendees to join the training session before the scheduled start time. If so, select the number of minutes from the drop-down list.
4. If attendees are allowed to join the training session before the scheduled start time, select whether attendees can also join the audio conference early.
5. Under **Occurrence**, select one of the following options:
   - Single-session class
   - Recurring single-session class
   - Multiple session course
   - Schedule irregular sessions
6. If you are scheduling a **Recurring single-session class**, do the following:
   a. Select one of the following **Recurrence** patterns:
Chapter 4: Setting up and Scheduling a Training Session

- **Daily**—Select the session to occur either every specified number of days, or every weekday.
- **Weekly**—Select the check box for the day(s) of the week on which the session will occur.
- **Monthly**—Select the session to occur either on a certain date (for example, the 5th of each month), or a certain day (for example, the second Tuesday of each month), as well as the monthly recurrence pattern (for example, 1 = every month, 2 = every other month, etc.).

**b** Select the **Ending** date to occur either on a selected date, or after a specified number of sessions.

7 If you are scheduling a **Multiple session course**, do the following:
   a Select one of the following **Recurrence** patterns:
      - **Daily**—Select the session to occur either every specified number of days, or every weekday.
      - **Weekly**—Select the check box for the day(s) of the week on which the session will occur.
      - **Monthly**—Select the session to occur either on a certain date (for example, the 5th of each month), or a certain day (for example, the second Tuesday of each month), as well as the monthly recurrence pattern (for example, 1 = every month, 2 = every other month, etc.).

   **b** Select the **Ending** date to occur either on a selected date, or after a specified number of sessions.

8 If you are scheduling a **Schedule irregular sessions course**, do the following:
   a Select the date for the first session.
   b Click **Add another session**, select the date for the second session, and repeat for any additional sessions.

9 Optional. In the **Time zone** drop-down list, select a different time zone.
   In the **Time zone** drop-down list, the time zone that you specified in your user profile is selected by default.

10 In the **Estimated duration** drop down lists, select the hours and minutes for which you estimate the training session will continue.

11 If you have completed specifying options on the Schedule a Training Session page or Edit a Scheduled Training Session page, click **Schedule** or **Update**, respectively.
Setting up Hands-on Lab

<table>
<thead>
<tr>
<th>If you want to…</th>
<th>See…</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of Hands-on Lab</td>
<td>About Hands-on Lab (on page 66)</td>

<td>Reserving computers for Hands-on Lab (on page 67)</td>
</tr>
<tr>
<td>view the Hands-on Lab schedule</td>
<td>Viewing the Hands-on Lab schedule (on page 68)</td>
</tr>
</tbody>
</table>

About Hands-on Lab

Hands-on Lab sessions allow instructors to prepare lessons or exercises that students can complete on remote computers on which training software is installed. Students can use these remote computers during a training session for hands-on learning and practice. Because instructors can control Hands-on Lab sessions, they can maintain an optimized lab environment that is effective, familiar, and consistent.

You can schedule the following two types of Hands-on Lab sessions:

- In-session Hands-on Lab. For details, see Setting up in-session Hands-on Lab (on page 336).
- On-Demand Hands-on Lab. For details, see Setting up on-demand Hands-on Lab (on page 339).

About the Hands-on Lab page

To access the Hands-on Lab page, log in to your Training Center Web site. On the navigation bar, expand Host a Session, and then click Hands-on Lab.

You can do the following from this page:

Hands-on Labs tab

- View a list of the Hands-on Lab computers set up by your Hands-on Lab administrator.
Chapter 4: Setting up and Scheduling a Training Session

- View the schedule for each of the labs.
- Reserve computers for on-demand sessions.

**My Reservations tab**
- View the sessions you have scheduled for in-session or on-demand Hands-on Lab.
- Change your reservations, such as inviting attendees and canceling reservations.

**Reserving computers for Hands-on Lab**

When scheduling a training session, you can set up a Hands-on Lab session and reserve computers for that session. For information on Hands-on Lab sessions, see *About Hands-on Lab* (on page 66).

To reserve computers for a Hands-on Lab session:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Hands-on Lab**.
2. Select **Reserve computers from lab**.
   - For instructions of viewing the Hands-on Lab schedule, see *Viewing the Hands-on Lab schedule* (on page 68).
3. Choose a lab from the drop-down list. Hands-on Labs are set up by your site administrator.
4. To view the lab description or number of computers set up in a selected lab, click **Lab Info**.
5. In the **Number of computers** box, type the number of computers that you want to reserve.
6. To check availability of the computers and lab, click **Check Availability**.
   - The Computers Available dialog box appears indicating how many computers are available for the time and lab that you specified.
   - Your reservation status appears in the **Reservation status** box. The reservation status refreshes each time you click **Check Availability**.
7. To pre-assign computers to registered attendees, select **Require attendee registration** in the **Registration** section of the Schedule Training Session page.
Requiring attendee registration allows you to assign computers to attendees as they register. To assign computers to attendees as they register, see Assigning Hands-on Lab computers to registered attendees on page 305.

8 When you are finished scheduling your training session and Hands-On Lab, click **Schedule** at the bottom of the Schedule Training Session page.

   If the computers are available for your scheduled Hands-on Lab, the Session Scheduled page appears with your reservation confirmation.

   If the computers are not available, the Computers Not Available page appears. Click **Close**, and select a new reservation time or number of computers on the Schedule Training Session page.

9 Click **OK**.

**Viewing the Hands-on Lab schedule**

You can view the Hands-on Lab schedule from your Training Center Web site.

To view the Hands-on Lab schedule:

1 Log in to your Training Center Web site.

2 On the navigation bar, expand **Host a Session** to view a list of links.

3 Click **Hands-On Lab**.

   The Hands-on Lab page appears.

4 For the lab in which you are interested, under **Lab Schedule**, click **View Schedule**.

   The Lab Schedule page appears.

5 Point to a time slot to view details of the lab schedule.

6 When finished, click **Close**.

**Specifying registration options**

About requiring registration for a scheduled training session

You can require training session attendees to register for a training session before they can join it. Requiring registration allows you to view a list of attendees to determine whether they have registered for the training session, obtain attendees’ names, email addresses, and optionally additional personal information before they can join the training session, and accept or reject individual registration requests. If you invite an attendee to a training session that requires registration, the attendee receives an invitation email message that includes information about the training session, including the registration password if you specify one, and a link that the attendee can click to register for the training session.

Important:
- If you accept registration requests automatically for a training session that requires a password and an attendee registers after the training session has already started, the attendee can join the training session immediately, without providing the password. Therefore, to secure a training session from unauthorized access, you must clear the **Automatically approve all registration requests** box, and manually accept or reject all registration requests.
- If you do not accept registration requests automatically for a training session that requires a password and an attendee registers after the training session has already started, the attendee cannot join the training session until he or she receives a registration confirmation email message and can provide the training session password.
- If you do not check for registration requests in your email program during the training session, and accept the attendee’s request, the attendee cannot join the training session.
- If you require registration for a training session **that has reached its maximum attendee registrants, you can allow** attendees to register for a waiting list.
Chapter 4: Setting up and Scheduling a Training Session

Requiring registration for a scheduled training session

To require registration for a scheduled training session:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Registration**.

2. Next to **Attendee Registration**, select the **Require attendee registration** check box.

3. Optional. To customize the registration form to obtain additional information about each attendee, click **Customize form**. For details about customizing a registration form, see **Customizing a registration form** (on page 74).

4. Do *one* of the following:
   - To accept or reject each registration request, clear the **Automatically approve all registration requests** check box.
   - To accept registration requests automatically without accepting or rejecting them individually select the **Automatically approve all registration requests** check box.

5. Optional. Specify a password that registrants must provide to register for the session, by typing it in the **Set registration password** and **Confirm registration password** boxes.
   
   Specify a registration password only if you want to limit registrants to those whom you invite to register. If you invite attendees to register, each invitee receives an invitation email message, which contains the registration password.

6. Specify a date or time on which you will no longer accept registration requests, as follows:
   - Select **None** if there is no registration close date.
   - From the drop-down lists, select the days, hours, and minutes before the session starts.

7. Specify a maximum number of registration requests, by typing a number in the **Maximum registrations allowed** box. Leave the box blank for unlimited registrations.

8. If you specified a maximum number of registrations, select whether to allow attendees to register for a waiting list. If so, select whether to:
   - Automatically register the first attendee in the waitlist.
Chapter 4: Setting up and Scheduling a Training Session

- Manually register from the waitlist.

9 Specify whether an attendee can cancel registration, as follows:
   - Select **Not allowed** if you will not allow attendees to cancel registration.
   - From the drop-down lists, select the days, hours, and minutes before the session starts that an attendee can cancel registration.

10 Click **Schedule** or **Update**.

**About customizing a registration form**

If you require attendees to register for a live or recorded training session, you can customize the registration form on which attendees must provide information.

When customizing the form, you can choose which standard options you want to appear on the form and create any of the following options:

- **Text Box**—Opens the Add Text Box window, on which you can specify text boxes that appear on the registration form. For detailed information about specifying a text box, see *About the Add Text Box window* (on page 72).

- **Check Boxes**—Opens the Add Check Boxes window, on which you can specify check boxes that appear on the registration form. For detailed information about specifying a check box, see *About the Add Check Boxes window* (on page 72).

- **Radio Buttons**—Opens the Add Radio Buttons window, on which you can specify radio buttons that appear on the registration form. For detailed information about specifying radio buttons, see *About the Add Radio Button window* (on page 73).

- **Drop-Down List**—Opens the Add Drop-Down List window, on which you can specify a drop-down list that appears on the registration form. For detailed information about specifying a drop-down list box, see *About the Add Drop-Down List window* (on page 73).

For each option that you add to the form, you can specify whether the information is required that is, whether attendees must provide the information to register for the live or recorded training session.
About the Add Text Box window

The Add Text Box window allows you to specify a text box that appears on the registration form. A text box allows an enrollee to type information on the registration form. The detailed reports that you can obtain for live or recorded training sessions indicate which text boxes each registrant selected when registering for a live or recorded training session.

Textbox name—Specifies the text that appears to the left of the text box. A text box label can contain a maximum of 256 characters.

Type—Specifies whether the text box contains a single line or multiple lines on which an enrollee can type. If you select Multi-line, specify a number of lines in the Height box.

Width—Specifies the width of the text box, in characters. The number that you specify determines how the text box appears on the registration form, but does not affect the number of characters that an enrollee can type in the text box. Any text box that you add can contain a maximum of 256 characters.

Height—Specifies the number of lines that the text box contains. To specify a number of lines, you must first select Multi-line under Type. If you do not specify a number of lines, Training Center uses the default height, which is one line.

About the Add Check Boxes window

The Add Check Boxes window allows you to specify one or more check boxes that appear on the registration form. The detailed reports that you can obtain for live or recorded training sessions indicate which check boxes each registrant selected when registering for a live or recorded training session.

Check box group name—Specifies the text that appears to the left of a group of check boxes that you add to a registration form. To specify a group label, type it in the box. If you are adding only one check box and do not want a group label, leave this box blank.

Check box 1 to 9—Specifies the text label that appears to the right of the check box, and whether the check box is selected or cleared by default on the registration form. To add a check box to the registration form, type its label in the box, then choose Checked or Unchecked in the drop-down list.
About the Add Radio Button window

The Add Radio Button window allows you to specify radio buttons that appear on the registration form. Radio buttons allow an enrollee to select only one choice from a group of choices. The detailed reports that you can obtain for live or recorded training sessions indicate which radio buttons each registrant selected when registering for a live or recorded training session.

**Radio button group name**—Specifies the text that appears to the left of a group of radio buttons that you add to a registration form. To specify a group label, type it in the box.

**Default choice**—Specifies which radio button is selected by default on the registration form. To specify a default choice, first ensure that you have specified the labels for the radio buttons, then select the number for the button in the drop-down list.

**choice 1 to 9**—Specifies the text label that appears to the right of the radio button. To add a radio button to the registration form, type its label in the box.

About the Add Drop-Down List window

The Add Drop-Down List window allows you to specify a drop-down list box that appears on the registration form. A drop-down list box allows a registrant to select a single option from a list. The detailed reports that you can obtain for live or recorded training sessions indicate which choices each registrant selected when registering for a live or recorded training session.

**Drop-down name**—Specifies the text that appears to the left of the drop-down list that you add to a registration form. To specify a label, type it in the box.

**Default choice**—Specifies which choice is selected by default in the drop-down list on the registration form. To specify a default choice, first ensure that you have specified the choices in the list, then select the number for the choice in the drop-down list. If you do not want a choice to be selected by default, select **None** in the drop-down list.

**choice 1 to 9**—Specifies the text that appears for the choice in the drop-down list. To add a choice to the list, type its text in the box.
Chapter 4: Setting up and Scheduling a Training Session

Customizing a registration form

To customize a registration form:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to Registration.
2. Select Customize form.

   The Customize Registration Form page appears. Under Standard Options, the following options appear:
   - first and last name (always appears on the Registration page)
   - email address (always appears on the Registration page)
   - phone number
   - fax number
   - company
   - title
   - address information

3. Optional. Under Standard Options, do the following:
   - For each option that you want to appear on the registration form, select the check box under.
     - For each option for which you want to require attendees to provide information, select the check box under.

4. Optional. Add custom options to the form by clicking one of the following:
   - Text Box
   - Check Boxes
   - Radio Buttons
Chapter 4: Setting up and Scheduling a Training Session

- **Drop-Down List**
  For more information about specifying custom options, see *About customizing a registration form* (on page 71).

5 To save the customized registration form so you can use it for future scheduled sessions, click **Save As**.

   The Save Registration Form page appears. You can save up to five customized forms on this page. Type a name for your form in the **Form Description** box. Click **Save**.

6 Click **OK** to save your changes and close the Customize Registration Form page.

About inviting attendees and presenters to a scheduled training session

To invite attendees and presenters to a scheduled training session, you can

- specify their email addresses
- select contacts in your personal address book
specify information about new contacts in your personal address book, and then select them for inclusion in your list of attendees.

When inviting attendees and presenters to a scheduled training session, you can select contacts in the following lists:

- **Personal contacts**—Includes any individual contacts that you have added to your personal address book. If you use Microsoft Outlook, you can import the personal contacts that you keep in an Outlook address book or folder to this list of contacts.
- **My groups**—Includes any contact groups that you have created for your personal address book.
- **Company address book**—Your organization’s address book, which includes any contacts that your site administrator has added to it. If your organization uses a Microsoft Exchange Global Address List, your site administrator can import its contacts to this address book.

Each invitee receives an invitation email message that includes the following:

- a link that the attendee or presenter can click to join the training session or obtain more information about it
- the training session password, if you specified one
- teleconferencing information, if your training session includes an integrated teleconference
- the session number, which the attendee must provide if your training session is unlisted

**Note:** Once you start a scheduled training session, you can invite additional attendees.

**Inviting attendees to a scheduled training session**

To invite attendees to a scheduled training session:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Attendees**, and then click **Invite Attendees**.

   The Invite Attendees page appears.

2. Add any of the following to the list of invited attendees:
Chapter 4: Setting up and Scheduling a Training Session

- individual contacts and contact groups already in your personal address list, and individual contacts in your company address book. For details, see Inviting contacts in your address book to a scheduled training session.

- new individual attendees who are not already contacts in one of your address lists. For details, see Inviting a new attendee to a scheduled training session (on page 77).

3 Click Schedule or Update.

Inviting a new attendee to a scheduled training session

When inviting attendees to a scheduled training session, you can add a new attendee to your list of attendees—that is, an attendee that is not already a contact in one of your address books. Once you specify information about a new attendee, you can add the attendee's information to your personal address book.

To invite a new attendee to a scheduled training session:

1 If you have not already done so, open the Invite Attendees page. For details, see Inviting attendees to a scheduled training session (on page 76).

2 On the Invite Attendees page, under New Attendee, provide information about the attendee, as follows:

   a Type the attendee's full name in the Full name box.

   b Type the attendee's email address in the Email address box.

   c Optional. Type the contact's phone number in the Phone number boxes and select the time zone, language, and locale.

   Note: If you do not know the attendee's country code, click Country/region. In the window that appears, select the attendee's country from the drop-down list, and then click Close. The country code appears in the Country/Region box.

3 Optional. To add the new attendee's information to your personal address book, select the Add new attendee in my address book check box.

4 Optional. To make this attendee an alternate host—one who can start this training session and act as the host—select the Invite as alternate host check box.
Chapter 4: Setting up and Scheduling a Training Session

Note: An alternate host must have a user account on your Training Center Web site.

5 Click Add Attendee.

The contact appears under Attendees to Invite on the Invite Attendees page.

6 Optional. To remove the new attendee from your list of attendees, select the check box for the attendee, then click Delete.

7 To add the attendee to your list of invited attendees, click OK.

The contact appears in the Invited attendees box on the Schedule Training Session page.

Note: If you later modify the training session to remove an attendee from your participant list, you can optionally send the attendee an automatic email message that informs the attendee that the training session was canceled.

Inviting presenters to a scheduled training session

To invite presenters to a scheduled training session:

1 On the Schedule Training Session or Edit Scheduled Training Session page, scroll to Presenters, and then click Invite Presenters.

The Invite Presenters page appears.

2 Add any of the following to the list of invited presenters:

- individual contacts and contact groups already in your personal address list, and individual contacts in your company address book. For details, see Inviting contacts in your address book to a scheduled training session (on page 80).

- new individual presenters who are not already contacts in one of your address lists. For details, see Inviting a new presenter to a scheduled training session (on page 79).

3 Click Schedule or Update.
Inviting a new presenter to a scheduled training session

When inviting presenters to a scheduled training session, you can add a new presenter to your list of presenters—that is, a presenter who is not already a contact in one of your address books. Once you specify information about a new presenter, you can add the presenter’s information to your personal address book.

To invite a new presenter to a scheduled training session:

1. On the **Invite Presenters** page, under **New Presenter**, provide information about the presenter, as follows:
   a. Type the presenter’s full name in the **Full name** box.
   b. Type the presenter’s email address in the **Email address** box.
   c. Optional. Type the presenter’s phone number in the **Phone Number** boxes and select the time zone, language, and locale.
   d. Optional. To add the new presenter’s information to your personal address book, select the **Add presenter as attendee in my address book** check box.
   e. Optional. To make this presenter an alternate host—one who can start this training session and act as the host—select the **Invite as alternate host** check box.

   **Note:** An alternate host must have a user account on your Training Center Web site.

2. Click **Add Presenter**.
   The contact appears under **Presenters to Invite**.

3. Optional. To remove the new presenter from your list of presenters, select the check box for the presenter, then click **Delete**.

4. To add the presenter to your list of invited presenters, click **OK**.

   **Note:** If you later modify the training session to remove a presenter from your participant list, you can optionally send the presenter an automatic email message that informs the presenter that the training session was canceled.
Inviting contacts in your address book to a scheduled training session

To invite a contact in your address book to a scheduled training session:

1. If you have not already done so, open the Invite Attendees page. For details, see Inviting attendees to a scheduled training session (on page 76).

2. On the Invite Attendees page, click Select Contacts.

   The Select Contacts page appears.

3. Next to View, in the drop-down list, select one of the following contact lists:
   - Personal Contacts
   - Company Address Book
   - My Groups

   A list of all contacts in the list that you selected appears.

4. Select the check box for each individual contact or contact group that you want to add to your list of attendees.

   When selecting contacts, you can do the following:
   - In the Index, click a letter of the alphabet to display a list of contacts whose names begin with that letter. For example, the name Susan Jones appears under S.
   - To search for a contact in the list that you are currently viewing, type text that appears in either the contact's name or email address in the Search for box, then click Search.
   - If the entire list of contacts does not fit on a single page, view another page by clicking the Next Page button or the Previous Page button.
   - To select all contacts that currently appear in the list, click Select All.
   - To clear all selections in the current list, click Clear All.

Tip: To change information about a contact, click the contact's name. On the page that appears, specify new information, then click OK.
5 To add all selections to your list of attendees, click **Add Attendees**.

The Select Contacts page closes and the Invite Attendees page reappears. The contacts that you selected appear under **Attendees to Invite**.

6 Optional. To add this contact as an alternate host—one who can start this training session and act as the host, select the check box for the contact, then click **Add as Alternate Host**.

**Note:** An alternate host must have a user account on your Training Center Web site.

7 Optional. To remove the contact from your list of attendees, select the check box for the contact, then click **Delete**.

8 To add the contacts to your list of invited attendees, click **Invite**.

**Note:** If you later modify the training session to remove an attendee from your participant list, you can optionally send the attendee an automatic email message that informs the attendee that the training session was canceled.

### Specifying training session options

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>

</thead>
<tbody>
<tr>
<td>specify options available to participants during a training session</td>
<td><strong>Specifying options available to participants during a training session</strong> (on page 82)</td>
</tr>
<tr>
<td>specify security options for a training session</td>
<td><strong>Specifying security options for a training session</strong> (on page 83)</td>
</tr>
<tr>
<td>allow attendees to share UCF media files</td>
<td><strong>Allowing attendees to share UCF media files</strong> (on page 84)</td>
</tr>
<tr>
<td>specify a destination Web page after the session ends</td>
<td><strong>Specifying a destination Web page after the session ends</strong> (on page 85)</td>
</tr>
</tbody>
</table>
Specifying options available to participants during a training session

When scheduling a training session, you can specify options or privileges available to participants during a session. The privileges that you select determine the default privileges that attendees have once you start the training session.

To specify attendee privileges when scheduling a training session:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to Session Options.
2. Click Edit Options.
   The Session Options page appears.
3. Under Attendee Privileges, specify attendee privileges as follows:
   - To grant a privilege to all attendees, select its check box.
   - To remove a privilege from all attendees, clear its check box.
   For descriptions of the privileges on the Session Options page, see the topic About the Session Options page (on page 86).
4. Click Save to close the Session Options page.
5. Click Schedule or Update.

Note: A presenter can grant the following privileges to or remove them from attendees during a training session, whether or not you select them on the Session Options page:

- Save
- Print
- Annotate
- Attendee list
### Specifying security options for a training session

When scheduling a training session, you can specify security options to prevent unauthorized attendees from joining.

#### Excluding the session password from email invitations

If you invite attendees to a training session, you can prevent the password from appearing in the email invitations that your Training Center Web site automatically sends to attendees.

To exclude the session password from email invitations:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Session Options**.
2. Click **Edit Options**.
   
   The Session Options page appears.
3. Under **Security**, select the **Exclude password from emails sent to attendees** check box.
4. Click **Save**.

#### Requiring attendees to log in to your Training Center Web site

You can require attendees to have a user account on your Training Center Web site to join the training session. Thus, attendees must log in to your site before they can attend the training session.
To require attendees to log in to your Training Center Web site:
1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Session Options**.
2. Click **Edit Options**.
   - The Session Options page appears.
3. Under **Security**, select the **Attendees must have an account on this service to attend session** check box.
4. Click **Save**.

**Allowing attendees to share UCF media files**

When scheduling a training session, you can allow attendees to share Universal Communications Format (UCF) media files during the session, either in a UCF multimedia presentation or as standalone UCF media files. You can also prevent attendees from sharing UCF media files during a session. If you do so, only you, the session host, can share UCF media files when also acting as the presenter.

You may want to prevent attendees from sharing UCF media files, for example, if you intend to allow attendees to share presentations or documents but want to prevent an attendee from inadvertently sharing a very large media file.

To allow attendees to or prevent them from sharing UCF media files:
1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Session Options**, and then click **Edit Options**.
2. Under **Universal Communications Format (UCF)**, do one of the following:
   - To allow attendees to share UCF media files, select the **Allow attendees to share UCF objects** check box.
   - To prevent attendees from sharing UCF media files, clear the **Allow attendees to share UCF objects** check box.
3. Click **Save** to close the Session Options page.
4. Click **Schedule** or **Update**.

**Note:** If you allow attendees to share UCF media files, the presenter must also grant...
Specifying a destination Web page after the session ends

While scheduling a training session, you can specify a destination Web page or Web site that attendees view automatically after the training session ends.

To specify a destination URL:
1. On the Schedule Training page or Edit Scheduled Training Session page, scroll to Session Options.
2. Type a destination Web site address (URL) in the Destination address (URL) after session box.
3. Click Schedule or Update.

Creating a message or greeting for a scheduled training session

You can create a message or greeting that optionally appears in an attendee’s Session window when the attendee joins a scheduled training session. For example, you can welcome the attendee to the training session, provide important information about the training session, or provide special instructions. Attendees can view the greeting or message at any time during the training session.

To create a message or greeting for a scheduled training session:
1. On the Schedule Training page or Edit Scheduled Training Session page, scroll to Session Options.
2. Next to Greeting message, click Customize greeting message when attendee joins.
   The Create an Attendee Greeting page appears.
3. Optional. Select the Display this message when attendees join the session check box.
4. Type a message or greeting in the Message box.
   A message or greeting can contain a maximum of 4000 characters.
5. Click OK.
6. Click Schedule or Update.
About the Session Options page

From the Session Options page, you can specify which options are available to attendees during the session. If an option is not selected, it is unavailable during the session.

How to access this page

On the navigation bar, click Host a Session > Schedule Training. Scroll to Session Options and then click Edit Options.

What you can do here

- Specify which options are available during the training session.
- Specify attendee privileges.
- Specify security options.
- Specify whether attendees can share UCF rich media files.

Note: A presenter can turn any option on or off during the training session.

### Chapter 4: Setting up and Scheduling a Training Session

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Documents**           | ▪  **Save**—If selected, specifies that all attendees can save any shared documents, presentations, or whiteboards that appear in their content viewers. A presenter can grant this privilege to or remove it from attendees during a training session, whether or not you select it here.  
▪  **Print**—If selected, specifies that all attendees can print any shared documents, presentations, or whiteboards that appear in their content viewers. A presenter can grant this privilege to or remove it from attendees during a training session, whether or not you select it here.  
▪  **Annotate**—If selected, specifies that all attendees can annotate any shared documents or presentations, or write and draw on shared whiteboards, that appear in their content viewers, using the toolbar that appears below the viewer. A presenter can grant this privilege to or remove it from attendees during a training session, whether or not you select it here.  
▪  ** Thumbnails**—If selected, specifies that all attendees can display miniatures of any pages, slides, or whiteboards that appear in their content viewers. This privilege allows attendees to view miniatures at any time, regardless of the content that appears in the presenter’s content viewer. However, attendees with this privilege cannot display a miniature at full size unless they also have the **View any page** privilege. A presenter can grant this privilege to or remove it from attendees during a training session, whether or not you select it here.  
▪  **Next or previous page**—If selected, specifies that all attendees can view any pages, slides, or whiteboards that appear in their content viewers. This privilege allows attendees to navigate independently through pages, slides, or whiteboards. A presenter can grant this privilege to or remove it from attendees during a training session, whether or not you select it here. |
| **Security**            |                                                                                                                                               |
| **Exclude password from emails sent to attendees** | If selected, prevents the training session password from appearing in the email invitations, to help increase the security for your training session. If you exclude the password in email invitations, however, you must provide the password to attendees using another method for example, by phone. |
| **Attendees must have an account on this service to attend session** | Specifies that all attendees must have an account and log in to your Training Center Web site to attend the training session. |
| **Universal Communications Format (UCF)**       |                                                                                                                                               |
| **Allow attendees to share UCF objects** | Allows attendees to share Universal Communications Format (UCF) media files during the training session, either in a UCF multimedia presentation or as standalone UCF media files. A host who is also the presenter can always share UCF media files, whether or not you select this check box. |
Chapter 4: Setting up and Scheduling a Training Session

Setting up breakout sessions

If your user account privileges allow you to host breakout sessions, you can set breakout session assignments within the Training Center scheduler. You can pre-assign attendees to breakout sessions here, or make these settings later from within a training session.

For more information on breakout sessions, see *Using Breakout Sessions* (on page 365).

Pre-assigning breakout session participants

When scheduling a training session, you can enable pre-assignment of attendees to breakout sessions prior to your training session.

From the Breakout Session Assignments Settings section of the scheduler, you can do the following:

- Enable the option to assign attendees to breakout sessions prior to your training session
- Choose to have Training Center make the breakout session assignments for you
- Set the number of breakout sessions for your training session
- Set the number of attendees per breakout session
- Choose to manually assign attendees to breakout sessions as you manage your registrations

Note:

- You must enable registration to manually assign attendees to breakout sessions prior to your training session.
- The number of breakout sessions must be between 1 and 100.
- The number of attendees allowed in a breakout session must be between 1 and 100.
To assign attendees to breakout sessions automatically:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Breakout Session Assignments Settings**.
2. Select **Enable Pre-Session Assignment**.
3. Select **Automatically assign attendees during the session**.
4. Select the option to set either the number of breakout sessions or the number of attendees per breakout session.
5. Enter the number accordingly for your selection.

To assign attendees to breakout sessions manually:

1. On the Schedule Training Session or Edit Scheduled Training Session page, set registration requirements in the Registration section of the scheduler.
2. Scroll to **Breakout Session Assignments Settings**.
3. Select **Enable Pre-Session Assignment**.
4. Select **Manually assign registered attendees to breakout sessions**.

Once you have finished scheduling your training session, you will be able to manually assign attendees as you manage registrations. See **Assigning registered attendees to breakout sessions** (on page 90) for more information.

**Assigning registered attendees to breakout sessions**

If you enabled pre-session assignments to breakout sessions when scheduling your training session, you must manually assign attendees when you manage registrations.

To manage breakout session assignments prior to your training session:

1. Log in to your Training Center Web site.
2. On the navigation bar, expand **Attend a Session** to view a list of links.
3. Click **Live Sessions**.
4. Click on your session topic.
   The Session Information page appears.
Chapter 4: Setting up and Scheduling a Training Session

5 Click **Manage Registrations**.
   The Registered Attendees page appears.

6 Click **Pre-assign attendees to breakout sessions**.

7 On the Pre-assign attendees to breakout sessions page, change the session name, if necessary.

8 Highlight one or more names from the Not Assigned column and add them to the session by clicking the add icon.

9 The first added attendee will be assigned as the presenter. To change this designation, highlight an assigned attendee and click the assign presenter icon.

10 If you want to remove an attendee, highlight the assigned attendee and click the remove icon.

11 Click **Add Breakout Session** if you want to add more breakout sessions.

12 Click **OK**.

About sending default email messages

While you are scheduling your training session, you can select the default email messages that you send to attendees. You can also customize the Training Center email message templates by editing, rearranging, or deleting the text and variables—code text that Training Center recognizes and substitutes with your specific training session information.

- Under Reminder, you can choose to receive an email when an attendee joins a training session.
  - Notification to Host Upon Attendee Joining a Session

Sending an invitation to a training session

When you are scheduling a training session, you can choose to have your Training Center automatically send invitation email messages to attendees. When you select an email message to send, you can send the default email message or choose to customize the message. For details, see About customizing email messages (on page 95).

To send an automatic invitation to a training session:

1. On the Schedule Training Session page or the Edit Scheduled Training Session page, scroll to Email options.
2. Click Edit Email Options.
3 Under Invitations, select the check box next to any of the following:
   - Invitation to Join a Training Session
   - Invitation to a Training Session in Progress
   - Invitation to Register for a Training Session

4 Click Schedule or Update.

Sending an update to a scheduled training session

When you are scheduling a training session, you can choose to have your Training Center automatically send email messages to attendees whenever you update your scheduled training session. When you select an email message to send, you can send the default email message or choose to customize the message. For details, see About customizing email messages (on page 95).

To send automatic updates to attendees:
1 On the Schedule Training Session page or the Edit Scheduled Training Session page, scroll to Email options.
2 Click Edit Email Options.
3 Under Updates, select the check box next to any of the following:
   - Training Session Rescheduled
   - Updated Information to Join a Training Session
   - Updated Information to Register for a Training Session
   - Training Session Cancelled

4 Click Schedule or Update.

Sending a registration notification to a scheduled training session

When you are scheduling a training session, you can choose to have your Training Center automatically send email messages to you whenever an attendee registers and automatically send email messages to attendees when their registration status changes. When you select an email message to send, you can send the default email message or choose to customize the message. For details, see About customizing email messages (on page 95).
To send automatic updates to attendees:

1. On the Schedule Training Session page or the Edit Scheduled Training Session page, scroll to Email options.
2. Click Edit Email Options.
3. Under Registrations, select the check box next to any of the following:
   - Registration Notification to Host
     You cannot change this default email message.
   - Attendee Registration Pending
   - Attendee Registration Confirmed
   - Attendee Registration Rejected
4. Click Schedule or Update.

Sending a reminder for a scheduled training session

You can send training session reminders to attendees and presenters and to yourself from 15 minutes to 2 weeks before a scheduled training session. When you select an email message to send, you can send the default email message or choose to customize the message. For details, see About customizing email messages (on page 95).

To send reminders for a scheduled training session:

1. On the Schedule Training Session page or the Edit Scheduled Training Session page, scroll to Email options.
2. Click Edit Email Options.
3. Under Reminder, select the check box next to Training Session Reminder to Attendees.
4. Select the time before a training session that you want reminders to be sent.
5. To include additional email reminders, click Add another reminder email, and then select the time before a training session that you want this reminder sent.

Note: You can add up to three reminder emails.
6 Next to **Presenters**, in the drop-down list, select the time before a training session that you want reminders sent to presenters.

7 Next to **Host**, in the drop-down list, select the time before a training session that you want a reminder sent to you.

8 After **via email address**, type the email address to which you want your Training Center to send you a reminder, in the following format:

```
name@domain.com
```

**Important:** Do not type multiple email addresses in the box. If you do, your Training Center will not send the reminder.

9 Click **Schedule** or **Update**.

**Receiving a notification when an attendee joins a session**

When you are scheduling a training session, you can choose to have your Training Center automatically send an email message to you whenever an attendee joins your training session. For details, see *About customizing email messages* (on page 95).

**To send an automatic invitation to a training session:**

1 On the Schedule Training Session page or the Edit Scheduled Training Session page, scroll to **Email options**.

2 Click **Edit Email Options**.

3 Under **Reminder**, select the **Notification to Host Upon Attendee Joining a Session** check box.

4 Click **Schedule** or **Update**.

**About customizing email messages**

You can customize the default email messages for your preferences. You can delete variables, but do not change the text within the percentage signs (example, `%ParticipantName%`).
If you change these, Training Manager will not substitute the correct text from your profile or registration information. For descriptions of variables, see Email message variables.

You can edit the following options in the Edit Email message window.

- **Email Subject**—Specifies the text that appears in the subject line of the email message.
  To specify a new subject, type it into the box.

- **Content**—Specifies the content of the email message. The default content contains variables, which Training Center replaces with your training session information. You can rearrange, delete, or replace variables and text with specific information. Do not change the text within a variable.

### Customizing an email message

To customize an email message:

1. On the Schedule Training Session page or Edit Scheduled Training Session page, under Email options, click Edit Email Options.
2. Click the email message that you want to customize. The Edit Email window appears.
3. Edit the email message. Be sure not to change the text within a variable. For descriptions of variables, see Email message variables (on page 96).
4. To save your edited email message, click Update.
5. Optional. To return the email message to the default message, click Reset to Default. If you click OK, the default email message replaces any edits that you have made.

### Email message variables

Each variable used in Training Center Email Messages is replaced by corresponding information you provide when scheduling a training session. The following table includes many of these variables and their meanings.

<table>
<thead>
<tr>
<th>This variable…</th>
<th>is replaced by…</th>
<th>For use in these Email Messages…</th>
</tr>
</thead>
<tbody>
<tr>
<td>%EmailFooter%</td>
<td>A Web site’s email signature.</td>
<td>All</td>
</tr>
</tbody>
</table>
Chapter 4: Setting up and Scheduling a Training Session

<table>
<thead>
<tr>
<th>This variable...</th>
<th>is replaced by...</th>
<th>For use in these Email Messages...</th>
</tr>
</thead>
<tbody>
<tr>
<td>%HostEmail%</td>
<td>The email address that you specified your user profile.</td>
<td>All</td>
</tr>
<tr>
<td>%HostName%</td>
<td>The first and last name that you specified in your user profile.</td>
<td>All</td>
</tr>
<tr>
<td>%ParticipantName%</td>
<td>First and last names that the participants specified when either enrolling for or joining a training session.</td>
<td>All</td>
</tr>
</tbody>
</table>
| %PhoneContactInfo% | If you specified a phone number in your user profile, the following text: **call %HostPhone%,** where %HostPhone% is replaced by the phone number that you specified in your user profile. | • Attendee Registration Confirmed  
• Training Session Reminder to Attendees |
| %RegistrationID% | The enrollment ID for the attendee. OnStage automatically creates this ID for an attendee after you approve his or her enrollment request. If you do not require enrollment for the training session, this variable is replaced by following text:  
*(This training session does not require an enrollment ID.)* | • Attendee Registration Confirmed  
• Training Session Reminder to Attendees |
| %SessionDateOrRecurrence% | If the session is a single session, then display:  
**[SessionDate]**  
If the session is a recurring session or multiple-session course, display:  
**[SessionRecurrence]** | • Attendee Registration Confirmed  
• Training Session Reminder to Attendees |
| %SessionInfoURL% | The Web address, or URL, for the Training Information page for the training session. Training Manager automatically creates the URL once you schedule a training session. | All                                  |
### Chapter 4: Setting up and Scheduling a Training Session

<table>
<thead>
<tr>
<th>This variable…</th>
<th>is replaced by…</th>
<th>For use in these Email Messages…</th>
</tr>
</thead>
<tbody>
<tr>
<td>%SessionNumber%</td>
<td>The number of your session specified by Training Manager.</td>
<td>All</td>
</tr>
</tbody>
</table>
| %SessionPassword% | The password for the training session that you specified when scheduling the training. If you do not require a password, this variable is replaced by the following text: (This training session does not require a password.) | • Attendee Registration Confirmed  
• Training Session Reminder to Attendees |
| %SessionTime% | The time that you specified when scheduling the training session in the following format: HH:MM [am/pm]. For example: 12:30 pm | All |
| %TeleconferenceInfo% | The following text:  
To join the teleconference, call %CallInNumber% and enter the training session number.  
Where %CallInNumber% is replaced by the number(s) that you specified in the Phone numbers box when scheduling the training. | All |
| %TimeZone% | The time zone that you specified when scheduling the training. | All |
| %Topic% | The training session topic that you specified when scheduling the training. | All |

<td>Adding a picture to the Session Information page (on page 100)</td>
</tr>
<tr>
<td>display the Quick Start page when the training session begins</td>
<td>Displaying Quick Start</td>
</tr>
</tbody>
</table>

Setting your agenda

You can specify an agenda for a scheduled training session. The agenda appears on the Agenda page on your Training Center Web site, which attendees can view before the training session starts.

If you invite an attendee to the training session, the attendee receives an invitation email message that includes a link that the user can click to view the training session's agenda.

To set your training session agenda:

1. On the Schedule Training Session page or Edit Scheduled Training Session page, scroll to Session Information.
2. Next to Agenda, select Plain text or HTML.
3. For plain text, type the training session's agenda in the Agenda box. For HTML input, type or paste HTML text in the Agenda box.
   Important Click the Help icon to check for supported HTML tags and attributes.
4. Next to Description, select Plain text or HTML.
5. For plain text, type a description of the training session in the Description box. For HTML input, type or paste HTML text in the Description box.
   Important Click the Help icon to check for supported HTML tags and attributes.
The agenda and description appear on the Session Information page available for training session participants to view.

6 Click Schedule or Update.

Adding a picture to the Session Information page

You can add a picture to a training session description. The picture appears on the Session Information page, which attendees can view before the training session starts.

The picture that you add must be

- a graphics file that is in the GIF or JPEG format
- less than 100K in size

**Note:** Large images will be adjusted down to approximately 460 x 300 pixels.

To add a picture to a training session description:

1. On the Schedule Training Session page or Edit Scheduled Training Session page, scroll to Session Information.
2. Click Import Picture.
   The Upload Your Picture page appears.
3. Click Browse.
4. Select the file that you want to add to your training session description.
5. Click Import.
   Training Manager imports your picture and adds it to the Session Information page for the training session.
6. Optional. To remove your picture from the Session Information page, click Remove Picture.
7. Click Schedule or Update.
About Quick Start

The Quick Start page allows the host, presenters, panelists, and attendees to quickly display a document, application or other item they want to share during a training session. The host can also remind or invite participants to a training session via email, phone, text message, or instant message.

If the Display Quick Start option is selected by the host in the Session Information section of the Schedule Training Session page, the Quick Start will appear for the host, presenters, panelists, and attendees when a training session or breakout session begins.

Note: To allow the Quick Start to show to your attendees, you must select the Show QuickStart to Attendees check box in the Session Options section of the My Profile page in My WebEx.

Adding course material

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of publishing course material for your training session</td>
<td>About publishing course material for a scheduled training session (on page 101)</td>
</tr>
<tr>
<td>publish course material to the Session Information page</td>
<td>Publishing course material for a scheduled training session (on page 102)</td>
</tr>
</tbody>
</table>

About publishing course material for a scheduled training session

When scheduling a training session, you can publish files and course material on your Training Center Web site. This option lets participants download course material for review, preparation, testing, and so on before the session starts. To publish course material, you can either select files already in your personal folders in My Folders, or upload new files to My Folders first and then select them for publication on your site.
Once you publish course material, participants can download it from the Session Information page on your Training Center Web site. Once you approve participants' registrations, they receive a confirmation email message that contains a link to the Session Information page.

Any file that you publish that is in the Universal Communications Format (UCF), which has a .ucf extension, automatically opens in your content viewer once you start the session. If participants have downloaded a published UCF file before the session starts, it automatically opens in their content viewers as well once you start the session. Up to 10 published UCF files will automatically open in the content viewer.

To download UCF files that you publish, participants must install software that automatically caches, or stores, the file on their computers. Once a participant accesses the Session Information page on which you have published a UCF file, a security warning message box appears, in which the participant must click Yes to install the caching software.

Without the software, a participant cannot download the UCF file, and it will not open automatically in the participant's content viewer once you start the session.

**Tip:** For more information about UCF files and how to create UCF multimedia presentations, refer to the guide *Getting Started with WebEx Universal Communications Toolkit*, which is available on your Training Center Web site.

### Publishing course material for a scheduled training session

You can publish course material for participants to download before you start a session.

**To publish course material on your Training Center site:**

1. On the Schedule Training Session page or Edit Scheduled Training Session page, scroll to **Course Material**.
2. Click **Add Course Material**.
   - The Add Course Material page appears.
3. Do the following:
   - To upload the course material files to **My Folders**, enter the file name or click **Browse** to locate the file. Click **Upload**.
Chapter 4: Setting up and Scheduling a Training Session

- To publish files already in My Folders, select the check box next to the name of the file or files that you want to publish, then click Add.

The file or files appear on the Schedule Training Session page, under Course Material.

4 Optional. To remove a file, click Remove next to the file name.

5 Click Schedule or Update.

Tip:
- You can customize the registration confirmation email message to instruct participants to download course material before the session starts. If you publish a UCF file, you can also instruct participants to click Yes when the Java security message appears on the Session Information page, which allows them to download the UCF file. For details about customizing a registration confirmation email message, see Customizing an email message (on page 96).
- If you provide a description of a file in your personal folders, the description appears under the file name on the Session Information page. This description can help participants to identify the course material. You can provide a description when either initially storing the file in your personal folders, or at any time by editing the file’s description.
- If you specify a password for your training session, participants must provide the password on the Session Information page to download the course material.
- You can update or remove course material that you published at any time, by editing the scheduled training session. To remove a file, click Remove next to the file name. To update a file, remove it first, and then publish the updated file.

About the Add Course Material page

What you can do here
- Select files already in your personal folders in My Folders to publish to your Training Center Web site.
- Upload new files to My Folders and then publish them to your Training Center Web site.

Participants can download course material for review, preparation, or testing before the session starts.
Chapter 4: Setting up and Scheduling a Training Session

Using tests in training sessions

You can add tests to your training session during the scheduling process, or after it has been scheduled. For information on adding tests to an already scheduled training session, see *Testing and Grading* (on page 399).

Adding a test while scheduling a training session

To test attendees, you must add tests to the training session that they will be attending.

**Note:** During the training session scheduling process, you can only add a test that you have already created and saved to the Test Library.

**Important:** During scheduling, if you selected the option to automatically delete the training session from your Training Center Web site after it ends, a message box will appear. If you do not turn off this option, you will lose all tests associated with this session.
Chapter 4: Setting up and Scheduling a Training Session

To add a test while scheduling a training session:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to **Tests**.
2. Click **Add Test**.
   The Select from Test Library page appears.
3. Select a test on which to base your new test, and then click **Next**.
4. Type a name for your new test, select test delivery options, and then click **Save**.
   For details, see *Specifying test delivery options for a scheduled training session* (on page 409).
5. Repeat these instructions to add multiple tests to your training session.
6. Click **Schedule** or **Update**.

Using the scheduling templates

When scheduling a training session, you can save scheduling option settings as a template for future use. Some scheduling information will vary from session to session, and therefore cannot be imported into a template. The following scheduling options are *not* passed on to the template:

- Date, time, and recurrence (except duration, time zone, and join-before-host options)
- Invited attendees and presenters lists (except estimated number of attendees and presenters)
- Registration data of registered attendees
- Hands-on lab information and reservation
- Course material and tests

When you choose a template, the scheduler's option fields are populated with the values for the chosen template. Each template can be updated or saved as a new template on your Training Center Web site.

To save scheduling options as a template:

1. On the Schedule Training Session page or Edit Scheduled Training Session page, enter data into the scheduling option fields or change settings.
2 Click **Save As Template**, located at the bottom of the page. The Save As Template window appears.

3 Fill in the **Template name** field, or change the name if modifying an existing template.

4 Click **Save**.

**To select and use a template:**

1 At the top of the Schedule Training Session page or Edit Scheduled Training Session page, select a template from the **Set options using template** drop-down list.

2 Enter data into the remaining scheduling option fields.

3 Click **Schedule** or **Update**.

**To delete a template:**

1 On the navigation bar, click **My WebEx**.

2 Click **My Profile**.

   The My WebEx Profile page appears.

3 Under **Scheduling Templates**, select the template.

4 Click **Delete**.

5 Click **Update**.

### Allowing another host to schedule your training session

*For users with an account only*

You can set up the option for other hosts in your organization to schedule a training session for you. If another host schedules a training session in your name, you are the only host who can start the session.

**To allow another user to schedule training sessions for you:**

1 If you have not already done so, log in to your Training Center Web site.

2 On the navigation bar, click **My WebEx**.

3 Click **My Profile**.
Chapter 4: Setting up and Scheduling a Training Session

The My Profile page appears.

4 Under **Session Options**, do _either or both_ of the following:
   - In the **Scheduling permission** box, type the email addresses of the users to whom you want to grant scheduling permission. Ensure that you separate multiple addresses with either a comma or semicolon.
   - Click **Select From Host List** to select users from a list of all users who have accounts on your Training Center Web site.

5 Click **Update**.

Note: A user to whom you grant permission to schedule training sessions must have an account on your Training Center Web site.

Scheduling a training session for another host

If another host set up your name to schedule training sessions on behalf of him or her, you can schedule a training session for the host using the Schedule Training Session page.

If you schedule a training session for another host, only the other host will be able to start the training session. Both you and the other host can modify the training session on the Edit Session page.

To schedule a training session for another host:

1 Log in to your Training Center Web site.

2 On the navigation bar, expand **Host a Session** to view a list of links.

3 Click **Schedule Training**.
   
   The Schedule Training Session page appears.

4 Under **Session and Access Information**, in the drop-down list next to **Schedule for**, select the host's name for whom you are scheduling the session.

5 Finish completing the Schedule Training Session page. For details, see *Setting up a scheduled training session* (on page 45).
6 If you have completed specifying options on the Schedule Training Session page or Edit Scheduled Training Session page, click **Schedule** or **Update**, respectively.

## Adding a scheduled training session to your calendar program

Once you schedule a training session, you can add it to a calendar program, such as Microsoft Outlook or Lotus Notes, if the feature is enabled on your site. This option is applicable only if your calendar program supports the iCalendar standard, a common format for exchanging calendaring and scheduling information across the Internet.

For information on adding a Personal Conference session to your calendar, see *Adding a scheduled Personal Conference training session to your calendar program* (on page 111).

**To add a scheduled training session to your calendar:**

1. Choose either method:
   - On the Session Scheduled or Session Information page for the training session, click **Add to My Calendar**.
   - In the confirmation email message that you receive once you schedule or edit a training session, click the link to add the training session to your calendar.

2. In the File Download dialog box, click **Open**.

3. Select the option to accept the training session request. For example, in Outlook, click **Accept** to add the training session to your calendar.

### Note:

- If you cancel a training session, the Session Deleted page and the confirmation email message that you receive contains an option that lets you remove the training session from your calendar program, following similar steps that you used for adding the training session.
- If you invite attendees to a training session, the invitation email message that they receive contains an option to add the training session to their calendar programs.

Chapter 5: Scheduling a MeetingPlace Personal Conference meeting

About MeetingPlace Personal Conference meetings

A MeetingPlace Personal Conference meeting uses your Cisco Unified MeetingPlace audio conferencing account for the audio conference, and does not have an online portion for the meeting. MeetingPlace Personal Conference meetings are only available if your site supports Cisco Unified MeetingPlace audio conferencing and MeetingPlace Personal Conferencing.

Setting up a Personal Conference meeting or MeetingPlace Personal Conference meeting

To set up a Personal Conference meeting or MeetingPlace Personal Conference meeting:

1. Log in to your Training Center website.
2. On the left navigation bar, select Schedule a Training Session.
3. Select Advanced Scheduler.
   The Advanced Scheduler displays.
4. On the Required Information page, for Meeting type, select Personal Conference or MeetingPlace Personal Conference.
5. Enter the requested information.

Note: If you are scheduling a Personal Conference meeting, you do not need to specify a password. By default, the password is the attendee access code in your Personal Conference number account that is specified for this meeting. If you are scheduling a MeetingPlace Personal Conference, you do need to specify a password.

For an overview of this page and the information requested, select the Help button in the upper-right corner of the page.
Chapter 5: Scheduling a MeetingPlace Personal Conference meeting

6 Schedule your training session now, or add more details.
   ▪ To schedule your training session with these details, select **Schedule Training Session**
   ▪ To add more options, select **Next** or select another page in the scheduler. After you have added the details you need, select **Schedule Training Session**.

Adding a scheduled Personal Conference meeting or MeetingPlace Personal Conference meeting to your calendar program

Once you schedule a Personal Conference meeting or MeetingPlace Personal Conference meeting, you can add the Personal Conference meeting or MeetingPlace Personal Conference meeting to your calendar program, such as Microsoft Outlook. This option is applicable only if your calendar program supports the **iCalendar** standard, a common format for exchanging calendaring and scheduling information across the Internet.

To add a scheduled Personal Conference meeting or MeetingPlace Personal Conference meeting to your calendar

1 Choose either method:
   ▪ On the Personal Conference Meeting Scheduled page or the Personal Conference Meeting Information page, select **Add to My Calendar**.
   ▪ In the confirmation email message that you receive once you schedule or edit a Personal Conference meeting or MeetingPlace Personal Conference meeting, click the link to add the meeting to your calendar.

A meeting opens in your calendar program.
2 Select the option to accept the meeting request. For example, in Outlook, select Accept to add the Personal Conference training session item to your calendar.

Note:
- If you cancel a Personal Conference meeting or MeetingPlace Personal Conference meeting, the Personal Conference Meeting Deleted confirmation page and the confirmation email message that you receive contains an option that lets you remove the meeting from your calendar program.
- If you invite participants to a Personal Conference meeting or MeetingPlace Personal Conference meeting, the invitation email message that they receive also contains an option to add the meeting to their calendar programs.

Editing a Personal Conference meeting or MeetingPlace Personal Conference meeting

Once you schedule a Personal Conference meeting or MeetingPlace Personal Conference meeting, you can make changes to it at any time before you start it—including its starting time, topic, agenda, attendee list, and so on.

If you update any information about the Personal Conference meeting or MeetingPlace Personal Conference meeting, including adding or removing attendees, you can choose to send attendees a new invitation email message containing the new details about the meeting. Attendees removed from the attendee list receive an email message letting them know that they are no longer asked to attend.

If you are logged in, you can edit the meeting details by clicking the link in the confirmation email message that you received after you scheduled the Personal Conference meeting or MeetingPlace Personal Conference meeting, or from your list of training sessions in My WebEx.

To edit Personal Conference meeting or MeetingPlace Personal Conference meeting from the confirmation email message:

1 Open your confirmation email message, and then click the link to view your Personal Conference meeting information.
   The Personal Conference Meeting Information page appears.
2 Select Edit.
3 Make changes to the Personal Conference meeting details.
Chapter 5: Scheduling a MeetingPlace Personal Conference meeting

For details about the information requested on any page, click the Help button in the upper-right corner of the page.

4. To save your changes to the meeting, select **Save**.
   
   If you invited attendees, a message appears, asking you whether you want to send an updated email invitation to attendees.

5. If a message box appears, click the appropriate update option, and then select **OK**.
   
   The Personal Conference Meeting Information page appears.
   
   You receive a confirmation email message that includes information about the changes that you made to the meeting.

6. Optional. If you added the meeting to your calendar program, such as Microsoft Outlook, on the Training Session Updated page, select **Add to My Calendar**.

To edit a Personal Conference meeting or MeetingPlace Personal Conference meeting from your list of training sessions on your Training Center Web site:

1. Log in to your Training Center website.

2. On the navigation bar, select **My WebEx**.
   
   The My Meetings page appears, showing a list of any training sessions that you have scheduled. Personal Conference training sessions have "Personal Conference" in the **Type** column.

3. In the list of training sessions, under **Topic**, click the topic for the training session. or click the **Display Info** link.

4. Select **Edit**.

5. Make changes to the Personal Conference meeting details.
   
   For details about the options on each page, click the Help button in the upper-right corner of the page.

6. Select **Save**.
   
   If you invited attendees, a message appears, asking you whether you want to send an updated email invitation to attendees.

7. If a message box appears, click the appropriate update option, and then click **OK**.
   
   If you select **Cancel** in the message box, the Personal Conference meeting is not updated.
8 Optional. If you added the meeting to your calendar program, such as Microsoft Outlook, in the confirmation email message, click the **Update My Calendar** link.

**Starting a MeetingPlace Personal Conference meeting**

Personal Conference training sessions do not start automatically at scheduled times. You must start the audio portion of the Personal Conference first, and then you can start the online portion of the Personal Conference.

**To start a MeetingPlace Personal Conference meeting:**

Call the number listed in the confirmation email or on the Personal Conference Training Session Information page.

**To access the MeetingPlace Personal Conference Meeting Information page:**

1 Log in to your Training Center service site.

2 On the navigation bar, select **My WebEx**.

   The My Meetings page appears, showing a list of any training sessions that you have scheduled. Personal Conference meetings are listed as "Personal Conference" in the **Type** column.

3 In the list of training sessions, select the **Topic** or **Display Info** link for your Personal Conference training session.

   The Personal Conference Training Session Information page displays.

4 If necessary, select the **More Info** link to display all the information about the training session.

Under **Audio conference**, look for the valid phone number or numbers to call for your MeetingPlace Personal Conference training session, as well as other information you need to start the meeting. You may need to click the **Show detailed dial-in information** link.
Canceling a Personal Conference Meeting or MeetingPlace Personal Conference meeting

You can cancel any Personal Conference meeting or MeetingPlace Personal Conference meeting you have scheduled. Once you cancel a meeting, you can choose to send a cancellation email message to all attendees whom you invited to the meeting. The Personal Conference meeting is removed automatically from your list of training sessions in My WebEx.

If you are logged in, you can cancel a Personal Conference meeting or MeetingPlace Personal Conference meeting from the confirmation email message that you received after you scheduled the meeting or from your list of training sessions in My WebEx.

To cancel a Personal Conference meeting or MeetingPlace Personal Conference meeting from a confirmation email message:

1. Open your confirmation email message, and then click the link to view your Personal Conference meeting information.
   The Personal Conference Meeting Information page appears.

2. Select Delete.
   If you invited attendees, a message appears, asking you whether you want to send a cancellation email message to all attendees whom you invited to the training session.

3. In the message box, click Yes or No, as appropriate.
   If you click Cancel in the message box, the meeting is not canceled.
   The Personal Conference Meeting Deleted page appears.

4. Optional. If you added the Personal Conference meeting to your calendar program, such as Microsoft Outlook, on the Personal Conference Meeting Deleted page, click Remove From My Calendar to remove the meeting from your calendar.

To cancel a Personal Conference meeting or MeetingPlace Personal Conference meeting on your Training Center website:

1. Log in to your Training Center website.

2. On the navigation bar, select My WebEx.
Chapter 5: Scheduling a MeetingPlace Personal Conference meeting

The My Meetings page appears, showing a list of any training sessions that you have scheduled. Personal Conference meetings are indicated by the words "Personal Conference" in the Type column.

3 In the list of training sessions, under Topic, click the topic for your Personal Conference meeting.

4 Select Delete.

If you invited attendees, a message appears, asking you whether you want to send a cancellation email message to all attendees whom you invited to the Personal Conference meeting or MeetingPlace Personal Conference meeting.

5 In the message box, click Yes or No, as appropriate.

If you click Cancel in the message box, the meeting is not canceled.

You receive a cancellation confirmation email message.

6 Optional. If you added the Personal Conference meeting or MeetingPlace Personal Conference meeting to your calendar program, such as Microsoft Outlook, on the Personal Conference Meeting Deleted page, select Remove From My Calendar to remove the meeting from your calendar.

About the Personal Conference Meeting Information page (host)

This page provides the details about the Personal Conference meeting or MeetingPlace Personal Conference meeting you have scheduled.

What you can do on this page

- Review the date, time, duration, and other helpful information about the Personal Conference training session.

- Click the More Info link to view the meeting number, audio conference information, and meeting password. This information can help you start the audio portion of the Personal Conference training session.

- Edit the details about the Personal Conference meeting or MeetingPlace Personal Conference meeting.

- Cancel the he Personal Conference meeting or MeetingPlace Personal Conference meeting.
Add the Personal Conference meeting or MeetingPlace Personal Conference meeting to your calendar, if you haven’t already done so.

Start the online portion of the Personal Conference after the audio portion has started. (Does not apply to MeetingPlace Personal Conference meetings.)

**SCORM overview**

SCORM (Sharable Courseware Object Reference Model) is a set of technical standards allowing Web-based learning systems to find, import, share, reuse, and export learning content in a standardized way. In SCORM pages, the learning management system (LMS) can track what needs to be delivered to the learner, when the learner achieves the skill or competency, and sends the learner to the appropriate level of content.

An Application Programming Interface (API) provides a standard way of communicating with the LMS using Web-friendly JavaScript. WebEx provides a SCORM page in which the host can specify which information is provided in the API.

You can read more about SCORM at the following Web sites:

- [www.adlnet.org](http://www.adlnet.org)
- [www.imsglobal.org](http://www.imsglobal.org)
- [www.rhassociates.com/scorm.htm](http://www.rhassociates.com/scorm.htm)
- [www.teleologic.net/SCORM/index.htm](http://www.teleologic.net/SCORM/index.htm)
Viewing the SCORM page

To view SCORM data for a scheduled training session from your personal training calendar on your Training Center Web site, follow these steps:

1. Log in to your Training Center Web site.
2. On the navigation bar, click **My WebEx**.
   The My Meetings page appears, showing a list of any training sessions that you have scheduled.
3. In the list of training sessions, click the link for the training session that you want to view.
   The Session Information page appears.
4. Click a link next to **SCORM data**.
   The Edit SCORM Information page appears.

   ![Edit SCORM Information](image)

5. To download the file, click **Save and Download**. Follow the instructions in the File Download dialog box.
Editing the SCORM page

To edit SCORM data for a scheduled training session from your personal training calendar on your Training Center Web site, follow these steps:

1. Log in to your Training Center Web site.
2. On the navigation bar, click My WebEx.
   The My Meetings page appears, showing a list of any training sessions that you have scheduled.
3. In the list of training sessions, click the link for the training session that you want to view.
   The Session Information page appears.
4. Click a link next to SCORM data.
   The Edit SCORM Information page appears.
5. Make your changes in the text boxes, and select your options in the drop-down lists.
6. When you have finished editing, click Save to save your changes.
7. To download the file, click Save and Download. Follow the instructions in the File Download dialog box.

About setting up a One-Click Meeting

WebEx One-Click allows you to start a meeting instantly from your desktop (desktop version) and from your WebEx service Web site (Web version). You can set up one or both versions, depending on your needs:

- **Web version**: allows you to start a One-Click Meeting from your WebEx service Web site. Doing so does not require you to download any application. For more information about the web version, refer to the *WebEx One-Click User’s Guide*, which is available on the Support page of your WebEx Service web site.
• **Desktop version**: if this feature and the Productivity Tools feature are enabled by your site administrator, allows you to start and join meetings and send meeting invitations without logging in to your WebEx service site or navigating Web pages. For more information about the desktop version, refer to the *WebEx One-Click User's Guide*.

### Setting up your One-Click Meeting on the Web

The One-Click Meeting Setup page allows you to specify options a One-Click Meeting. You can return to the One-Click Meeting Setup page at any time to modify your meeting.

The settings you specify apply to both the One-Click Web version and the desktop version.

**To set up your One-Click Meeting:**

1. Log in to your WebEx Service Web site.

2. Click **My WebEx > Productivity Tools Setup** (on the left navigation bar).
   
   The Productivity Tools Setup page appears.
   
   On this screen, you can also download WebEx Productivity Tools, which include the desktop version of One-Click and its shortcuts. For details, see *Installing WebEx Productivity Tools* (on page 128).

3. Click **Set Up Now**.
   
   The One-Click Setup page appears.

4. Specify the meeting information and settings on the page.
   
   For details about the options on the One-Click Settings page, see *About the One-Click Settings page* (on page 125).

5. Click **Save**.

**Tip:** Whenever you want to edit options for your One-Click Meeting, return to the One-Click Settings page by clicking **My WebEx > Productivity Tools Setup > Edit Settings**.
About the One-Click Settings page

How to access this page:

On your WebEx service Web site, do one of the following:

- If you are setting up your One-Click Meeting for the first time, on your WebEx service Web site, click My WebEx > Productivity Tools Setup (on the left navigation bar) > Set Up Now.

- If you already set up your One-Click Meeting, on your WebEx service Web site, click My WebEx > Productivity Tools Setup (on the left navigation bar) > Edit Settings.

What you can do here:

### Installing WebEx Productivity Tools

If your site administrator has enabled you to download WebEx Productivity Tools, you can start you can start or join meetings instantly using One-Click; start meetings instantly from other applications on your desktop, such as Microsoft Office, Web browsers, Microsoft Outlook, IBM Lotus Notes, and instant messengers; and schedule meetings using Microsoft Outlook or IBM Lotus Notes without going to your WebEx service site.

Before installing WebEx Productivity Tools, ensure that your computer meets the following minimum system requirements:

- Microsoft Windows 2000, XP, 2003, Vista
- Microsoft Internet Explorer 6.0 SP1 or 7.0, or Firefox 3.0 or later
- Intel x86 (Pentium 400MHZ +) or compatible processor
- JavaScript and cookies enabled in the browser

**To install WebEx Productivity Tools:**

1. Log in to your WebEx service Web site.
3. Click **Install Productivity Tools**. The File Download dialog box appears.
4. Save the installation program to your computer.
   The name of the installation file has an .msi extension.

5. Run the installation file and follow the instructions.

6. Once you complete installation, log in using your WebEx account information and then verify your WebEx settings for Productivity Tools, including One-Click, in the WebEx Settings dialog box.

   **Note:** System administrators can also perform a mass installation for computers at their site. For more information, see the IT Administrator Guide for Mass Deployment of WebEx Productivity Tools at [http://support.webex.com/US/PT/wx_pt_ag.pdf](http://support.webex.com/US/PT/wx_pt_ag.pdf).

After you have logged in, the WebEx One-Click panel and shortcuts appear. For instructions about using the One-Click panel and shortcuts, see the *WebEx One-Click User's Guide*.

The Help in the WebEx One-Click panel also provides detailed information about how to use the One-Click panel and shortcuts.

![Open One-Click](image)

**Tip:** For instructions on using the WebEx One-Click panel and the One-Click taskbar menu, refer to the *WebEx One-Click User's Guide*, which is available on the Support page of your WebEx Service web site.
Starting a One-Click Meeting

Before you start a One-Click Meeting from your WebEx Service Web site, ensure that you set up One-Click settings. For details about setting up One-Click settings, see Setting up your One-Click Meeting on the Web (on page 124). For details

To start a One-Click Meeting from your WebEx service Web site:
1. Log in to your WebEx Service Web site.
2. Click My WebEx > Start One-Click Meeting.

Your meeting starts.

To start a One-Click Meeting using the WebEx One-Click panel:
1. Open your WebEx One-Click panel by doing any of the following:
   - Double-click the WebEx One-Click shortcut on your desktop.
   - Go to Start > Programs > WebEx > Productivity Tools > WebEx One-Click.
   - Right-click the WebEx One-Click icon on the taskbar of your desktop.

If you did not specify automatic login, enter the required WebEx account information in the dialog box, and then click Log In.

2. On the WebEx One-Click panel, click Start Meeting.
Chapter 7: Setting Up a One-Click Meeting

**Note:** For instructions on using the WebEx One-Click panel, refer to the *WebEx One-Click User’s Guide*.

To start a One-Click Meeting using a One-Click shortcut:

Click one of the following shortcuts:

<table>
<thead>
<tr>
<th>Shortcut</th>
<th>Description</th>

**Tip:**
- Once you start a One-Click Meeting, it appears on your Personal Meeting Room page, unless you specified it to be an unlisted meeting. If you provide others with the URL for this page, they can quickly join your meeting by clicking the link for the meeting on this page.
- You can control which shortcuts are available in the WebEx Settings dialog box.
- For instructions on using the WebEx One-Click shortcuts, refer to the **WebEx One-Click User’s Guide**.

### Removing WebEx Productivity Tools

You can uninstall WebEx Productivity Tools at any time. Uninstalling Productivity Tools removes all Productivity Tools, including the WebEx One-Click panel and One-Click shortcuts, from your computer.

To uninstall WebEx Productivity Tools:

1. Click **Start > Programs > WebEx > Productivity Tools > Uninstall**
2. Click **Yes** to confirm that you want to uninstall WebEx Productivity Tools.
To uninstall WebEx Productivity Tools from the Control Panel:

1. Click **Start > Settings > Control Panel**.
2. Double-click **Add/Remove Programs**.
3. Click **WebEx Productivity Tools**.
4. Click **Remove**.
5. Click **Yes** to confirm that you want to uninstall WebEx Productivity Tools.

**Note:** Uninstalling Productivity Tools removes all Productivity Tools and shortcuts from your computer. If you want to keep using some Productivity Tools but disable others, edit the options in the WebEx Settings dialog box.
Starting an instant training session

If your Training Center Web site includes the instant training session option, you can start a training session at any time, without the need to schedule it first. An instant, or impromptu, training session can include an audio conference.

Once you start an instant training session, you can optionally invite attendees. Each invited attendee receives an invitation email message that includes information about the training session and a link that the attendee can click to join the training session.
To start an instant training session:

1. Log in to your Training Center Web site.
2. On the left navigation bar, expand Host a Session to view a list of links.
3. Click Instant Session.

The Start an Instant Training Session page appears.
4. Type the training session's topic in the Topic box.
5. Type a password for the training session in the Set Session Password and Confirm password boxes. A valid password should contain at least 6 characters.

Attendees must provide this password to join the training session.
6. Optional. If you do not want the training session to be included in the list of sessions on the training session calendar, select Unlisted training session. For details, see Specifying whether a training session is listed or unlisted (on page 51).
7. Optional. To include an integrated audio conference, select the Audio Conference check box.
8. Click Start Session.

If you did not select an audio conference, the Session window appears.
9. If you selected an audio conference, select the type of conference that you would like on the Audio Conference Settings page that appears. See Specifying audio conferencing options (on page 56) for details.
10. Click OK.
11. If you haven't already set up Training Center on your computer, the Set Up Training Center page appears. Click Set Up.
12. If your Training Center requires that you provide tracking information for the training sessions that you host, do one of the following for each option on the Tracking Codes page that appears:

   ▪ Type a code or other text in the box.

   ▪ If your site administrator requires you to select a code from a predefined list, you cannot type text in the box.

   ▪ If a predefined list of codes is available, click the code's label, then, in the list that appears, select a code. Click OK.

The Session window appears, and the Audio Conference dialog box appears.
Follow the instructions in the dialog box to start the audio conference.

Optional. After starting the session, invite attendees to the training session by sending them invitation email messages that include instructions for joining the training session.

**Note:** To receive a call back, an attendee must have a direct phone line. If a receptionist answers the call, or the attendee's phone system uses a recorded greeting for incoming calls, the attendee cannot receive a call back. However, an attendee without a direct phone line can join an audio conference by calling a call-in telephone number, which is always available in the Session window, on both the Info tab and in the Session Information dialog box.

If you set up an Integrated VoIP conference, the presenter must start the conference after you start the training session.

</tbody>
</table>

---

**About starting a scheduled training session**

Training Sessions do not start automatically at scheduled times. As the training session host, you must first start a training session, then attendees can join the session. You can start a training session that you scheduled at its starting time, or any time before or after that time.

Once you schedule a training session, you receive a confirmation email message that includes a link that you can click to start the session. Or, you can start the training session from your personal sessions page on your Training Center Web site.
Starting a scheduled training session from a confirmation email message

You can start your training session from the confirmation email message that you receive after you schedule your session.

To start a training session from the confirmation email message:
1. Open your confirmation email message, and then click the link.
   If you are not already logged in to your Training Center Web site, the Log In page appears.
2. If the Log In page appears, provide your account username and password, then click Log In.
   The Session Information page appears.
3. Click Start Now.
   The Session window appears.
   If the training session includes an audio conference, the Audio Conference dialog box appears. Follow the instructions in the dialog box to start the audio conference.

Starting a scheduled training session from your training sessions page

You can start your training session from your training sessions page on your Training Center Web site.

To start a training session from your training sessions page:
1. Log in to your Training Center Web site.
2. On the navigation bar, click My WebEx.
3. Click My Meetings.
   The My WebEx Meetings page appears.
4. Use the Daily, Weekly, Monthly, or All Meetings tab to find the training session that you would like to start.
5. Click Start.
   The Session window appears.
If the training session includes an audio conference, the Audio Conference dialog box appears. Follow the instructions in the dialog box to start the audio conference.

**Modifying a scheduled training session**

<table>

<tr>
<td>modify a scheduled training session from your training sessions page in My WebEx.</td>
<td>Modifying a scheduled training session from your training sessions page (on page 140)</td>
</tr>
</tbody>
</table>

**About modifying a scheduled training session**

Once you schedule a training session, you can modify it at any time before you start it—including its starting time, topic, password, agenda, and so on.

If you update any information about a training session, including adding or removing attendees, you can choose to send attendees a new invitation email message that informs them that you have modified information about the training session. Attendees whom you removed from the attendee list receive an email message informing them that the training session was canceled.

You can modify a training session from the confirmation email message that you received after you scheduled the session, or from your personal sessions page on your Training Center Web site.

**Modifying a scheduled training session from a confirmation email message**

You can modify a training session from the confirmation email message that you received after scheduling a training session.

**To modify a training session from the confirmation email message:**

1. Open your confirmation email message, and then click the link.
If you are not already logged in to your Training Center Web site, the Log In page appears.

2 If the Log In page appears, provide your account username and password, and then click **Log In**.

   The Session Information page appears.

3 Click **Edit**.

4 Modify the training session. For more information about the options that you can modify, see *Starting a scheduled training session* (on page 137).

5 To save your changes to the training session, click **Update**.

   If you invited attendees, a message appears, asking you whether you want to send an updated email invitation to attendees.

6 In the message box, click the appropriate update option, and then click **OK**.

   You receive a confirmation email message that includes information about the changes that you made to the training session.

---

**Modifying a scheduled training session from your training sessions page**

You can modify a scheduled training session from your list of sessions on your Training Center Web site.

1 Log in to your Training Center Web site.

2 On the navigation bar, click **My WebEx**.

3 Click **My Meetings**.

   The My WebEx Meetings page appears.

4 Use the Daily, Weekly, Monthly, or All Meetings tab to find the training session that you would like to modify.

5 In the list of training sessions, under **Topic**, click the topic name for your training session.

   The Session Information page appears.

6 Click **Edit**.

7 Modify the training session. For more information about the options that you can modify, see *Starting a scheduled training session* (on page 137).
8 Click **Update**.

If you invited attendees, a message appears, asking you whether you want to send an updated email invitation to attendees.

9 In the message box, click the appropriate update option, and then click **OK**.

If you click **Cancel** in the message box, the training session is not updated.

You will receive a confirmation email message.

### Canceling a scheduled training session

<table>
<thead>
<tr>
<th><strong>If you want to...</strong></th>

<tr>
<td>cancel a scheduled training session from your training sessions page in My WebEx.</td>
<td>[Canceling a scheduled training session from your training sessions page](on page 142)</td>
</tr>
</tbody>
</table>

### About canceling a scheduled training session

You can cancel any training session that you have scheduled. Once you cancel a training session, you can choose to send a cancellation email message to all attendees whom you invited to the training session. Canceling a training session deletes it from your list of training sessions.

You can cancel a training session from the confirmation email message that you received after you scheduled the training session or from your list of training sessions in My WebEx.
Canceling a scheduled training session from a confirmation email message

To cancel a training session from a confirmation email message:

1. Open your email confirmation message, and then click the link.
   If you are not already logged in to your Training Center Web site, the Log In page appears.

2. If the Log In page appears, provide your account username and password, and then click Log In.
   The Session Information page appears.

3. Click Delete, and then click OK to confirm that you want to cancel the training session.
   If you invited attendees, a message appears, asking you whether you want to send a cancellation email message to all attendees whom you invited to the training session.

4. In the message box, make the appropriate selection and then click OK.
   If you click Cancel in the message box, the training session is not canceled.
   You will receive a cancellation confirmation email message.

5. On the Session Deleted page, click OK.

Note: If the iCalendar feature is available on your site, and you have added this training session to your calendar, click Remove From My Calendar to remove it. There is also a link available in the email confirmation message.

Canceling a scheduled training session from your training sessions page

To cancel a scheduled training session from your training sessions page on your Training Center Web site:

1. Log in to your Training Center Web site.
2 On the navigation bar, click **My WebEx**.

3 Click **My Meetings**.

   The My WebEx Meetings page appears.

4 Use the Daily, Weekly, Monthly, or All Meetings tab to find the training session that you would like to cancel.

5 In the list of training sessions, select the check box for the training session you wish to delete.

6 Click **Delete**, and then click **OK** to confirm that you want to cancel the training session.

   If you invited attendees, a message appears, asking you whether you want to send a cancellation email message to all attendees whom you invited to the training session.

7 In the message box, click **Yes** or **No**, as appropriate.

   If you click **Cancel** in the message box, the training session is not canceled.

   You receive a cancellation confirmation email message.

**Note**: If the iCalendar feature is available on your site, and you have added this training session to your calendar, click **Remove From My Calendar** to remove it. There is also a link available in the email confirmation message.
The Session window displays the content viewer on the left side, where you share documents, applications, desktops, and other items with attendees. The right side of the Session window contains panels, which you can display or hide as you need them.

This chapter gives you a quick overview of the Session window and the elements that compose it.

<table>
<thead>

</table>

**A quick tour of the Session window**

The Session window provides the online environment where training session participants interact.
In the Session window, you can share documents, presentations, desktops, and Web content, send chat messages, coordinate polls, and perform other training session management tasks.

<table>
<thead>
<tr>
<th>If you want to ...</th>
<th>See ...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of the Session window</td>

</tr>
<tr>
<td>learn about the annotation tools</td>
<td>Using annotation tools on shared content (on page 151)</td>
</tr>
</tbody>
</table>

**Your first look at the Session window**

The following figure shows the basic components of the Session window:

- Sharing icons in the upper left corner provide easy access to the presentations, documents, applications, desktops, or whiteboards that you want to share.

- Documents and whiteboards you have opened appear as viewer tabs at the top of the Session window. To rename or change the order of these tabs, see *Renaming the tab for a presentation, document, or whiteboard* (on page 228) or *Reordering the tabs for documents, presentations, and whiteboards* (on page 229).

- You manipulate panels using a mouse click to open, close, and minimize them.
Chapter 9: Understanding the Session Window

Click for audio conference options
Click to invite more participants or remind invitees
Click to share your desktop
Click to see more sharing options
Click to record your session
View or interact with participants
Click to end your session

Note: For Mac users, the Session window appears as shown below. Although there are slight differences from the images and descriptions included in this section, the functionality remains the same.
## Chapter 9: Understanding the Session Window

The following table describes what you can do with each menu.

<table>
<thead>
<tr>
<th>Menu</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>File</strong></td>
<td>Provides commands for saving, opening, printing, or transferring files during a training session; and ending or leaving a training session.</td>
</tr>
<tr>
<td><strong>Edit</strong></td>
<td>Provides commands for editing shared content in the content viewer.</td>
</tr>
<tr>
<td><strong>Share</strong></td>
<td>Provides commands for sharing documents, presentations, applications, Web browsers, desktops, multimedia Web content, and whiteboards.</td>
</tr>
</tbody>
</table>
### Tools for sharing

As you start sharing documents and applications during your training session, tools are available at your fingertips.

You have access to:

- View tools for displaying document and presentations in different ways, such as showing thumbnails of the pages
- Annotation tools for highlighting and referring to elements in the presentation or application you are sharing
- **Previous Page** and **Next Page** buttons, for moving around in a document
Chapter 9: Understanding the Session Window

**Note:** For Mac users, the sharing icons described in this section will differ slightly. However, all functionality remains. For example, the Mac sharing icons are shown below.

### Sharing information

You can open a document, whiteboard, desktop, or application to share by clicking the sharing icons in the upper left corner:

#### Sharing tools for Windows

#### Sharing tools for the Mac

<table>
<thead>
<tr>
<th>Sharing Tool</th>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Share Document</td>
<td><img src="image" alt="Icon" /></td>
<td>Share a document or presentation that resides on your computer. Participants view the shared document or presentation in their content viewers.</td>
</tr>
<tr>
<td>Share Application</td>
<td><img src="image" alt="Icon" /></td>
<td>Share any application on your computer with training session participants. Participants can view the shared application in a sharing window on participant screens.</td>
</tr>
<tr>
<td>Share Desktop</td>
<td><img src="image" alt="Icon" /></td>
<td>Share your computer desktop* with meeting participants, including any applications, windows, and file directories that are currently open. Participants can view the shared desktop in a sharing window on participant screens.</td>
</tr>
<tr>
<td>Share Whiteboard</td>
<td><img src="image" alt="Icon" /></td>
<td>Share a whiteboard on which you can draw and write. Participants can view a shared whiteboard in their content viewers.</td>
</tr>
</tbody>
</table>

**Note:** Click **Share** on the Menu bar to see more options for sharing information in a meeting.
Changing views in a file or whiteboard

You can switch views in the content viewer by clicking the viewing icons in the bottom left corner of the content viewer:

<table>
<thead>
<tr>
<th>Tool</th>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standard View</td>
<td><img src="image" alt="Standard View" /></td>
<td>Clicking <strong>Standard View</strong> displays the shared content as you would normally view it.</td>
</tr>
<tr>
<td>View Thumbnails</td>
<td><img src="image" alt="View Thumbnails" /></td>
<td>To display thumbnails, or miniatures, of shared pages, slides, or whiteboards to the side of the content, click <strong>View Thumbnails</strong>. This tool helps you locate a page or slide quickly.</td>
</tr>
<tr>
<td>Full-Screen View</td>
<td><img src="image" alt="Full-Screen View" /></td>
<td>Displays shared content in a full-screen view. Helps you to ensure that participants can view all activity on your screen. Also helps to prevent participants from viewing or using other applications on their screens during a presentation. Click <strong>ESC</strong> to return to the content viewer.</td>
</tr>
<tr>
<td>Rotate page</td>
<td><img src="image" alt="Rotate page" /></td>
<td>For documents in landscape orientation, you can rotate the pages to the left or right so they appear correctly in the content viewer.</td>
</tr>
<tr>
<td>Zoom In/Zoom Out</td>
<td><img src="image" alt="Zoom In/Zoom Out" /></td>
<td>Lets you display shared content at various magnifications. Click this button, and then click the page, slide, or whiteboard to change its magnification. For more magnification options, click the downward-pointing arrow.</td>
</tr>
<tr>
<td>Synchronize Displays for All</td>
<td><img src="image" alt="Synchronize Displays for All" /></td>
<td>For presenters, synchronizes all participants' displays with your display. Helps to ensure that all participants are viewing the same page or slide, at the same magnification, as in your display.</td>
</tr>
</tbody>
</table>

Using annotation tools on shared content

In an online training session, you can use annotation tools on shared content to annotate, highlight, explain, or point to information:
Chapter 9: Understanding the Session Window

<table>
<thead>
<tr>
<th>Annotation Tool</th>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pointer</td>
<td><img src="image" alt="Pointer Icon" /></td>
<td>Lets you point out text and graphics on shared content. The pointer displays an arrow with your name and annotation color. To display the laser pointer, which lets you point out text and graphics on shared content using a red “laser beam,” click the downward-pointing arrow. Clicking this button again turns off the pointer tool.</td>
</tr>
<tr>
<td>Text</td>
<td><img src="image" alt="Text Icon" /></td>
<td>Lets you type text on shared content. Participants can view the text once you finish typing it and click your mouse in the content viewer, outside the text box. To change the font, on the Edit menu, choose <strong>Font</strong>. Clicking this button again turns off the text tool.</td>
</tr>
<tr>
<td>Line</td>
<td><img src="image" alt="Line Icon" /></td>
<td>Lets you draw lines and arrows on shared content. For more options, click the downward-pointing arrow. Clicking this button closes the <strong>Rectangle</strong> tool.</td>
</tr>
<tr>
<td>Rectangle</td>
<td><img src="image" alt="Rectangle Icon" /></td>
<td>Lets you draw shapes, such as rectangles and ellipses on shared content. For more options, click the downward-pointing arrow. Clicking this button again closes the <strong>Rectangle</strong> tool.</td>
</tr>
<tr>

</tbody>
</table>

Panels overview

The panels on the right side of the Session window are very flexible. You can open, expand, or close them quickly and easily. You can also minimize all the open panels to icons, providing greater space for sharing documents, applications, and other items with training session participants.

Your service selects which panels display initially.

In this example, note the following:

- the Recorder, Q&A, and Polling panels are minimized
- the Participants and Chat panels are open
- the Breakout Sessions panel is collapsed
Minimizing and restoring panels

Minimizing and restoring panels has no effect on other participants’ displays.

**Note:** If you use the Restore Panels command after you have minimized panels using the Minimize all command, those panels also display for the other participants.
Chapter 9: Understanding the Session Window

To minimize a panel:

Click the Close icon on the title bar of the panel you want to minimize.

The panel no longer displays. It appears as an icon on the icon tray at the top of the panels.

To restore a minimized panel:

Click its icon on the icon tray.

To minimize all panels:

1. On the icon tray, click the drop-down arrow.
2. On the drop-down menu, choose Hide Panels.

The open panels shrink to icons on the icon tray.
To restore all minimized panels:

The **Restore Layout** command quickly restores all panels you have minimized using the **Hide Panels** command.

1. On the icon tray, click the drop-down arrow.
2. On the drop-down menu, choose **Restore Layout**.

Minimized panels now display.

**Note**: For Mac users, minimizing and restoring panels are controlled from the icon tray located below the panels. Click an icon to make a panel appear or disappear. You can also restore or manage panels from this area.

**Expanding and collapsing panels**

Expanding and collapsing panels has no effect on other participants' displays.

**To collapse a panel**:

Click the icon in the upper left corner of a panel to collapse it.

The panel collapses, leaving only the title bar visible.
To expand a panel:
If a panel is collapsed (you only can see its title bar), click the icon in the left corner of the title bar to expand it.

Managing panels

You can determine which panels are displayed in the training session window, and in which order they will be displayed:

To manage the display of panels:
1. Click this button.

   for Windows

   for the Mac

2. Choose Manage Panels from the menu.

   - Use the Add or Remove buttons to specify which panels should display in your training session window.
   - Use the Move Up or Move Down buttons to specify the order of the panel display.
   - Click the Reset button to restore the panel view to the default layout.
   - Clear the check box beside Allow participants to change the sequence of panels if you want to permit attendees to manage their own display of panels.
Restoring the panel layout

If you have closed, minimized, or expanded or collapsed panels, you can restore the display to the layout you specified in the Manage Panels dialog box.

- that existed when you first joined the training session (if you did not specify a layout via the Manage Panels dialog box)

To restore the panel layout:

1. Click this button.
   - for Windows
   - for the Mac

2. Choose **Restore Layout**.

Resizing the content viewer and panels area

When you are sharing a document or presentation, you can control the size of the content viewer by making the panel area narrower or wider.

**Note:** This feature is unavailable when you are sharing your desktop, an application, or a Web browser.

To change the size of the content viewer and panels:

Click the dividing line between the content viewer and the panels.

- Drag the line to the left to make the area devoted to the panels wider.
- Drag the line to the right to make the content viewer larger.
Chapter 9: Understanding the Session Window

For details about hiding, minimizing, and closing the panels, see Accessing panels in full-screen view.

Accessing panel options

You can access the options related to any panel by right-clicking its title bar to see a menu of commands. Each panel title bar includes common commands to control the panel, but the following panels have additional options.

**Note:** For Mac users, select the ctrl key and then click a panel’s title bar to view its options.

<table>
<thead>

</tbody>
</table>

### Overview of Session Controls Panel

While you are viewing or remotely controlling a shared application, desktop, or Web browser, or viewing a shared remote computer, the presenter can switch between a standard window and full-screen view.

In full-screen view, you can access the panels from the Session Controls Panel located at the top of your screen.
Sharing documents or software while in full-screen view

In full-screen view, you have access to sharing and viewing options from the Session Controls Panel.

Sharing a document in full-screen view

To display a document:

1. On the Session Controls Panel, click the Select Content to Share icon.

2. Select Share File (Including Video).

   If the document that you wish to share is already open, it will be available in the list for you to select. If not, select Share File (Including Video).
3. Select the file that you want to share and click Open.

**Sharing an application in full-screen view**

To share an application:
1. On the Session Controls Panel, click the **Select Content to Share** icon.

2. Select **Share Application**.
3. Select the application you want to share or select **Share a New Application** to open an application not already running on your desktop.

**Sharing your desktop in full-screen view**

In full-screen view, you can share your desktop if you have not already done so.

To share your desktop while you are in full-screen view:
1. On the Session Controls Panel, click the **Select Content to Share** icon.
Chapter 9: Understanding the Session Window

2  Select **Share Desktop**.

**Synchronizing attendee displays**

To resize the display of participants to match your display:

1  Click this button on the Session Controls Panel.

2  On the menu, choose **View > Synchronize for All**.

All attendee displays now match your display.

**Understanding panel alerts**

<table>
<thead>
<tr>
<th>If you want to…</th>
<th>See…</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of panel alerts</td>
<td><strong>Overview of panel alerts</strong> (on page 164)</td>
</tr>
<tr>
<td>learn about alerts for collapsed panels</td>
<td><strong>Alerts for collapsed panels</strong> (on page 165)</td>
</tr>
<tr>
<td>learn about alerts for minimized panels</td>
<td><strong>Alerts for minimized panels</strong> (on page 165)</td>
</tr>
</tbody>
</table>

**Overview of panel alerts**

If you have minimized or collapsed the Chat, Q & A, or Polling, or Participants panels, and any of those panels requires your attention, you see an orange alert on that panel.

Here are the reasons for seeing alerts:

- A participant arrives or leaves a training session
Chapter 9: Understanding the Session Window

- A **Raise Hand** indicator appears in your Participants list.
- An attendee sends a chat message.
- An attendee sends a question.
- A poll opens or closes
- Poll answers are received

**Alerts for minimized panels**

If you have minimized a panel, the icon representing that panel blinks for a few seconds and changes color to alert you to a change.

**Alerts for collapsed panels**

If you have collapsed a panel, the **Expand/Collapse** icon blinks for a few seconds and changes color to get your attention to a change.

About managing training sessions

You can run a seamless and smooth training session using the features available in Training Center. For instance, you can do the following:

- Invite others, including coworkers, prospective clients, subject matter experts, or managers to join a training session that has already started
- Ask another participant to host the session; if you need to leave unexpectedly, you can rejoin later and reclaim the host role
- Ask another participant to present materials, such as a presentation, file, spreadsheet or other document
- Designate an attendee as a panelist, to join in discussions and to answer questions

Inviting more people to your in-progress training session

After you start your training session, you may find that you forgot to invite a stakeholder or someone else who should be in the training session.

To invite someone after you start your training session:

Select Invite & Remind on the Quick Start page.

The Invite and Remind dialog box appears.
You can invite someone to the training session by

- **Email**: invite by WebEx or your own email. *More* (on page 171)
- **Phone**: Enter the invitee name and phone number and select **Call**. *More* (on page 172)
- **Text message (SMS)**: Enter the invitee mobile number and select **Send**. *More* (on page 173)
- **IM**: Invite by WebEx or your own IM. *More* (on page 169)

**Inviting people by instant message to a training session in progress**

You can invite more people to your in-progress training session by WebEx IM or another instant messenger.

To invite more people using WebEx IM:

**Note**: Start your WebEx IM if it is not currently running.
Chapter 10: Managing a Training Session

1) From the Quick Start page, open the Invite and Remind dialog box.

2) On the IM tab, select Invite.

The Invite More dialog box appears.

1) Type a screen or domain name for the attendee
2) Click the Plus button to add the name to the list of participants.

To quickly find screen names:

1) Click the Address Book button to open your address book.
2) In the Method drop-down list, select IM.
   
   If the attendee is not currently available, you can send an email invitation instead. Simple select Email in the drop-down list.

3) Click Invite.
   
   Each attendee receives an IM message, which includes:
- A link that the attendee can click to join the training session
- Training Session topic
- Training Session start time

**Tip:** If you invite attendees by instant messenger, and your training session requires a password, remember to provide the password to attendees.

To invite more people using another IM:

1) Open the Invite and Remind dialog box from the QuickStart page.
2) Select **Copy** at the bottom of the dialog box, then paste the URL into your own IM and send it.

![Meeting URL](image)

**Inviting people by email to a training session in progress**

Each person that you invite receives an invitation email message, which provides information about the training session-including the password, if any-and a link that the participant can click to join the training session.
To send an email invitation:

1) From the Quick Start page, Open the Invite and Remind dialog box.
2) On the Email tab do one of the following:
   - Enter one or more email addresses and select Send to have WebEx send the invitation emails.
   - Click the link to send invitations using your own email program (MS Outlook or Lotus Notes only).

Inviting people by phone to a training session in progress

You can invite people by phone to a training session in progress.

To invite people by phone:

1) From the Quick Start page, open the Invite and Remind dialog box
2) On the Phone tab, enter the invitee name and phone number.
3) Select Call.
You can speak to the invitee privately, then add the invitee to the general training session.

If you are not yet connected to the audio conference, the invitee receives a phone call to join the audio conference.

Inviting people by text message (SMS) to a training session in progress

You can invite people by text message (SMS) to a training session in progress. This feature must be enabled by your site administrator.

To invite a person by text message from the training session:

1) From the Quick Start page, open the Invite and Remind dialog box.
2) On the SMS tab, enter the invitee mobile phone number.
3) Select Send.

Each invitee receives a text message, which includes:

- A number the invitee can call to join the training session
- The account code
- Training Session topic
- Training Session start time
- The host name
- A reply code to receive a call from the training session.
Reminding invitees to join your meeting

After the training session starts, and you see that some invitees have not yet joined, you can send an email reminder.

To remind someone to join your training session:

Select Invite & Remind on the Quick Start page.

The Invite and Remind dialog box appears.

Select the Remind tab. All invitees who are not in the training session are automatically chosen to receive the reminder.

1) Uncheck the box beside any person you don't want to remind.

2) Select Send Reminder.

An email reminder is sent to each person selected.

Granting attendee privileges during a training session

During a training session, the session host can grant privileges to or remove them from attendees at any time.
To specify attendee privileges during a training session:

1. In the Session window, do one of the following:
   - On the Participant menu, point to Assign Privileges.
   - On the Participants panel, right-click a participant's name, and select Assign Privileges.

   The Assign Privileges dialog box appears.

2. Specify attendee privileges, as follows:
   - To grant a privilege to all attendees, select its check box.
   - To grant all privileges to attendees, select the All attendee privileges check box.
   - To remove a privilege from all attendees, clear its check box.

3. Click OK.

Changing presenters

Depending on your site settings, a participant can become the presenter in a number of ways:

- The first person to join automatically becomes the presenter.
- As host, you can make a participant the presenter before sharing (on page 175) or during sharing (on page 177)

Making a participant the presenter when you are in the meeting window

During a training session, you can make any training session participant the presenter - also referred to as passing the ball. Any presenter can also pass the ball to make another training session participant the presenter.

There are numerous ways to make someone the presenter depending on how you are viewing participants.
Chapter 10: Managing a Training Session

Here are a couple of quick ways to make another participant the presenter:

If you are viewing a list of participants, do either of the following:

- Drag the ball from the last presenter to the next presenter.
- Choose a name and select **Make Presenter**.

If you are viewing participant thumbnails, do either of the following:

- Mouse over a thumbnail and select **Make Presenter**.
- Choose a thumbnail, then select **Make Presenter**.
The participant becomes the presenter with all associated rights and privileges for sharing information.

Note: Use the docked tray at the top of your screen to change presenters when you are sharing.

Making a participant the presenter when you are sharing

When you are sharing your desktop, an application, or files in full screen mode, the docked tray at the top of your screen provides an easy way to change presenters.

To make someone else the presenter using the docked tray:

- Mouse over the bottom of the docked tray to expose it.
- Select Assign, then Make Presenter.
- Select a participant.

The participant becomes the presenter with all associated rights and privileges for sharing information.

Note: You can make someone else the presenter from the participant list when you are in the meeting window.

Designating a panelist

During a training session, you can designate any training session attendee as a panelist. You can also change the panelist's role back to attendee at any time.

To designate a panelist:

1. In the Session window, in the participant list on the Participants panel, select the name of the attendee whom you want to designate as a panelist.
Do one of the following:

- Right-click the attendee's name, point to Change Role To, and then choose Panelist.
- On the Participant menu, point to Change Role To, and then choose Panelist.

The attendee's name appears in the list of panelists.

To change the panelist's role back to attendee:

1. On the Participants panel, in the panelist list, select the attendee's name.
2. Do one of the following:
   - Right-click the attendee's name, point to Change Role To, and then choose Attendee.
   - On the Participant menu, point to Change Role To, and then choose Attendee.

Transferring the host role to another participant

As the host, you can transfer the host role—and thus control of the training session—to another participant at any time. This option can be useful if you need to leave the training session for any reason. You can reclaim the host role at any time.

Important: If you leave a training session—whether intentionally or inadvertently—and then log back in to your Training Center Web site, you automatically become the training session host once you rejoin the training session. You can rejoin a training session using either the Live Sessions page or your private Meeting Room page.

To transfer the host role to an attendee:

1. Optional. If you plan to reclaim the host role later, write down the host key that appears on the Info tab in the Session window's content viewer.
2. Click the Participants panel.
3. In the participant list, select the name of the attendee to whom you want to transfer the host role.
4. Do one of the following:
Right-click on the participant's name, point to Change Role To, and then choose Host.

On the Participant menu, point to Change Role To, and then choose Host.

5 A confirmation message appears, in which you can verify that you want to transfer control of the training session to the attendee whom you selected.

6 Click OK.

The word (Host) appears to the right of the attendee’s name in the participant list.

Reclaiming the host role

If an attendee has control of the training session, you can assume control by reclaiming the host role.

**Important:** If you leave a training session—whether intentionally or inadvertently—and then log back in to your Training Center Web site, you automatically become the training session host once you rejoin the training session. You can rejoin the training session using your list of scheduled training sessions.

To reclaim the host role:

1 Click the Participants panel.

2 In the participant list, select your own name.

3 On the Participant menu, choose Reclaim Host Role.

   The Reclaim Host Role dialog box appears.

4 Type the host key in the Host key box.

5 Click OK.

   In the participant list, the word (Host) appears to the right of your name.

**Tip:** If you did not write down the host key before transferring the host role to another attendee, you can ask the current host to send you the host key in a private chat message. The host key appears on the current host’s Info tab in the content viewer.
Chapter 10: Managing a Training Session

Obtaining information about a training session after it starts

During a training session, you can obtain general information about the session, including the following:

- training session topic
- location, or URL, of the Web site on which the training session is occurring
- training session number
- audio conference information
- current host
- current presenter
- current user—that is, your name
- current number of participants

To obtain information about a session in progress:

In the Session window, on the Session menu, choose Information.

The Training Session Information dialog box appears listing general information about the training session.

Editing a message or greeting during a training session

When scheduling a training session, you can create a message or greeting for attendees, and optionally specify that the message or greeting automatically appears in attendees' Session windows once they join the training session. During a training session, you can edit the message or greeting that you created, or edit the default greeting.

In your message or greeting, you can welcome the attendee to the training session, provide important information about the training session, or provide special instructions.
To edit a message or greeting during a training session:

1. In the Session window, on the **Session** menu, choose **Greeting Message**.
   
The Create an Attendee Greeting page appears.

2. Optional. Select the **Display this message when attendees join the session** check box.
   
The message or greeting automatically appears once the attendee joins the training session.

3. Type a message or greeting in the **Message** box.

4. A message or greeting can contain a maximum of 4000 characters.

5. Click **OK**.

   **Note:** Attendees can view the message or greeting at any time by choosing **Greeting Message** on the **Session** menu.

---

**Restricting access to the training session**

Once you start the training session, you can restrict access to it at any time. This option prevents anyone from joining the training session, including attendees whom you invited to the training session but have not yet joined it.
Chapter 10: Managing a Training Session

To restrict access to the training session:

1. In the Session window, on the Session menu, choose Restrict Access. Attendees can no longer join the training session.

2. Optional. To restore access to the training session, on the Session menu, choose Restore Access.

Tracking participant attention

During your training session, you can easily tell if attendees are no longer focused on your presentation. The attention indicator shows if an attendee has:

- Minimized the training session window
- Brought another window, such as any kind of instant messaging (IM) window, in focus on top of the training session window

<table>
<thead>
<tr>
<th>Attentiveness</th>
<th>During a session, you can check:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Overall attentiveness</strong></td>
<td>The left side of the bar graph indicates the percentage of attendees who are paying attention; the right side indicates the percentage of attendees who are not paying attention.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Attentive</th>
<th>Inattentive</th>
</tr>
</thead>
<tbody>
<tr>
<td>67%</td>
<td>33%</td>
</tr>
<tr>
<td>2 Attendee(s)</td>
<td>1 Attendee(s)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Participants</th>
<th>Individual attentiveness</th>
</tr>
</thead>
<tbody>
<tr>
<td>Janice Goodman (Host)</td>
<td>If an attendee is not paying attention, an exclamation mark appears next to the name of the attendee.</td>
</tr>
<tr>
<td>Jill Parker</td>
<td></td>
</tr>
<tr>
<td>Nancy Wang</td>
<td>!</td>
</tr>
<tr>
<td>Richard Leigh</td>
<td>!</td>
</tr>
</tbody>
</table>
After a training session ends, you can generate reports to obtain data about individual attentiveness. A report contains this information for each attendee:

- Attention-to-attendance ratio: Attentiveness based on how long the attendee was in the training session
- Attention-to-duration ratio: Attentiveness based on the duration of the training session

For details, see About generating reports (on page 510).

**Checking participant attention in a training session**

During a training session, you can easily check which attendees are not paying attention.

To check who is not paying attention in the training session:

Look for the icon that appears next to the name of the attendee who is not paying attention.

To check overall attentiveness:

Click the icon on the toolbar of your Participants panel.

**Turning on or off attention tracking in a training session**

*Host only*

You can turn on or off attention tracking in a session.

To turn on or off attention tracking in a session:

1. On the Session menu, choose Options.
On the Communications tab, select Attention tracking.

Note: If the Attention tracking option is unavailable, contact your site administrator.

Removing an attendee from the training session

You can remove an attendee from the training session at any time.

To remove an attendee from the training session:

1. In the Session window, in the participant list on the Participants & Communications panel, select the name of the attendee whom you want to remove from the training session.
2. On the Participant menu, choose Expel.
   A confirmation message appears, in which you can verify that you want to remove the attendee from the training session.
3. Click Yes.
   The attendee is removed from the training session.

Tip: To prevent an expelled attendee from rejoining the training session, you can restrict...
access to the training session. For details, see Restricting access to the training session (on page 181).

Leaving the training session

You can leave the training session at any time. If you are participating in a call-back teleconference or an Integrated VoIP conference, Training Manager automatically disconnects you from the conference once you leave the training session.

**Note:** If you are the training session host, first transfer the host role to another attendee before leaving the training session. For more information, see Transferring the host role to another participant (on page 178).

**To leave the training session:**

1. In the Session window, session participants can click the **Leave Training Session** button on the Quick Start page. They can also choose **Leave Training Session** from the **File** menu.

   A confirmation message box appears, in which you can verify that you want to leave the training session.

2. Click **Yes**.

   The Session window closes.

Ending the training session

You can end the training session at any time. Once you end a training session, the Session window closes for all attendees. If the training session includes an integrated audio conference, the conference also ends.

**To end the training session:**

1. On the Quick Start page, click the **End Training Session** button. You can also choose **End Training Session** from the **File** menu.
A confirmation message appears, in which you can verify that you want to end the training session. If you have not yet saved an annotated document or presentation, recording, poll questionnaire, poll results, or chat, Training Manager asks you whether you want to save it before ending the training session.

2  Click **Yes**.

The Session window closes.

**Note:** Alternatively, as the training session host, you can leave a training session without ending it. Before you leave a training session, you should first transfer the host role to another attendee. For more information, see *Transferring the host role to another participant* (on page 178).
Assigning Privileges during a Training Session

<table>
<thead>
<tr>
<th>If you want to…</th>
<th>See…</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of privileges</td>
<td>About granting privileges to attendees (on page 187)</td>
</tr>
<tr>
<td>specify particular privileges for training session attendees</td>
<td>Granting attendee privileges during a training session (on page 188)</td>
</tr>
<tr>
<td>review specific details about each attendee privilege</td>
<td>About the Assign Privileges dialog box (on page 189)</td>
</tr>
</tbody>
</table>

About granting privileges to attendees

Once a training session starts, all attendees automatically receive privileges:

- If the host scheduled the training session and specified attendee privileges, attendees receive those privileges.
- If the host scheduled the training session but did not specify attendee privileges, attendees receive the default privileges.
- If the host started an instant training session, attendees receive the default privileges.

You can grant or remove privileges for the following training session activities:

- Document sharing, including privileges for saving, printing, and annotating shared content in the content viewer
Assigning Privileges during a Training Session

- Viewing miniatures, or thumbnails, of pages, slides, or whiteboards in the content viewer
- Viewing any page, slide, or whiteboard in the content viewer, regardless of the content that the presenter is viewing
- Controlling full-screen view of pages, slides, or whiteboards in the content viewer
- Viewing the participant list
- Chatting with participants
- Recording a training session
- Requesting remote control of shared applications, desktops, or Web browsers
- Contacting the operator for a teleconference privately, if your training service includes the private operator option

Granting attendee privileges during a training session

During a training session, the session host can grant privileges to or remove them from attendees at any time.

To specify attendee privileges during a training session:

1. In the Session window, do one of the following:
   - On the Participant menu, point to Assign Privileges.
   - On the Participants panel, right-click a participant's name, and select Assign Privileges.

   The Assign Privileges dialog box appears.

2. Specify attendee privileges:
   - To grant a privilege to all attendees, select its check box.
   - To grant all privileges to attendees, select the All attendee privileges check box.
   - To remove a privilege from all attendees, clear its check box.

For a detailed description of the options in the Assign Privileges dialog box, see About the Assign Privileges dialog box (on page 189).
3 Click OK.

### About the Assign Privileges dialog box

For details about each privilege, review the table below. To access the attendee privileges page:

- On the **Participant** menu, point to **Assign Privileges**.
- On the **Participants** panel, right-click a participant's name, and select **Assign Privileges**.

<table>
<thead>
<tr>
<th>Document</th>
<th></th>
<th>View</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Save:</strong> Specifies that attendees can save any shared documents, presentations, or whiteboards that appear in the content viewer.</td>
<td><strong>Number of attendees</strong>—If selected, specifies that the attendees can view the number of attendees in the training session.</td>
<td><strong>Attendee list:</strong> If selected, specifies that attendees can view the names of all other attendees on the <strong>Participants</strong> panel. If this option is not selected, attendees can view the names of only the training session host and the presenter on the <strong>Participants</strong> panel.</td>
</tr>
<tr>
<td><strong>Print:</strong> Specifies that attendees can print any shared documents, presentations, or whiteboards that appear in the content viewer.</td>
<td></td>
<td><strong>Thumbnails:</strong> Specifies that attendees can display miniatures of any pages, slides, or whiteboards that appear in the content viewer. This privilege allows attendees to view miniatures at any time, regardless of the content that appears in the presenter's content viewer.</td>
</tr>
<tr>
<td><strong>Annotate:</strong> Specifies that attendees can annotate any shared documents, presentations, or whiteboards that appear in the content viewer, using the toolbar that appears above the viewer. Also allows attendees to use pointers on shared documents, presentations, and whiteboards.</td>
<td>Note—If attendees have this privilege, they can display any page at full size in the content viewer, regardless of whether they also have the <strong>Any page</strong> privilege.</td>
<td></td>
</tr>
</tbody>
</table>

**Any document:** Specifies that attendees can view any document, presentation, or whiteboard that appears in the content viewer, and navigate to any pages or slides in documents or presentations.

**Any page:** Specifies that attendees can view any pages, slides, or whiteboards that appear in the content viewer. This privilege allows attendees to navigate independently through pages, slides, or whiteboards.
### Chapter 11: Assigning Privileges during a Training Session

<table>

</table>

| All attendee privileges | Specifies that attendees have all privileges. |
Assigning Sounds to Participant Actions

*Host only*

During a training session, you can assign sounds to play when a participant:

- Joins the training session
- Leaves the training session
- Clicks **Raise Hand** on the Participants panel
- Clicks **Ask for Mic** on the Participants panel

To assign sounds to participant actions:

1. In the Session window, on the **Edit** menu, choose **Personal Preferences**.
   The Personal Preferences dialog box appears.

2. Select the type of action for which you want to assign a sound by clicking:
   - **Join/Leave**
   - **Communications**

3. Select a sound using one of these methods:
   - In the drop-down list for each selected action, choose a sound to play.
     By default, the drop-down list contains the names of all sound files that reside at the default location on your computer.
   - Click **Browse**, and then select a sound file that resides in another folder.

4. Optional. To play the currently selected sound, click the button ♬.
5 Click **OK**.

**Note:**
- Training Center saves your sound preferences on your computer. However, if you start or join a training session on another computer, you need to set your preferences again on that computer.
- Sound files must have a `.wav` extension
- In most cases, the default location for sound files is `C:\WINDOWS\Media`. You can copy other sound files to the default folder or any other directory to make them available in the Personal Preferences dialog box.
Using WebEx Audio

WebEx Audio lets you use either your telephone or your computer to hear others and to speak in your training session:

- **Telephone**—you can use your telephone to receive a call to the audio portion of the training session or to dial in.

- **Computer**—you can use a headset connected to your computer to join the audio portion of the training session if the computer has a supported sound card and a connection to the Internet.

**Note:** If you are a host, you can invite up to 500 people to participate in the audio conference.

After joining the conference, participants can switch between audio modes with little or no listening interruption. In a mixed-mode conference, where some participants are using the telephone and others are using the computer, up to 125 people can speak.

Your role in an audio conference determines your level of participation. Whichever role you take, the following table describes the basic tasks you can accomplish in that role. For detailed instructions on a particular task, click "More" by the task description.
### Task description

<table>
<thead>
<tr>
<th>Call using phone</th>
<th>Host an audio conference:</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Audio Conference" /></td>
<td>- join or leave the audio conference [More](on page 194)</td>

</tbody>
</table>

**Note:** If you set up another type of audio conference—such as that of a third-party service—you must manage the conference using the options that service provides.

## Connecting to an audio conference

Once you start or join a training session that uses WebEx Audio, the Audio Conference dialog box appears automatically on your screen.

What device do you want to use for speaking and listening in the training session?
Chapter 13: Using WebEx Audio

- your phone: typically provides good voice transmission, but may have a cost attached.
- your computer (with a headset, and an Internet connection): Sometimes causes noisy transmission, or an irregular voice stream, but has no cost attached.

You can select your preferred device from the Audio Conference dialog box that appears automatically after you start or join a training session:

1) Use Phone: You can call in or have the training session call you. More
2) Use Computer for Audio: Select the arrow, then choose Call using Computer. More (on page 198)

At any time during the training session, you can switch your audio device (on page 199).

Using your telephone to connect to audio

After you join a training session, the Audio Conference dialog box appears automatically. When you use your telephone to connect to the audio portion of the training session, you can call in or receive a call back.

- Call back—receive a call at a valid number you provide, or at number that is already stored in your user profile. A valid number must contain the area code and the seven-digit local telephone number.
- Call in—call in from your phone to a number your host provides.

The Audio Conference dialog box appears automatically.

To receive a call back:

In the Use Phone pane of the Audio Conference dialog box, do one of the following:
Click **Call Me** to receive a call at the number displayed.

- Select another number from the dropdown list of available numbers, then click **Call Me**.
- Select **Call me at a new number** from the dropdown list, enter a number, then click **Call Me**.

A telephone icon appears next to your name in the participant list to indicate that you are using your phone in the audio conference, and a mute icon appears next to the video icon so that you can mute or unmute your microphone as desired. *More (on page 201)*

You can switch from using your telephone as your audio device to using your computer at any time during the audio conference. *More (on page 199)*

**To call in:**

1. In the Use Phone pane of the Audio Conference dialog box, select **I will call in** from the dropdown menu.
The Audio Conference dialog box displays default call-in numbers.

2. Follow the instructions to join the audio conference.

3. Optional. To view all international numbers, click the link All global call-in numbers.

   An information dialog box appears, which lists international numbers.

A telephone icon appears next to your name in the participant list to indicate that you are using your phone in the audio conference, and a mute icon appears next to the video icon so that you can mute or unmute your microphone as desired. More (on page 201)

To leave an audio conference:

1. Click Audio below the Participant list.

   The Audio Conference dialog box appears.

2. Click Leave Audio Conference.

   Your participation in the audio conference ends; however, your participation in the training session continues until you leave it or the host concludes it.

You can switch from using your telephone as your audio device to using your computer at any time during the audio conference. More (on page 199)
Using your computer to connect to audio

After you join a training session, the Audio Conference dialog box appears automatically. When you use your computer to speak and listen in a training session, your computer sends and receives sound across the Internet. To do this, your computer must have a supported sound card and be connected to the Internet.

**Note:** For purposes of audio quality and convenience, use a computer headset with a high-quality microphone rather than speakers and a microphone.

To use your computer for audio:

1) Select the arrow.
2) Select **Call Using Computer**.

**Note:** If this is your first time connecting to a training session with your computer, a wizard appears to fine tune your sound settings (on page 199).

After you are connected to your training session, you can

1) mute or unmute your speaker or microphone
2) change the volume on your speaker or microphone

A headset icon appears next to your name in the participant list to indicate that you are using your phone in the audio conference, and a mute icon appears next to the video icon so that you can mute or unmute your microphone as desired. *More* (on page 201)

You can switch from using your computer as your audio device to using your telephone at any time during the audio conference. *More* (on page 199)
Fine tuning your microphone and speaker settings

If you are using your computer to connect to the meeting audio, you can fine-tune your microphone and speaker settings to optimize your audio experience.

The Speaker/Microphone Audio Test walks you through testing your devices, and setting your speaker volume and microphone level.

When you first start or join a meeting, you can manually test and adjust your sound device before you actually start using your computer for audio.

To open the Speaker/Microphone Audio Test and adjust your sound settings:

1. From the meeting window menu, select Audio > Speaker/Microphone Audio Test.
2. Follow the instructions.

Tip: After you join the audio portion of the meeting you can retest your settings at any time simply by reopening the Audio Conference dialog box and clicking Test speaker/microphone at the bottom of the box.

Switching audio devices during a meeting

You can easily switch from one audio device to another during a training session with little disruption.
To switch from your computer connection to a phone connection:

1) Open the Audio Conference dialog box from
   □ the Quick Start page
   □ your participant list
   □ the Audio menu.
   □ the Session Controls Panel (If you are sharing)
2) Select the down arrow beside **Use Phone**.
3) Call the number in the **Use Phone** area and enter the access code and attendee ID, as directed by the automated operator.

After you are connected by phone, your computer connection is dropped automatically.

To switch from your phone connection to a computer connection:

1) Open the Audio Conference dialog box from
   □ the Quick Start page
   □ your participants list
   □ the Audio menu.
   □ the Session Controls Panel (If you are sharing)
2) Select the down arrow beside **Use Computer for Audio**.
3) Select **Switch to Using Computer**.

Your phone connection is dropped after your computer connection is established.

(Remember to switch to your computer headset.)

Connecting to audio during sharing

If you join a training session that is already in progress and shared content is all you see, you can connect to the audio portion of the training session from the Session Controls Panel.
To connect to the audio portion of the training session:

1) On the Session Controls Panel at the top of your screen, select Audio. The Audio Conference dialog box opens

2) Connect to the audio (on page 194) portion of the training session as usual.

Muting and unmuting microphones

The following table illustrates how to quickly mute and unmute microphones in your training session depending on your user role.

<table>
<thead>
<tr>
<th>Role</th>
<th>Task description:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Host</strong></td>
<td>Windows: Right click in the participants list</td>
</tr>
<tr>
<td></td>
<td>▪ <strong>Mute on Entry</strong> to mute all microphones automatically when participants join a training session</td>
</tr>
<tr>
<td></td>
<td>▪ <strong>Mute</strong> or <strong>Unmute</strong> to mute or unmute your own or a specific participant's microphone</td>
</tr>
<tr>
<td></td>
<td>▪ <strong>Mute All</strong> to mute or unmute all participant microphones simultaneously at any time during a training session [More](on page 202)</td>
</tr>
<tr>
<td><strong>Participant</strong></td>
<td>Mac:Ctrl + click in the participants list</td>
</tr>
<tr>
<td></td>
<td>Select the <strong>Mute</strong> or <strong>Unmute</strong> icon to mute or unmute your own microphone.</td>
</tr>
</tbody>
</table>

The microphone icon to the right changes state.
Chapter 13: Using WebEx Audio

Tip: During sharing, participants can mute and unmute their microphones from the Session Controls Panel at the top of their screens.

Muting and unmuting all participant microphones simultaneously

*Host and presenter only*

You can mute or unmute all participant microphones simultaneously. This option does not affect the host's and presenter's microphones.

To mute or unmute all participants:
- *Windows:* Right click on the participant list
- *Mac:* Ctrl + click on the participant list
Select **Mute All** or **Unmute All**.

The microphone icon to the right of each participant's name changes state.

Asking to speak in an audio conference

*Participant*

If you want to speak and the host has muted your microphone, you can ask the host to unmute your microphone so that you can speak. You can cancel a request to speak at any time.
### Using caller authentication to start or join an audio conference

*Host accounts only*

CLI (caller line identification), or ANI (automatic number identification), is a form of caller ID, a telephony intelligent service that transmits a caller’s telephone number before the call is answered. Any dial-in caller with a host site account can be authenticated and placed into the correct audio conference without needing to enter a meeting number.

If you have a host account, and your site is enabled for ANI/CLI, you can

<table>
<thead>
<tr>
<th>To ask to speak</th>
<th>Windows</th>
<th>result</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select <strong>Raise Hand</strong> on the Participants panel</td>
<td><img src="image" alt="Raise Hand" /></td>
<td>The <strong>Raised Hand</strong> indicator appears on the participant list for the host and presenter.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>To cancel a request to speak</th>
<th>Windows</th>
<th>result</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select <strong>Lower Hand</strong> On the Participants panel</td>
<td><img src="image" alt="Lower Hand" /></td>
<td>The <strong>Raised Hand</strong> indicator is removed from the participant list for the host and presenter.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>To ask to speak</th>
<th>Mac</th>
<th>result</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select the Raise Hand icon at the bottom of the Participants panel</td>
<td><img src="image" alt="Raise Hand" /></td>
<td>The <strong>Raised Hand</strong> indicator appears on the participant list for the host and presenter.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>To cancel a request to speak</th>
<th>Mac</th>
<th>result</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select the Lower Hand icon at the bottom of the Participants panel</td>
<td><img src="image" alt="Lower Hand" /></td>
<td>The <strong>Raised Hand</strong> indicator is removed from the participant list for the host and presenter.</td>
</tr>
</tbody>
</table>
• schedule a meeting with dial-in ANI/CLI teleconferencing authentication.

• be authenticated whenever you dial into any ANI/CLI enabled audio conference to which you have been invited by email. Call-in authentication is established by mapping your email address to a phone number in your user profile.

• specify a call-in authentication PIN to prevent "spoofers" from using your number to dial into an audio conference

To schedule an audio conference with ANI/CLI authentication:

1. Log in to your Training Center Web site.
2. On the navigation bar, under Host a Meeting, click Schedule a Meeting. The Schedule a Meeting page appears.
3. Click Change audio options. The Audio Options dialog box appears.
4. Select the Enable audio conference CLI authentication when participants call in checkbox if it is not already selected.

Note: Caller authentication will only be available to participants if they are invited to a CLI/ANI enabled audio conference by email during the meeting scheduling process. Any participant invited to the audio conference once it has begun cannot use caller authentication.

Specifying call-in authentication for your host account

If you have a host account, and your site is enabled for call-in authentication, you can set authentication for any phone number listed in your user profile. Your call will be authenticated by mapping your email address against specified phone numbers in your profile whenever you dial into a CLI (caller line identification), or ANI (automatic number identification) enabled audio conference to which you have been invited by email.

Note: Caller authentication will only be available if you have been invited to a CLI/ANI (automatic number identification) enabled audio conference by email during the meeting scheduling process. Caller authentication will not be available if you are dialing in to a CLI/ANI enabled audio conference:

• from an invitation other than email.
To specify call-in authentication for your host account:

1. Log in to your Training Center Web site.
2. On the navigation bar, click My WebEx.
3. Click My Profile.
   
   The My WebEx Profile page appears.
4. Under Personal Information, select the Call-in authentication checkbox beside any phone number for which you want dial-in authentication.
5. Click Update.

Using an authentication PIN

If you have a host account, and your site is enabled for CLI (caller line identification), or ANI (automatic number identification) audio conferences, you can use an authentication PIN to prevent "spoofers" from using your number to dial into an audio conference.

If your site administrator sets the authentication PIN as mandatory for all accounts using call-in authentication on your site, then you must specify a PIN number or caller authentication will be disabled for your account.

To specify an authentication PIN:

1. Log in to your Training Center Web site.
2. On the navigation bar, click My WebEx.
3. Click My Profile.
   
   The My WebEx Profile page appears.
4. Under Personal Information, in the PIN: text box, enter a 4-digit PIN number of your choosing.
5. Click Update.
Editing or updating your stored phone numbers

You can edit or update the phone numbers listed in your profile if you have not yet joined the audio conference or if you joined the audio conference from your computer. In addition, you can view any phone number cookies stored on your computer.

Any updates you make do not take effect until the next time you join a training session.

To edit or update your profile:

1. Do either of the following:
   - On the Audio menu, choose Join Audio Conference.
   - At the bottom of the Participants panel, click Audio.

   The Audio Conference dialog box appears.

2. Select Manage phone numbers from the dropdown box in the lower pane. The Manage phone numbers dialog box appears.

3. Click Edit to update the phone numbers in your My WebEx profile, or Clear to delete phone numbers that are stored in cookies on your computer.

   Note: You cannot be participating in an audio conference by phone if you want to edit or update your phone numbers.
Your user role in a training session determines your level of sharing. Whichever role you take, the following table describes the basic tasks associated with that role. For detailed instructions on a particular task, click “More” by the task description.

<table>
<thead>
<tr>
<th>Role</th>
<th>Task description:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Host</td>
<td>Start and control sharing a document or presentation</td>
</tr>
<tr>
<td></td>
<td>- learn about tools for sharing More… (on page 209)</td>
</tr>
<tr>
<td></td>
<td>- start sharing More… (on page 211)</td>
</tr>
<tr>
<td></td>
<td>- assigning sharing privileges to attendees More… (on page 208)</td>
</tr>
<tr>
<td></td>
<td>- save a document More… (on page 229)</td>
</tr>
</tbody>
</table>
Chapter 14: Sharing Presentations, Documents, and Whiteboards

<table>
<thead>
<tr>
<th>Role</th>

</tr>
</thead>
<tbody>
<tr>
<td>Attendee</td>
<td>View and interact with shared documents and presentations</td>
</tr>
<tr>
<td></td>
<td>display slides or pages More… (on page 232)</td>
</tr>
<tr>
<td></td>
<td>use tools to annotate a document More… (on page 151)</td>
</tr>
<tr>
<td></td>
<td>synchronize your view with the host More… (on page 233)</td>
</tr>
</tbody>
</table>

Granting sharing privileges

To grant participant privileges during a session:

1. In the Meeting window, on the Participant menu, choose Assign Privileges.

   The Assign Privileges dialog box appears.

2. Grant or remove a privileges, as follows:

   - To grant a specific privilege, select its check box.
   - To grant all privileges, select the All attendee privileges check box.
   - To remove a privilege, clear its check box.

3. Click OK.
**Content viewer tools**

<table>
<thead>
<tr>
<th>Content Viewer</th>
<th>Tools</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Content Viewer" /></td>
<td>The tools on the content viewer toolbar allow you to share and perform actions on presentations, documents, and whiteboards.</td>
</tr>
</tbody>
</table>

**annotation toolbar** - Select a drawing tool for directing attention onscreen, using pointers, a highlighter, or drawing a shape. *More…* (on page 151)

**Windows**

- ![Windows Tools](image)

**Sharing toolbar** - Use these tools to share applications, documents, your desktop or a whiteboard. *More…* (on page 150)

**Mac**

- ![Mac Tools](image)

**Viewing toolbar** - Change to full-screen, rotate pages, zoom in or out using these tools. *More…* (on page 151)

---

**Changing views in a file or whiteboard**

You can switch views in the content viewer by clicking the viewing icons in the bottom left corner of the content viewer:
### Using annotation tools on shared content

In an online training session, you can use annotation tools on shared content to annotate, highlight, explain, or point to information:

<table>
<thead>
<tr>
<th>Tool</th>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Standard View</strong></td>
<td><img src="image1.png" alt="Image" /></td>
<td>Clicking <strong>Standard View</strong> displays the shared content as you would normally view it.</td>
</tr>
<tr>
<td><strong>View Thumbnails</strong></td>
<td><img src="image2.png" alt="Image" /></td>
<td>To display thumbnails, or miniatures, of shared pages, slides, or whiteboards to the side of the content, click <strong>View Thumbnails</strong>. This tool helps you locate a page or slide quickly.</td>
</tr>
<tr>
<td><strong>Full-Screen View</strong></td>
<td><img src="image3.png" alt="Image" /></td>
<td>Displays shared content in a full-screen view. Helps you to ensure that participants can view all activity on your screen. Also helps to prevent participants from viewing or using other applications on their screens during a presentation. Click <strong>ESC</strong> to return to the content viewer.</td>
</tr>
<tr>
<td><strong>Rotate page</strong></td>
<td><img src="image4.png" alt="Image" /></td>
<td>For documents in landscape orientation, you can rotate the pages to the left or right so they appear correctly in the content viewer.</td>
</tr>
<tr>
<td><strong>Zoom In/Zoom Out</strong></td>
<td><img src="image5.png" alt="Image" /></td>
<td>Lets you display shared content at various magnifications. Click this button, and then click the page, slide, or whiteboard to change its magnification. For more magnification options, click the downward-pointing arrow.</td>
</tr>
<tr>
<td><strong>Synchronize Displays for All</strong></td>
<td><img src="image6.png" alt="Image" /></td>
<td>For presenters, synchronizes all participants' displays with your display. Helps to ensure that all participants are viewing the same page or slide, at the same magnification, as in your display.</td>
</tr>
</tbody>
</table>
Chapter 14: Sharing Presentations, Documents, and Whiteboards

<table>
<thead>
<tr>
<th>Annotation Tool</th>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pointer</td>
<td>🖇️</td>
<td>Lets you point out text and graphics on shared content. The pointer displays an arrow with your name and annotation color. To display the laser pointer, which lets you point out text and graphics on shared content using a red “laser beam,” click the downward-pointing arrow. Clicking this button again turns off the pointer tool.</td>
</tr>
<tr>
<td>Text</td>
<td>📝</td>
<td>Lets you type text on shared content. Participants can view the text once you finish typing it and click your mouse in the content viewer, outside the text box. To change the font, on the Edit menu, choose Font. Clicking this button again turns off the text tool.</td>
</tr>
<tr>
<td>Line</td>
<td>🟢</td>
<td>Lets you draw lines and arrows on shared content. For more options, click the downward-pointing arrow. Clicking this button closes the Rectangle tool.</td>
</tr>
<tr>
<td>Rectangle</td>
<td>🟢</td>
<td>Lets you draw shapes, such as rectangles and ellipses on shared content. For more options, click the downward-pointing arrow. Clicking this button again closes the Rectangle tool.</td>
</tr>
<tr>
<td>Highlighter</td>
<td>🟢</td>
<td>Lets you highlight text and other elements in shared content. For more options, click the downward-pointing arrow. Clicking this button again closes the Highlighter tool</td>
</tr>
<tr>
<td>Annotation Color</td>
<td>🟥</td>
<td>Displays the Annotation Color palette, on which you can select a color to annotate shared content. Clicking this button again closes the Annotation Color palette.</td>
</tr>
<tr>
<td>Eraser</td>
<td>🌌</td>
<td>Erases text and annotations or clears pointers on shared content. To erase a single annotation, click it in the viewer. For more options, click the downward-pointing arrow. Clicking this button again turns off the eraser tool.</td>
</tr>
</tbody>
</table>

Sharing files

File sharing is ideal for presenting information that you do not need to edit during the training session, such as a video or slide presentation. Participants can

- view shared files in their content viewers without the need for the application with which it was created.
view a media file, such as a video, without the need for special software or hardware.

view any animation and transition effects on shared Microsoft PowerPoint slides.

After a training session starts, you can open a presentation or document to share. You do not need to select it or “load” it before the training session.

While sharing a file, you can:

- Draw on the screen More (on page 151)
- Use a pointer to emphasize text or graphics More (on page 151)
- Print it More (on page 231)
- Display it at various magnifications, in miniature (thumbnails), and in a full-screen view More
- Synchronize all participants' displays with the display in your content viewer More
- Save it to a file More (on page 230)

At any time during a meeting, you can grant participants privileges that allow them to annotate, save, print, and display different views of shared content.

Sharing a file

You can share a file, such as a document, presentation, or video, that resides on your computer. Participants view the shared file in their content viewers.

To share a document or presentation:

   The Share File dialog box appears.
2. Select the file that you want to share.
3. Click Open.

The shared file appears in the content viewer.

Tip: See Tips for sharing files (on page 213) for information that can help you to share files more effectively.
Determining whether participants can view a page or slide

When sharing a document or presentation, you can check the Participant Ready indicator to determine whether the page or slide currently displayed in your content viewer is visible to other participants. This indicator is especially useful if you are sharing a UCF media file on a slide, and want to wait until the file loads in all participants' content viewers before you play it.

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>🔄</td>
<td>25% of the page or slide has loaded in the participant's content viewer.</td>
</tr>
<tr>
<td>🔄</td>
<td>50% of the page or slide has loaded in the participant's content viewer.</td>
</tr>
<tr>
<td>🔄</td>
<td>75% of the page or slide has loaded in the participant's content viewer.</td>
</tr>
<tr>
<td>🔄</td>
<td>100% of the page or slide has loaded in the participant's content viewer.</td>
</tr>
</tbody>
</table>

**Note:** If the Participant Ready indicator does not appear to the left of a participant's name in the participant list, the page, slide, or whiteboard in your content viewer is not displayed in the participant's content viewer. For example, the participant may be viewing another slide in your presentation. In this case, you can synchronize all participant's displays with your display. *More…* (on page 226)

Tips for sharing files

These tips can help you share files more effectively.

- To import slide presentations quickly:
  - Limit the number of animations and slide transitions.
  - Minimize the number of screen shots that you add to slides, especially bitmap graphics. Bitmaps do not compress well.
- To improve the speed at which shared pages or slides appear in participant content viewers, save the document or presentation as a .ucf (Universal Communications Format) file before the training session starts. Then share the .ucf file instead of the document or presentation itself. *More…* (on page 230)
You can annotate shared presentations or documents in the content viewer; however, you cannot edit them. If you want to edit shared information, you can use application sharing instead.

If you are sharing a PowerPoint presentation, you can open the PowerPoint Notes panel and view any notes you have added to the slide in the presentation.

Choosing an import mode for presentation sharing

For Windows users only

Before you share a presentation, you can choose one of the following import modes:

- **Universal Communications Format (UCF)**-The default mode. Lets you display animations and slide transitions in Microsoft PowerPoint presentations. In the UCF mode, Training Manager imports presentations more quickly than it does in the printer driver mode. However, pages or slides may not appear consistently in Training Manager across platforms.

- **Printer driver**-Displays shared presentations as they appear when you print them, providing a consistent appearance of pages and slides in Training Manager across platforms. However, this mode does not support animations or slide transitions. In this mode, the first page or slide may appear quickly, but the total import time for all pages or slides is usually longer than it is in the UCF mode.

**Note:** Changing the import mode does not affect any presentations that you are currently sharing. To apply a new import mode to a shared presentation, you must close it first, and then share it again.

To choose an import mode for shared presentations:

1. In the Training Session window, on the **Training Session** menu, choose **Options**.
   
   The Training Session Options dialog box appears, with the **Options** tab selected by default.

2. Click the **Import Mode** tab.
Chapter 14: Sharing Presentations, Documents, and Whiteboards

The Import Mode tab options appear.

3 Select *either* Universal Communications Format or Printer driver.

**Closing shared files**

You can close any files that you are sharing in your content viewer.

To close a shared file:

1 In the content viewer, select the tab for the file that you want to close.
2 On the File menu, choose Close.

   If you have not yet saved any annotations that you made on the document or presentation, a message appears, allowing you to save it.

**Sharing a whiteboard**

Sharing a whiteboard allows you to draw objects and type text that all Participants can see in their content viewers. You can also use a pointer to emphasize text or graphics on a whiteboard.

Other things you can do while sharing a whiteboard:

- Display it at various magnifications, in miniature (thumbnails), and in a full-screen view.
- Copy and paste images into it
- Reorder its position in reference to any other whiteboards
- Print it
Synchronize Participants' displays with the display in your content viewer
More
Save it

If you allow participants to annotate slides and pages, you and participants can draw and type on a whiteboard simultaneously. You can also allow participants to save, print, and display different views of shared whiteboards. For details, see Granting sharing privileges (on page 208).

Starting whiteboard sharing

You can share a whiteboard on which you can draw and write. Participants can view a shared whiteboard in their content viewers.

To share a whiteboard:

On the Share menu, choose Whiteboard.

Note:
- You can add multiple pages to a shared whiteboard. For details, see Adding new pages or slides (on page 221).
- You can share multiple whiteboards. For each whiteboard that you share, you see a new Whiteboard tab in the content viewer.

Closing a shared whiteboard

You can close any whiteboards that you are sharing in your content viewer.

To close a shared whiteboard:

1. In the content viewer, select the tab for the whiteboard you want to close.
2. On the File menu, choose Close.

If you have not yet saved any annotations that you made on the whiteboard, a message appears, allowing you to save it.
Navigating presentations, documents, or whiteboards

When sharing a document, presentation, or whiteboard, you can

- Navigate slides, pages, or whiteboards using the toolbar More… (on page 217)
- Advance pages or slides automatically, at an interval of time that you specify More… (on page 218)
- Perform animations and slide transitions in a presentation More… (on page 219)
- Use keys on your computer's keyboard to navigate a presentation and display animations on the slides More… (on page 220)

Navigating slides, pages, or whiteboards using the toolbar

You can navigate to different pages, slides, or whiteboard “pages” in the content viewer. Each document, presentation, or whiteboard being shared appears on a tab at the top of the content viewer.

To display pages or slides in the content viewer:

1. In the Training Session window, in the content viewer, select the tab for the document, presentation, or whiteboard that you want to display.
   If there are more tabs than can appear at one time, click the Next Tab button to cause the next tab to scroll into view.

2. On the toolbar, click a button to change the page or slide you are viewing.

Click the
- drop-down arrow to select any page or slide
- left arrow to see the previous page or slide
- right arrow to see the next page or slide
If Microsoft PowerPoint slides are being shared, the drop-down list also displays the title of each slide.

**Note:**
- Alternatively, you can navigate to different pages or slides in a shared document, presentation, or whiteboard by opening the thumbnail viewer. For details, see Viewing thumbnails of slides, pages, or whiteboards (on page 224).
- You can advance pages or slides automatically at a time interval that you specify. For details, see Advancing pages or slides automatically (on page 218).
- You can also use the keys on your computer’s keyboard to display different pages or slides and perform animations and slide transitions. For details, see Using keyboard shortcuts to control a presentation (on page 220).
- If your presentation includes animations or slide transitions, you can use the toolbar or keyboard shortcuts to perform them. For details, see Animating and adding effects to shared slides (on page 219).

### Advancing pages or slides automatically

When sharing a document or presentation in the content viewer, you can automatically advance pages or slides at a specified interval. Once you start automatic page or slide advancement, you can stop it at any time.

**To automatically advance pages or slides:**

1. In the Training Session window, in the content viewer, select the tab for the document or presentation for which you want to advance pages or slides automatically.
2. On the **View** menu, choose **Automatically Advance Pages**.
   
   The Automatically Advance Pages dialog box appears.

3. To change the time interval for advancing pages, do one of these:
   - click the up or down buttons to increase or decrease the interval
   - type a specific time interval

   **Optional:** To restart page or slide advancement once all pages or slides are displayed, select the **Return to beginning and continue advancing pages** check box.
4 Click **Start**.

5 Optional. Close the Automatically Advance Pages dialog box by clicking the **Close** button in the upper-right corner of the dialog box.

   The pages or slides continue to advance at the specified interval.

**To stop automatic page or slide advancement:**

1 If you closed the Automatically Advance Pages dialog box, on the **View** menu, choose **Automatically Advance Pages**.

   The Automatically Advance Pages dialog box appears.

2 Click **Stop**.

---

**Animating and adding effects to shared slides**

When sharing a Microsoft PowerPoint slide presentation in the content viewer, you can animate text and slide transitions, just as you can when using the Slide Show option in PowerPoint.

**Note:** To show slide animations and transitions, you must share the presentation as a Universal Communications Format (UCF) file (**.ucf**). The UCF import mode automatically converts a PowerPoint file (**.ppt**) to a UCF file when you share it. *More* (on page 214)

- For best results when sharing a presentation created using Microsoft PowerPoint 2002 for Windows XP, use a computer with an Intel Celeron or Pentium 500 MHz or faster processor.
- Alternatively, use the keys on your computer keyboard to show animations and slide transitions in a PowerPoint slide presentation. For details, see *Using keyboard shortcuts to control a presentation* (on page 220).
- If at least one training session participant is using the Java Training Manager, animations and slide transitions will not display during the training session. The training session host can prevent participants from joining a training session using the Java Training Manager when scheduling the training session.

**To show slide animations and transitions in a shared presentation:**

1 Ensure that the content viewer has input focus by clicking in the viewer.

   The content viewer has input focus if a blue border appears around the outside of the slide in the viewer.

2 On the toolbar, click the appropriate arrows to move through your presentation.
Using keyboard shortcuts to control a presentation

When sharing a document or presentation in the content viewer, you can use the keys on your keyboard to display pages or slides. If you are sharing a Microsoft PowerPoint slide presentation, you can also use keyboard keys to show animations on the slides and in slide transitions, just as you can when using the Slide Show option in PowerPoint.

**Note:** Before using keyboard shortcuts, click in the viewer to set the input focus in the content viewer. A blue border around the shared page or slide indicates that the viewer has input focus.

### Sharing a Presentation

Use these keystrokes to move quickly through your presentation.

<table>
<thead>
<tr>
<th>To...</th>
<th>Press...</th>
</tr>
</thead>
<tbody>
<tr>
<td>Display the next slide or perform the next animation or slide transition</td>
<td>Space Bar, Page Down, Right Arrow, or Down Arrow</td>
</tr>
<tr>
<td>Display the previous slide or perform the previous animation or slide transition</td>
<td>Page Up, Left Arrow, or Up Arrow</td>
</tr>
<tr>
<td>Display the first slide</td>
<td>Home</td>
</tr>
<tr>
<td>Display the last slide</td>
<td>End</td>
</tr>
</tbody>
</table>

**Note:** To show animations and slide transitions, you must share the presentation as a Universal Communications Format (UCF) file. The UCF import mode automatically converts a PowerPoint file to a UCF file when you share it. For information about choosing an import mode, see [Choosing an import mode for presentation sharing](#) (on page 214).
Chapter 14: Sharing Presentations, Documents, and Whiteboards

Sharing a Document

Use these keystrokes to move quickly through your document.

<table>
<thead>
<tr>
<th>To...</th>
<th>Press...</th>
</tr>
</thead>
<tbody>
<tr>
<td>Display the next page</td>
<td>Space Bar, or Page Down, Right Arrow, or Down Arrow</td>
</tr>
<tr>
<td>Display the previous page</td>
<td>Page Up, Left Arrow, or Up Arrow</td>
</tr>
<tr>
<td>Display the first page</td>
<td>Home</td>
</tr>
<tr>
<td>Display the last page</td>
<td>End</td>
</tr>
</tbody>
</table>

Working with pages or slides

When sharing a document, presentation, or whiteboard, you can

- Add new, blank pages or slides for annotation *More* (on page 221)
- Paste images that you copy to your computer's clipboard into a new page or slide in a shared document, presentation, or whiteboard *More* (on page 222)

Adding new pages to shared files or whiteboards

When sharing a file or whiteboard in the content viewer, you can add a new, blank page for annotation.

To add a new page or slide:

1. In the content viewer, select the tab for the document, presentation, or whiteboard to which you want to add a page or slide.
2. Select **Add Page** from the **Edit** menu.

   A new page appears in the content viewer at the end of the currently selected document, presentation, or whiteboard.
Chapter 14: Sharing Presentations, Documents, and Whiteboards

Tip: If you have added multiple pages to a shared file or whiteboard tab, you can view thumbnails to make it easy to view and navigate around your added pages.

Pasting images in slides, pages, or whiteboards

If you copy any bitmap image to your computer's clipboard, you can paste the image into a new page, slide, or whiteboard in the content viewer.

For example, you can copy an image on a Web page or in an application, then quickly share that image by pasting it in the content viewer.

To paste an image in a page, slide, or whiteboard in the content viewer:

1. In the content viewer, select the tab for the document, presentation, or whiteboard in which you want to paste an image.

The image appears on a new page in the content viewer, at the end of the currently selected document, presentation, or whiteboard.

Note: You can paste any type of bitmap image, such as a GIF, JPEG, BMP, or TIF image in the content viewer. However, you cannot paste other types of images—such as EPS or Photoshop (PSD) images—in the content viewer.

Managing views of presentations, documents, or whiteboards

All shared presentations, documents, or whiteboards appear in the content viewer in the Training Session window. A tab at the top of the content viewer appears for each document, presentation, or whiteboard that is being shared.

Depending on your role and the privileges that you have, you can do the following when viewing shared content in the content viewer:

- **Magnify** (on page 223) slides, pages, or whiteboards
- **View thumbnail** (on page 224) of slides, pages, or whiteboards.
- **Display a full-screen view** (on page 224) of a page, slide, or whiteboard.
Chapter 14: Sharing Presentations, Documents, and Whiteboards

- **Synchronize all participant views** (on page 226) of a page or slide with the view that appears in your content viewer

**Zooming in or out**

Using the tools on the content viewer toolbar, you can:

- Zoom in to or out from on a page, slide, or whiteboard
- Adjust the size of a page, slide, or whiteboard to fit the content viewer
- Adjust the size of a page, slide, or whiteboard to fit it width in the content viewer
- Turn off the Zoom tool at any time

**To zoom in to or out from on a page, slide, or whiteboard:**

Do one of the following on the content viewer toolbar:

- To zoom in or out incrementally, click the downward pointing arrow to the left of the **Zoom In/Zoom Out** button, and then choose **Zoom In** or **Zoom Out**. To continuing zooming in or out, click the **Zoom In/Zoom Out** button.
- To zoom in to a specific area, click the downward-pointing arrow to the right of the **Zoom In** button, and then drag your mouse to the area. Release your mouse button.
- To zoom in or out to a preset percentage, click the downward-pointing arrow to the left of the **Zoom In/Zoom Out** button, and then choose the percentage.

**To adjust the size of a page, slide, or whiteboard to fit the content viewer:**

1. On the toolbar, click the downward-pointing arrow to the right of the **Zoom In/Zoom Out** button.

2. On the menu that appears, choose **Fit to Viewer**.
To adjust the size of a page, slide, or whiteboard to fit its width in the content viewer:

1. On the toolbar, click the downward-pointing arrow to the right of the **Zoom In/Zoom Out** button.
2. On the menu that appears, choose **Fit to Width**.

To turn off the zoom tool:
On the toolbar, click the **Zoom In/Zoom Out** button.

### Controlling full-screen view

You can maximize the size of a page, slide, or whiteboard in the content viewer to fit your monitor's entire screen. A full-screen view replaces the normal Training Session window view. You can return to a normal view at any time.

**Note:** If a training session presenter displays a full-screen view of a page, slide, or whiteboard, attendees' screens automatically display a full-screen view as well. However, attendees can control full-screen view independently in their Training Session windows.

To display a full-screen view:

On the content viewer toolbar, click the Full Screen View button.

To return to a normal view:

On the Session Controls Panel, click the stop icon to return to the main window.

### Viewing thumbnails

You can view thumbnails of the shared pages, slides, and whiteboards that appear in the content viewer. Viewing thumbnails can help you to locate quickly a shared page or slide that you want to display in the content viewer.
To view thumbnails of slides, pages, or whiteboards:

1. In the content viewer, select the tab for the document, presentation, or whiteboard for which you want to view miniatures.
2. On the content viewer toolbar, click the **View Thumbnails** button.

   ![View Thumbnails button.](image)

   Thumbnails of all pages or slides in the selected document, presentation, or whiteboard appear in the thumbnail viewer, in the left column.

3. Optional. To display any page or slide in the content viewer, double-click its miniature in the thumbnail viewer.

   **Note**: Participants must have both the **View thumbnails** and **View any page** privileges to display a miniature of a page or slide at full size in the content viewer.

To close the thumbnail viewer:

On the content viewer toolbar, click the **Standard View** button.

![Standard View button.](image)
Synchronizing all participant views

You can synchronize the display of a shared page, slide, or whiteboard in all attendees' content viewers with the display in your viewer. Once you synchronize displays, the page, slide, or whiteboard in attendees’ content viewers appears at the same magnification as in your content viewer.

To synchronize participant views of slides, pages, or whiteboards:
On the View menu at the bottom of the window, select Sync Display for All.

Clearing annotations

You can clear any annotations made by you or another participant on a shared page, slide, or whiteboard in the content viewer. You can clear:

- All annotations at once
- Only specific annotations
- If you are the presenter or host, clear all annotations you have made

To clear all annotations on a shared page, slide, or whiteboard:

1. On the annotation toolbar, click the downward-pointing arrow to the right of the Eraser Tool icon.
2. Choose Clear All Annotations.

Note: Only annotations on the page or slide that currently appears in your content viewer
are cleared. Annotations on other pages or slides are not cleared.

If you are the host or presenter, you can clear all the annotations you've made.

To clear all annotations you have added to a shared page, slide, or whiteboard:
1. On the annotation toolbar, click the downward-pointing arrow to the right of the **Eraser Tool** icon.

2. Choose **Clear My Annotations**.

To clear specific annotations on a shared page, slide, or whiteboard:
1. On the toolbar, click the **Eraser Tool** icon.

   Your mouse pointer changes to an eraser.

2. Click the annotation you want to clear.

To turn off the eraser tool:
On the toolbar, click the **Eraser Tool** icon.

---

**Clearing pointers**

You can clear your own pointers on all shared slides, pages, or whiteboards in the content viewer. If you are a presenter, you can also clear all participant pointers.
To clear your own pointer on all shared slides, pages, or whiteboards:

1. On the toolbar, click the downward-pointing arrow to the right of the **Eraser Tool** icon.

![Eraser tool](image)

2. Choose **Clear My Pointer**.

### Renaming tabs

As you are sharing an item, such as a presentation, in the content viewer, you can easily change its name on the tab. Later, when you end the training session, you can save the document, presentation, or whiteboard with this new name.

**To rename a tab in the content viewer:**

1. Right click the tab name you want to change.

2. Enter the new name on the tab.

3. Press **Enter** or click outside the tab.

   The tab displays the new name.

**Tip:** You can also click the tab name to select it.

This feature is handy if participants have used the annotation tools to make comments and notes or highlight elements in your document. You can save your document with the annotations as a new document, separate from your original.

Of course, you can still use the **Save As** command on the **File** menu to save the document at the end of your training session. Changing the name on the tab itself allows others to see the name you are giving the file. Also, you are making the change at the moment that action is meaningful, rather than at the end of the training session.
Reordering tabs

The tabs in the content viewer are arranged in the order you open them. That order may not be the most logical way to display them. You can easily move the tabs, so the most current and important items are visible.

To reorder the tabs in the content viewer:

1. Right-click any tab.
2. In the Reorder View Tabs dialog box, use the arrows to change the order of the tabs.

Moving a tab up in the order moves that tab to the left in the content viewer.

Tip: To quickly move a tab to the left or right, select the tab and use a drag and drop operation to move it.

Saving, opening, and printing presentations, documents, or whiteboards

Training Session participants (hosts, presenters, and participants with privileges) can access and print documents, presentations, and whiteboards shared in a training session. For example, you can:

- save a shared presentation More (on page 230)
Saving a presentation, document, or whiteboard

You can save any shared document, presentation, or whiteboard that appears in the content viewer. A saved file contains all the pages or slides in the document, presentation, or whiteboard that is currently displayed in the content viewer, including any annotations and pointers that you or other attendees added to them.

Files that you save are in the Universal Communications Format (UCF), which have a .ucf extension. You can open a .ucf file either in another training session or at any time outside of a training session.

Once you save a new document, presentation, or whiteboard to a file, you can save it again to overwrite the file or save a copy to another file.

To save a new document, presentation, or whiteboard that appears in the content viewer:

   The Save Document As dialog box appears.
2. Choose a location at which to save the file.
3. Type a name for the file in the File name box.

To save changes to a saved document, presentation, or whiteboard that appears in the content viewer:

On the File menu, choose Save > Document.

Training Manager saves the changes to the existing file.

To save a copy of a document, presentation, or whiteboard:

1. On the File menu, choose Save As > Document.
   The Save Document As dialog box appears.
2. Do either or both of the following:
   - Type a new name for the file.
   - Choose a new location at which to save the file.
Chapter 14: Sharing Presentations, Documents, and Whiteboards

Opening a saved document, presentation, or whiteboard

If you saved a document, presentation, or whiteboard that appeared in the content viewer during a training session, you can do either of the following:

- Open file in the content viewer during another training session for sharing. Only a presenter or participants who have the **Share documents** privilege can open a saved file during a training session.
- Open the file at any time on your computer's desktop. If you open a saved file on your desktop, it appears in the WebEx Document Manager, a standalone, or “offline,” version of the content viewer.

A saved document, presentation, or whiteboard is in the saved Universal Communications Format (UCF) and has a .ucf extension.

To open a saved document, presentation, or whiteboard file in the content viewer:

1. On the **File** menu, choose **Open and Share**.
   The Share Document dialog box appears.
2. Select the document, presentation, or whiteboard file that you want to open.
3. Click **Open**.

To open a saved document, presentation, or whiteboard on your computer's desktop:

- Double-click the saved file.

The document, presentation, or whiteboard opens in the WebEx Document Viewer.

Printing presentations, documents, or whiteboards

You can print any shared presentations, documents, or whiteboards that appear in your content viewer. A printed copy of shared content includes all added annotations and pointers.

To print shared content:

1. In the content viewer, select the tab for the document, presentation, or whiteboard that you want to print.
On the File menu, choose Print > Document.

Select the printing options that you want to use, and then print the document.

**Note:** When printing shared content in the content viewer, Training Manager resizes it to fit on the printed page. However, for whiteboards, the Training Manager prints only the content that lies within the dashed lines on the whiteboard.

### If you are a training session participant...

If you are participating in a training session, (and have not taken on another role, such as host or presenter), you can move around independently in shared documents and presentations, if the host has assigned these privileges to you. For shared documents, presentations, and whiteboards, you can:

- display any page *More…* (on page 232)
- synchronize your view with the host's view *More…* (on page 233)
- save shared documents *More…* (on page 230)
- open shared documents *More…* (on page 231)
- print shared documents *More…* (on page 231)

### Displaying pages, slides, or whiteboards

**For attendees**

If you have been granted the necessary privileges, you can navigate to different pages, slides, or whiteboard “pages” in the content viewer. Each document, presentation, or whiteboard being shared appears on the top of the content viewer.

To display pages or slides in the content viewer:

1. In the Training Session window, in the content viewer, select the tab for the document, presentation, or whiteboard that you want to display.

   If you have more tabs than can be displayed on the content viewer, click the down-arrow button at the end of the tabs to view the list of other tabs.
Chapter 14: Sharing Presentations, Documents, and Whiteboards

2 On the toolbar, click a button to change the page or slide you are viewing:
3 To display the next page or slide, click the **Next** button.

- To move forward or back between pages, click the left or right arrows.
- To select any page or slide, select it in the **Go To** drop-down list.

**Synchronizing your view of pages, slides, or whiteboards**

During a training session, you can synchronize the display of shared content in your content viewer with the display in the presenter's viewer. This option is useful, for example, if you are viewing a previous slide in a presentation and want to quickly return to the actual slide that the presenter is discussing. Synchronizing your display also resizes it to that in the presenter's content viewer.

To synchronize your view of shared content in the presentation viewer:

In the Training Session window, on the viewing toolbar, click the **Synchronize My Display** button.
Sharing Software

Sharing a tool, like a software application, works differently from sharing a document or presentation. When you share software during a training session, a sharing window opens automatically on all participant screens. You can show, in this special sharing window:

- **an application** (for example, you want to edit a document as a group or show your team how a tool works)

- **computer desktop** (for easily sharing several applications at once and for sharing file directories open on your computer)

- **web browser** (useful for sharing particular Web pages with participants or showing a private intranet)

- **any application or the desktop on a remote computer with Access Anywhere installed on it** (for example, you are on the road, and the computer in your office has the information you need)

Your site settings and your user role in a training session determines your level of participation in sharing software. Whichever role you take, this table describes the basic tasks associated with that role. For detailed instructions on a particular task, select "More" by the task description.
**Chapter 15: Sharing Software**

You can use application sharing to show all training session participants one or more applications on your computer. Application sharing is useful for demonstrating software or editing documents during a training session.

**Sharing applications**

You can use application sharing to show all training session participants one or more applications on your computer. Application sharing is useful for demonstrating software or editing documents during a training session.
Participants can view the shared application, including all mouse movements without having to run the application that you are sharing on their computers.

Here are just a few tasks you can perform:

- Start sharing an application More (on page 237) and open more applications to share More (on page 238)
- Control the appearance and viewing of shared software (pausing, changing to full-screen view, and so on) More (on page 253)
- Annotate and draw on a shared application More (on page 261) and allow participants to draw More (on page 264)
- Learn about sharing application effectively More (on page 274)
- Stop sharing an application More (on page 239)

**Starting application sharing**

*Host or Presenter only*

You can share any application on your computer with training session participants.

**To share an application:**

   
   The list of all applications currently running on your computer is displayed.
2. Do one of the following:
   - If the application you want to share is currently running, select it in the list to begin sharing it.
   - If the application you want to share is not currently running, select Other Application. The Other Application dialog box appears, showing a list of all applications on your computer. Select the application, and then select Share.

Your application appears in a sharing window on participant screens.

For tips that can help you to share applications more effectively, see Tips for Sharing Software (on page 274).

Sharing several applications at once

Host or Presenter only

If you are already sharing an application, you can share additional applications simultaneously. Each application that you share appears in the same sharing window on participant screens.

To share an additional application:

Select the application you want to share:

- If that application is currently running: Select the Share button.

  Each application you have open on your desktop has these buttons in the upper right corner

  Tip: When you open any application that you have minimized, it opens with the sharing buttons in the upper-right corner.

- If the application is not currently running: Select the Share Application button in the Session Controls Panel. You can also find it using File Explorer or any other tool you use to locate applications on your computer. When you open it, it appears with the Share button.

Your application appears in a sharing window on participant screens.

Training Center tracks the number of applications you are currently sharing:
The Share button to the right of Pause lets you select the different types of content you want to share.

**Tip:** Alternatively, you can share multiple applications by sharing your computer's desktop. For details, see *Sharing your desktop.* (on page 240)

**Stopping application sharing for all participants**

*Host or Presenter only*

You can stop sharing an application at any time. Once you stop sharing an application, participants can no longer view it.

If you are sharing multiple applications simultaneously, you can stop sharing either a specific application or all applications at once.

To stop sharing a specific application when sharing multiple applications:

On the title bar of the application that you no longer want to share, select the Stop button, or in the Session Controls Panel, select the STOP button.

To stop sharing all applications:

In the Session Controls Panel, select the STOP button.

You can also pause sharing: Select the Pause button (located next to the Stop button).
Chapter 15: Sharing Software

Sharing your desktop

You can share the entire content of your computer, including any applications, windows, and file directories that reside on it. Participants can view your shared desktop, including all mouse movements.

Tasks related to sharing your desktop:

- Start sharing your desktop *More* (on page 240)
- Manage how participants view your shared software (pausing, changing to full-screen view, and so on) *More* (on page 253)
- Annotate and draw on your desktop *More* (on page 261) and allow participants to annotate *More* (on page 264)
- Read a few tips for sharing your desktop effectively *More* (on page 274)
- Stop sharing your desktop *More* (on page 241)
- Allow a participant to control the shared desktop *More…* (on page 264)

Starting desktop sharing

*Host or Presenter only*

You can share your computer’s desktop with training session participants.

To share your desktop:

   - If you have more than one monitor, a submenu shows the available monitors.
2 Select the monitor to share.

Your desktop appears in a sharing window on participants’ screens.

For ideas that can help you to share your desktop more effectively, see Tips for Sharing Software. (on page 274)

Note: If your desktop has any background images or patterns, or wallpaper, your Training Manager software may remove them from participant views to improve the performance of desktop sharing.

Stopping desktop sharing

You can stop desktop sharing at any time.

To stop sharing your desktop:

In the Session Controls Panel, select the Stop button.

You can also pause sharing: Select the Pause button (located next to the Stop button).

If you are a participant, rather than the presenter, select the Return button to leave the sharing session.
Sharing a Web browser

A presenter uses Web browser sharing to show all training session participants all Web pages that he or she accesses in a browser. Web browser sharing is useful for showing participants Web pages on the Internet, or the presenter’s private intranet or computer.

Participants can view the presenters Web browser, including mouse movements, in a sharing window on their screens.

Tasks related to sharing a Web browser:

- Start sharing a web browser More (on page 242)
- Manage how participants view the shared Web browser More
- Annotate and draw on a shared Web browser More and let a participant draw on a shared Web browser More
- Learn how to share Web browsers effectively More (on page 274)
- Stop sharing a Web browser More (on page 243)

Starting Web browser sharing

*Host or Presenter only*

You can share a Web browser with training session participants.

To share a Web browser:

2. Go to a Web page in your browser.

*Note:* Participants view all new Web browser windows that you open. You can show participants several Web pages simultaneously
Stopping Web browser sharing

You can stop sharing a Web browser at any time.

To stop Web browser sharing:

On the title bar of the application that you no longer want to share, select the Stop button.

Tip: You can temporarily pause Web browser sharing, rather than stopping Web browser sharing. For details, see Pausing and resuming software sharing (on page 254)

Sharing a remote computer

A presenter uses remote computer sharing to show all training session participants a remote computer. Depending on how the remote computer is set up, the presenter can show the entire desktop or just specific applications. Remote computer sharing is useful to show participants an application or file that is available only on a remote computer.

Participants can view the remote computer, including all the presenter's mouse movements, in a sharing window on their screens.

As presenter, you can share a remote computer during a training session if:

- You have installed the Access Anywhere Agent on the remote computer
- You logged in to your Training Center Web site before joining the training session, if you are not the original training session host

For information about setting up a computer for remote access, refer to the Access Anywhere User's Guide.

Tasks related to sharing a remote computer:

- Start sharing a remote computer More (on page 244)
Chapter 15: Sharing Software

- Manage how and what participants view on the shared remote computer (pausing, changing to full-screen view, and so on) *More* (on page 253)
- Change settings on a remote computer while sharing it *More* (on page 247)
- Stop sharing a remote computer *More* (on page 246)

Starting remote computer sharing

*Host or Presenter only*

If you have already set up a computer for Access Anywhere, you can share the computer during a training session.

To share a remote computer:

1. On the **Share** menu, choose **Remote Computer**.
2. The Access Anywhere dialog box appears.
4. Under **Applications**, select an application that want to share.
   - If you set up the remote computer so you can access its entire desktop, the option **Desktop** appears under Applications.
5. Select **Connect**.
Depending on the authentication method you chose when you set up the computer for Access Anywhere, you perform one of these tasks:

- **If you chose access code authentication:** You enter the access code you typed when you set up the remote computer.

- **If you chose phone authentication:** You receive a phone call at the number that you entered when you set up the remote computer.

6. Complete your authentication.

- **If you chose access code authentication:** Type your access code in the box, and then select OK.

- **If you chose phone authentication:** Follow the voice instructions.

**Note:**

- If you are not the original training session host, you must log in to your Training Center Web site before joining a training session in which you want to share a remote computer. If you are already in a training session, but did not log in to your site, you must leave the training session, log in to your site, and then rejoin the training session.

- If a password-protected screen saver is running on the remote computer, your training session service automatically closes it once you provide your access code or pass code.

- If the remote computer is running Windows 2000, and you must log in to the computer, send a Ctrl+Alt+Del command to the computer.

- If you set up the remote computer so you can access multiple applications, you can share additional applications simultaneously.

### Sharing additional applications on a shared remote computer

*Host or Presenter only*

While sharing a remote computer on which you have specified that you can access only specific applications rather than its entire desktop, you can share additional applications on the remote computer. Training Session participants can view all shared applications simultaneously.

**To share an additional application on a shared remote computer:**

1. On the Session Controls Panel, select the down arrow button (it is the last button on the Session Controls Panel). Then choose **Share Remote Application**.
2 In the Select Application box, select the application you want to share.

After you choose another application to share, all previously selected applications remain open.

**Example:** You opened the Paint application first. Then you chose Notepad from the Select Application box. Both applications remain open on the shared desktop.

3 Select OK.

**Stopping remote computer sharing**

*Host or Presenter only*
You can stop sharing a remote computer during a training session at any time. Once you stop sharing a remote computer, the Access Anywhere Server disconnects your local computer from the remote computer. The remote computer remains logged into the Access Anywhere Server, so you can access it again at any time.

**Before you stop remote computer sharing:**

To ensure your privacy and the security of your remote computer, do *one* of the following:

- Close any applications that you started during the sharing session.
- If the remote computer is running Windows 2000, and you have administrator rights on the computer, log off from or lock the computer. To access these options on the computer, send a `Ctrl+Alt+Del` key combination to the remote computer. More… (on page 252)
- Specify a screen saver password, and set the screen saver to appear after a short period of inactivity— for example, 1 minute.
- Shut down the computer, if you do not plan to access it again remotely.

**To stop remote computer sharing:**

On the Session Controls Panel, select **Stop Sharing**.

Sharing stops and you return to Training Session Manager.

**Managing a shared remote computer**

*Host or Presenter only*

While sharing a remote computer during a training session, you can manage the remote computer by setting options and sending commands.

**Options you can set:**

- Disable or enable the keyboard and mouse on the remote computer. More (on page 249)
Chapter 15: Sharing Software

- Reduce the screen resolution on the remote computer to match that of your computer, or restore the resolution on the remote computer More (on page 248)

- Adjust the size of the view of the remote computer that appears in the sharing window, including zooming in to and out from the view and scaling the view to fit the sharing window More (on page 250)

- Hide or display the contents on the remote computer’s screen at the remote location More (on page 251)

**Note:** Any changes that you make to options affect the remote computer only during the current sharing session. The changes do not affect the default options that you set for the remote computer in the Access Anywhere Agent preferences.

**Commands you can send:**

- Ctrl+Alt+Del key combination, which allows you to access options to log in to, log out from, lock, or unlock a Windows PC More (on page 252)

- A command to bring remote applications to the front of your screen, if they are either behind other applications or minimized More (on page 252)

**Reducing the screen resolution for a shared remote computer**

While sharing a remote computer, you can reduce the screen resolution on the remote computer. This option helps to prevent the need to scroll while viewing the desktop or applications on the remote computer. The reduced screen resolution also appears in all participant sharing windows. You can return a remote computer’s screen resolution to its original setting at any time during a remote access session.

**To reduce the screen resolution on a remote computer:**

On the Session Controls Panel, select the down arrow button (it is the last button on the Session Controls Panel). Then choose **Reduce Screen Resolution to Match This Computer.**
Chapter 15: Sharing Software

Note:

- If you reduce the screen resolution a remote computer during a sharing session, the Access Anywhere Agent restores the resolution to its original setting once you end the session.
- You can specify whether or not the remote computer's screen resolution is reduced automatically once you connect to the computer remotely. For details, refer to the Access Anywhere User's Guide.

Disabling and enabling the keyboard when sharing a remote computer

Host or Presenter only

While sharing a remote computer, you can disable the keyboard and mouse on the remote computer, thereby preventing anyone from using the computer while you are accessing it remotely. You can re-enable a remote computer's keyboard and mouse at any time.

To disable or enable a remote computer's keyboard and mouse:

On the Session Controls Panel, select the down arrow. Then choose Disable Keyboard and Mouse.
The down arrow is located at the end of the Session Controls Panel.

A check mark next to the command indicates that the keyboard and mouse are disabled. If no check mark appears, the keyboard and mouse are enabled.

**Note:**
- If you disable a remote computer's keyboard and mouse during a sharing session, the Access Anywhere Agent re-enables them once you end the session.
- You can specify whether or not the remote computer's keyboard and mouse are disabled automatically once you connect to the computer remotely. For details, refer to the *Access Anywhere User's Guide*.

---

**Adjusting the size of the view of a shared remote computer**

*Host or Presenter only*

While sharing a remote computer, you can adjust the size of the shared view using one of these methods:

- Select a preset percentage at which to view the remote computer.
- Zoom in to and out from the remote computer in increments.
- Scale the remote computer view to fit the sharing window in which it appears.

To adjust the size of the view of a shared remote computer:

On the Session Controls Panel, select the down arrow (the last button on the panel) and then choose **View**. Choose a display option from the menu.
Hiding the contents on a shared remote computer's screen

*Host or Presenter only*

While sharing a remote computer, you can make a remote computer's screen blank, thereby preventing anyone at the remote computer's location from viewing the contents of the screen. If the contents on a remote computer's screen are hidden, you can display them at any time.

**To hide or display the contents on a remote computer's screen:**

On the Session Controls Panel, select the down arrow (the last button on the panel) and then choose **Make Screen Blank**.

A check mark next to the command indicates that the contents on the remote computer's screen are not visible. If no check mark appears, the contents on the remote computer's screen are visible.

**Note:**

- If you make a remote computer's screen blank during a sharing session, the Access Anywhere Agent displays the contents on the screen once you end the session.
- You can preset the remote computer screen to be blank after you connect to it. For details, refer to the *Access Anywhere User's Guide*. 
Chapter 15: Sharing Software

Sending a Ctrl+Alt+Del command to a shared remote computer

*Host or Presenter only*

While sharing a remote computer that is running Windows, you can send an **Ctrl+Alt+Del** command to the computer to access options that let you:

- **Log in** to the computer
- **Log out** from the computer
- **Lock** the computer
- **Unlock** the computer

To send a Ctrl+Alt+Del command to a shared remote computer:

On the Session Controls Panel, select the down arrow (the last button on the panel) and then choose **Make Screen Blank. Send Ctrl+Alt+Del**.

Selecting an application on a shared remote computer

*Host or Presenter only*

If you have set up a remote computer to share only selected applications, rather than the entire desktop, you can only work with one application at a time. You can easily switch and share a different application.

To choose a different application to share:

On the Training Session Controls panel, select the down arrow. Then choose **Share Remote Application**.

Select the application you want to share from the list of available application.

Chapter 15: Sharing Software

Role | Task description:
--- | ---
Participant | • Control your view of shared software *More* (on page 258)
 | • Close your sharing window *More* (on page 259)

The presenter can control participant views of a **shared desktop, remote computer** (if available), **application** or **Web browser**.

Participants can manipulate their individual displays of the shared software.

### Pausing and resuming software sharing

*Host or Presenter only*

While sharing software, you can temporarily pause sharing to freeze attendees' views.

If you want to return attendees to the Training Session window while sharing software, pausing shared software conserves resources on your computer and bandwidth for your Internet connection. This option is also useful if you do not want attendees to see certain actions that you take with shared software.

You can resume sharing to restore attendees' views of shared software at any time.

**To pause software sharing:**

Select the **Pause** button, located to the right of the **Stop** button.
Chapter 15: Sharing Software

The word "Paused" now appears in the panel. A short message is displayed indicating that the participant view would be frozen until you resume sharing. Additionally, the Pause button text changes to Resume.

To resume software sharing:
Select the Resume button.

Controlling full-screen view of shared software

*Host or Presenter only*

You can switch participant views of a shared application, remote computer (if available), or Web browser between a standard window and a full-screen view.

A full-screen view of shared software fits participant entire screens and does not include a title bar or scroll bars.

Participants can override your setting to control full-screen view or to zoom in or out on the shared software on their computers.

To display shared software in a full-screen view:
On the Session Controls Panel, select the down arrow (the last button on the panel) and then choose View. Then choose Full screen for Participants.
Synchronizing views of shared software

*Host or Presenter only*

While sharing an application, desktop (if desktop sharing is available), or Web browser, you can synchronize all participant views of the software with your view.

Synchronizing views of shared software ensures that the sharing window appears as the active window on participant screens. For example, if a participant has minimized the sharing window, or moved another window on top of it, the sharing window becomes the active window when you synchronize views.

**Note:** Synchronizing views has no effect on the size in which the shared software appears on participant screens. Participants can control the size of their views independently.

To synchronize your view with participants:

On the Session Controls Panel, select the down arrow (the last button on the panel) and then choose View. Then choose Synchronize for All.
Selecting a monitor to share

To select a monitor to share:

1. Start sharing your desktop:
   - On the Quick Start page, select **Share Desktop**.
     If two or more monitors are detected on your system, a window appears and allows you to select one of the monitors.

   - On the **Share** menu, select **Desktop**.
     A submenu shows the available monitors.

2. Select the monitor you want to share.

   The Session Controls Panel indicates which monitor you are sharing. If you are sharing the same monitor where the Session Controls Panel is, it says, "You are sharing this monitor."
Chapter 15: Sharing Software

If you are sharing a monitor that is not the same monitor where the Session Controls Panel is, it says, "You are sharing monitor <number>.”

In addition, a green border appears around the monitor you are sharing.

To select a different monitor to share:

1. On the Meeting Control Panel, select the Select Content to Share button.

2. In the submenu that appears, select Share Desktop.
   A submenu shows you the available monitors.

3. Select the monitor number you want to share.
   The Session Controls Panel indicates which monitor you are sharing. In addition, a green border appears around the monitor you are sharing.

Controlling your view as a participant

Participant only

When viewing or remotely controlling shared software, you can set these options, which determine how shared software appears on your screen:
Display the shared software in a full-screen view or a standard window. A full-screen view of a shared application or desktop fits your entire screen and does not include a title bar or scroll bars.

Scale, or resize, a shared desktop or application to fit the full-screen view or standard window in which it appears.

To control your view of shared software:

On the Session Controls Panel, select the down arrow (the last button on the panel) and then choose View. Then choose an option from the menu.

Tip: To switch quickly from the standard window to a full-screen view of shared software, double-click the shared software.

Closing your participant sharing window

Participant only

While viewing or remotely controlling shared software, you can close the sharing window in which the software appears at any time. Closing a sharing window returns you to the Training Session window. If you close a sharing window, you can reopen it at any time.
To close a sharing window:

1. On the Session Controls Panel, select the down arrow (the last button on the panel) and then choose **Stop <option>** from the menu. The following graphic shows the **Stop Application Sharing** option because an application has been shared. If you have shared your desktop or Web Browser, the menu would show **Stop Desktop Sharing**.

![Stop Application Sharing](image)

2. Choose the appropriate option.

   The sharing window closes. The Training Session window then automatically opens.

To return to the sharing window at any time:

In the Training Session window, on the **Sharing** menu, select a sharing option (**desktop**, remote computer, **application** or **Web browser**).

**Switching your participant view**

*Participant only*

While a presenter is sharing software, you can return to the Training Session window at any time. The sharing window remains open on your computer, so you can return to viewing the shared software at any time.

To return to the Training Session window while the presenter is sharing software:

On the Session Controls Panel, select the **Return to Training Session Window** icon.
Chapter 15: Sharing Software

The Training Session window then appears.

To return to a sharing window:

In the Application Share dialog box, which appears in the Training Session window, select Return to Sharing.

Annotating shared software

<table>
<thead>
<tr>

</tr>
<tr>
<td>▪ Save annotations More (on page 267)</td>
</tr>
</tbody>
</table>
Chapter 15: Sharing Software

Task description:

- Ask for permission to use annotation More (on page 265)
- Use annotation tools More (on page 263)
- Save annotations More (on page 267)
- Give up annotations More (on page 266)

Participant

You can annotate a shared desktop, application or Web browser during a training session, using the highlighter or other annotation tool.

Training Session participants can see annotations in their sharing windows.

Starting and stopping annotation

Host or Presenter only

When you are sharing a desktop, application or Web browser, you can make annotations on the software.

Participants can see all your annotations.

To start annotating shared software:

1. On the Training Session Controls panel, select the Annotate button.

   The Annotation button has the image of a pencil on it.

   The Tools panel appears.

2. Select a tool for making annotations.

   For details about annotation tools, see Using annotation tools (on page 263).
Note:

- You can let one or more participants annotate the shared software. For details, see Copy of Letting a participant annotate shared software (on page 264).
- Once you or a participant makes annotations, you can save an image of the software, including the annotations. For details, see Taking a screen capture of annotations on shared software (on page 267).

To stop making annotations on shared software and return your mouse to a normal pointer, you must stop annotation mode.

**To stop annotation mode:**

Select the Stop Annotating button in the Tools panel.

---

**Using annotation tools**

If, while sharing software, you are the presenter or the presenter allows you to annotate, you can use the Annotation Tools panel that appears to make annotations. The Annotation Tools panel provides a variety of tools for annotating a shared desktop or application.

<table>
<thead>
<tr>
<th>Annotation Tool</th>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pointer</td>
<td>![Pointer Icon]</td>
<td>Lets you point out text and graphics on shared content. The pointer displays an arrow with your name and annotation color. To display the laser pointer, which lets you point out text and graphics on shared content using a red “laser beam,” click the downward-pointing arrow.</td>
</tr>
</tbody>
</table>
### Chapter 15: Sharing Software

<table>

<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clicking this button again turns off the pointer tool.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

| Text | Lets you type text on shared content. Participants can view the text once you finish typing it and click your mouse in the content viewer, outside the text box. To change the font, on the Edit menu, choose Font. Clicking this button again turns off the text tool. |
| Line | Lets you draw lines and arrows on shared content. For more options, click the downward-pointing arrow. Clicking this button closes the Rectangle tool. |
| Rectangle | Lets you draw shapes, such as rectangles and ellipses on shared content. For more options, click the downward-pointing arrow. Clicking this button again closes the Rectangle tool. |
| Highlighter | Lets you highlight text and other elements in shared content. For more options, click the downward-pointing arrow. Clicking this button again closes the Highlighter tool. |
| Annotation Color | Displays the Annotation Color palette, on which you can select a color to annotate shared content. Clicking this button again closes the Annotation Color palette. |
| Eraser | Erases text and annotations or clears pointers on shared content. To erase a single annotation, click it in the viewer. For more options, click the downward-pointing arrow. Clicking this button again turns off the eraser tool. |

### Letting a participant annotate shared software

*Host or Presenter only*

You can let one or more training session participants annotate a shared desktop (if available), application or Web browser.

You can let several participants annotate shared software at the same time.
To let a participant annotate shared software:

1. On the Session Controls Panel, select the **Annotate** icon.

   The tools panel appears.

2. Select the down arrow on the **Allow to Annotate** button.

3. On the menu that appears, choose which participants can annotate the shared software:

   You can choose "All" or select someone from the list.

   **Note:**
   - You can stop a participant from annotating shared software at any time. For details, see *Stopping a participant from annotating shared software.* (on page 266)

**Requesting annotation control of shared software**

*Participant only*

If a presenter is sharing a **desktop, Web browser or application**, you can ask the presenter to allow you to annotate the shared software.

After you have permission, you can:

- Make annotations by highlighting areas on the software, drawing lines and shapes, typing text, and using pointers.
- Clear annotations at any time.
- Change the color that you are using to make annotations.
- Save an image of your annotations on the shared software.
To request annotation control of shared software:

1. In the Session Controls Panel, select the **Annotate** button.

   ![Annotate button](image)

   The **Annotate** button has the image of a pencil on it.

   A request message appears on the presenter's screen.

   After the presenter allows you to annotate, the Annotation Tools panel appears:

   ![Annotation Tools panel](image)

2. Select the tool you want to use.

3. Optional. Choose another annotation tool. For details, see *Using annotation tools* (on page 263).

   **Note:** If you are controlling shared software remotely, the presenter must take back control to turn on annotation mode. You and the presenter can then annotate the shared software simultaneously.

### Giving up annotation control

*Participant only*

If the presenter has granted permission to you to annotate, you can stop annotating at any time.

**To stop annotating:**

In the Annotation Tools panel, select the **Stop Annotating** button.
Stopping an participant from annotating shared software

*Host or Presenter only*

If a participant is annotating shared software, you can turn off the annotation feature.

To turn off the drawing feature:
1. On the Session Controls Panel, select the **Assign Control** button.
2. On the menu that appears, choose **Allow to Annotate**.
   
   A check mark appears next to the names of those who can annotate the shared software.
3. Choose the name of the participant to cancel the selection.

Taking a screen capture of annotations on shared software

If you make annotations on shared software, you can save an image of the shared software, including all annotations and pointers, to a WebEx Universal Communications Format (.ucf) file. You can open a .ucf file on your computer desktop or in the content viewer in a training session.

**Note:** Participants cannot use this option unless the Host or Presenter grants the **Screen Capture** privilege to them. As Host, if you are sharing proprietary software, you may want to ensure that this privilege is turned off.

To take a screen capture of annotations on shared software:
1. On the Tools panel, select the **Screen Capture** button.
The Save As dialog box appears.

2. Choose a location at which to save the file, and then select **Save**.

**Note:** The file you save is an image of your entire desktop.

---

**Granting participants control of shared software**

While sharing the following types of software, the presenter can let a participant control it remotely:

- Application
- Desktop (if available)
- Web browser

A participant who has remote control of shared software can interact with it fully. While a participant is controlling shared software, the presenter's mouse pointer is inactive.

**Rules of thumb for controlling shared software:**

- Any participant can send a request to control the software remotely. *More* (on page 269)
- The presenter can then grant control to the participant. *More* (on page 269)
- Alternatively, the presenter can automatically grant control of shared software to any participant who requests remote control. *More* (on page 270)
- The presenter can stop a participant from remotely controlling shared software at any time. *More* (on page 271)

**Caution:** A participant who has remote control of the presenter's desktop can run any programs and access any files on the computer that the presenter has not protected with
Chapter 15: Sharing Software

a password.

Requesting remote control of shared software

Participant only

If the presenter is sharing an application, desktop, or Web browser, you can ask the presenter to grant remote control to you.

Once you assume remote control of shared software, you can interact with it fully.

To request remote control of shared software:

On the Session Controls Panel select Ask to Control.

A request message appears on the presenter's screen.

Tip: While remotely controlling shared software, you can request the presenter to allow you to annotate it. For details, see Requesting annotation control of shared software. (on page 265)

Letting a participant remotely control shared software

Host or Presenter only

If you are sharing software, you can let a participant control it remotely.

To let a participant remotely control shared software:

1 On the Session Controls Panel select the down-arrow button on the Assign button.
Chapter 15: Sharing Software

2 On the menu that appears, choose Pass Keyboard and Mouse Control > [name of participant].

Automatically letting participants remotely control shared software

*Host or Presenter only*

While sharing software, you can automatically grant control of the software to a participant who requests control. In this case, a participant who requests remote control automatically takes control of the software that you are sharing. While automatic remote control is turned on, any participant can take control away from any other participant by requesting remote control.

To automatically let participants control shared software:

1 On the Session Controls Panel select the down-arrow button on the Assign button.

2 On the menu that appears, choose Pass Keyboard and Mouse Control > Auto Accept All Requests.

To stop letting participants control shared software automatically:

1 On the Session Controls Panel select the down-arrow button on the Assign button.
2 On the menu that appears, choose Pass Keyboard and Mouse Control. Then select Auto Accept All Requests to remove the check mark and cancel the selection.

Stopping remote control of shared software

Host or Presenter only

While a participant is remotely controlling a shared application, desktop, or Web browser, you can take back control of the shared software at any time. You can do either of the following:

- Take back remote control of shared software temporarily, allowing a participant to take control at any time.
- Prevent a participant from further controlling shared software.

To take back control a shared software temporarily:

On your computer's desktop, select your mouse.

You can now control the shared software.

The participant who was controlling the shared software can take back control at any time by clicking his or her mouse.

To prevent a participant from further controlling a shared software:

1 On your computer's desktop, click your mouse.

You can now control the shared software.

On the Session Controls Panel select the down-arrow button on the Assign button.

2 On the menu that appears, choose Pass Keyboard and Mouse Control.
A menu appears, containing a list of all participants in the training session. A check mark appears to the left of the participant who has remote control.

3 Choose the participant's name to remove the check mark and cancel the selection.

Sharing applications with detailed color (Windows)

For Windows users only

By default, Training Manager sends images of shared software using 16-bit color mode, which is the equivalent of your computer's “High Color” (16-bit) setting. This mode provides an accurate representation of color for most shared applications. However, if your shared application contains detailed color images—such as color gradients—the color may not appear accurately on participants' screens. For example, color gradients may appear and color "bands.”

If the accuracy and resolution of color in a shared application is important, you can turn on True Color mode in Training Manager. Using this mode, however, may affect the performance of application sharing.

When using True Color mode, you can select one of the following options:

- Better imaging (no image compression)
- Better performance (some image compression)

“Performance” refers to the “speed” at which images appear on participant screens, and “imaging” refers to the quality of the color in shared images.

Note: Before turning on True Color mode, ensure that your monitor display is set to True Color (either 24- or 32-bit color). For more information about setting options for your monitor, refer to Windows Help.

To turn on True Color mode:

1 If you are currently sharing an application, stop your sharing session.

2 On the Training Session menu, choose Training Session Options.
   The Training Session Options dialog box appears.

3 Select the True Color Mode tab.

4 Select Enable True Color mode.
5 Select one of the following options:
   - Better imaging
   - Better performance
6 Select OK or Apply.

Sharing applications with detailed color (Mac)

For Mac users only

Before sharing an application or your desktop, you can choose one of the following display modes:

- **Better performance**: The default mode. Lets you display your content faster than you do using the better image quality mode.
- **Better image quality**: Lets you display your content with better image quality. In this mode, your shared content may take longer time to display than in the better performance mode.

**Note**: Changing the display mode does not affect presentation or document sharing.

To choose a display mode for your shared desktop or applications:

1. In the Training Session window, on the Training Center menu, choose Preferences.
   The Preferences dialog box appears.
2. Select Display.
3 Select **Better performance** or **Better image quality**, as appropriate.

**Tips for sharing software**

The following tips can help you to share software more effectively:

- **Application sharing only**: To save time during a training session, ensure that any applications you intend to share are open on your computer. At the appropriate time during the training session, you can then quickly begin sharing an application, without waiting for the application to start.

- If participants cannot see all of the shared software without scrolling their sharing windows, they can adjust their views of the shared software. They can reduce the size of the shared software in decrements, or scale it to fit inside their sharing windows.

- To improve the performance of software sharing, close all applications that you do not need to use or share on your computer. Doing so conserves processor usage and memory on your computer, thus helping to ensure that Training Manager can send images of shared software quickly during a training session. Also, to ensure that a maximum amount of bandwidth is available for software sharing, close any applications that use bandwidth, such as instant messaging or chat programs, and programs that receive streaming audio or video from the Web.

- If you are sharing an application for which the rendering of color on participants' screen is important, you can improve color quality by turning
on True Color mode. For details, see *Sharing applications with detailed color* (on page 272).

- **Application and Web browser sharing only:** Avoid covering a shared application or Web browser with another window on your computer's desktop. A crosshatched pattern appears in participant sharing windows where the other window is covering the shared application or browser.

- **Application and Web browser sharing only:** If you want to switch your display between shared software and the Training Session window, you can pause software sharing before you return to the Training Session window, and then resume sharing once you return to the shared application. Pausing software sharing conserves processor usage and memory on your computer while you view the Training Session window. For details, see *Pausing and resuming software sharing.* (on page 254)

- **Application and Web browser sharing only:** If you have more than one monitor, when you share an application or web browser, the participants can see it on whichever monitor you are displaying it. If you move the application or Web browser to another monitor, it is still visible to the participants. If you are sharing more than one application, the participants will see the best view if you make sure the applications are displaying on the same monitor.

- Because software sharing requires additional bandwidth during a training session, it is recommended that you use a dedicated, high-speed Internet connection when sharing software. However, if participants are using dial-up Internet connections, they may notice a delay in viewing or controlling shared software. If you want to share a document, such as a Microsoft Word or Excel document, you can improve the training session experience for these participants by using document sharing instead of application sharing.
Sharing Web Content

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of sharing Web content</td>
<td><em>About sharing Web content</em> (on page 277)</td>
</tr>
<tr>
<td>share Web content with meeting participants</td>
<td><em>Sharing Web content</em> (on page 278)</td>
</tr>
<tr>
<td>understand the differences between sharing a browser and sharing Web content</td>
<td><em>Differences between sharing Web content and sharing a Web browser</em> (on page 278)</td>
</tr>
</tbody>
</table>

**About sharing Web content**

You can share Web content that resides on:

- The public Internet or Web
- Your company's intranet
- Your computer or another computer on your private network

Web content includes:

- Web pages, including pages that contain embedded media files, such as Flash, audio, or video files
- Standalone media files, such as Flash, audio, or video files

The Web content that you share opens in the content viewer on each participant's screen. If you share a Web page, participants view and interact independently with the content on the page. If the page contains links to other pages, they can also navigate independently to those pages.
If you use Web content sharing, then, participants can experience audio and video effects on a Web page. However, unlike Web browser sharing, this option does not allow you to guide participants to other Web pages. For more information, see *Differences between sharing Web content and sharing a Web browser* (on page 278).

**Important:** If you share content that requires a media player, participants can view and interact with the content only if the appropriate player is installed on their computers.

### Sharing Web content

You can share a Web page that contains multimedia effects. The page opens in the content viewer on each participant’s screen.

**To share Web content:**

1. On the **Share** menu, choose **Web Content**.
   
   The Share Web Content dialog box appears.

2. In the **Address** box, enter the address, or URL, at which the content resides.
   
   Or, if you have previously shared the content, select it in the drop-down list.

3. In the **Type** box, select the type of Web content that you want to share.

4. Click **OK**.

**Tip:** You can copy a URL from any source, such as another browser window, and then paste it in the **Address** box.

### Differences between sharing Web content and sharing a Web browser

Training Center provides two options for sharing Web-based information. You can share Web content or share a Web browser with training session participants. Choose the feature that better suits your needs.
# Chapter 16: Sharing Web Content

## Sharing option

<table>
<thead>
<tr>
<th>Sharing option</th>
<th>Advantages</th>
<th>Disadvantages</th>
</tr>
</thead>
<tbody>
<tr>
<td>Web browser sharing</td>
<td>• Lets you guide participants to various Web pages and sites on the Web.</td>
<td>• Does not display media effects or transmit sounds on Web pages.</td>
</tr>
<tr>
<td></td>
<td>• Lets you grant attendees control of your Web browser.</td>
<td>• Does not let participants interact with Web pages independently.</td>
</tr>
<tr>
<td></td>
<td>• Lets you and other participants annotate Web pages.</td>
<td></td>
</tr>
<tr>
<td>Web content sharing</td>
<td>• Displays Web pages, and lets participants experience media effects on Web pages, including video and sound.</td>
<td></td>

<td>Does not let you guide participants to other Web pages.</td>
</tr>
</tbody>
</table>
Transferring and Downloading Files During a Training Session

During a training session, you can publish files that reside on your computer. Training Session participants can then download the published files to their computers or local servers. Publishing files is useful if you want to provide participants with a document, a copy of your presentation, an application, and so on.

Files that you publish reside only on your computer - not on a server. Thus, your published files are always protected from unauthorized access during a training session.
Chapter 17: Transferring and Downloading Files During a Training Session

Publishing files during a Training Session

During a training session, you can publish files that reside on your computer, and training session attendees can download the files to their computers or local servers.

To publish files during a training session:

1. In the Session window, on the File menu, choose Transfer.
   The File Transfer window appears.

2. Click Share File.
   The Open dialog box appears.

3. Select the file that you want to publish.

4. Click Open.
   The file appears in the File Transfer window.
   The file is also now available in each attendee's File Transfer window.

5. Optional. Publish additional files that you want attendees to download.

Note: The number of attendees that have the File Transfer window open, including you, appears in the lower-right corner of the File Transfer window.
To stop publishing files during a training session:

In the title bar of the File Transfer window, click the **Close** button.

Training Manager closes the File Transfer window in each attendee's Session window.

### Downloading Files During a Training Session

If a presenter publishes files during a training session, the File Transfer dialog box automatically appears in your Session window. You can then download the published files to your computer or a local server.

**To download files during a training session:**

1. In the File Transfer window, select the file that you want to download.
2. Click **Download**.
   
   The Save As dialog box appears.
3. Choose a location at which to save the file.
4. Click **Save**.
   
   The file downloads to your selected location.
5. If applicable, download additional files.
6. Once you finish downloading files, in the title bar of the File Transfer window, click the **Close** button.

**Note:** To reopen the File Transfer window at any time, from the **File** menu, choose **Transfer**. This option is available only if the presenter is currently publishing files.

</table>

**About polling attendees**

During a training session, you can poll attendees by presenting them with a questionnaire on which they can select multiple-choice answers. Taking a poll can be useful for gathering feedback from attendees, allowing attendees to vote on a proposal, testing attendees' knowledge of a topic, and so on.

To take a poll, you must first prepare a poll questionnaire. You can prepare a questionnaire at any time during a training session. Or, to save time during a training session, you can prepare a questionnaire before a training session's starting time, save it, and then open it for use during the training session.

Once you close a poll, you can view the results and share them with attendees. You can also save the results of a poll for viewing outside of a training session.

About preparing a poll questionnaire

On the Polling panel, you can prepare a poll questionnaire that includes multiple-answer, single-answer, and text questions. Once you complete a questionnaire, you can open the poll at any time during a training session.

Composing poll questions and answers

You can create a questionnaire at any time after you start a training session. The following figure shows a portion of the Polling panel, which offers the tools you use to compose a questionnaire.

Tip To save time during a training session, you can prepare a poll questionnaire before attendees join a training session, save it, and then open it for use during the training session.

To compose a questionnaire:

1. Click the Polling tab.

The Polling panel appears.
2 Under **Question Type**, select the type of question you want to compose by doing *one* of the following:

- To compose a multiple-answer question, select **Multiple choice**, and then choose **Multiple Answers** in the drop-down list.
- To compose a single-answer question, select **Multiple choice**, and then choose **Single Answer** in the drop-down list.

- To compose a text question, select **Short answer**.

**Note:** Mac users will set the question type when adding an answer.

3 Click **New**. Mac users will click the Add New Question icon.
4 Type a question.

Poll Questions:

| How did you like the presentation? |

5 In the Answer section, click Add. Mac users will click the Add an Answer icon.

An answer box appears below the question.

Poll Questions:

1. How did you like the presentation?
6 Type an answer to the question in the box that appears. You can enter additional answers in the same manner.

The question and answers appear in the Poll Questions area.

7 To add questions, repeat steps 2 to 7.

The following figure shows an example of a poll questionnaire.

### Poll Questions:

1. **What is your favorite color?**
   - a. blue
   - b. red
   - c. green
   - d. black

2. **What do you enjoy doing at leisure?**
   - a. reading
   - b. watching movies
   - c. traveling
   - d. sports

3. **Please give us feedback about this event.**

---

**Tip:** While you are creating a poll questionnaire, Training Center automatically saves it every two minutes to the WebEx folder in the My Documents folder on your computer. If you ever lose your poll questionnaire, you can easily recover it in the designated folder.

---

**Editing a questionnaire**

You can change the type of a question and edit, rearrange, or delete the questions and answers.

**To change the type of a question:**

1. Select the question by clicking it, and then select the new type of question in the Question section.

   For more information about the different types of questions, see *Composing poll questions and answers* (on page 286).

2. Click **Change Type**.
Chapter 18: Polling Attendees

To edit any question or answer that you typed:
1. Select the question or answer by clicking it, and then click the **Edit** icon.

2. Make your changes.

To delete a question or an answer:
Select the question or answer by clicking it, and then click the **Delete** icon.

To rearrange questions or answers:
Select the question or answer by clicking it, and then click the **Move Up** or **Move Down** icon, as appropriate.

To delete an entire questionnaire:
Click **Clear All**.

If you have not saved the questionnaire, a message box appears, asking whether you want to save it or not.

**Renaming and reordering polling tabs**

You can easily change a tab name or change the tab order within the Polling panel.

**Note:** For Mac users, select ctrl and then click the tab to see additional options.
To rename a tab in the content viewer:

1. Do one of the following:
   - Right-click the tab name and select Rename.
   - Double-click the tab name.
2. Enter the new name on the tab.
3. Press Enter or click outside the tab.
   This tab displays the new name.

To reorder the tabs in the content viewer:

1. Right-click any tab and select Reorder Polling Tabs.
2. In the Reorder Viewer Tabs dialog box, use the arrows to change the order of the tabs.
   Moving a tab up in the order moves that tab to the left in the content viewer.
3. Click OK.

**Tip:** To quickly move a tab to the left or right, select the tab and use a drag and drop operation to move it.

---

**Displaying a timer during polling**

You can specify that a timer displays for attendees and yourself when a poll is in progress.

**To display a timer:**

1. Click Options.

On the Mac, select the Set Options icon.
In the dialog box that appears, select **Display**, and then type the length of time in the **Alarm**: box.

3. Click **OK**.

## Opening a poll

Once you finish preparing a poll questionnaire, you can open the poll.

If you prepared your questionnaire in advance and saved it, you must first open it on the **Polling** panel. For details, see *Opening a poll questionnaire file* (on page 298).

**To open a poll:**

1. Open the **Polling** panel.
2. Click **Open Poll**.

   The questionnaire appears on attendees' **Polling** panels. Attendees can now fill out the questionnaire.

As attendees answer the questions, you can watch the polling status on your **Polling** panel. The following figure shows an example.

<table>
<thead>
<tr>
<th>Polling status</th>
<th>2/3 (67%)</th>
<th>0/3 (0%)</th>
<th>1/3 (33%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Not started</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>In progress</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Finished</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Remaining time</td>
<td>4:54</td>
<td>Time limit: 10:00</td>
<td></td>
</tr>
</tbody>
</table>

3. Click **Close Poll** when the time is up.

   If you specify a timer and the poll times out, the poll automatically closes.

   Attendees can no longer answer questions.

Once you close a poll, you can view the poll results and optionally share them with attendees. For details, see *Viewing and sharing poll results* (on page 294).
Answering polls

<table>
<thead>

<td><em>Viewing poll results</em> (on page 293)</td>
</tr>
</tbody>
</table>

Filling out a poll questionnaire

Once the presenter opens a poll during a training session, the poll questionnaire appears on your Polling panel.

To fill out a poll questionnaire:
1. Select the option buttons or check boxes for each question.
2. If the questionnaire includes text questions, type your answers in the boxes.
3. When you finish answering the questionnaire, click **Submit**.

If the presenter shares the results of the poll, you can view them on your Polling panel. For details, see *Viewing poll results* (on page 293).

Viewing poll results

After the presenter closes a poll, the presenter can share the results with training session attendees. Shared results appear on your Polling panel.

The following figure shows an example of shared poll results:
Chapter 18: Polling Attendees

The Results column indicates the percentage of attendees who chose each answer. The Bar Graph column provides a graphic representation of each percentage in the Results column. The Questions column shows your answers.

<table>
<thead>
<tr>
<th>Questions</th>
<th>Results</th>
<th>Bar Graph</th>
</tr>
</thead>

</tr>
</thead>
<tbody>
<tr>
<td>view and understand poll results</td>
<td>Viewing poll results (on page 294)</td>
</tr>
<tr>
<td>share poll results with attendees after you close a poll</td>
<td>Sharing poll results with attendees (on page 295)</td>
</tr>
</tbody>
</table>

Viewing poll results

Once you close a poll, you can view the complete results of the poll and share them with attendees.

The following figure shows an example of your Polling panel after you close a poll. The Results column indicates the percentage of attendees who chose each answer. The Bar Graph column provides a graphic representation of each percentage in the Results column.
Note: Training Manager bases the percentage of attendees who chose each answer on the total number of attendees in the training session, not the total number of attendees who filled out the questionnaire.

Sharing poll results with attendees

After you close a poll, you can share the following with attendees:

- Poll results—shows the poll results in the attendee's Polling panel
- Individual Results—shares an attendee results document in a Web browser with the attendee
- Correct answers—shows the correct answers in the Polling panel
- Individual's grades—shows the attendee's grade in the Polling panel
To share the results of a poll:

1. In the **Share with attendees** section on your Polling panel, select **what you would like to share**.
2. Click **Apply**.

### Saving and opening poll questionnaires and results

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

### Saving a poll questionnaire

Once you create a poll questionnaire, you can save it as an `.atp` file. You can open the file for use in any training session. For more information about preparing a poll questionnaire, see *Composing poll questions and answers* (on page 286).

If you make changes to a poll questionnaire after you save it, you can either save the changes to the same file or save a copy of the questionnaire to another file.

**To save a new poll questionnaire:**

1. On the **File** menu, choose **Save > Poll Questions**.
   - The Save Poll Questions As dialog box appears.
2. Choose a location at which to save the file.
3. Type a name for the file.
Chapter 18: Polling Attendees

4 Click **Save**.

Training Manager saves the poll questionnaire to a file at the location you specified. Poll questionnaire file names have an **.atp** extension.

To save changes to a poll questionnaire that you previously saved:

On the **File** menu, choose **Save > Poll Questions**.

Training Manager saves the changes to the existing poll questionnaire file.

To save a copy of a poll questionnaire:

1 On the **File** menu, choose **Save As > Poll Questions**.

The Save Poll Questions As dialog box appears.

2 Do **either or both** of the following:
   - Type a new name for the file.
   - Choose a new location at which to save the file.

3 Click **Save**.

Training Manager saves the poll questionnaire to a file at the location you specified. The names of poll questionnaire files have an **.atp** extension.

**Saving poll results**

If you conduct a poll and then share its results, you can save the results to a text, or **.txt**, file.

Once you save poll results to a file, you can save changes to the poll results or save a copy of the results to another file.

**Tip:** Training Center automatically saves poll results every two minutes to the WebEx folder in the My Documents folder on your computer. If you ever lose your poll results, you can easily recover them in the designated folder. Training Center saves both group and individual results.

To save new poll results:

1 Close the poll if you have not done so.

2 On the **File** menu, choose **Save > Poll Results**.
Chapter 18: Polling Attendees

The Save Poll Results As dialog box appears.

3  Choose a location at which to save the file.
4  Type a name for the file.
5  Click **Save**.

Training Manager saves the poll results to a file at the location you specified. The names of poll results files have a `.txt` extension.

To save changes to poll results that you previously saved:

On the **File** menu, choose **Save > Poll Results**.

Training Manager saves the changes to the existing poll results file.

To save a copy of a poll results:

1  On the **File** menu, choose **Save As > Poll Results**.

   The Save Poll Results As dialog box appears.

2  Do **either or both** of the following:

   ▪  Type a new name for the file.
   ▪  Choose a new location at which to save the file.

3  Click **Save**.

   Training Manager saves the poll results to a file at the location you specified. The names of poll results files have a `.txt` extension.

---

**Opening a poll questionnaire file**

If you saved a poll questionnaire to a file, you can display the questionnaire during a training session by opening the file.

---

*Note:* You can open a poll questionnaire file, which has an `.atp` extension, only when a training session is in progress.

---

To open a poll questionnaire file:

1  On the **File** menu, choose **Open > Poll Questions**.

   The Open Poll Questions dialog box appears.
2. Select the poll questionnaire file that you want to open.

Note: If you renamed the tab name for the poll questionnaire, the file name will match your change.

3. Click **Open**.

The poll questionnaire appears on your Polling panel. You can now open the poll to training session attendees.

**Opening a poll results file**

If you saved poll results to a file, you can open the file on your computer.

To open a poll results file on your computer:

Double-click the saved file, which has a .txt extension.

The poll results file opens in your default text editor.

For each question, the poll results show the number and percentage of attendees who chose each answer and the total number of attendees in the training session.

The following figure shows an example of poll results in the text format.
1. How helpful was the presentation?
   a. Very helpful 1/4 (25%)
   b. Somewhat helpful 2/4 (50%)
   c. Not helpful 1/4 (25%)

2. How was the speed of the presentation?
   a. Too fast 2/4 (50%)
   b. Just right 2/4 (50%)
   c. Too slow 0/4 (0%)

3. How clear were the slides?
   a. Very clear 3/4 (75%)
   b. Somewhat clear 1/4 (25%)
   c. Not clear 0/4 (0%)
Managing Question-and-Answer Sessions

*Host only*

During a question-and-answer (Q & A) session, you can respond to questions that attendees ask during the training session. A Q & A session not only provides instant text messaging similar to that in Chat, but also does the following:

- Provides a more formal procedure for asking and answering questions in text format
- Automatically groups questions to help you manage the queue, such as quickly identifying questions that you have or have not answered
- Displays visual cues for the status of questions
- Lets you assign questions to the appropriate domain expert on your team
- Allows you to quickly send a standard response to questions for which you cannot or do not want to answer immediately

You can save the questions and answers in a Q & A session to either a text (.txt) file or a comma-separated/comma-delimited values (.csv) file for future reference.

**Tip:** If you use Q & A during a training session, WebEx recommends that a panelist (the host or presenter) monitors the Q & A panel at all times during the training session.
Allowing participants to use Q & A

Host only

To use Q & A during a training session, ensure that the Q & A option is turned on. You can also turn it off at any time, if necessary.

To turn on or off Q & A during a training session (Windows):
1  In the Session window, on the Session menu, choose Session Options. An options dialog box appears.
2  On the Communications tab, check or uncheck Q & A, as appropriate, and then select OK.

To turn on or off Q & A during a training session (Mac):
1  In the Session window, on the Training Center menu, select Preferences.
2  Select Tools.
3  Check or uncheck Q & A, and then select OK.
Setting privacy views in Q & A sessions

*Host only*

To protect the privacy of panelists and attendees during a training session, you can hide or show the following information when questions and answers are published on attendees’ Q & A panels:

- Names of attendees who send questions
- Names of panelists who send answers
- Time stamps for questions and answers respectively

**Note:** The names of attendees and panelists and time stamps are always visible on panelists’ Q & A panels.

To set privacy views:

1. Open the Attendee Options dialog by following one of these steps:
   - Windows: Right-click the title bar of your Q & A panel, and then choose **Attendee Options**.
   - Mac: Select `ctrl`, click, and then choose **Attendee Options**.

2. In the dialog box that appears, select any of the options that you want attendees to see, and then click **OK**.
Managing questions on your Q & A panel

The tabs and visual cues on your Q & A panel allow you to manage the questions you receive in the queue in the following ways:

- Set a priority for any question you have received
- Identify the status of questions and answers—answered, unanswered, assigned, private, dismissed, or deferred—and address questions that need your attention.
- Assign questions to the appropriate expert on your team in the training session.
- Get an idea of the interactions between the panelists and attendees who ask questions.
Chapter 19: Managing Question-and-Answer Sessions

1. The auto-grouping of questions by tab make it easy for you to filter and answer questions. **Examples:**
   - Follow up on the questions that are sent or assigned to you on the My Q & A panel.
   - View questions that have been given a priority status on the Prioritized tab; view only questions with a certain priority status on the Prioritized tab.

2. Visual cues, such as "deferred" and "private," tell you the status of a question.

3. A question appears bold if no panelist has answered it.

4. Right-click (Windows) or select ctrl and click (Mac) a question to:
   - Assign it to a subject-matter expert, defer it, or dismiss it
   - Assign a priority status
   - Send a standard response if this question has been answered verbally
## Working with the tabs on your Q & A panel

Your Q & A panel consists of five tabs. The **All** tab displays by default. The following table describes what each tab displays.

<table>
<thead>
<tr>
<th>Tab</th>
<th>Displays ...</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>All</strong></td>
<td>All questions and answers—unanswered, answered, private, deferred, and dismissed—in the queue</td>
</tr>
<tr>
<td><strong>Unanswered</strong></td>
<td>Questions that have not been answered by a panelist</td>
</tr>
<tr>
<td><strong>Answered</strong></td>
<td>Questions that have been answered by a panelist and answers</td>
</tr>
</tbody>
</table>
| **My Q & A**  | Questions that  
  ▪ attendees specifically send to you by your name  
  ▪ other panelists assign to you  
  ▪ attendees send to All Panelists and that you have answered  
  ▪ attendees send to Host&Presenter, Host, or Presenter, if you are the host or presenter |
| **Prioritized** | Questions that have been assigned a priority status                                                                                       |
Opening a tab

When you open the Q & A panel, the All tab appears by default.

To open other tabs on the Q & A panel:
1. Depending on the operating system you are using, follow one of these steps:
   - Windows: Right-click the All tab.
   - Mac: Select ctrl and then click the All tab.
2. Choose Open Tab > the tab you want to open.
3. If you want to open one more tab, right-click (Windows) or select ctrl and click (Mac) any of the open tab, and then choose Open Tab > the tab you want to open.

Displaying hidden tabs

The Q & A panel cannot display all open tabs at one time unless you expand the panels to the left.

To display a hidden tab on the Q & A panel:
Click the downward arrow, and then choose the tab you want to display.

Closing a tab

You can close all the tabs, except the All tab, on your Q & A panel.
To close a tab on the Q & A panel:
Click the X button on the tab you want to close.

**Note:** Closing a tab does not remove the information on the tab. You can view the information on that tab by opening it again. *More…* (on page 306)

## Assigning a question

You can assign questions to yourself or another panelist. The questions appear on the designated panelists' My Q & A tab, with the text *assigned* next to them.

**To assign a question:**

From any of the tabs on which you received the question, right-click (Windows) or select *ctrl* and then click (Mac) the question, and then choose Assign to > the person you want to assign it to.

**Note:**
- To assign multiple questions at the same time, hold down the *Ctrl* key while selecting the questions.
- If an assigned question is answered, the text *assigned* still displays.
- The text *assigned* does not display on attendees' Q & A panels.
Prioritizing questions

You can set priorities—high, medium, or low—for any questions you have received on the Q & A panel. Your prioritized questions display on the Prioritized tab.

To set a priority for a question:

Right-click (Windows) or select ctrl and then click (Mac) the question, and then choose Priority > High, Medium, or Low.

Fast track

After you set a priority for a question for the first time during a training session, a column appears to the left of the Q & A panel showing rectangular icons.

Click the rectangular icon for the question you want to set priorities for, and then choose High, Medium, or Low.

To remove the priority status from a question:

Click the rectangular icon for the question, and then choose Clear.
Viewing prioritized questions

You view your prioritized questions on the Prioritized tab.

To view your prioritized questions:

1. Click the Prioritized tab.
2. Optional. To view only questions with a certain priority status, select the status at the "View priority" option.

Answering questions in a Q & A session

During a Q & A session, you can:

- Provide an answer to a question publicly. More… (on page 311)
- Provide an answer to a question privately. More… (on page 312)
- Defer a question. More… (on page 313)
-Dismiss a question. More… (on page 312)

Tip: You can respond to a question from any of the four tabs on which you receive the specific question. If a question shows as assigned on the All tab, you can check whether this question has been assigned to you on your My Q & A tab.

When a panelist is typing an answer to a question that no one else has responded to yet, an in-progress indicator displays under that question for all participants. This figure shows an example.
Providing a public answer

Your answer to a question appears on all participants' Q & A panels, unless you choose to send your answer privately.

To provide a public answer during a Q & A session:

1. On your Q&A panel, select the question from any of the tabs on which you received the question. To select a question, click it once. To copy the question into the text box, right-click (Windows) or press ctrl and then click (Mac) your mouse, choose Copy, and then paste it in the text box. To clear the selection, right-click (Windows) or press ctrl and then click (Mac) the question, and then choose Deselect.

2. Type your answer in the text box. To edit your answer before sending it, highlight the text you want to edit and then right-click (Windows) or press ctrl and then click (Mac) the highlighted text. The menu that appears provides editing commands.

3. When you finish typing your answer, click Send. The answer appears on all panelists' and attendees' Q & A panels.
Chapter 19: Managing Question-and-Answer Sessions

Answering a question privately

If you send your answer privately, these participants can see the private answer:

- the attendee who sent you the question
- all panelists

To answer a question privately:

1. On your Q&A panel, select the question from any of the tabs on which you received the question, and then click **Send Privately**.

   To select a question, click it once.

   To copy the question into the text box, right-click (Windows) or press **ctrl** and then click (Mac) your mouse, choose **Copy**, and then paste it in the text box.

   To clear the selection, right-click (Windows) or press **ctrl** and then click (Mac) the question, and then choose **Deselect**.

2. In the dialog box that appears, type your answer in the text box.

3. If you want to save the answer you typed as the standard private answer for all panelists to use, click **Save** or **Save as Default**.

4. Click **Send**.

Dismissing a question

In a Q & A session, you can dismiss a question using a standard or customized answer. The standard answer reads: *Thank you for your question. The information that you requested cannot be provided by any of the panelists.*

If you dismiss a question, these participants can see the **Dismiss** answer:

- the attendee who sent the question
- all panelists
To dismiss a question during a Q & A session:

1. From any of the tabs where you received the question, right-click the question, and then choose **Dismiss**.

   **Tip for Windows users:** To dismiss multiple questions at one time, hold down the Ctrl key while selecting the questions, right-click your mouse, and then choose **Dismiss**.

   The Respond Privately dialog box appears, containing the standard **Dismiss** answer.

2. Optional. To customize the standard answer, click **Custom**, and then edit the text in the text box.

3. Optional. To save your customized answer as the standard **Dismiss** answer for all panelists to use, click **Save** (Windows) or **Save as Default** (Mac).

4. Click **Send**.

5. Click **Yes** in the confirmation message box.

---

**Deferring a question**

In a Q & A session, you can defer a question using a standard or customized answer. The standard answer reads: *Thank you for your question. Your question was deferred but will remain in the queue. A panelist will answer your question at a later time.*

If you defer a question, the following participants can see the **Defer** answer:

- the attendee who sent the question
- all panelists

**To defer a question during a Q & A session:**

1. From any of the tabs where you received the question, right-click the question, and then choose **Defer**.

   **Tip for Windows users:** To defer multiple questions at one time, hold down the Ctrl key while selecting the questions, right-click your mouse, and then choose **Defer**.
The Respond Privately dialog box appears, containing the standard *Defer* answer.

2 Optional. To customize the standard answer, click **Custom**, and then edit the text in the text box.

3 Optional. To save your customized answer as the standard *Defer* answer for all panelists to use, click **Save** (Windows) or **Save as Default** (Mac).

4 Click **Send**.

**Responding to questions answered verbally**

If a question has been answered verbally, you can send a standard response: *This question has been answered verbally.*

Follow these steps:

---

**Archiving Q & A sessions**

At any time during a training session, you can save the questions and answers on the **All** tab on your Q & A panel to a .txt or .csv (comma-separated/comma-delimited values) file. If there are updates in the Q & A session, you can save them to the existing file.
Once you save a new Q & A session to a file, you can also save a copy to another file.

**Saving a Q & A session**

At any time during a training session, you can save the questions and answers on the All tab on your Q & A panel to a .txt or .csv file.

**Note:** Training Manager automatically saves Q & A sessions every two minutes to the WebEx folder in the My Documents folder on the host and presenter computers.

To save a Q & A session:

1. In the Session window, on the File menu, choose **Save > Questions and Answers**.
2. Choose a location at which to save the file.
3. Type a name for the file.
4. In the **Save as type** box, select **Text Files (*.txt)** or **CSV** (comma-separated/comma-delimited values).
5. Click **Save**.

Training Manager saves the file at the location and format that you chose.

To review the content of an archived Q & A session, open the .txt file in a text editor or the .csv file in a spreadsheet program, such as Microsoft Excel.

**Saving changes to a saved Q & A session**

If you have previously saved a Q & A session, and there are additional changes in the Q & A session, you can save the updates to the existing file.

**To save changes in an existing Q & A file:**

In the training session window, on the File menu, choose **Save > Questions and Answers**.

Training Center saves the changes to the existing Q & A file.
Chapter 19: Managing Question-and-Answer Sessions

Note: If there are no changes on the All tab on your Q & A panel, the Save option is unavailable.

Saving a copy of a previously saved Q & A session

If you have previously saved a Q & A session, and you want to save another copy of the session, you can do so by following these steps:

1. In the Session window, on the File menu, choose Save As > Question and Answers.
   The Save Questions and Answers As dialog box appears.

2. Do any or all of the following:
   - Type a new name for the file.
   - Choose a new location at which to save the file.
   - Choose a different format for the file.

3. Click Save.
   Training Manager saves the file with any additional changes in the Q & A session.

Opening a Q & A file

The Q & A files that you saved during a training session have either a .txt or .csv extension.

To view a .txt file, open it in a text editor, such as Notepad.

To view a .csv file, open it in a spreadsheet program, such as Microsoft Excel.
Participating in a Question-and-Answer Session

Question-and-Answer (Q & A) sessions during a training session allow you to ask questions and receive answers using your Q & A panel, in a more formal way than Chat.

Your Q & A panel automatically groups questions and answers into these two tabs, which make it easy for you to check whether your questions have been answered:

**All**—all questions and answers in a Q & A session during the training session

More… (on page 317)

**My Q & A**—the questions you sent and the answers to your questions

More… (on page 317)

**Note:** The host has to turn on the Q & A function in the event before you can use the Q & A panel.

**Working with the tabs on your Q & A panel**

Your Q & A panel provides two views of the question-and-answer queue: the **All** and **My Q & A** tabs. The **All** tab stays open all the time on your Q & A panel.

The **My Q & A** tab displays as soon as you send your first question using Q & A. You can close the **My Q & A** tab at any time.
Chapter 20: Participating in a Question-and-Answer Session

To open the My Q & A tab:

Right-click (Windows) or select ctrl and then click (Mac) the All tab, and then choose Open Tab > My Q & A.

To close the My Q & A tab:

Right-click (Windows) or select ctrl and then click (Mac) the My Q & A tab, and then choose Close Tab.

Note: Closing the My Q & A tab does not cause you to lose the questions and answers on the tab. You can re-open it at any time.

Asking a question in a Q & A session

During a training session, you can send your questions to all or specific panelists in a Q & A session.

To ask a question in a Q & A session:

1. Open the Q & A panel.
2. On the Q & A panel, type your question in the text box.
3. Optional. To edit your question, highlight the text you want to edit, and then right-click (Windows) or select ctrl and then click (Mac) to use the editing commands in the menu.
4. In the Ask drop-down list, select the recipient, and then click Send.

Checking the status of your questions

The auto-grouping of questions and answers and visual cues on attendees’ Q & A panels make it easy for you to check whether a panelist has responded to your question.

Always check the My Q & A tab to quickly find out whether your question has been answered. More… (on page 319)

When a panelist is answering your question, an indicator appears under the question. More… (on page 319)
Chapter 20: Participating in a Question-and-Answer Session

My Q & A tab

Your Q & A panel provides two views of the question-and-answer queue: the All and My Q & A tabs. Always check the My Q & A tab to quickly find out whether your question has been answered. This tab displays a list of the questions you sent and the answers, whether public or private, to those questions.

![Q&A panel example]

The My Q & A tab displays the questions that you sent and the answers to those questions.

If a panelist answers your question privately, the text private appears next to the answer. No attendee can see this private answer, except yourself.

Answering indicator

When a panelist is typing an answer to a question, an in-progress indicator displays under that question. This figure shows an example.

![Answering indicator example]
Chat is useful during a training session if you want to:

- send brief information to all participants
- send a private message to another participant
- ask a question but do not want to use the Q & A option, which provides a formal procedure for asking and answering questions

All chat messages that you send or receive appear on the Chat panel in the training session window.

The Chat function allows you to perform these tasks:

- Send chat messages *More…* (on page 321)
- Assign sounds to incoming messages *More…* (on page 322)
- Print chat messages *More…* (on page 323)
- Save chat messages *More…* (on page 324)
- Open a chat file during a training session *More…* (on page 325)

## Sending chat messages

During a training session, the presenter can specify chat privileges for participants. These privileges determine to whom participants can send chat messages.

To send a chat message:

1. Open the Chat panel.
2. In the **Send to** drop-down list, select the recipient of the message.
3 Enter your message in the chat text box.

4 Depending on the operating system you use, follow this step:
   - Windows: Click **Send**.
   - Mac: Select **enter** on your keyboard.

**Note:** If you join a training session in progress, you can see only the chat messages that participants send after you join the training session.

## Assigning sounds to incoming chat messages

You can choose to play a sound for one of these occasions:
- If you are not viewing the Chat panel
- For only the first chat message that you receive in a thread
- Whenever you receive a chat message

To assign sounds to incoming chat messages:

1 Open the Personal Preferences dialog box using one of these two methods:
   - On the Chat panel, right-click the Chat title bar, and then choose **Sound Alerts**.
   - In the Session window, on the **Edit** menu, choose **Personal Preferences**.

2 Click **Communications** under **Category**.

3 Select **Receiving a chat message**.

4 In the **When** drop-down list, choose the occasion for which you want to assign a sound.

5 Select a sound using one of these methods:
   - Select a sound in the **Play sound** drop-down list.
     This list contains the names of all sound files that reside at the default location on your computer.
   - Click **Browse**, and then select a sound file that resides in another folder.
6 Optional. To play the currently selected sound, click the button \[\textit{play}\].

7 Click \textit{OK}.

\textbf{Note:}

- Training Center saves your sound preferences on your computer. However, if you start or join a training session on another computer, you need to set your preferences again on that computer.
- Sound files must have a \textit{.wav} extension
- In most cases, the default location for sound files is C:\WINDOWS\Media. You can copy other sound files to the default folder or any other directory to make them available in the Personal Preferences dialog box.

\section*{Printing chat messages}

You can print all the chat messages that appear on the Chat panel.

\textbf{To print chat messages:}

1 In the Session window, on the \textbf{File} menu, choose \textbf{Print > Chat}.
   A print dialog box appears.

2 Optional. Specify printer options.

3 Print.

\section*{Saving chat messages}

You can save chat messages that appear on the Chat panel to a \textit{.txt} file. You can then reopen the file for use in any training session or view the file’s content outside a training session by opening the file in a text editor.

Once you save chat messages to a file, you can save changes to the messages or save a copy of them to another file.

For help in performing these tasks, click the "More" link:

- Save chat messages for the first time in a training session \textit{More…} (on page 324)

- Save change to a chat file \textit{More…} (on page 324)
Chapter 21: Using Chat

- Create a copy of a chat file More… (on page 324)

**Note:** Training Center also automatically saves chat messages every two minutes to the WebEx folder in the My Documents folder on the host and presenter computers.

### Saving chat messages to a new file

You can save chat messages you have sent or received to a new chat file.

**To save chat messages to a new file:**

1. In the Session window, on the **File** menu, choose **Save > Chat**.
   
   The **Save Chat As** dialog box appears.
2. Choose a location at which you want to save the file.
3. Type a name for the file.
4. Click **Save**.

Training Manager saves the chat messages in a **.txt** file at the location you selected.

### Saving changes to a chat file

If you make changes to the messages on your Chat panel, you can save them to an existing chat file.

**To save changes to a chat file:**

1. In the Session window, on the **File** menu, choose **Save > Chat**.
2. Training Manager saves the changes to the existing chat file.

### Creating a copy of previously saved chat messages

If you have saved chat messages and want to create another copy of the messages, you can do so by saving the chat messages to a chat file with a different name.
To create a copy of chat messages that have been previously saved:

1. In the Session window, on the File menu, choose **Save As > Chat**.
   
   The **Save Chat As** dialog box appears.

2. Do either or both of the following:
   
   - Type a new name for the file.
   - Choose a new location at which you want to save the file.

3. Click **Save**.

   Training Manager saves the file at the location you chose. The file name has a .txt extension.

---

**Opening a chat file during a training session**

If you saved chat messages to a .txt file, you can display those chat messages on your Chat panel by opening the file.

To open a chat file in a training session:

1. In the Session window, on the File menu, choose **Open > Chat**.
   
   The Open Chat dialog box appears.

2. Select the chat file that you want to open.

3. Click **Open**.

   The chat messages appear on the Chat panel.

   If there are already chat messages in your chat viewer, Training Manager appends the messages from the chat file to the existing messages.
About using feedback

Feedback is a feature that allows the presenter to pose a question at any time—either verbally during a WebEx Audio conference, or in a chat message—and receive instant feedback from other participants.

As the host, you can:

- allow attendees to provide feedback
- respond to the presenter’s verbal request for feedback
- provide unsolicited feedback
- view the results on the Feedback palette

As the presenter, you can:
Chapter 22: Using Feedback

- pose a question and request feedback
- share the feedback results with all participants
- clear the feedback results
- view the results on the Feedback palette

As a participant, you can:
- click the Raise Hand button if the presenter asks for a show of hands in response to a question or if you have a question
- select Yes or No in response to a question
- select Go Faster or Go Slower to request that the presenter speed up or slow down his or her pacing
- express yourself using emoticons

Note: When participants use the Raise Hand icon, the panelists will see the order in which the participants raised their hands, indicated by a number next to the participant's icon. The panel will show this ordered raised hand for up to 10 participants at a time.

Allowing participants to provide feedback

You can allow participants to use the Feedback options during a training session.

To allow participants to use the Feedback options:

1. On the Session menu, select Session Options.

   The Training Session Options dialog box appears.
Chapter 22: Using Feedback

2. Select the Feedback check box.

3. Click Apply, and then click OK.
   
   A Feedback column appears on the Participants panel.

**Viewing a running tally of responses**

You can view a running tally of responses from attendees during a training session.

**To view a running tally of responses:**

On the Participants panel, click the Feedback icon.

The Feedback palette appears.

Your Feedback palette displays a running tally of responses. See the following figure for an example.
On the Participants panel, a response indicator appears to the right of the name of each participant who has responded to a presenter's question.

![Participants panel]

**Providing feedback**

You can provide feedback by clicking one of the icons on the Participants panel.

The response icon appears to the right of your name. You can remove the icon by clicking it again.

The following table shows the types of feedback you can provide during a training session:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>👇</td>
<td>click if the presenter asks for a show of hands in response to a question or if you have a question</td>
</tr>
<tr>
<td>✅</td>
<td>click to indicate <strong>yes</strong> in response to a question</td>
</tr>
<tr>
<td>✗</td>
<td>click to indicate <strong>no</strong> in response to a question</td>
</tr>
</tbody>
</table>
Chapter 22: Using Feedback

Using emoticons in feedback

You can use emoticons to express your feelings or status from the Participants panel by using the emoticons drop-down menu.

To use emoticons:

1. Click the Emoticons button on the Participants panel.

   The Emoticons palette appears.

2. Select one of the following emoticons from the palette.

<table>
<thead>
<tr>
<th>Emoticon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>🎉</td>
<td>applaud the presenter</td>
</tr>
</tbody>
</table>
Table 22.1: Using Feedback

<table>
<thead>
<tr>
<th>Emoticon</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>😊</td>
<td>approve the presenter</td>
</tr>
<tr>
<td>🤔</td>
<td>indicate you are taking a rest or break or would like to take a break</td>
</tr>
<tr>
<td>🔄</td>
<td>indicate you are not available</td>
</tr>
<tr>
<td>💡</td>
<td>indicate you have an idea</td>
</tr>
<tr>
<td>🤔</td>
<td>indicate that you are confused</td>
</tr>
<tr>
<td>😴</td>
<td>indicate that you are sleepy or bored</td>
</tr>
<tr>
<td>😲</td>
<td>show astonishment or surprise</td>
</tr>
<tr>
<td>😊</td>
<td>indicate happiness</td>
</tr>
<tr>
<td>😅</td>
<td>laugh out loud</td>
</tr>
<tr>
<td>😲</td>
<td>show that you are curious or skeptical</td>
</tr>
<tr>
<td>😊</td>
<td>indicate presenter to watch out or be careful</td>
</tr>
</tbody>
</table>

The corresponding emoticon appears to the right of your name on the Participants panel.

Removing feedback

You can remove all the feedback at any time during a training session.

To remove feedback (erase all responses):

1. On the Session menu, select Session Options.
   The Training Session Options dialog box appears.
2. Remove the check next to the Feedback check box.
3. Click Apply, and then click OK.
   The Feedback column is no longer showing and all feedback is cleared.

</table>
About Hands-on Lab

Hands-on Lab sessions allow instructors to prepare lessons or exercises that students can complete on remote computers on which training software is installed. Students can use these remote computers during a training session for hands-on learning and practice. Because instructors can control Hands-on Lab sessions, they can maintain an optimized lab environment that is effective, familiar, and consistent.

You can schedule the following two types of Hands-on Lab sessions:

- In-session Hands-on Lab. For details, see Setting up in-session Hands-on Lab (on page 336).
- On-Demand Hands-on Lab. For details, see Setting up on-demand Hands-on Lab (on page 339).

To set up a Hands-on Lab session, the host schedules the lab and reserves the computers for the presenter. Then the host starts the Hands-on Lab within the training session. The presenter assigns computers to participants, connects the computers with a mouse click, and then each participant can use the virtual computer at remote locations. The presenter or host can also:

- set recording options for the Hands-on Lab session
- broadcast a message to all participants
- respond to a participant’s request for help
- ask all to return from the lab
- end the Hands-on Lab session

Note: If you chose the scheduling option to support over 500 attendees for this session, the number of participants that can access a Hands-on Lab computer is limited to 50.

</tbody>
</table>

About the Hands-on Lab page

To access the Hands-on Lab page, log in to your Training Center Web site. On the navigation bar, expand **Host a Session**, and then click **Hands-On Lab**.

You can do the following from this page:

**Hands-on Labs tab**

- View a list of the Hands-on Lab computers set up by your Hands-on Lab administrator.
- View the schedule for each of the labs.
- Reserve computers for on-demand sessions.

**My Reservations tab**

- View the sessions you have scheduled for in-session or on-demand Hands-on Lab.
- Change your reservations, such as inviting attendees and canceling reservations.
Setting up in-session Hands-on Lab

In-session Hands-on Lab allows attendees to practice what they learn while they are attending a training session. Attendees gain hands-on experience by connecting to remote computers on which training software has been installed.

To set up in-session Hands-on Lab, first reserve computers in one of the labs when scheduling a training session, and then start Hands-on Lab during the training session.

See Also: Setting up on-demand Hands-on Lab (on page 339).

Note: Hosts reserve in-session Hands-on Lab computers from the same pool of remote computers that hosts reserve for on-demand Hands-on Lab. Labs and remote computers are set up by the Hands-on Lab administrator in your organization.

Reserving computers for in-session Hands-on Lab

When scheduling a training session, you can set up a Hands-on Lab session and reserve computers for that session. For more information on Hands-on Lab sessions, see About Hands-on Lab (on page 334).

Your site administrator sets up Hands-on-Labs.

To reserve computers for an in-session Hands-on Lab:

1. On the Schedule Training Session or Edit Scheduled Training Session page, scroll to In-session Hands-on Lab.
2. Select Reserve computers from lab.
   For instructions on viewing the Hands-on Lab schedule, see Viewing the Hands-on Lab schedule (on page 337).
3. Choose a lab from the drop-down list. Hands-on Labs are set up by your site administrator.
4. To view the lab description or number of computers set up in a selected lab, click Lab Info.
5. In the Number of computers box, type the number of computers that you want to reserve.
6. To check availability of the computers and lab, click Check Availability.
The Computers Available dialog box appears indicating how many computers are available for the time and lab that you specified.

Your reservation status appears in the **Reservation status** box. The reservation status refreshes each time you click **Check Availability**.

To pre-assign computers to registered attendees, select **Require attendee registration** in the **Registration** section of the Schedule Training Session page.

Requiring attendee registration allows you to assign computers to attendees as they register. To assign computers to attendees as they register, see [Assigning Hands-on Lab computers to registered attendees](on page 338).

When you are finished scheduling your training session and Hands-On Lab, click **Schedule** at the bottom of the Schedule Training Session page.

Requiring attendee registration allows you to assign computers to attendees as they register. To assign computers to attendees as they register, see [Assigning Hands-on Lab computers to registered attendees](on page 338).

If the computers are available for your scheduled Hands-on Lab, the Session Scheduled page appears with your reservation confirmation. If the computers are not available, the Computers Not Available page appears. Click **Close**, and select a new reservation time or number of computers on the Schedule Training Session page.

**Click OK.**

### Viewing the Hands-on Lab schedule

You can view the Hands-on Lab schedule from your Training Service Web site.

**To view the Hands-on Lab schedule:**

1. Log in to your Training Center Web site.
2. On the navigation bar, expand **Host a Session** to view a list of links.
3. Click **Hands-On Lab**.
   
   The Hands-on Lab page appears.
4. For the lab in which you are interested, under **Lab Schedule**, click **View Schedule**.
The Lab Schedule page appears.

5. Point to a time slot to view details of the lab schedule.

6. When finished, click Close.

Assigning Hands-on Lab computers to registered attendees

You can assign Hands-on Lab computers to attendees as they register for your training session. You can also either assign computers to participants during the Hands-on Lab session, or allow participants to choose their Hands-on Lab computer when they join the session.

Note: If you chose the scheduling option to support over 500 attendees for this session, the number of participants that can access a Hands-on Lab computer is limited to 50.

To pre-assign computers to registered attendees:

1. Log in to your Training Center Web site.

2. On the navigation bar, expand Attend a Session to view a list of links.

3. Click Live Sessions.

4. Click on your session topic.

   The Session Information page appears.

5. Click Attendees.

   The Registered Attendees page appears.

6. Click Pre-assign Computers.

   The Pre-assign Computers page appears.

7. To assign an attendee to a computer, click on the name of the attendee under Unassigned Attendees.

8. To assign multiple attendees to one computer, hold down the Ctrl key while selecting the names of the attendees.

9. Click Assign.

   You can continue to assign computers to attendees or groups of attendees as long as computers are available.

10. When finished assigning computers, click OK.
Setting up on-demand Hands-on Lab

To provide attendees with more hands-on training, Training Center supports on-demand Hands-on Lab sessions in which attendees connect to remote computers outside a training session to practice what they learn at their own pace.

You can schedule an on-demand Hands-on Lab session by reserving Hands-on Lab computers. Each of the invited attendees can then join the lab session any time within the time limit during the scheduled time frame.

To set up an on-demand Hands-on Lab session, first reserve computers in one of the labs, and then invite attendees to use the reserved computers during the scheduled time. For details, see Scheduling on-demand Hands-on Lab (on page 340).

See also: Setting up in-session Hands-on Lab (on page 336).

Note: Hosts reserve on-demand Hands-on Lab computers from the same pool of remote computers that hosts reserve for in-session Hands-on Lab. Labs and remote computers are set up by the Hands-on Lab administrator in your organization.

About the Reserve Lab Computers for On-demand Use page

How to access this page

On your Training Center Web site, click Host a Session > Hands-On Lab. On the Hands-on Lab page, click any Reserve Computers link.

### Scheduling on-demand Hands-on Lab

To schedule an on-demand Hands-on Lab session, first reserve Hands-on Lab computers for the session. Then invite attendees to use the reserved computers during the scheduled time.

**To schedule an on-demand Hands-on Lab session:**

1. Go to the Hands-on Lab page on your Training Center Web site.
2. Click the **Hands-on Labs** tab.
3. In the **On-demand Lab** column, click any **Reserve Computers** link.
4. On the page that appears, specify the reservation options.
   - For details, see *About the Reserve Lab Computers for On-demand Use page* (on page 339).
5. Click **Reserve**.

See also *Inviting attendees for on-demand Hands-on Lab* (on page 341).
Inviting attendees for on-demand Hands-on Lab

Once you finish scheduling an on-demand Hands-on Lab session, you can invite attendees to the session by sending them invitation email messages.

To invite attendees to a scheduled on-demand Hands-on Lab session:

1. On the Hands-on Lab page, under the My Reservations tab, click On-demand use.

2. In the Session Name column, click the link for the topic of the Hands-on Lab session.

   The On-demand Hands-on Lab Session Information page appears.

3. Click Invite Attendees.

4. Do any of the following as appropriate:
   - Click Select Live Sessions to invite all attendees from an existing training session.
   - Type the email addresses of the individuals you want to invite in the Invited attendees text box.
   - Click Select Attendees to select contacts from an address book stored on your Training Center Web site.
   - Optional. Click Edit Email Options to customize the content of the invitation email message.

5. Click OK.

Changing reservations

You can change your reservations for on-demand Hands-on Lab at any time.

To change your reservation for an on-demand Hands-on Lab session:

1. On the Hands-on Lab page, click the My Reservations tab, and then click On-demand use.

2. In the Session Name column, click the link for the Hands-on Lab session reservation you want to change.

   The On-demand Hands-on Lab Session Information page appears.
3 Click **Change Reservation**. The Change Hands-on Lab Reservation page appears.

4 Do one of the following as appropriate:
   - To delete the reservation, click **Cancel Reservation**.
   - To make changes to the reservation, update the information and click **Change Reservation**.

For details about reservation options, see *About the Reserve Lab Computers for On-demand Use page* (on page 339).

## Starting a Hands-on Lab session

*For training hosts only*

If you have scheduled a Hands-on Lab, you can start the Hands-on Lab session within 15 minutes of the reserved time. The presenter is responsible for managing the Hands-on Lab session.

To start a Hands-on Lab session:

1 In the Session window, on the **Lab** menu, click **Start Hands-on Lab**. The Start Hands-on Lab dialog box appears showing which lab and how many computers are reserved.
Chapter 23: Managing Hands-on Lab

Note: You can start the Hands-on Lab session 15 minutes or less before the scheduled reserved time. If you try to start the Hands-on Lab session earlier than 15 minutes before the scheduled reserved time, an error message appears informing you to start the Hands-on Lab session during the reserved time.

2 Under Computer Allocation, select one of the following:
   - **Allow attendees to choose computers.** This allows participants to choose any computer reserved for this session.
   - **Assign attendees to computers manually.** When you select this option, participants can only connect to computers assigned to them.

3 Optional. Select the **Record remote computers automatically when participants connect** check box. When you select this option, the Record button turns on for all reserved computers. Whenever a participant logs into a reserved computer, the computer records the actions. When the participant logs out, the recording stops.

4 Click **Start**.

Training Manager contacts the remote computers reserved for your Hands-on Lab session.

Once the reserved computers are contacted, the Start Hands-on Lab Confirmation dialog box appears.

The Start Hands-on Lab Confirmation dialog box lists all the computers that are connected to the session and the total attendees in the session.

5 Optional. To limit the number of attendees that can connect to each remote computer, under **Limit Attendees**, select the check box next to **Limit**. Select the number of attendees that you want to limit to each computer.

6 If you selected **Assign attendees to computers manually** in the Start Hands-on Lab dialog box, see Assigning computers during Hands-on Lab sessions (on page 346).

7 Click **Done**.
Recording Hands-on Lab sessions

As the presenter, you can record the actions of each remote computer in the Hands-on Lab session. This can be helpful for observing how participants use the remote computer during a training session. You can choose to begin recording automatically when participants connect to a remote computer, or you can start recording at any time from the Hands-on Lab panel.

Once you record a remote computer, Training Manager downloads and installs WebEx Player on your computer. You must use WebEx Player to play a recording.

To record remote computers automatically when connected:

1. In the Session window, on the Lab menu, choose Hands-on Lab Options.
   
   The Hands-on Lab Options dialog box appears.

2. Select the Record remote computers automatically when participants connect check box.

3. Under Record to folder on remote computer, type a folder location at which to store the recording.
   
   The folder is stored on the remote computer. The names of WebEx Recording Format (WRF) files have a .wrf extension.

4. Click OK.
Training Manager records all actions taken on the remote computers while participants are connected.

To start recording from the Hands-on Lab panel:
1. On the Hands-on Lab panel, select the computer that you want to record from the Computers list.
2. Click the Record button.

To pause recording:
1. Under Computers on the Hands-on Lab panel, select the computer that you want to pause recording from the list of computers.
2. Click the Pause button.
3. To resume recording, click the Pause button again.

To stop recording:
1. Under Computers on the Hands-on Lab panel, select the computer that you want to stop recording from the list of computers.
2. Click the Stop button.
Assigning computers during Hands-on Lab sessions

If you selected **Assign attendees to computers manually** in the Start Hands-on Lab dialog box, you can assign computers to participants from the Start Hands-On Lab Confirmation dialog box, from the Hands-on Lab panel, or from the **Lab** menu.

**Note:** If you chose the scheduling option to support over 500 attendees for this session, the number of participants that can access a Hands-on Lab computer is limited to 50.

To assign computers to participants during a Hands-on Lab session:

1. From the Start Hands-On Lab Confirmation dialog box, from the Hands-on Lab panel, or from the Session window **Lab** menu, click **Assign Computers**.
   
   The Assign Computers dialog box appears.
2 Under **Unassigned Participants**, select the name or names of participants that you want to assign to a particular computer. Hold down the **Shift** key to select more than one participant.

3 Under **Computers**, select the computer that you want to assign to the selected participant.

4 Click **Assign**.

5 To give control of the computer to a particular participant, click **Give Control**.

6 When you are finished assigning computers, click **OK**.

7 Click **Done** in the Start Hands-on Lab Confirmation dialog box.
Unassigning Participants from Computers

To unassign a participant from a computer, do one of the following:

- On the Lab menu, point to Assign Computers. In the Assign Computers dialog box, select the name of the participant that you want to unassign. Click Unassign.
- On the Hands-on Lab panel, click Assign. In the Assign Computers dialog box, under Computers, expand the user list for the computer. Select the name of the participant that you want to unassign and click Unassign.
- Click OK.

Broadcasting a message to participants

As the presenter, you can choose to broadcast a message to all participants or to select participants in the Hands-on Lab session.

To broadcast a message,

1. Do either of the following:
   - On the Lab menu, point to Broadcast Message To.
   - On the Hands-on Lab panel, click the Broadcast Message button.

2. In the menu that appears, select All or choose a remote computer to which you want to broadcast your message.

The Broadcast Message dialog box appears.
Chapter 23: Managing Hands-on Lab

3  In the Message box, type your message.
4  Click OK.

Your message appears on the selected participants' desktops.

Responding to a request for help

If a participant requests help, the Ask for Help indicator appears next to participant's name in the Hands-on Lab panel.

To respond to a request for help:
1  Next to the participant's name, click the Ask for Help indicator.

The Broadcast Message dialog box appears.
2  Type a message in the Message box.
3  Click OK.

Your message appears on the participant's desktop.
Tip: You can then connect to the participant's remote computer and use the chat viewer to continue to help the participant.

Taking control of a Hands-on Lab computer

As the presenter, you can take control of any Hands-on Lab computer.

To take control of a computer:
1. Connect to the remote computer.
2. In the Hands-on Lab Manager panel, click the Pass Control button.

You now have control of the remote computer.

Asking all to return from labs

During a Hands-on Lab session, you can ask all the participants to return from the Hands-on Lab session to the main training session. You can choose to have the participants return immediately, or you can give them a time limit for returning.

To ask participants to return:
1. On the Lab menu, choose Ask All To Return.
   The Ask All To Return dialog box appears.
2 Do either of the following:

- Select **within** and choose a time in minutes from the drop-down list. This option gives participants time to finish the tasks that they are working on.

- Select **immediately and end all sessions after 30 seconds**.

3 Click **OK**.

A confirmation dialog box appears in which you confirm your request to ask all participants to return from Hands-on Lab.

4 Click **OK**.

All participants receive a message asking them to return from Hands-on Lab. The Hands-on Lab sessions end either after 30 seconds or after the time you selected in the **Ask All To Return** dialog box.

## Ending the Hands-on Lab session

*For training hosts only*

You, as the training session host, can end the Hands-on Lab sessions at any time.

To end a Hands-on Lab session:

1 On the **Lab** menu, click **End Hands-on Lab**.
   A confirmation message appears.

2 Click **OK**.
The Hands-on Lab session ends for all participants.

**Note:** If you do not manually end the Hands-on Lab sessions, they end automatically when your reservation for Hands-on Lab computers expires. A message appears on your screen 15 minutes before your reservation expires. If the computers have not been reserved for another training session, you can continue to connect to the Hands-on Lab computers. If the host of the new session attempts to connect to the reserved computers, you will be disconnected from the reserved computers.

About Hands-on Lab

Hands-on Lab sessions allow instructors to prepare lessons or exercises that students can complete on remote computers on which training software is installed. Students can use these remote computers during a training session for hands-on learning and practice. Because instructors can control Hands-on Lab sessions, they can maintain an optimized lab environment that is effective, familiar, and consistent.
To set up a Hands-on Lab session, the host schedules the lab and reserves the computers for the presenter. Then the host starts the Hands-on Lab within the training session. The presenter assigns computers to participants, connects the computers with a mouse click so that participants can use the virtual computer for their learning and practice activities. Participants can also

- connect to a reserved computer
- chat with other Hands-on Lab participants
- ask for help during a Hands-on Lab session
- transfer files in a Hands-on Lab session
- pass control of a Hands-on Lab computer
- disconnect from a Hands-on Lab computer

**Connecting to a reserved computer**

Participants in a Hands-on Lab session can connect to an unassigned computer or a preassigned computer depending on which option the presenter chose when starting the session.

**Connecting to unassigned computers**

If the presenter has allowed participants to choose their own remote computer, they can connect to any reserved computer in the session.

To connect to a computer, do one of the following:

1. On the Lab menu, point to **Connect to Computer**. Then select the remote computer to which you want to connect.
2. On the **Hands-on Lab** panel, select the computer to which you want to connect.
3. Click **Connect**.

You are connected to the remote computer. The Hands-on Lab Manager window is available from the Session Controls Panel on your desktop. You can also control the remote computer using the Sharing menu.
Connecting to preassigned computers

If the presenter has manually assigned computers to Hands-on Lab participants, the Hands-on Lab Session connect message appears on the participant's desktop.

To connect to the remote computer, click Yes.

You are now connected to the remote computer. The Hands-on Lab Manager window is available from the Session Controls Panel on your desktop. You can also control the remote computer using the Sharing menu.

Using an audio conference in a Hands-on Lab session

You can communicate with participants in a Hands-on Lab session using your computer or telephone. All the audio conferencing options that the host sets up in the main session apply to the Hands-on Lab session.

Notes:
- Participants in a Hands-on Lab session cannot join a Hands-on Lab session audio conference until the Hands-on Lab session presenter joins the audio conference.
- When a participant who has already joined the main audio conference session joins a Hands-on Lab session, he or she is switched from the main session audio
conference to the Hands-on Lab session audio conference automatically. Participants cannot join an audio conference in the main session while connected to a Hands-on Lab session audio conference.

- If audio conferencing is not available or has not been started for the main session before the Hands-on Lab session is started, audio conferencing for Hands-on Lab sessions is disabled also.
- When a participant who is in the Hands-on Lab session audio conference leaves a Hands-on Lab session, he or she disconnects from the Hands-on Lab session audio conference automatically. The participant returns to the main session and can join the main audio conference by selecting Join Audio Conference on the Audio menu.

**Starting an audio conference during a Hands-on Lab session**

When you start a Hands-on Lab session, all the audio conference options that the host sets up in the main session are available during the Hands-on Lab session.

The Join Audio Conference message box automatically appears in the Session window for each participant in the Hands-on Lab session.

**Note:** To use a VoIP audio conference, your computer must meet the system requirements for Integrated VoIP. For details, see the Audio release notes available from the User Guides page on your Training Center Web site.

**To start an audio conference in a breakout session:**

1. In the Audio Conference dialog box, decide whether to use the computer or phone to join the audio conference. If the Audio Conference dialog is not already appearing when the Hands-on Lab session starts, it is available from the Audio menu.

2. If joining by phone, make your selections in the dialog box, click Call Me, and then follow the instructions on the phone.
   
   A telephone icon appears next to your name in the Participants panel to indicate that you have joined the audio conference using your phone.

3. If joining by computer, click Join.

4. Optional. Use the Volume dialog box to adjust the volume of your speakers or microphone or to mute or unmute your speakers or microphone.
Optional. To use the Audio Setup Wizard to set up audio options, choose Audio Setup Wizard on the Audio menu. A headset symbol appears to the left of your name in the participant list on the Hands-on Lab Sessions Manager panel.

**Note:** The headset or telephone icon flashes to indicate which participant is speaking during the Hands-on Lab session.

To change to an audio conference in a Hands-on Lab session:

1. In the Audio Conference dialog box, decide whether to change to the Hands-on Lab session audio conference.
2. Select Yes to join the Hands-on Lab session audio conference.
3. Select No to remain in the main session's audio conference.

**Leaving and ending an audio conference in a Hands-on Lab session**

You can leave or end an audio conference at any time during a Hands-on Lab session.

To leave an audio conference:

1. Click the Audio button on the Participants panel.
2. In the Audio Conference dialog box, click Leave WebEx Audio.

To end a Hands-on Lab session and audio conference (hosts only):

From the Lab menu, click End Hands-on Lab, and then click OK in the confirmation message that appears.

**Using the Hands-on Lab Manager**

Once the presenter starts the Hands-on Lab session and participants have connected to the computers, the Hands-on Lab Session Manager is available on your desktop. On the Session Controls Panel, click Hands-on Lab Panel.
The Hands-on Lab Manager lists the participants in the lab to which they are connected. In the Hands-on Lab Manager, participants can transfer files to and from their computers and ask for help. When you are in a Hands-on Lab session, you can use the Hands-on Lab computer directly from your own computer just as if you are sitting at the Hands-on Lab computer.

A green computer icon next to your name indicates that you are connected to the Hands-on Lab computer.

**Using Hands-on Lab chat**

You can send and receive chat messages to and from other Hands-on Lab participants. All chat messages that you either send or receive appear in your Chat viewer. Hands-on Lab chat works the same way that chat works in the training session, except in Hands-on Lab, your chat message sends to all Hands-on Lab participants.
To use Hands-on Lab chat:

1. On the Session Controls Panel on your desktop, click Chat Panel.

2. Type a message in the Chat box.

3. Click Send.

   All Hands-on Lab participants receive the chat message in their Chat message boxes.

**Asking for help in Hands-on Lab**

You can ask for help at any time during the Hands-on Lab session.

**To ask for help:**

On the Hands-on Lab Manager window, click the Raise Hand button.
The **Raise Hand** indicator appears next to your name on the Hands-on Lab Manager window, alerting the presenter to your request for help.

---

## Transferring files in a Hands-on Lab session

During a Hands-on Lab session, you can transfer files to and from the Hands-on Lab computer. You can transfer files that reside at any location on either the Hands-on Lab computer or on your local computer.

Transferring files works the same way as it does within the training session.

**Note:** This feature is not supported on the Mac.

To transfer files to or from your computer,

1. Do *one* of the following:
   - On the Hands-on Lab Manager window, click the **Transfer File** button.
   - On the **Sharing** menu, click **Transfer File**.

   The Hands-on Lab Transfer File window appears.
In the pane on the left, the file directory for your local computer is labeled Local Computer. The file directory for the Hands-on Lab remote computer is labeled Remote Computer.

2 In the pane on the left, expand a directory to display the folder in which you want to transfer a file.

3 In the pane on the right, expand the other directory until the file that you want to transfer appears.

4 Drag the file to the folder in which you want to transfer it into the pane on the left.

Passing control of the Hands-on Lab computer

During a Hands-on Lab session, you can pass control of the computer to anyone connected to the same computer.

To pass control of the computer:

1 On the Hands-on Lab Manager window, select the name of the participant to whom you want to transfer control. The participant must be connected to the computer at the time you transfer control.
A green icon next to a participant's name indicates that the participant is connected to the computer.

![Green icon](image)

A gray icon next to a participant's name indicates that the participant is disconnected from the computer.

![Gray icon](image)

2. In the Hands-on Lab Manager window, click the **Pass Control** icon.

![Pass Control icon](image)

The **Pass Control** icon appears next to the participant who has control of the Hands-on Lab computer.

![Pass Control icon](image)

**Leaving a Hands-on Lab session**

You can leave a Hands-on Lab session and return anytime during the session.

To leave a Hands-on Lab session:

On the **Sharing** menu, click **Leave Hands-on Lab**.
To reconnect to the Hands-on Lab computer, see *Connecting to a reserved computer* (on page 354).

## Disconnecting from computers

Once you have finished your Hands-on Lab sessions, you can disconnect from your remote computer.

To disconnect from the remote computer:

1. On the Session Controls Panel, click **Return to Main Window.**

   ![Screenshot](image)

   The Return to Hands-on Lab Computer dialog box appears.

2. Click **Disconnect from Computer.**
Using Breakout Sessions

<td>Presenting breakout sessions (on page 385)</td>
</tr>
</tbody>
</table>

About Breakout sessions

A breakout session is a private content sharing session that includes two or more participants. Breakout sessions allow participants to brainstorm and collaborate in small, private groups that can include presenters or other students, away from the main training session. In a breakout session, small groups interact within a main Breakout Session window using much of the same features, such as sharing whiteboards and applications, as in the main training session. Multiple breakout sessions can occur at once. For more information about the Breakout Session window, see Using the Breakout Session window (on page 366).

Only those who are participating in a breakout session can view shared content. You can view a list of current breakout sessions in the main Session window on the Breakout Sessions panel.
In a breakout session, the participant who starts and conducts the breakout session is designated as the presenter of the breakout session. If Automatic Assignment is enabled, then a presenter may be randomly assigned to a breakout session. The Presenter's icon appears next to the presenter’s name on the Breakout Session's Participant's panel.

For participants to start and join breakout sessions, the presenter must first allow breakout sessions for the training session. Then the host, the presenter, or an attendee who has breakout session privileges can create a breakout session.

Tip: Although breakout session attendees can be assigned manually or automatically during the training session, you can save time by pre-assigning attendees while scheduling the training session. For more information, see Setting up breakout sessions (on page 89).

Note: If you chose the scheduling option to support over 500 attendees for this session, the number of participants that can join a breakout session will still be limited to 100.

### Using the Breakout Session window

<table>
<thead>

<tr>
<td>get an overview of Breakout Session menus</td>
<td>Breakout Session menus (on page 370)</td>
</tr>
</tbody>
</table>
Breakout Session window overview

The Breakout Session window appears in the main session window once you start or join a breakout session. It provides the ability for you to share documents or presentations, applications, whiteboards, or your desktop during a breakout session.

When you are viewing the Breakout Session window, the words Breakout Session appears on the Breakout Session Quick Start and Info tabs, and on the title bar of the window. The Breakout Session window has its own menus and toolbar. It also has a Breakout Session panel that allows you to view the presenter and participants of the breakout session. You can also chat with the other breakout session participants using the Chat box on the Breakout Session panel.

The Breakout Session Quick Start page appears only for the Breakout Session presenter. As a presenter, you can quickly connect to your Breakout Session audio conference, open a new whiteboard, or choose a sharing option. The Session Info page appears for both presenters and participants, and includes details for your session.
Chapter 25: Using Breakout Sessions
Breakout Session panel overview

The Breakout Session panel appears on the right side of the Breakout Session Manager window during a breakout session. It allows you to view the presenter and participants of the breakout session. You can also chat with the other breakout session participants using the Chat box on the Breakout Session panel.

The attendee's Breakout Session Participants panel also includes feedback icons, as in the main session. For information on using feedback icons, see Providing feedback (on page 330).

When an application, desktop, Web browser, or document is shared in a breakout session, the Breakout Session panel appears on each participant's desktop as a floating panel. You can then access the Sharing Controls dashboard that appears in the breakout session window.
## Breakout Session menus

<td>Breakout Session Participant menu (on page 374)</td>
</tr>
</tbody>
</table>
Note: For Mac users, the Breakout Session windows described in this section will differ slightly. All functionality will remain, although selections may be found under another menu. For example, the End Breakout Session command is available from the Training Center menu.

Breakout Session File menu

The File menu in the Breakout Session window is similar to the File menu in the main Session window. You can open and share files, open chat, save documents and chats, print, end the breakout session (if you are the presenter of that session), or leave the breakout session (if you are a participant). You cannot end a training session, and you cannot transfer files or upload files to My WebEx using the File menu in a breakout session.
Breakout Session Edit menu

The **Edit** menu in the Breakout Session window is similar to the **Edit** menu in the main Session window. Using the **Edit** menu, you can edit and annotate shared content in the content viewer. The **Find** command and the **Preferences** command are not available on the **File** menu in a breakout session.

Breakout Session Share menu

The **Share** menu in the Breakout Session window works the same way as the **Share** menu in the main Session window.
Breakout Session View menu

The View menu in the Breakout Session window works the same way as the View menu in the main Session window. The only difference is that the Panels command refers to viewing the Breakout Session panel only.

Breakout Session Audio menu

The Audio menu in the Breakout Session window is similar to the Audio menu in the main Session window. The only differences are that you cannot open chat or feedback from the Audio menu in a breakout session. Depending on your role and privileges during a breakout session, the Audio menu provides commands to

- join, leave, or switch to another audio conference mode (join by phone or computer)—all participants
- adjust volume in if joining by computer—all participants

**Breakout Session Participant menu**

The Participant menu in the Breakout Session window is similar to the Participant menu in the main Session window. Using the Participant menu, you can make a participant the current speaker, mute and unmute microphones, pass the presenter role to another participant, limit attendance to the breakout session, and expel a participant from a breakout session (training session presenter only). Breakout session participants are limited to muting themselves.

### Controlling breakout sessions

<table>
<thead>
<tr>
<th>If you want to…</th>
<th>See…</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of control breakout sessions</td>
<td>About controlling breakout sessions (on page 375)</td>
</tr>
<tr>
<td>grant breakout session privileges</td>
<td>Granting breakout session privileges (on page 375)</td>
</tr>
<tr>
<td>allow breakout sessions</td>
<td>Allowing breakout sessions (on page 376)</td>
</tr>
<tr>
<td>create a breakout session for another participant</td>
<td>Manually creating a breakout session for another participant (on page 380)</td>
</tr>
<tr>

<td>Asking all participants to return from a breakout session (on page 382)</td>
</tr>
<tr>
<td>end all breakout sessions</td>
<td>Ending all breakout sessions (on page 383)</td>
</tr>
</tbody>
</table>
### About controlling breakout sessions

During a training session, depending on your role and privileges, you can control breakout sessions by doing the following:

- Specify breakout session privileges for attendees.
- Allow participants to start their own breakout sessions.
- Create a breakout session for another participant.
- Send a broadcast message to all breakout session participants.
- Ask panelists and participants to return from their breakout sessions.
- End all of the breakout sessions at once.
- Request a breakout session presenter to share content.
- Remove a participant from a breakout session.

### Granting breakout session privileges

At any time during a training session, you can specify that attendees can start breakout sessions with:

- all attendees or all participants
- only the training session host
- only the presenter
- any other attendee, privately

You can also remove breakout session privileges at any time.

**To specify privileges for attendees during a breakout session:**

1. In the Session window, on the **Participant** menu, choose **Assign Privileges**.

<table>
<thead>
<tr>
<th>If you want to…</th>
<th>See…</th>
</tr>
</thead>
<tbody>
<tr>
<td>request a breakout session presenter to share content</td>
<td>Requesting a breakout session presenter to share content (on page 383)</td>
</tr>
<tr>
<td>remove a participant from a breakout session</td>
<td>Removing a participant from a breakout session (on page 384)</td>
</tr>
</tbody>
</table>
Chapter 25: Using Breakout Sessions

The Assign Privileges dialog box appears.

2 Under Communications, select the check box next to Breakout sessions with:

Then select the check boxes for the breakout session privileges that you want to grant to all attendees:

- Host
- Presenter
- Panelists
- All attendees

3 Click OK.

**Note:** The training session host and the presenter always have all breakout session privileges, regardless of the breakout session privileges that other attendees have.

Allowing breakout sessions

As a presenter, you can allow panelists or participants to start their own breakout sessions.

**Note:** This option is only available when manual breakout session assignment is selected.

To allow breakout sessions:

1 In the Session window, on the Breakout menu, choose Open Breakout Session Panel.
2 On the Breakout Sessions panel, select Breakout Assignments.
   The Breakout Session Assignment window appears.
3 Select the Allow attendees to create breakout sessions check box.
4 Click OK.
   The Breakout menu displays the breakout session options for all participants.

Note:
- When a participant who has already joined the main audio conference session joins a breakout session, he or she is switched from the main session audio conference to the breakout session audio conference automatically. Participants cannot join an audio conference in the main session while connected to a breakout session audio conference.
- If audio conferencing is not available or has not been started for the main session before the breakout session is started, audio conferencing for breakout sessions is disabled also.
- When a participant who is in the breakout session audio conference leaves a breakout session, he or she disconnects from the breakout session audio conference automatically. The participant returns to the main session and can join the main audio conference by selecting Join Audio Conference on the Audio menu.

Creating a breakout session with automatic assignment

For host, panelists, or training session presenters only

As the training session presenter or panelist, you can create a breakout session with attendee assignments made automatically.
To create a breakout session with automatic assignments:

1. In the Breakout Session panel, click **Breakout Assignment**. The Breakout Session Assignment dialog box appears.
2. Select **Automatically**.

3. Choose one of the following settings for your breakout session:
   - Set the number of breakout sessions
   - Set the number of attendees in each breakout session

4. Choose the number value for your setting.
5. Click **OK**.

   Your settings will be reflected in the Breakout Session panel. Once you start a breakout session, an attendee will be assigned randomly as the presenter.

### Creating a breakout session with manual assignment

*For host, panelists, or training session presenters only*

As the training session presenter or panelist, you can create a breakout session and assign attendees manually during a session.

To create a breakout session and manually assign attendees:

1. In the Breakout Session panel, click **Breakout Assignment**. The Breakout Session Assignment dialog box appears.
2 Select **Manually**.

3 Add a session by clicking the following:

![Breakout Session Assignment](image)

2. Add Session
3. +

Windows version Mac version

4 In the breakout session name text box, type a new name or use the default name that is provided.

5 Highlight the name of the breakout session.

6 Highlight the names of any **Not Assigned** participant for whom you want to add to the breakout session and click the >> button.
7 Select the radio button next to the participant that you would like to be the presenter.

8 Click OK.

The breakout session appears in the Breakout Session panel and can be started by the presenter at any time.

Manually creating a breakout session for another participant

*For host, panelists, or training session presenters only*

As the training session presenter or panelist, you can create a breakout session and select another participant as the breakout session presenter.

To create a breakout session manually for another participant:

1 In the Breakout Session window, select the name of the participants whom you want to invite to the breakout session. To select more than one participant, hold down the Shift key while you select participants.

2 Do *either* of the following:
   - On the **Breakout** menu, point to **Breakout Session Assignment**.
   - On the Breakout Session panel, click **Breakout Assignment**.

The Breakout Session Assignment dialog box appears.
3 Add a session by clicking the following:

![Add Session]

Windows version Mac version

4 In the breakout session name text box, type a new name or use the default name that is provided.

5 Highlight the name of the breakout session.

6 Highlight the name of the participant for whom you are creating the breakout session and click the >> button.

7 Add additional **Not Assigned** participants to the session.
Chapter 25: Using Breakout Sessions

8 Ensure that the radio button is selected next to the participant that you would like to be the presenter.

9 Click OK.

The breakout session appears in the Breakout Session panel and can be started by the presenter at any time.

Asking all participants to return from a breakout session

As the presenter, you can ask panelists and participants to return from their breakout sessions.

To ask all to return from breakout sessions:
In the Session window, on the Breakout menu, choose Ask All to Return.
All participants in breakout sessions receive a message asking them to return to the main training session. They can choose to leave the session or continue.

Sending a broadcast message to all breakout sessions

As the presenter, you can broadcast a message to all participants or to select participants in breakout sessions.

To broadcast a message:
1 In the Session window, on the Breakout menu, choose Broadcast Message.

The Broadcast Message dialog box appears.
2 Select who you would like to receive the message from the To drop-down list.

3 In the Message box, type your message.

4 Click OK.

Your message appears on the selected participants' desktops during their breakout sessions.

## Ending all breakout sessions

As the presenter, you can end all of the breakout sessions at once.

**To end all breakout sessions:**

In the Breakout Session panel, click End All. You can also end all sessions from the Breakout menu.

All participants receive a message that their breakout session will end in 30 seconds.

## Requesting a breakout session presenter to share content

As the training session presenter, you can request a breakout session presenter to share his or her shared content in the main training session. Before a breakout session presenter can share content in the main session, you must end all the breakout sessions.

**To request a breakout session presenter to share content:**

1 In the Session window, on the Breakout menu, choose Share Breakout Session Content.

The Share Breakout Session Content dialog box appears. The names of the breakout sessions and the names of the last presenters of the breakout sessions appears in a list.
2 Select the name of the presenter in the list whom you want to request to share breakout session content.

3 Click **OK**.

The last presenter receives instructions for sharing content from the breakout session in the main training session.

### Removing a participant from a breakout session

As the original presenter of a training session, you can remove a participant from a breakout session. Removing a participant from a breakout session does not remove the participant from the main training session.

To remove a participant from a breakout session:

1 In the Breakout Session window, in the participant list on the **Breakout Session** panel, select the name of the participant whom you want to remove from the breakout session.

2 On the **Participant** menu, choose **Expel from Breakout Session**.

   A confirmation message appears, in which you can verify that you want to remove the participant from the breakout session.

3 Click **Yes**.
The participant is removed from the breakout session.

## Presenting breakout sessions

</table>

## About presenting a breakout session

Once you start a breakout session, you can begin sharing content. The Breakout Session window replaces the main Session window on your desktop. You conduct your breakout session using the options available in the Breakout Session window menus and the **Sharing Controls** dashboard that appears on your screen.

As the presenter of the breakout session, you can:
Chapter 25: Using Breakout Sessions

- Use an audio conference. For details, see *Using an audio conference in breakout sessions* (on page 389).

- Allow or prevent more participants from joining a breakout session, as well as limit the number of participants. For details, see *Managing who can join the breakout session* (on page 391).

- Pass the presenter role to another participant. For details, see *Passing the presenter role to another participant* (on page 393).

- Present information from your computer. For details, see *Presenting information in a breakout session* (on page 394).

- Let another participant remotely control your application or desktop. For details, see *Granting remote control to a participant in a breakout session* (on page 394).

- End the breakout session. For details, see *Ending your breakout session* (on page 395).

- Share content from your breakout session in the main session (last presenters only). For details, see *Sharing content from your breakout session in the main session* (on page 396).

Creating a breakout session - attendees

Once the presenter allows breakout sessions, attendees can create their own sessions.

To create a breakout session:

1. Do *either* of the following:
   - On the **Breakout** menu, point to **Breakout Session Assignment**.
   - On the Breakout Session panel in the main Session window, click **Breakout Assignment**.

   The Breakout Session Assignment dialog box appears.
2 Select **Manually** and then add a breakout session.

3 Add a session by clicking the following:

![Add Session](image1)

Windows version  Mac version

4 Type a new breakout session name or use the default name that is provided.

5 Highlight the name of the breakout session.

6 Highlight the names of the **Not Assigned** participants for whom you want to add to the breakout session and click the >> button.

7 Optional. To view additional options, select the options icon.
Starting a breakout session that was created for you

The training session host, presenter, or panelist may create a breakout session by inviting participants and designate you as the presenter.

To start a breakout session that was created for you:

1. In the message box that you receive when someone else creates a breakout session for you, click Yes.

2. Optional. To start the breakout session later, click No. You can start the breakout session any time by selecting the name of the session or your name on the Breakout Session panel, and then clicking Start.

Joining a breakout session

The presenter determines whether a participant can join a breakout session, either by inviting participants, or by allowing participants to join without an invitation.
For details on the audio conference in a breakout session, see *Using an audio conference in breakout sessions* (on page 389).

To join a breakout session, do one of the following:

- On the Breakout menu, choose Join Breakout Session and then the name of the breakout session that you wish to join.
- On the Breakout Session panel, highlight the name of the breakout session that you wish to join and then click Join.

**Leaving and re-joining a breakout session**

If you are a participant in a breakout session, rather than the presenter, you can leave a session and return to it later.

To leave a breakout session, do one of the following:

- Close the Breakout Session Manager window by clicking the Close button in the upper-right corner of the window.
- On the File menu, choose Leave Breakout Session.
- On the Breakout Session panel, click Leave Breakout Session.

To re-join a breakout session:

From the Breakout Session menu, select Join Breakout Session.

**Using an audio conference in breakout sessions**

You can communicate with participants in a breakout session using your computer or telephone. All the audio conferencing options that the host sets up in the main session apply to the breakout session.

**Note:**

- When a participant who has already joined the main audio conference session joins a breakout session, he or she is switched from the main session audio conference to the breakout session audio conference automatically. Participants cannot join an audio conference in the main session while connected to a breakout session audio conference.
- If audio conferencing is not available or has not been started for the main session before the breakout session is started, audio conferencing for breakout sessions is
disabled also.

- When a participant who is in the breakout session audio conference leaves a breakout session, he or she disconnects from the breakout session audio conference automatically. The participant returns to the main session and can join the main audio conference by selecting Join Audio Conference on the Audio menu.

### Starting an audio conference during a breakout session

When you start a breakout session, all the audio conference options that the host sets up in the main session are available during the breakout sessions.

The Join Audio Conference message box automatically appears in the Session window for each participant in the breakout session.

*Note:* To use a VoIP audio conference, your computer must meet the system requirements for Integrated VoIP. For details, see the Audio release notes available from the User Guides page on your Training Center Web site.

To start an audio conference in a breakout session:

1. In the Audio Conference dialog box, decide whether to use the computer or phone to join the audio conference. If the Audio Conference dialog is not already appearing when the breakout session starts, it is available from the *Audio* menu.

2. If joining by phone, make your selections in the dialog box, click *Call Me*, and then follow the instructions on the phone.

   A telephone icon appears next to your name in the Participants panel to indicate that you have joined the audio conference using your phone.

3. If joining by computer, click *Join*.

4. Optional. Use the Volume dialog box to adjust the volume of your speakers or microphone or to mute or unmute your speakers or microphone.

5. Optional. To use the Audio Setup Wizard to set up audio options, choose *Audio Setup Wizard* on the *Audio* menu.

   A headset symbol appears to the left of your name in the participant list on the *Breakout Sessions* panel.
Chapter 25: Using Breakout Sessions

**Note:** The headset or telephone icon flashes to indicate which participant is speaking during the breakout session.

To change to an audio conference in a breakout session:

1. In the Audio Conference dialog box, decide whether to change to the breakout session audio conference.
2. Select **Yes** to join the breakout session audio conference.
3. Select **No** to remain in the main session’s audio conference.

**Leaving and ending an audio conference in a breakout session**

You can leave or end an audio conference at any time during a breakout session.

To leave an audio conference:

1. Click the **Audio** button on the Participants panel.
2. In the Audio Conference dialog box, click **Leave WebEx Audio**.

To end a breakout session and audio conference:

In the Breakout Session panel, click **End Breakout Session**.

**Managing who can join the breakout session**

You can control who can join a breakout session that is in progress in several ways:

- Let more participants join
- Prevent more participants from joining
- Specify the number of participants that can join

**Note:** If you chose the scheduling option to support over 500 attendees for this session, the number of participants that can join a breakout session will still be limited to 100.
To manage who can join a breakout session in progress:

1. Do *either* of the following:
   - On the **Breakout** menu, point to **Breakout Session Assignment**.
   - On the Breakout Session panel in the main Session window, click **Breakout Assignment**.

The Breakout Session Assignment dialog box appears.

2. Select **Manually** and then add a breakout session.
3. Add a session by clicking the following:
   
   | Windows version | Mac version |
4 Type a new breakout session name or use the default name that is provided.

5 Highlight the name of the breakout session.

6 Highlight the names of the Not Assigned participants for whom you want to add to the breakout session and click the >> button.

7 Optional. To view additional options, select the options icon.

8 Optional. To allow participants to join the breakout session without an invitation, select the check box next to Let others join the breakout session without invitation.

9 Optional. To limit the number of participants for the breakout session, select the check box next to Limit number of participants who can join this session. Then, in the box, type or select a number of participants.

10 Click OK.

Note: If when starting the session, you specified a number of participants who can join the session, only that number of participants can join the session, even if the Let more participants join this session without invitation command is selected.

Passing the presenter role to another participant

As the breakout session presenter, you can pass the presenter role to another breakout session participant. The presenter of the breakout session is responsible for conducting the breakout session.

To pass the presenter role:

1 On the Breakout Session panel, in the participant list, select the name of the participant to whom you want to pass the presenter role.

2 Do either of the following:
Chapter 25: Using Breakout Sessions

- In the Breakout Session window, on the Participant menu, choose Pass Presenter Role.
- On the Breakout Session panel, click Make Presenter.

The selected participant is now the presenter of the breakout session. The presenter indicator appears next to the participant's name.

**Note:** You cannot pass the presenter role when sharing an application, your desktop, or a Web browser.

**Presenting information in a breakout session**

Presenting and sharing information in a breakout session works similarly to presenting information in the main session. The only difference is that you select what content or software that you want to share from the Share menu within the Breakout Session window. The Share menu in the Breakout Session window works the same way as the Share menu in the main Session window.

In a breakout session, you can choose to share
- documents or presentations
- a whiteboard in the Breakout Session window
- a Web browser
- your desktop
- an application
- UCF multimedia

**Granting remote control to a participant in a breakout session**

During a breakout session, you can allow another participant to remotely control your application. A participant who has remote control of shared software can interact with it completely.

**Caution:** A participant who has remote control of your desktop can run any programs.
To grant remote control of a shared application to a breakout session participant:

1. Once you are sharing, select Assign Control on the Session Controls Panel.

2. On the menu that appears, point to Pass Keyboard and Mouse Control for what you are sharing, and then choose the participant to whom you want to grant remote control.

   Once the participant assumes control, your mouse pointer is no longer active.

   **Note:**
   - You can reassume control of a shared application at any time by clicking your mouse.
   - If a participant requests remote control, a request message appears next to your mouse pointer.

### Ending your breakout session

If you are the presenter in a breakout session, you can end your session for all participants.

**To end a breakout session:**

1. Do one of the following:
   - On the Quick Start page, click **End Breakout Session**.
   - Close the Breakout Session Manager window by clicking the **Close** button in the upper-right corner of the window.
   - On the **File** menu in the Breakout session window, choose **End Breakout session**.
Restarting a breakout session

Once a breakout session has ended, it remains in the Breakout Session panel and can be restarted at any time by the presenter. As a presenter, you can restart with the same participant assignment, or have new assignments created automatically.

To restart the breakout session:
1. In the Breakout Session panel, highlight the breakout session that you want to restart.
2. Click the down arrow on the Start button.
3. Select whether to restart this breakout session with the same attendee assignments as before, or with new assignments made automatically.

Sharing content from your breakout session in the main session

If the training session presenter or host sends you a request, you can share content that you shared in a breakout session when you return to the main training session. To be able to share content in the main session, the training session presenter must have ended all the breakout sessions.

To share breakout session content in the main session:
1. If the training session presenter or host sends you a request to share breakout session content, the Share Breakout Session Content dialog box appears.
   The content that you shared in your breakout session appears in a list.
2. Select the content that you want to share in the main training session. Hold down the Shift key to select more than one choice.
3. Click OK.
   Training Manager first opens the shared content, then displays it in your content viewer. Attendees can then view the shared content in their content viewers.
You can share the content in the main session the same way that you did in the breakout session.

About testing and grading

The Testing feature in Training Center gives you direct control over test creation, test delivery, test management, and scoring and grading, and the ability to track each attendee's performance. It also gives you access to the Test Library on your organization's Training Center Web site where you can store your tests and share your tests with other hosts in your organization. Tests are Web-based and easy to manage.

You can add tests to a training session and administer them at all stages of the learning process:

- **Pre-session**—Test attendees' knowledge so you can plan more effective and relevant training content
- **In-session**—Ensure that attendees follow the training content; receive feedback from attendees
- **Post-session**—Test attendees' comprehension of the training content; helps you plan your next training sessions based on the results of a post-session test
- **Recorded session (only for sites that include the On-Demand Module option, which is Training Center with the Presentation Studio Integration)**—Test users' comprehension of the training content; session and test can be taken at any time

**Tip:** You can also import a poll questionnaire and convert it to a Web-based test.

Adding tests to a scheduled training session

To test attendees, you must add tests to the training session that they will be attending.

Before you can add tests, schedule, but do not start, a session to turn on the Testing feature.

**Note:** During the training session scheduling process, you can also add a test that you have already created and saved to the Test Library.
To add a test to a scheduled training session:

1. Go to the Session Information page for the session by clicking the session topic.
2. Click **Add New Test** on the Session Information page.

**Important:** During scheduling, if you selected the option to automatically delete the training session from your Training Center Web site after it ends, a message box will appear. If you do not turn off this option, you will lose all tests associated with this session.

3. On the Add Test page, select *one* of the following and click **Next**:
   - **Create a new test**
     For details, see *Creating a new test* (on page 406).
   - **Copy an existing test from the Test Library**
     Select the test you want to copy from the Test Library and click **Next**.
     For details, see *Understanding the Test Library* (on page 405).
   - **Import test questions from saved test or poll questionnaire (*.atp or *.wxt file)**
     Select the file and click **Next**.
     For details, see *Converting test or poll questionnaires to tests* (on page 408).

4. Compose or edit the test, and click **Save**.
5. Specify delivery options, such as the test date and time limit, and click **Save**. For details, see *Specifying test delivery options for a scheduled training session* (on page 409).

The Manage Test page appears. The following figure shows an example of the Manage Test page.
Adding tests to a recorded training session

To test users of a recorded training session that you created using the On-Demand Module, you must add tests to the training recording that they will be using.

Before you can add a test to a recording, the test must already exist in the Test Library. Tests cannot be created or edited in the Presentation Studio editor.

To add a test to a recorded training session:

1. Log in to your Training Center Web site.
2. Do one of the following:
- Click **Host a Session > My Training Recordings**.
- Click **My WebEx > My Files > My Training Recordings**.
  
  The My Training Recordings page appears.

3. In your list of recordings, click the **More** drop-down icon for the recording for which you want to add a test and select **Modify**.

   The Presentation Studio editor opens to the Edit Properties page.

4. Click **Edit Slides**.
5 Under Current Presentation, select a slide in the location where you want to insert the test.

6 Under Source, select **Insert a test**.

7 Select the appropriate insert option from the drop-down list.

8 Click **Insert**.

The Add a Test page opens in a new window.
9 Select a test and click **Next**.

10 In the Test Delivery Options page that appears, select the appropriate options and click **Save**.

11 Click **Close** to return to the Edit Slides page.

12 Repeat these steps to add multiple tests to a session.

13 Click **Submit Changes**.

14 Click **OK** on the Recording Updated page.

You will be notified by email when your updated presentation is ready.

---

**Understanding the Test Library**

The Test Library serves as a repository of tests on your organization's Training Center Web site. In the Test Library, you can do the following:

- Create, edit, duplicate, or delete a test
- Import a poll or test questionnaire, with an .atp or .wxt file extension, and convert it to a test
- Copy your tests to the **Shared Tests** section so other training hosts can access the tests
- Copy shared tests to the **Private Tests** section
The tests you create or import appear in the Private Tests section.

To access Test Library:

1. Log in to your Training Center Web site.
2. Click Test Library under Host a Session on the left navigation bar.

The Test Library page appears.

Creating a new test

You can create a test in the Test Library or create a test and then add it to a scheduled training session. You can add a test to a recorded session only if your site includes the On-Demand Module option.

To create a test:

1. Do one of the following:
   - On the Test Library page, click Create New Test.
   - On the Session Information page, click Add New Test. Select Create a new test, and click Next.

The Create Test page appears.
2 Specify the following:

- **Test title and description**
- **Maximum score** — Select the check box and type the score in the text box to specify the maximum score an attendee can receive.
- **Grades** — Select the check box to assign a grade based on the attendee's scores. Click the **Specify Grades** link to specify a grading scale.
- **Display question** — Select one of the following:
  - All questions in one page
  - One question per page

3 Click the **Insert Question** link to add a question or instructions to the test. The Add Question window appears.

4 Click the **Question Type** drop-down list.

The following table defines each question type.

<table>
<thead>
<tr>
<th>Question type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Essay</td>
<td>A question that requires attendees to type text answers</td>
</tr>
<tr>
<td>Fill in the blanks</td>
<td>A question that requires attendees to type text answers in the blanks</td>
</tr>
<tr>
<td>Instructions</td>
<td>Instructions that you can provide attendees in the beginning of a test</td>
</tr>
<tr>
<td>Multiple Choice</td>
<td>A question that requires attendees to select one correct answer</td>
</tr>
<tr>
<td>Multiple Response</td>
<td>A question that requires attendees to select more than one correct answer</td>
</tr>
<tr>
<td>True/False</td>
<td>A question that requires attendees to indicate whether the statement in the question is true or false</td>
</tr>
</tbody>
</table>

5 In the drop-down list, do one of the following:

- Choose **Instructions** to add instructions in the beginning of the test, and click **Save**.
- Choose one question type, compose the question, specify the correct answers, and click **Save**.
Follow the same instructions to add additional questions to the test.

7. In the Scoring Panel area for each question, specify a score for the correct answer and optionally type scoring guidelines or comments for the person who will score the test.

8. To rearrange questions, click the Move Up or Move Down links. To edit a question, click Edit.

9. Click Save.

Converting test or poll questionnaires to tests

You can import test or poll questionnaires that were created and saved in previous versions of Training Center and convert them to Web-based tests. Test or poll questionnaire files have a .atp extension.

You can also import files that have been converted with the WebEx Conversion Tool for use in Training Center. These files have a .wxt extension.

To convert a test or poll questionnaire to a test:

1. Do one of the following:
   - On the Test Library page, click Import.
   - On the Session Information page, click Add New Test, select Import test questions from saved test or poll questionnaire (*.atp or *.wxt file), and click Next.

2. Select the file that you want to import and click Next.
   - The questionnaire is copied to the Edit Test page.

3. Edit the questions if necessary.

4. Click Save.
Specifying test delivery options for a scheduled training session

The Test Delivery Options page appears during the process of adding a test to a scheduled training session. On this page, you determine when and how to deliver the test. Once you start a test, you cannot change the delivery options.

The following figure shows an example of the Test Delivery Options page.

Specifying the delivery method

Next to Delivery method, select one of the following:

- Start this test within a live session—You can start the test anytime during the training session.
• **Deliver this test on the Web site**—Specify the starting and due dates and times for the test. Attendees can take the test anytime between the starting and due dates and times.

**Specifying a time limit**

Next to **Time limit**, select one of the following:

• **No time limit**
• **Attendees must finish the test within X minutes**
  
  Type the length of time in the text box.

**Note**: If the test is set to be delivered outside the session, attendees can take the test anytime between the starting and due dates but must finish the test within the specified length of time.

**Sending email messages to attendees**

Next to **Email attendees**, select from the following:

• **Invitation email to take the test**—Specifies when to send the email before the test starts
  
  Type the number of days, hours, and minutes before the test starts to send the email in the text box.
• **Send this email to all attendees that register after the test starts**
• **Reminder email after a test starts**
• **Notify host when an attendee submits a test**
• **Scoring and grading report**—Sends grade reports to attendees after the host finishes scoring their tests or after the host updates the scores or comments

**Specifying a test attempt limit**

Next to **Attempt limit**, select from the following:

• **Allow attendees to take the test X times**
  
  Type the number of times that an attendee can take the test.
Specifying test delivery options for a recorded training session

The Test Delivery Options page appears during the process of adding or managing a test for a recorded training session that you created using the On-Demand Module. On this page, you determine the time limit and email options for the test.

The following figure shows the Test Delivery Options page.

### Test Delivery Options

<table>
<thead>
<tr>
<th>Time Limit</th>
<th>Email attendees</th>
</tr>
</thead>
<tbody>
<tr>
<td>No time limit</td>
<td>Scoring and grading report</td>
</tr>
<tr>
<td>Attendees must finish test within X minutes</td>
<td></td>
</tr>
</tbody>
</table>

#### Specifying a time limit

Next to **Time limit**, select one of the following:

- No time limit
- Attendees must finish the test within X minutes

Type the length of time in the text box.

**Note**: Attendees can start the test at any point during the recording but must finish the test within a specified length of time.

#### Sending email messages to attendees

Next to **Email attendees**, select the **Scoring and grading report** check box to send grade reports to attendees after the host finishes scoring their tests or after the host updates the scores or comments.
Starting and managing scheduled training session tests

You can use the Manage Test page to manage every aspect of a test.

To access the Manage Test page for a test:

Click the test topic on the Session Information page. The following figure shows an example of the Test section on a Session Information page.

Click the Manage button to open the Manage Test page.
The options on the Manage Test page vary, dependent on the delivery options and the status of the test. Tests can fall into the following categories:

- Pre-session tests and post-session tests
- In-session tests

**Managing pre-and post-session tests**

**To manage pre- and post-session tests:**

Pre- and post-session tests automatically start at the time you specified on the Test Delivery Options page.

The following table shows the management options for a pre- or post-session test.

<table>
<thead>
<tr>
<th>Status</th>
<th>Management Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before test starts</td>
<td>▪ Change delivery options</td>
</tr>
<tr>
<td></td>
<td>▪ Copy the test to Test Library</td>
</tr>
<tr>
<td></td>
<td>▪ Edit test questions</td>
</tr>
<tr>
<td>Test in progress</td>
<td>▪ End test immediately</td>
</tr>
<tr>
<td></td>
<td>▪ Extend due date of the test</td>
</tr>
<tr>
<td></td>
<td>▪ View and score attendees’ answers</td>
</tr>
<tr>
<td></td>
<td>▪ Copy the test to Test Library</td>
</tr>
<tr>
<td></td>
<td>▪ View test questions</td>
</tr>
<tr>
<td>After test ends</td>
<td>▪ Re-start the test</td>
</tr>
<tr>
<td></td>
<td>▪ View and score attendees’ answers</td>
</tr>
<tr>
<td></td>
<td>▪ Copy the test to Test Library</td>
</tr>
<tr>
<td></td>
<td>▪ View test questions</td>
</tr>
</tbody>
</table>

**Managing and starting in-session tests**

You administer an in-session test during a training session. Attendees take the test during the session rather than before or after.
To manage in-session tests:

1. Specify **Start this test within a live session** option on the Test Delivery Options page when adding the test to the session.
2. After the session starts, choose **Testing** in the drop-down list on the **Participants & Communications** panel.
3. Select the title of the test, and then click **Launch for All**.
4. On the page that appears, click **Start Test**.

The following table shows the management options for an in-session test.

<table>
<thead>
<tr>
<th>Status</th>
<th>Management Options</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before test starts</td>
<td>• Change delivery options</td>
</tr>
<tr>
<td></td>
<td>• Copy the test to Test Library</td>
</tr>
<tr>
<td></td>
<td>• Edit test questions</td>
</tr>
<tr>
<td>After you click <strong>Launch for All</strong></td>
<td>• Start the test</td>
</tr>
<tr>
<td></td>
<td>• Copy the test to Test Library</td>
</tr>
<tr>
<td></td>
<td>• Edit test questions</td>
</tr>
<tr>
<td>Test in progress</td>
<td>• End the test immediately</td>
</tr>
<tr>
<td></td>
<td>• Increase time limit if you have specified it</td>
</tr>
<tr>
<td></td>
<td>• View and score attendees’ answers</td>
</tr>
<tr>
<td></td>
<td>• Copy the test to Test Library</td>
</tr>
<tr>
<td></td>
<td>• View test questions</td>
</tr>
<tr>
<td>After test ends</td>
<td>• Re-start the test</td>
</tr>
<tr>
<td></td>
<td>• View and score attendees’ answers</td>
</tr>
<tr>
<td></td>
<td>• Copy the test to Test Libra</td>
</tr>
<tr>
<td></td>
<td>• View test questions</td>
</tr>
<tr>
<td>Test suspended in the event of a session crash</td>
<td>• Resume the test</td>
</tr>
<tr>
<td></td>
<td>• Re-start the test</td>
</tr>
<tr>

<td>• View and score attendees’ answers</td>
</tr>
<tr>
<td></td>
<td>• Copy the test to Test Library</td>
</tr>
<tr>
<td></td>
<td>• View test questions</td>
</tr>
</tbody>
</table>
Managing recorded tests

You can use the Manage Test page to manage every aspect of a test that you created using the On-Demand Module.

To access the Manage Test page for a test:

Click the test topic on the Recording Information page. The following figure shows an example of the Tests in Presentation section on a Recording Information page.

<table>
<thead>
<tr>
<th>Tests in Presentation:</th>
<th>Title</th>
<th>Manage Test</th>
</tr>
</thead>
<tbody>
<tr>
<td>Test 1</td>
<td></td>
<td>Manage Test</td>
</tr>
<tr>
<td>Product Review</td>
<td></td>
<td>Manage Test</td>
</tr>
</tbody>
</table>

You can add a new test or delete an existing one by editing the presentation associated with this recorded session.

Can I edit a test?

Click the Manage Test link next to your test to open its Manage Test page.
The host has the following management options for a recorded test:

- Change the time and email options by clicking **Change Delivery Options**.
- Copy the test to the Test Library.
- View the test questions.

**Note:** The questions cannot be edited in a recording. They can only be edited in the Test Library.

- Check the status of the students taking the test.
- View and score students' answers.

### Scoring and grading answers for a test

Training Center automatically checks attendees' answers against the correct answers you specified when creating the test and then scores the results.
Chapter 26: Testing and Grading

An entire test is scored automatically if it contains no essay or fill-in-the-blanks questions. In this case, attendees can view test results once they submit their answers.

If a test contains essay or fill-in-the-blanks questions, you must manually review and score the test. A complete score is unavailable until you finish scoring the essay or fill-in-the-blanks questions.

To score the answers for a test:

1. Do one of the following:
   - From the Session Information page, click **Score & Report**.
   - From the Manage Test page, in the Student Answers section, click **View and Score Answers**.

The Submitted Tests page appears. This page lists attendees who have submitted their tests and attendees who have received their scores and grades, if assigned. You can also view the questions and grading scale, if specified.

### Submitted Tests

<table>
<thead>
<tr>
<th>Student Name</th>
<th>Email</th>
<th>Date &amp; Time submitted</th>
<th>Score</th>
<th>Grade</th>
</tr>
</thead>
<tbody>

</tr>
<tr>
<td>Diana Liang</td>
<td><a href="mailto:diannal1@webex.com">diannal1@webex.com</a></td>
<td>8/3/03 5:00 pm</td>
<td>85</td>
<td>B</td>
</tr>
</tbody>
</table>

Total submitted tests: 7

2. To score an attendee’s test, click the **Score Answers** link for the attendee or click the attendee’s name.
The Score Submitted Answers page appears. All answers, except for essay questions, are automatically scored. A partial score appears in the **Results** area. Although fill-in-the-blanks answers are scored automatically, you may want to review them and change the scores, if necessary.

3 Review the essays or fill-in-the-blanks answers that need manual scoring, and specify the scores for the essays.

- To quickly go to a question that needs manual scoring, go to the **Unscored questions** section, choose a question in the drop-down list, and click **Go**.

- To change the score for a fill-in-the-blanks answer, select **correct** or **incorrect** for the question. Clicking **Save** updates the score.

4 Optionally type comments for the attendee.

5 Click **Save** to update the score or your comments.

The test results are updated on the View Test Results page. If you have specified to send grade reports to attendees, the attendee receives the update via email.
## About taking a test

The host or presenter of a training session that you are attending can conduct tests before, during, or after the session, or during a recorded session in a Presentation Studio presentation, to test your knowledge of the training content or seek feedback.

A host may request you to take one of the following types of tests:

- Pre- or post-session tests—A test starts and ends at the specified times and dates outside a training session. Email messages you receive from the host contain information about how to access these tests.
In-session tests—The host starts a test during a training session. Your training service does not send email messages about these tests on behalf of the host. You can obtain test information by contacting the host.

Recorded session tests (only in Presentation Studio presentations)—A test can be taken once, at any time during the recorded session.

You take tests and submit your answers on the Web. Once scoring is completed, you can view test results from the Session Information page on your Training Center Web site, on the Test Submitted page for a recorded session, or from the host's email message that contains your grade report.

To access the Session Information page for a training session, you can go to the training calendar on your Training Center Web site and then click the link for the session topic.

### Obtaining test information

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of obtaining test information</td>
<td>About obtaining test information (on page 420)</td>
</tr>
<tr>
<td>obtain test information from a registration confirmation email message you receive from the host</td>

</tr>
<tr>
<td>obtain test information from the training calendar on your Training Center Web site</td>
<td>Obtaining test information from the training calendar (on page 421)</td>
</tr>
<tr>
<td>obtain test information from an invitation email message to take a test</td>
<td>Obtaining test information from an invitation email message to take a test (on page 422)</td>
</tr>
</tbody>
</table>

### About obtaining test information

Note: Test information is not available in advance for recorded session tests.

You can obtain information about a pre- or post-session test from any of the following:

- A registration confirmation email message
The training calendar on your Training Center Web site

An invitation email message to take a test, if you received the email from the host

To obtain information about an in-session test prior to joining the training session, contact your training session host.

Obtaining test information from a registration confirmation email message

Once the training session host approves your registration request, you receive a registration confirmation email message that contains a link you can click to obtain test information.

To obtain test information from a registration confirmation email message:

1. Open the registration confirmation email, and then click the appropriate link.
2. If the host requires a session password, type the session password in the Password text box, and then click View Info.
   The Session Information page, with full details, appears. The Tests section displays all pre- or post-session tests associated with this training session.
3. In the Test section, locate the test you want to view, and then do either of the following:
   - In the Action column, click View Info.
   - In the Title column, click the test title.
   The Take Test page appears.
4. Enter the session password, and click OK.
5. Click OK.
   The Session Information page appears.

Obtaining test information from the training calendar

You can obtain test information from the training calendar on your Training Center Web site once the training session host approves your registration.
To obtain test information from the training calendar:

1. On your Training Center Web site, expand **Attend a Session**, and then click **Live Sessions**.

2. Locate the training session with which the test is associated, and then click the link for the session topic.

   The Session Information page appears.

3. Click **View Session Details**.

   The Take Test page appears.

4. If the host requires a session password, type the session password in the text box, and then click **OK**.

   The Session Information page, with full details, appears. The Test section displays all pre- or post-session tests associated with this training session.

5. In the Test section, locate the test you want to view, and then do either of the following:
   - In the Action column, click **View Info**.
   - In the Title column, click the test title.

   The Take Test page appears.

6. Click **OK**.

### Obtaining test information from an invitation email message to take a test

You may receive an invitation email message to take a test if the training session host sends such email messages to attendees whose registration has been approved.

To obtain test information from an invitation email message to take a test:

Open the invitation email message, and then click the appropriate link.

The Take Test page appears.

### About attendee accounts

An attendee account stores a user's personal information and session information associated with that user, such as a registration number.
A training session host may require that you have an attendee account to join a training session, view test information, or take a test. If you log in using an attendee account, you do not need to provide personal information or a registration number for those tasks.

For information about obtaining an attendee account, ask your training session host.

**Taking a pre- or post-session test**

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of taking a pre- or post-session test</td>
<td><em>About taking a pre- or post-session test</em> (on page 423)</td>

<td><em>Taking a test from an invitation email message</em> (on page 425)</td>
</tr>
<tr>
<td>leave and return to a test</td>
<td><em>Leaving and returning to a test</em> (on page 425)</td>
</tr>
</tbody>
</table>

**About taking a pre- or post-session test**

A pre- or post-session test starts and ends at the times specified by your training session host. If the host also specifies a time limit, you must finish the test within the time limit during the scheduled time frame.

You can take a pre- or post-session test from *any* of the following:

- A registration confirmation email message
- The training calendar on your Training Center Web site
- An invitation email message to take a test, if you received the email from the host
Taking a test from a registration confirmation email message

Once the host approves your registration, you receive a confirmation email message that contains a link you can click to open the Session Information page, from which you can take a test.

To take a test from a registration confirmation email message:

1. Open the email, and then click the appropriate link.
2. If the host requires a session password, type the session password in the Password text box, and then click View Info.
   The Session Information page, with full details, appears. The Test section displays all pre- or post-session tests associated with this training session.
3. In the Test section, do either of the following:
   - In the Action column, click Take Test.
   - In the Title column, click the test title.
   The Take Test page appears.
4. If the host requires a session password, type it in the text box, and then click OK.
5. Click Take Test.
6. Answer the questions.
7. When finished, click Submit Test.

For more information about answering questions, see Answering questions (on page 430).

Taking a test from the training calendar

You can take a test from the training calendar on your Training Center Web site.

To take a test from the training calendar:

1. On your Training Center Web site, expand Attend a Session, and then click Live Sessions.
2. Locate the training session with which the test is associated, and then click the link for the session topic.
Chapter 27: Taking a Test

3 Click **View Session Details**.

4 If the host requires a session password, type the session password in the text box, and then click **OK**.

The Session Information page, with full details, appears. The Test section displays all pre- or post-session tests associated with this training session.

5 In the Test section, locate the test that you want to take, and then click **Take Test** in the Action column.

The Take Test page appears.

6 Provide the required information, and then click **OK**.

7 Click **Take Test**.

8 Answer the questions. When finished, click **Submit Test**.

For more information about answering questions, see *Answering questions* (on page 430).

**Taking a test from an invitation email message**

If you receive an invitation email message to take a test, you can take the test from the email message.

To take a test from an invitation email message:

1 Open the invitation email, and then click the appropriate link.

The Take Test page appears.

2 Click **Take Test**.

3 Answer the questions.

4 When finished, click **Submit Test**.

For more information about answering questions, see *Answering questions* (on page 430).

**Leaving and returning to a test**

You can leave a test and return to it later only if the test is pre- or post-session.

If the host specifies a time limit for the test you are taking, remember the following:
You must return to the test within the time limit.

The duration of your absence counts toward the time limit.

To leave a test temporarily:

1. Click **Return to Test Later**.
   The Leave Test page appears.

2. To confirm your leaving, click **Leave Test**.
   The Session Information page appears.

To return to the test that you left temporarily:

Follow the same steps as if you were to take the test for the first time. For details, see *Taking a pre- or post-session test* (on page 423).

**Taking an in-session test**

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of taking an in-session test</td>
<td><em>About taking an in-session test</em> (on page 426)</td>
</tr>
<tr>
<td>take an in-session test</td>
<td><em>Taking an in-session test</em> (on page 427)</td>
</tr>
</tbody>
</table>

**About taking an in-session test**

During the training session that you are attending, the presenter may conduct in-session tests.

Before the presenter starts the test, there may be a waiting period that allows you to view test information, such as the test title and description, time limit, if any, number of questions, and the maximum score, if any.

The following figure shows an example of the page that appears in a new Web browser on your computer while you wait for the presenter to start the test.
Taking an in-session test

To take an in-session test, follow these steps:

1. Once the presenter starts the test, a page appears on which you can answer the questions.

   **Note:** When taking an in-session test, you cannot leave and return to the test later.

2. When finished, click **Submit Test**.

   For more information about answering questions, see *Answering questions* (on page 430).
Taking a recorded session test in a Presentation Studio presentation

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of taking a recorded session test</td>
<td>About taking a recorded session test (on page 428)</td>
</tr>
<tr>
<td>take a recorded session test</td>
<td>Taking a recorded session test (on page 429)</td>
</tr>
</tbody>
</table>

About taking a recorded session test

During the recorded training session that you are viewing, there may be tests within the presentation if it is a Presentation Studio presentation.

When you arrive at a test in the recorded session, the Take Test page appears, which shows test information, such as the test title and description, time limit, if any, number of questions, and the maximum score, if any. You have the option to take the test now or continue with the presentation and return to the test at a later time. You can take each test only once.

There are also fields for you to enter your name and email address. These fields will be populated if you have already registered for the recorded session or have already taken a test during the session.

The following figure shows an example of the Take Test page.
Chapter 27: Taking a Test

Taking a recorded session test

To take a recorded session test, follow the steps:

1. On the Take Test page, click Take Test.

   A page appears on which you can answer the questions.

2. When finished, click Submit Test.

   For more information about answering questions, see Answering questions (on page 430).

Leaving and returning to a recorded session test

You can leave a test and return to it later during a recorded session.

If a time limit is specified for the test you are taking, remember the following:
Chapter 27: Taking a Test

- You must return to the test within the time limit.
- The duration of your absence counts toward the time limit.

To leave a test temporarily:

1. Click the **Save Answers button to save all of your answered questions**.
   - The button changes to **Answer Saved** for those questions that you have already answered.
   - For more information about answering questions, see *Answering questions* (on page 430).
2. Click the arrows or **another slide in the presentation to change slides**.

To return to the test that you left temporarily:

Click the slide that contains the test to resume the test. All answers that have been saved will remain answered.

### Answering questions

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>learn how to answer questions in a test</td>
<td><em>Answering questions</em> (on page 430)</td>
</tr>
<tr>
<td>know how to save your answers and navigate in a test</td>
<td><em>Saving answers and navigating in a test</em> (on page 431)</td>
</tr>
</tbody>
</table>

### Answering questions

Answering questions in a test requires that you select or type your answers by using your mouse.

To learn how to answer each type of question, see the following table.

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>Do the following</th>
</tr>
</thead>
<tbody>
<tr>
<td>answer a question that requires you to select one</td>
<td><strong>Click the radio button for your choice.</strong></td>
</tr>
<tr>
<td></td>
<td><strong>Note</strong> To click, press your mouse once and then release it.</td>
</tr>
</tbody>
</table>
Chapter 27: Taking a Test

### If you want to | Do the following
---|---
correct answer |
change the answer you selected in a question that requires you to select one correct answer | Click a different radio button.
answer a question that requires you to select more than one correct answer | Click the check boxes for your choices.
cancel the answers you selected | Click the selected check boxes again.
answer an essay or fill-in-the-blanks question | Type your answer in the text box.

### Saving answers and navigating in a test

The ways you navigate in a test and save your answers differ, depending on how the questions are displayed. The host who creates a test can choose *either* of the following displays:

- **All questions in one page**—Displays test information, instructions, if any, and all questions in one page.
  
  To view more questions on the page, use the scroll bar in your browser.
  
  To save all the answers you have not saved, click *any Save Answers* button.
  
  Each question is indicated by one of the following buttons, so you know which questions you have or have not answered.
One question per page—Each page displays only one question. The first page displays the test information; the second page displays the instructions, if any.

To navigate between questions, use the Control Panel, which appears in each page. Moving to any question saves the answers you previously selected or typed.

The following figure shows the Control Panel.

To move to a question, do either of the following:
- Choose the question in the drop-down list.
- Click Next Page or Previous Page to move to the question.

Viewing test results

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of viewing test results</td>
<td>About viewing test results (on page 432)</td>
</tr>
<tr>
<td>view results of a test that contains essay or fill-in-the-blanks questions</td>
<td>Viewing results of a test that requires manual scoring (on page 433)</td>
</tr>
<tr>
<td>retake the test</td>
<td>Taking the test again (on page 434)</td>
</tr>
</tbody>
</table>

About viewing test results

You can click View Results on the Session Information page or, for a recorded session, on the Test Submitted page, to view your test results. You can also click a link sent via email to view your test results if you receive grade reports from the host.
If the test contains no essay or fill-in-the-blanks questions that need manual scoring, your test results are available once you submit your answers. In this case, you can click the view the results link to view your test results. See the following figure for an example.

For a recorded session test, you can view results or continue with the presentation by clicking the appropriate button.

Viewing results of a test that requires manual scoring

If a test contains essay or fill-in-the-blanks questions that require manual scoring, you must wait for the instructor to complete scoring.

For in-session, pre-, or post-session tests, check the Session Information page on your Training Center Web site for your test results, or the host's email message that contains your grade reports. For recorded session tests, your results will be emailed to you when they are ready.
Chapter 27: Taking a Test

Note:
- Before the test ends, and if the scoring is completed, you can view your score and grade, if assigned.
- After the test ends, and if the scoring is completed, you can view detailed results, including your score, your grade, if assigned, correct answers, and the instructor's comments. You may also be able to retake the test.

Taking the test again

The training session host who creates the test will determine whether a test can be retaken, as well as the number of attempts.

If you are allowed to retake the test, once the test has been graded, you will see the following box on the View Test Results page.

Click **Take Test Again**.

The Take Test page opens, and you can retake the test.
Chapter 28

Sending and Receiving Video

When you send video, your video is seen by all participants.

If a video camera is attached to your computer, you can send video. Other participants can see you, or whatever you focus your webcam on. To see video, participants do not need to have a webcam installed on their computers.

WebEx meetings support high-quality video, which can be set at the site or meeting level. Video can be as high as 360p resolution (640x360). If your site or meeting does not support high-quality video, then standard video is used.

A system that meets the following minimum requirements can send or receive high-quality video:

<table>
<thead>
<tr>
<th>Video mode</th>
<th>What you need</th>
</tr>
</thead>

| Sending    | - A webcam capable of producing high-quality video. WebEx supports most webcams of this type  
|            | - A computer with at least one GB of RAM and a dual-core processor  
|            | - A fast network connection |
| Receiving  | - A computer with at least 1 GB of RAM and a single-core processor  
|            | - A fast network connection |
Chapter 28: Sending and Receiving Video

To start or stop sending video, simply select the video icon beside your name.

After you select the icon, it changes to green to indicate that you are sending video.

After you start sending video, you can perform the following tasks depending on your role.

<table>
<thead>
<tr>
<th>Role</th>
<th>Tasks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Host Windows</td>
<td>What you can do:</td>
</tr>
<tr>
<td></td>
<td>▪ Stop and start sending video at will.</td>
</tr>
<tr>
<td></td>
<td>▪ Set the main display. (on page 437)</td>
</tr>
<tr>
<td></td>
<td>▪ View video in full-screen mode (on page 439).</td>
</tr>
<tr>
<td></td>
<td>▪ Add participants or show thumbnails. (on page 438)</td>
</tr>
<tr>
<td></td>
<td>▪ Set webcam options (on page 441).</td>
</tr>
<tr>
<td>Participant Mac</td>
<td>What you can do:</td>
</tr>
<tr>
<td></td>
<td>▪ Start or stop sending video at will.</td>
</tr>
<tr>
<td></td>
<td>▪ View video in full-screen view (on page 439).</td>
</tr>
<tr>
<td></td>
<td>▪ Add participants or show thumbnails. (on page 438)</td>
</tr>
<tr>
<td></td>
<td>▪ Set webcam options (on page 441).</td>
</tr>
</tbody>
</table>

Note: If you are managing a meeting that includes TelePresence systems (Meeting Center only), the following WebEx features are unavailable:
▪ Recording
Selecting a participant video for the main display

If you are the host, you can decide which participant video to show in the main display.

To set the video for the main display:

1. Select the name tag on the main display.
2. In the Lock Focus on a Participant dialog box, select one of the following:
Chapter 28: Sending and Receiving Video

- **The active speaker.** This is the default. The display focuses on the person currently speaking and changes as the speaker changes.
- **A specific participant.** The display focuses on only the specific participant that you select.

Switch between a list or thumbnail view of participants

Select the participant icon to switch between the participant list or thumbnail views.
Switching to and from full-screen view

Full-screen mode displays your video across the entire desktop space and is great to use when you want to see a larger view. Full-screen view provides high-quality video display and five video thumbnails.
The active speaker (or a specific participant) is shown in the main display with all other participant videos arranged in a row beneath.

In full-screen mode, you can stop or restore your video, as well as mute or unmute your audio.

To switch to and from full-screen mode:

To go to full-screen mode, do one of the following:

- Double click the main display
- Select the full-screen mode icon in the upper right corner of the display
Switching to full-screen mode during sharing

The behavior of full-screen video mode varies depending on your role in the training session.

<table>
<thead>
<tr>
<th>Role</th>
<th>Full-screen video behavior during sharing</th>
</tr>
</thead>
<tbody>
<tr>
<td>presenter</td>
<td>If you are sharing and you switch to full-screen video mode, the last shared screen is frozen for all other participants. After you exit full-screen mode, sharing continues.</td>
</tr>
<tr>
<td>a participant</td>
<td>If your are in full-screen video mode, and the presenter starts or continues sharing, you will automatically exit full-screen mode so that you can view what is being shared.</td>
</tr>
</tbody>
</table>

Setting webcam options

If you have a working webcam, you can set options that are available for that webcam directly from your training session.
To set webcam options:

Windows:
At the top right of the main display select the options icon.

Mac:
At the bottom right of window, select the options icon

Usually, you can set options for general settings, such as contrast, sharpness, and brightness, but options can vary depending on your web camera.

Managing video during sharing
When you are sharing information or someone else is sharing information with you, the main video displays in a floating panel in the upper right corner of your desktop on or near the information you are sharing. You can minimize or enlarge this display at will, or move it to any other part of the desktop.
To minimize or adjust the size and position of the main display:

- **Minimize**: Select the arrow icon in the upper left corner.
- **Resize**: Select the bottom right corner and drag the edge.
- **Reposition**: Select and drag the display to another location on the desktop.

To manage the self-view window during sharing:

- **Minimize/Restore**: Select the icon in the upper right corner of the self-view window.
- **Stop/Start video**: Click the video icon at the center of the self-view window.

**About My WebEx**

My WebEx is an area on your WebEx service Web site in which you can access your user account and personal productivity features. The following features are available, depending on the configuration of your site and user account:

- **Personal list of meetings**: Provides a list of all the online meetings that you are hosting and attending. You can view the meetings by day, week, or month, or you can view all meetings.

- **Productivity Tools Setup**: Optional feature. Lets you set up options for instant or scheduled meetings that you can start from applications on your desktop. If you install WebEx Productivity Tools, you can start or join meetings, sales meetings, training sessions, and support sessions instantly from One-Click or from other applications on your desktop, such as Microsoft Office, Web browsers, Microsoft Outlook, IBM Lotus Notes, and instant messengers. You can also schedule meetings, sales meetings, events, and training sessions using Microsoft Outlook or IBM Lotus Notes without going to your WebEx service site.

- **Personal Meeting Room**: Optional feature. A page on your WebEx service Web site on which visitors can view a list of meetings that you are hosting and join a meeting in progress. Visitors can also access and download files that you share.

- **Access Anywhere**: Optional feature. Lets you access and control a remote computer from anywhere in the world. For more information about Access Anywhere, refer to the guide *Getting Started with Access Anywhere*, which is available on your WebEx service Web site.

- **File storage**: Lets you store files in personal folders on your WebEx service Web site, where you can access them on any computer that has
access to the Internet. Also lets you make specific files available on your Personal Meeting Room page, so visitors to your page can access them.

- **Recorded training session management:** Lets you maintain recorded training sessions and publish them on your WebEx service Web site. For more information, see *Publishing a Recorded Training Session* (on page 515).

- **Address book:** Lets you keep information about your personal contacts on your WebEx service Web site. Using your address book, you can quickly access contacts when inviting them to a meeting.

- **User profile:** Lets you maintain your account information, such as your username, password, and contact information. Also lets you specify another user who can schedule meetings on your behalf, set options for your Personal Meeting Room page, and manage scheduling templates.

- **Web site preferences:** Lets you specify the home page for your WebEx service Web site—that is, the page that appears first whenever you access your site. If your site provides multiple languages, you can also choose a language and locale in which to display text on your site.

- **Usage reports:** Optional feature. Lets you obtain information about meetings that you hosted. If you use the Access Anywhere option, you can also obtain information about computers that you access remotely.

## Obtaining a user account

Once you obtain a user account, you can use My WebEx features and host sessions on the Web.

You can obtain a user account in one of two ways:

- The site administrator for your WebEx service Web site can create a user account for you. In this case, you need not sign up for an account on your site, and you can begin hosting sessions immediately.

- If your site administrator has made the self-registration feature available, you can sign up for an account on your WebEx service Web site at any time.

**To obtain a user account using the self-registration feature:**

1. Go to your WebEx service Web site.
2. On the navigation bar, click **Set Up > New Account**.
Chapter 29: Using My WebEx

The Sign Up page appears.

3. Provide the required information.

4. Click **Sign Up Now**.

You receive an email message, confirming that you have signed up for a user account.

Once your site administrator approves your new user account, you receive another email message containing your username and password.

**Note:** Once you obtain a user account, you can edit your user profile to change your password and provide additional personal information. You can also specify site preferences, such as your default home page and time zone. For details, see *Maintaining your user profile* (on page 501).

---

Logging in to and out of the WebEx service site

To manage your online meetings and maintain your user account, you must log in to your WebEx service Web site. If you do not yet have a user account, see *Obtaining a user account* (on page 447).

To log in to your WebEx service site:

1. Go to your WebEx service Web site.

2. In the upper-right corner of the page, click **Log In**.

   The Log In page appears.

3. Enter your username and password.

   Passwords are case-sensitive, so you must type your password exactly as you specified it in your user profile.

4. Click **Log In**.

**Tip:** If you have forgotten your username or password, click **Forgot your password**. Provide your email address, type verification characters, and then click **Submit**. You will receive an email message containing your username and password.

To log out from your WebEx service site:

In the upper-right corner of the page, click **Log Out**.
Using your list of meetings

<table>
<thead>
<tr>
<th>If you want to...</th>
<th>See...</th>
</tr>
</thead>
<tbody>
<tr>
<td>get an overview of your list of meetings</td>
<td>About your list of meetings (on page 449)</td>
</tr>
<tr>
<td>open your list of meetings</td>
<td>Opening your meetings list (on page 449)</td>
</tr>
<tr>
<td>maintain your list of meetings</td>
<td>Maintaining your scheduled meetings list (on page 451)</td>
</tr>
</tbody>
</table>

About your list of meetings

On your WebEx service Web site, your My Meetings page in My WebEx includes:

- A list of all the online meetings that you have scheduled, including both listed and unlisted meetings.
- A list of meetings on your site to which you are invited.
- An option to start a One-Click meeting (not available for Event Center).
- Any Personal Conference meetings that you scheduled (if your site and account have the Personal Conferencing feature turned on).

Tip: You can specify that your My WebEx meetings page is the home page that appears once you log in to your WebEx service Web site. For details, see Maintaining your user profile (on page 501).

Opening your meetings list

You can open your personal list of scheduled meetings on your WebEx service Web site to:

- Start a training session
- Modify a training session
- Cancel a training session

You can open your personal list of meetings to which you are invited:
Chapter 29: Using My WebEx

- Obtain information about a training session
- Join a training session in progress

To open your meetings list:

1. Log in to your WebEx service Web site, and then click **My WebEx**. The My Meetings page appears, showing your list of scheduled meetings.

2. Click *one* of the tabs to navigate to different views of the My Meetings page:
   
   You can choose **Daily, Weekly, Monthly, or All Meetings**.

3. Optional. Do *either* of the following:

   - To view the list of meetings to which you are invited, select **The meetings you are invited to** from the list.
   - To include meetings in the view that have already occurred, turn on **Show past meetings**.

4. (Optional) Select options to control the view:

   - To view the list of meetings to which you are invited, select **The meetings you are invited to** from the list.
   - To include meetings in the view that have already occurred, turn on **Show past meetings**.
Tip: You can specify that your My WebEx Meetings page is the home page that appears once you log in to your WebEx service Web site. For details, see Maintaining your user profile (on page 501).

Maintaining your scheduled meetings list

Once you schedule a training session, it appears in your meetings list on your My Meetings page. For more information, see Opening your meetings list (on page 449).

An online training session remains on your My Meetings page until you delete it. When scheduling a training session, you can choose to automatically delete the training session from your list of meetings once both of these conditions occur:

- You start and end the training session.
- The scheduled time for the training session has passed.

However, if you required registration for a scheduled training session, the training session remains in your list until you remove it. That way, you can still view information about attendees who registered for the training session at any time after you host the training session.

To remove a training session from your list of meetings on your My Meetings page, you must cancel the training session by deleting it on this page.

For details about the options on the My WebEx Meetings page, see About the My WebEx Meetings page (on page 451).

About the My WebEx Meetings page

How to access this tab

On your WebEx service Web site, click the My WebEx tab.

What you can do here

Access these features:

- A link to your personal meeting room
Chapter 29: Using My WebEx

- A list of meetings you are hosting or are invited to for the specified day, week, or month
- A list of all meetings you are hosting or are invited to
- A link to start a One-Click meeting

### About your Personal Meeting Room page

Your user account includes a Personal Training Session Room page on your WebEx service Web site. Users who visit your page can:

- View a list of online training sessions that you are hosting, either scheduled or in progress.
- Join a training session in progress.
- View your personal folders and upload or download files to or from your folders, depending on the settings you specify for your folders.

You can customize your Personal Meeting Room page by adding images and text to it.

To provide users with access to your Personal Meeting Room page, you must provide them with your Personal Meeting Room URL. For more information, see **Viewing your Personal Meeting Room page** (on page 462).

**Tip:** Add your Personal Meeting Room URL to your business cards, your email signature, and so on.

### Viewing your Personal Meeting Room page

You can view your Personal Meeting Room page at any time, by going to the link for the page. The link for your Personal Meeting Room page is available on your:

- My WebEx Meetings page
- My WebEx Profile page

**To view your Personal Meeting Room page:**

1. Log in to your WebEx service Web site, and then click **My WebEx**. The My WebEx Meetings page appears.
Chapter 29: Using My WebEx

2 Click the Go to My Personal Meeting Room link.

Alternatively, in My WebEx, click My Profile, and then click the Personal Meeting Room URL link in the Personal Meeting Room section.

Your Personal Meeting Room page appears. The following is an example of a Personal Meeting Room page.

Tip: Add your Personal Meeting Room URL to your business cards, your email signature, and so on.

Setting options for your Personal Meeting Room page

You can add the following to your Personal Meeting Room page:

- An image (for example, you can add a picture of yourself or your company’s product).
- A custom banner image to the header area of your Personal Meeting Room page, if your user account has the “branding” option. For example, you can add your company’s logo.
- A welcome message. For example, you can provide a greeting; instructions on joining an online session; information about yourself, your product, or your company.

At any time, you can replace or delete images and text that you add.

To add an image to your Personal Meeting Room page:

1 If you have not already done so, log in to your WebEx service Web site. For details, see Logging in to and out of the WebEx service site (on page 448).

2 On the navigation bar at the top of the page, click My WebEx.
Chapter 29: Using My WebEx

3 Click My Profile.
   The My WebEx Profile page appears.
4 Under Personal Meeting Room, specify options for your page.
5 At the bottom of the My WebEx Profile page, click Update.
6 For details about the options for your Personal Meeting Room page, see About your Personal Meeting Room page (on page 462).

Sharing files on your Personal Meeting Room page

You can share folders on your My WebEx Files: Folders page so that they appear on the Files tab on your Personal Meeting Room page. For any folder that you share, you can specify whether users can download files from or upload files to the folder.

For more information about your Personal Meeting Room page, see About your Personal Meeting Room page (on page 462).

To share files on your Personal Meeting Room page:
1 Open the My WebEx Files page. For details, see Opening your personal folders, documents, and files (on page 468).
2 Under Name, locate the folder in which you want to share files.
3 If the file or folder is in a closed folder, click the folder to open it.
4 Click the Properties icon for the folder in which you want to share files.

   The Edit Folder Properties window appears.
5 Specify sharing options for the folder.

6 Click **Update**.

For details about sharing options, see *About the Edit Folder Properties page* (on page 475).

### Using Access Anywhere (My Computers)

For information about and instructions for using Access Anywhere to set up and access a remote computer, please refer to the guide *Getting Started with WebEx Access Anywhere*. This guide is available on the Support page on your WebEx service Web site.

### About the My Computers page

**How to access this page**

On your WebEx service Web site, click **My WebEx Files > My Computers**.
Chapter 29: Using My WebEx

**About maintaining files in your folders**

Your user account includes personal storage space for files on your WebEx service Web site.

In your personal storage space, you can:

- Create folders to organize your files.
- Edit information about any file or folder in your personal folders.
- Move or copy a file or folder to a different folder.
- Share a folder so it appears on your Personal Meeting Room page.

**Tip:**

- You can use this storage space to access important information when you are away from the office. For example, if you are on a business trip and want to share a file during an online session, you can download the file in your personal folders to a computer, and then share the file with attendees.
- If you share a folder, visitors to your Personal Meeting Room page can upload files to or download them from the folder. For example, you can use your personal folders...
Opening your personal folders, documents, and files

To store files on your WebEx service Web site, or to access files that you stored, you must open your personal folders.

To open your personal folders:

1. Log in to your WebEx service Web site, and then click My WebEx.
2. Click My Files.

The My WebEx Files page appears, showing your personal folders and files. Depending on the settings for your WebEx Service Web site, you may see different categories of folders and files, and you can click on the heading links to see each category:

- My Documents
- My Recordings
- My Event Recordings (available only in Event Center)
- My Training Recordings (available only in Training Center)

For details about the My WebEx Files page, see About the My WebEx Files > My Documents page (on page 473) and About the My WebEx Files > My Recordings page (on page 483).
Adding new folders to your personal folders

To organize your files on your WebEx service Web site, you can create folders in your personal storage space for files.

To create a new folder:

1. Open the My Documents page. For details, see Opening your personal folders, documents, and files (on page 468).

2. Under Action, click the Create Folder button for the folder in which you want a new folder.

   The Create Folder window appears.

3. In the Folder Name box, type a name for the folder.

4. Optional. In the Description box, type a description to help you to identify the folder's contents.

5. Click OK.

Uploading files to your personal folders

To store files in your personal folders on your WebEx service Web site, you must upload them from your computer or a local server.

You can upload up to three files at once. The is no limit to the size of the files, as long as you have available storage space. The amount of space available for storing files is determined by your site administrator. If you require more disk space, contact your site administrator.

To upload files to your personal folders:

1. Open the My Documents page. For details, see Opening your personal folders, documents, and files (on page 468).

2. Locate the folder in which you want to store the file.

3. Under Action for the folder, click the Upload button for the folder in which you want to store the file.
Chapter 29: Using My WebEx

The Upload File window appears.

4 Click **Browse**.
   The Choose File dialog box appears.

5 Select the file that you want to upload to your folder.

6 Click **Open**.
   The file appears in the **File name** box.

7 Optional. In the **Description** box, type a description to help you to identify the file.

8 Optional. Select up to two additional files to upload.

9 Click **Upload**.
   The files are uploaded to the folder that you selected.

10 Once you are finished uploading files, click **Finish**.

---

**Moving or copying files or folders in your personal folders**

You can move one or more files or folders to another folder on your WebEx service Web site.

**To move or copy a file or folder:**

1 Open the My Documents page. For details, see *Opening your personal folders, documents, and files* (on page 468).

2 Locate the file or folder that you want to move.

3 Select the check box for the file or folder that you want move.
   You can select multiple files or folders.

4 Click **Move** or **Copy**.
   The Move/Copy File or Folder window appears, showing a list of your folders.

5 Select the option button for the folder in which you want to move or copy the file or folder.

6 Click **OK**.
Editing information about files or folders in your personal folders

You can edit the following information about a file or folder in your personal folders on your WebEx service Web site:

- Name
- Description

You can also specify sharing options for folders that appear on your Personal Training Session Room page. For more information, see Sharing files on your Personal Training Session Room page (on page 464).

To edit information about a file or folder:

1. Open the My Documents page. For details, see Opening your personal folders, documents, and files (on page 468).
2. Locate the file or folder for which you want to edit information.
3. Click the Properties icon for the file or folder for which you want to edit information.

The Edit File Properties or Edit Folder Properties window appears.
In the Description box, type a new name for the file or folder.

In the Name box, type a new name for the file or folder.

4. Click Update.

Searching for files or folders in your personal folders

In your personal folders on your WebEx service Web site, you can quickly locate a file or folder by searching for it. You can search for a file or folder by text that appears in either its name or description.

To search for a file or folder:

1. Open the My Documents page. For details, see Opening your personal folders, documents, and files (on page 468).

2. In the Search For box type all or part of the file's name or description.

3. Click Search.

A list of any files or folders that contain the search text appears.
Downloading files in your personal folders

In your personal folders on your WebEx service Web site, you can download any files to your computer or a local server.

1. Open the My Documents page. For details, see *Opening your personal folders, documents, and files* (on page 468).
2. Locate the file that you want to download.
3. Under **Action**, click the **Download** button for the file that you want to download.

![Download button](download_icon.png)

The File Download dialog box appears.
4. Follow any instructions that your Web browser or operating system provides to download the file.

Deleting files or folders in your personal folders

You can delete files or folders in your personal folders on your WebEx service Web site.

To delete a file or folder:
1. Open the My Documents page. For details, see *Opening your personal folders, documents, and files* (on page 468).
2. Under **Name**, locate the file or folder that you want to delete.
3. Select the check box for the file or folder that you want delete.
   - You can select multiple files or folders.
4. Click **Delete**.

About the My WebEx Files > My Documents page

**How to access this page**

On your WebEx service Web site, click **My WebEx Files > My Documents**.
Chapter 29: Using My WebEx

What you can do here

- Store files that you use in your online sessions or that you want to access when away from your office.
- Specify in which folders that visitors to your Personal Meeting Room can download or upload files.

</tr>
</tbody>
</table>
Use this option… | To…
--- | ---
Password protected | Let only visitors to your Personal Meeting Room who know the password view the list of files in the folder, download files from the folder, or upload files to the folder, depending on the read/write settings for the folder.
Password: The password that visitors to your Personal Meeting Room must provide to access the folder.
Confirm: If you specified a password, type it again to verify that you typed it correctly.
Update | Save any changes that you made to folder’s properties, and then closes the Edit Folder Properties window.
Cancel | Close the Edit Folder Properties window, without saving any of the changes that you made.

Opening the My Recordings Page

To upload or maintain recordings, you must do so from the My Recordings page on your WebEx service Web site.

To open the My Recordings page:

1. Log in to your WebEx service Web site, and then click **My WebEx**.
2. Click **My Files > My Recordings**.

   The My Recordings page appears, showing your recording files.

For details about the My Recordings page, see *About the My WebEx Files > My Recordings page* (on page 483).

Uploading a recording file

If you recorded a training session using the integrated or standalone WebEx Recorder, you can upload the recording file, with a `.wrf` extension, from your local computer to the My Recordings page.

For instructions on editing a recording, see *Editing information about a recording* (on page 478).
To upload a recording file:

1. Go to the My Recordings page. For details, see *Opening the My Recordings page* (on page 477).
2. Click **Add Recording**.
3. On the Add Recording page, enter information and specify options.
   - For details about what you can do with each option on the Add/Edit Recordings page, see *About the My WebEx Files > My Recordings page* (on page 483).
4. Click **Save**.

### Editing information about a recording

You can edit information about a recording at any time.

**To edit information about a recording:**

1. Go to the My Recordings page. For details, see *Opening the My Recordings page* (on page 477).
2. Click the following icon for the recording that you want to edit.

   ![Edit icon](edit.png)

   The Edit Recording page appears.
3. Make your changes.
   - For details about what you can do with each option on the Edit Recording page, see *About the My WebEx Files > My Recordings page* (on page 483).
4. Click **Save**.
About the Add/Edit Recording page

How to access this page

If you are adding a recording...

1. On your WebEx service Web site, click My WebEx > My Files > My Recordings.
2. Click Add Recording.

If you are editing information about a recording...

1. On your WebEx service Web site, click My WebEx > My Files > My Recordings.
2. Click the More button in the row of the recording that you want to edit.
3. Click Modify.

What you can do here

- Edit general information about a recording, including the topic and description.
- Require a password to play or download the recording.

Options on this page

<table>
<thead>

<tr>
<td></td>
<td>□ <strong>End: X min X sec of the recording</strong>: Specifies the time to end playback; for example, you can use this option if you would like to omit the &quot;dead time&quot; at the end of the recording. You can not specify an end time greater than the length of the actual recording.</td>
</tr>
<tr>
<td></td>
<td>The partial playback range you specify does not modify the actual recording that is stored on the server.</td>
</tr>
</tbody>
</table>

| Include NBR player controls | Includes full Network Recording Player controls, such as stop, pause, resume, fast forward, and rewind. This option is selected by default. If you would like to prevent viewers from skipping portions of the recording, you can turn off this option to omit Network Recording Player controls from the playback. |

## About the Recording Information page

### How to access this page

On your WebEx service Web site, click **My WebEx > My Files > My Recordings > [recording type] > [topic of a recording]**.

### What you can do here

- View information about the recording.
- Play back the recording.
- Send an email to share the recording with others.
- Download the recording.
- Enable or disable the recording
- Open the Edit Recording page on which you can edit information about a recording.

### Options on this page

<table>
<thead>
<tr>

### About maintaining contact information

You can maintain a personal online address book, in which you can add information about contacts and create distribution lists. When scheduling a meeting or starting an instant meeting, you can quickly invite any contacts or distribution lists in your personal address book. You can also invite contacts in the Company Address Book for your WebEx service Web site, if one is available.

You can add contacts to your personal address book in any of the following ways:

- Specify information about contacts one at a time.
- Import contact information from your Microsoft Outlook contacts.
- Import contact information from a comma-separated/comma-delimited values (CSV) file.
You can also edit or delete the information about any contact or distribution list in your personal address book.

## Opening your address book

You can open your personal address book on your WebEx service Web site, to view or maintain information about your contacts.

### To open your address book:

1. Log in to your WebEx service Web site. For details, see *Logging in to and out of the WebEx service site* (on page 448).
2. On the navigation bar at the top of the page, click **My WebEx**.
3. Click **My Contacts**.
   The My WebEx Contacts page appears.

![My WebEx Contacts](image)

4. In the **View** drop-down list, select one of the following contact lists:
   - **Personal Contacts**: Includes any individual contacts or distribution lists that you added to your personal address book. If you have a Microsoft Outlook address book or contacts folder, you can import its contacts to this list of contacts.
Chapter 29: Using My WebEx

- **Company Address Book**: Your organization's address book, which includes any contacts that your site administrator has added to it. If your organization uses a Microsoft Exchange Global Address List, your site administrator can import its contacts to this address book.

### Adding a contact to your address book

You can add contacts to your personal address book, one at a time.

**To add a contact to your personal address book:**

1. Open your personal address book. For details, see *Opening your address book* (on page 487).
2. In the View drop-down list, select **Personal Contacts**.
   
   A list of contacts in your Personal Contacts list appears.

3. Click **Add Contact**.
   
   The Add Contact page appears.
4 Provide information about the contact.

5 Click Add.

For descriptions of the information and options on the New Contact page, see About the New/Edit Contact page (on page 490).

Note:
- You cannot add contacts to your Company Address Book.
- If you want to add multiple contacts, you can them all at once, instead of adding one contact at a time. For details, see Importing contact information in a file to your address book (on page 491).
About the New/Edit Contact page

How to access this page

On your WebEx service Web site, click My WebEx > My Contacts > Add Contact or [check box for contact] > Edit.

What you can do here

Enter information about a new or existing contact for your personal address book.

</tr>
</tbody>
</table>
Use this option... | To...
---|---
Address 1 | Enter the contact's street address.
Address 2 | Enter additional address information, if necessary.
State/Province | Enter the contact's state or province.
ZIP/Postal code | Enter the contact's ZIP or postal code.
Country | Enter the country in which the contact resides.
Username | Enter the username with which the user logs in to your WebEx service Web site, if the contact has a user account.
Notes | Enter any additional information about the contact.

**Importing contact information in a file to your address book**

You can add information about multiple contacts simultaneously to your personal address book, by importing a comma-separated values (CSV) file. A CSV file has the `.csv` file extension; you can export information from many spreadsheet and email programs in CSV format.

To create a CSV file:

1. Open your address book. For details, see *Opening your address book* (on page 487).
2. In the View drop-down list, ensure that **Personal Address Book** is selected.
3. Click **Export**.
4. Save the `.csv` file to your computer.
5. Open the `.csv` file that you saved in a spreadsheet program, such as Microsoft Excel.
6. Optional. If contact information exists in the file, you can delete it.
7. Specify information about the new contacts in the `.csv` file.

**Important:** If you add a new contact, ensure that the UID field is blank. For information about the fields in the `.csv` file, see *About the Contact Information CSV template* (on page 492).

8. Save the `.csv` file. Ensure that you save it as a `.csv` file.
To import a CSV file containing new contact information:
1. Open your address book. For details, see *Opening your address book* (on page 487).
2. In the View drop-down list, ensure that Personal Contacts is selected.
3. In the Import From drop-down list, select Comma Delimited Files.
4. Click Import.
5. Select the .csv file in which you added new contact information.
6. Click Open.
7. Click Upload File.
   The View Personal Contacts page appears, allowing you to review the contact information you are importing.
8. Click Submit.
   A confirmation message appears.
9. Click Yes.

**Note:** If an error exists in any new or updated contact information, a message appears, informing you that no contact information was imported.

**About the Contact Information CSV template**

**How to access this template**

On your WebEx service Web site, click *My WebEx > My Contacts > View > Personal Address Book > Export*.

**What you can do here**

Specify information about multiple contacts, which you can then import to your personal address book.
### Fields in this template

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>

</table>
Chapter 29: Using My WebEx

### Importing contact information from Outlook to your address book

If you use Microsoft Outlook, you can import the contacts that you maintain in your Microsoft Outlook address book or folder to your personal address book on your WebEx service Web site.

**To import contacts from Outlook to your personal address book:**

1. Open your address book. For details, see *Opening your address book* (on page 487).
2. In the **View** drop-down list, select **Personal Contacts**.
3. In the **Import from** drop-down list, select **Microsoft Outlook**.
4. Click **Import**.
   - The Choose Profile dialog box appears.
5. In the **Profile Name** drop-down list, select the Outlook user profile that includes the contact information that you want to import.
6. Click **OK**.

**Note:**

- When you import contacts in Outlook, your WebEx service Web site retrieves contact information from the Outlook address book or folder in which you have chosen to keep personal addresses. For information about keeping personal addresses in Outlook, refer to Microsoft Outlook Help.
- If your personal address book already includes a contact who is also in your Outlook contacts list, the contact is not imported. However, if you change the contact's email address in your personal address book, importing the contact from Outlook creates a new contact in your personal address book.
Viewing and editing contact information in your address book

In your personal address book, you can view and edit information about individual contacts in your Personal Contacts list. You can view, but not edit, information about contacts in your Company Address Book.

To view or edit contact information:

1. Open your address book. For details, see Opening your address book (on page 487).

2. In the View drop-down list, select one of the following:
   - Personal Contacts
   - Company Address Book

   A list of contacts appears.

3. Locate the contact whose information you want to view or edit. For details about locating a contact, see Finding a contact in your personal address book (on page 495).

4. Under Name, select the contact whose information you want to view or edit.

5. Do one of the following:
   - If the contact is in your Personal Contacts list, click Edit.
   - If the contact is in your Company Address Book, click View Info.

   Information about the contact appears.

6. Optional. If the contact is in your Personal Contacts list, edit the information that you want to change on the Edit Contact's Information page.

   For descriptions of the information and options of the Edit Contact's Information page, see About the New/Edit Contact page (on page 490).

7. Click OK.

Finding a contact in your personal address book

You can quickly locate a contact in your personal address book, using one of several methods.
To search for a contact in your address book:

1. Open your address book. For details, see *Opening your address book* (on page 487).
2. In the **View** drop-down list, select a contacts list.
3. Do any of the following:
   - In the **Index**, click a letter of the alphabet to display a list of contacts whose names begin with that letter. For example, the name *Susan Jones* appears under **S**.
   - To search for a contact in the list you are currently viewing, type text that appears in either the contact's name or email address in the **Search for** box, and then click **Search**.
   - If the entire list of contacts does not fit on a single page, view another page by clicking the links for the page numbers.
   - Sort your personal contacts or company address book by name, email address, or phone number by clicking the column headings.

**Creating a distribution list in your address book**

You can create distribution lists for your personal address book. A distribution list includes two or more contacts for which you provide a common name and appears in your Personal Contacts list. For example, you can create a distribution list named *Sales Department*, which includes contacts who are members of your Sales Department. If you want to invite members of the department to a training session, you can select the group rather than each member individually.

To create a distribution list:

1. Open your address book. For details, see *Opening your address book* (on page 487).
2. Click **Add Distribution List**.
   - The Add Distribution List page appears.
3 In the **Name** box, type the name of the group.

4 Optional. In the **Description** box, type descriptive information about the group.

5 Under **Members**, locate the contacts that you want to add to the distribution list, by doing any of the following:
   - Search for a contact, by typing all or part of the contact's first or last name in the **Search** box.
   - Click the letter that corresponds to the first letter of the contact's first name.
   - Click **All** to list all contacts in your Personal Contacts list.

6 Optional. To add a new contact to your Personal Contacts list, under **Members**, click **Add Contact**.

7 In the box on the left, select the contacts that you want to add to the distribution list.

8 Click **Add** to move contacts you selected to the box on the right.

9 After you finish adding contacts to the distribution list, click **Add** to create the list.
In your Personal Contacts list, the **Distribution List** indicator appears to the left of the new distribution list:

For descriptions of the information and options on the Add Distribution List page, see *About the Add/Edit Distribution List page* (on page 499).

### Editing a distribution list in your address book

You can add or remove contacts from any distribution list that you have created for your personal address book. You can also change a group's name or descriptive information.

**To edit a distribution list:**

1. Open your address book. For details, see *Opening your address book* (on page 487).
2. In the **View** drop-down list, select **Personal Contacts**.

   A list of the contacts in your Personal Contacts list appears, including any distribution lists that you have created. The **Distribution List** indicator appears to the left of a distribution list:

   Under **Name**, select the name of the distribution list. The Edit Distribution List page appears.
3  Edit information about the distribution list.

4  Click **Update**.

For descriptions of the information and options on the Edit Distribution List page, see *About the Add/Edit Distribution List* (on page 499).

### About the Add/Edit Distribution List page

**How to access this page**

On your WebEx service Web site, click **My WebEx > My Contacts > Add Distribution List**. Or, select distribution list in Personal Contacts list.
Chapter 29: Using My WebEx

What you can do here
Add contacts to your distribution list or remove contacts from your distribution list.

Options on this page

<table>
<thead>
<tr>
<th>Use this option…</th>
<th>To…</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name</td>
<td>Enter the name of the distribution list. For example, if you want to add a distribution list that includes members of your company’s sales department, you might name the list Sales Department.</td>
</tr>
<tr>
<td>Description</td>
<td>Optionally enter descriptive information about the distribution list, to help you identify it later.</td>
</tr>

</tr>
</tbody>
</table>

Deleting contact information in your address book
You can delete any contact or distribution lists that you have added to your personal address book.

To delete a contact or contact group:
1. Open your address book. For details, see Opening your address book (on page 487).
2. In the View drop-down list, select Personal Contacts.
In the list that appears, select the check box for the contact or distribution list that you want to delete.

Click **Delete**.

A message appears, asking you to confirm the deletion.

Click **OK**.

### Maintaining your user profile

<table>
<thead>
<tr>
<th>If you want to…</th>
<th>See…</th>

</tbody>
</table>

### About maintaining your user profile

Once you obtain a user account, you can edit your user profile at any time to do the following:

- Maintain personal information, including your
  - Full name
  - Username (if your site administrator provides this option)
  - Password
  - Contact information (including your street address, email address, and phone numbers)
  - Tracking codes that your organization uses to keep records of your training sessions (such as project, department, and division numbers)
- Specify whether to display links to your company’s partner sites in the My WebEx navigation bar, if your site administrator set up partner links
- Manage any scheduling templates that you saved
- Set options for your Personal Training Session Room options, including the images and welcome message that appear on the page
- Set default options for your online sessions, including
Chapter 29: Using My WebEx

- The default session type that you want to use, if your account includes multiple session types
- Whether your scheduled training sessions are automatically removed from your list of training sessions once the training session ends
- Whether the Quick Start page appears in the content viewer once you start a training session
- The users who can schedule training sessions on your behalf
- Set Web site preferences, including:
  - The home page that appears when you access your WebEx service Web site
  - The time zone in which training session times appear
  - The language in which your Web site displays text, if your site includes multiple languages
  - The locale (the format in which your Web site displays dates, times, currency values, and numbers)

About the My WebEx Profile page

How to access this template
On your WebEx service Web site, click My WebEx > My Profile.

What you can do here
Manage the following:
- Account information
- Personal information
- Partner integration options
- Scheduling templates (does not apply to Support Center)
- Personal Meeting Room information
- Training Session options
- Web page preferences, including your home page and language
- Support Center CSR Dashboard options (Support Center only)

</tbody>
</table>
Chapter 29: Using My WebEx

About managing scheduling templates

Scheduling templates let you save the options you set for a training session for later use. Once you save a scheduling template, you can use it to quickly schedule another training session, instead of setting the same options again. If you saved a scheduling template using the **Save As Template** option when scheduling a training session, you can manage the template, as follows:

- View the options you set in the template.
- Edit the options you set in the template.
- Delete the template.

Managing scheduling templates

You can view, edit, or delete any scheduling templates that you saved.

**To manage scheduling templates:**

1. Log in to your WebEx service Web site. For details, see *Logging in to and out of the WebEx service site* (on page 448).
2. On the navigation bar, click **My WebEx**.
3. Click **My Profile**.
   The My Profile page appears.
4. Under **Scheduling Templates**, select a template in the list.
Chapter 29: Using My WebEx

5 Click one of the following buttons to perform an action on the template:

- **Get Info**: Shows the options you set in the template.
- **Edit**: Opens the scheduling options on your site.
- **Delete**: Removes the template from your profile.

### Generating Reports

</tr>
<tr>
<td>generate usage reports that provide information about each session that you have hosted on your site</td>
<td>Generating reports (on page 512)</td>
</tr>
</tbody>
</table>

### About generating reports

If your user account includes the reports option, you can view the following reports:

**Note:**

- For some reports, if you click on the report link within 15 minutes after the training session ends, you will see a preliminary version of that report. The preliminary report provides quick access to data before the final, more accurate data is available. The preliminary report contains only a subset of the information that is available in the final report.
- When the final, more accurate data is available, which is usually 24 hours after the training session ends, the preliminary report is replaced by the final report.
- You can download both preliminary reports and final reports as comma-separated values (CSV) files.

**General Training Session Usage reports**

These reports contain information about each online session that you host. You can view the following reports:

- **Summary Usage report**: Contains summary information about each training session including topic, date, start and end time, duration, number
of attendees you invited, number of invited attendees who attended, and type of voice conference you used.

**Note:** Initially, this report appears as a Preliminary Usage Summary Report, but after the final, more accurate usage data is available, it is replaced by the Final Usage Summary Report.

- **Summary Usage report CSV (comma-separated values) file:** Contains additional details about each training session, including the minutes that all participants were connected to the training session and tracking codes.

- **Session Detail report:** Contains detailed information about each participant in a training session, including the time the participant joined and left the training session, the attentiveness during the training session, and any information that the attendee provided.

**Note:** Initially, this report appears as a Preliminary Session Detail Report, but after the final, more accurate session detail data is available, it is replaced by the Final Session Detail Report.

**Access Anywhere usage report**

This report shows information about the computers that you access remotely, including the date and start and end times for each session.

**Training Center reports**

- These reports contain detailed information about the training sessions you host. You can view the following types of Training Center reports:

  - **Live Training Usage report:** The Live Training Usage report is available in two formats:

    - **Live Training Usage Summary report:** Contains a summary of the information about each training session, including the topic, date, start and end time, duration, number of attendees you invited, number of attendees who registered, and number of invited attendees who attended.

  **Note:** Initially, this report appears as a Preliminary Live Training Usage Summary Report, but after the final, more accurate usage and attendance data is available, it is replaced by the Final Live Training Usage Summary Report.

- **Live Training Usage Detail report:** Contains detailed information about each attendee in a training session, including the time the participant joined and left the meeting and any information that the attendee provided, such as registration information. You can also view information about any registrants who did not attend a session.

- **Recorded Training Access report:** Contains access and registration information about each recorded training session that you published on your Training Center Web site.

- **Registration Report:** Contains attendance, invitation, and registration information all of your live training sessions.

### Generating reports

You can generate usage reports that provide information about each online training session that you have hosted on your site.

You can export or download the data to a comma-separated values (CSV) file which you can then open in a spreadsheet program such as Microsoft Excel. You can also print reports in a printer-friendly format.

To generate a report:

1. Log in to your WebEx service Web site, and then click **My WebEx**.
2. Click **My Reports**.
   
   The My Reports page appears.
3. Choose the type of report you want to generate.
4. Specify your search criteria, such as a date range for which you want to view report data.
5. Click **Display Report**.
6. To change the order in which report data is sorted, click the column headings.
   
   The report data is sorted by the column that has an arrow next to the column heading. To reverse the sort order, click the column heading. To sort using another column, click that column’s heading.
7. Do one of the following, as appropriate:
   
   - If you are viewing a general training session usage report and want to display the report in a format that is suitable for printing, click **Printer-Friendly Format**.
If you are viewing the usage report for a training session and want to view the content in the report, click the link for the training session name.

To export the report data in comma-separated values (CSV) format, click Export Report or Export.

If available, click links on the report to display more details.
## Publishing a Recorded Training Session

</tbody>
</table>
About publishing recorded training sessions

If you or another user records a training session using WebEx Recorder, you can publish the recording on your Training Center Web site. Users on your site can either view or download the recording from the Recorded Sessions page, or from the Recording Information page if you have sent them a recording URL. For information on sending a recording URL to a user, see Making a recording available to users (on page 521).

You can publish a recording by:

- Uploading it to your Training Center Web site.
- Specify the Web address, or URL, at which the recording resides on another server.
- Creating a presentation using the On-Demand Module, if your site includes that option

When publishing a recording, you can:

- Specify whether all users on your site can view or download the recording, or only users who have an account on your site
- Password-protect the recording
- Require that users register to view or download the recording

Once you publish a recording, you can:

- Edit information about it
- Edit the recording, if your site has the On-Demand Module option
- Stop publishing it

Opening your list of recorded training sessions

To publish, delete, or edit information about a recording, you must open your list of recorded training sessions.

To open your list of recorded training sessions:

1. Log in to your Training Center Web site.
2. Do one of the following:
   - Click Host a Session > My Training Recordings.
Chapter 30: Publishing a Recorded Training Session

- Click **My WebEx > My Files > My Training Recordings**.
  
The My Training Recordings page appears.

### Publishing a recorded training session

You can publish a recorded training session that was created with WebEx Recorder. A recording that you publish must be in the WebEx Recording format (WRF), which has a `.wrf` extension.

To publish a recording, you can do one of the following:

- (Optional feature) Create a presentation using the On-Demand Module, with which you can re-create the live training experience, insert a test, or add narration. You can upload an existing recording file or PowerPoint file from your computer or another computer on your local network.

  **Note:** The number of On-Demand presentations that can be stored on your Training Center Web site is determined by your licensing agreement. If the upload limit has been reached, you will be unable to create a recording until one is removed.

- Upload the recording to the server for your Training Center Web site. The file that you upload must reside on your computer or a local server.

- Specify the Web address, or URL, for the recording on a publicly accessible Web server. Because your storage space for recordings on your site is limited, you can use this option to publish an unlimited number of recordings, or recordings with large file sizes. To use this option, you
may need to ask your organization’s Webmaster to store the recording on
the server and provide you with its URL.

To publish a recorded training session:

1. Open the My Training Recordings page. For details, see Opening your list
   of recorded training sessions (on page 516).

2. Click Add a Recording.
   The Add a Recording page appears.

3. In the Recording topic box, specify the topic of the recorded training.

4. Under Type, select an option to specify whether the recording is listed on
   the Recorded Sessions page on your site and, if it is listed, which types of
   users can view the recording.

5. Optional. If eCommerce is enabled for your Training Center Web site,
   enter the session fee and payment information. You must enable
   Registration in order to use this feature.
   ▪ Session fee: Enter the amount you want to charge for the session.
     The default value is 0 (free).
   ▪ Allow attendees to use coupons: Select this check box to allow
     attendees to use coupons when registering.
   ▪ Access period: Specify how often an attendee can view the recording
     after registration is approved.

6. In the Presenter box, specify the presenter’s name.

7. In the Email Address box, specify the presenter’s email address.

8. In the Description box, enter a description of the recorded training
   session.

9. Optional: Specify the agenda for the training session.

10. Under Recording File, publish the recording in one of the following ways:
    Specify the URL for the file on another server:
    a. Select I will provide a URL.
    b. Type the URL in the box.

    Upload the recording from your local machine to your Training Center Web
    site:
a. Select **Use the file on my local machine**.
b. Click **Browse**, and then select the file that you want to publish.
c. Click **Upload file**.

Upload the recording from the network server:
a. Select **Find the recording from WebEx network**.
b. Click **Look Up**, and then select the file that you want to publish.

11 (Optional feature) Create a presentation using the On-Demand Module. After selecting **Create a Presentation Using Presentation Studio**, you can create one of the following presentations:

**Note:** Choosing this option will disable the duration, file size, date, and destination address fields.

Specify a WebEx Recording file:
a. Select **WebEx Recording File (*.wrf)**.
b. Click **Browse**, and then select the file that you want to publish.

**Note:** The maximum file size is 200 MB. Files that exceed the maximum will not be created, causing the Recording Creation Failed page to appear.
c. Click **Open**.
d. Select either **Graphics** or **Text** for playback quality optimization.

Specify a PowerPoint presentation for which you will add narration via telephone:
a. Select **PowerPoint with audio narration using telephone**.
b. Click **Browse** to select the presentation’s PowerPoint file.
c. If you want to attach the PowerPoint file for presentation viewers to download it, select the **Make this file available as an attachment** check box.
Chapter 30: Publishing a Recorded Training Session

Specify a PowerPoint presentation for which you will add narration using a video or audio file:

a. Select **PowerPoint with narration using video or audio File**.
b. Click **Browse** to select the presentation's PowerPoint file.
c. If you want to attach the PowerPoint file for presentation viewers to download it, select the **Make this file available as an attachment** check box.
d. Select whether you want to upload a video or audio file from the **File type** drop-down list. This file should be prepared in advance.
e. Click **Browse** to select the video or audio file.
f. In the **Width** and **Height** boxes, specify the size, in pixels, of the video screen in the audio/video window of the Presentation Player.

**Note:** The width must be between 192 to 360 pixels, and the height must be between 144 and 240 pixels.

Specify a video-only or audio-only presentation:

a. Select **Video or audio only**.
b. Select whether you want to upload a video or audio file from the **File type** drop-down list. This file should be prepared in advance.
c. Click **Browse** to select the video or audio file.

12 If you did *not* use the On-Demand Module:

a. Specify the duration, file size, and date for the recording.
b. Optional: Specify a destination URL—that is, a Web page that appears automatically once a visitor finishes viewing a recording.

13 Optional: Specify file access options.

These settings protect your recording by requiring user authentication to view or download, and are necessary if eCommerce is enabled.

14 Click **Add**.

If you used the On-Demand Module, the Recording Created page opens.
Click **OK**.

You will receive an email confirmation that the presentation has been successfully uploaded and converted into a Presentation Studio presentation. The email will include a link that will take you to the My Training Recordings page.

**Note:** For details about the options on the Add a Recording page, see *About the Add a Recording/Edit Recording Information page* (on page 536).

**Making a recording available to users**

Training Center automatically generates a URL for each recorded training session or On-Demand Module recorded session that you create. This URL appears on the Recording Information page.
You can make the recording available to users in the following ways:

- Send the URL via email
- Copy the URL to another location, such as an instant message or to a Web site

**Note:** If you have set a password, registration, or eCommerce for your recording, these features will be enabled when the user accesses the recording from the URL.

To make the recording available via email:

1. On the Recording Information page, in the **URL** section, click the **email** link.
   
   Your email tool opens, with the recording URL in the body of the email.
Chapter 30: Publishing a Recorded Training Session

2 Enter the recipient's email address and send the email.

To copy the recording URL to another location:

1 On the Recording Information page, in the URL section, highlight the URL with your cursor.
2 Right-click the URL and select Copy.
3 Do one of the following:
   - Paste the URL into an instant message and send it to users.
   - Add the URL to another Web site where users can access the recording.

Editing information about a recorded training session

Once you publish a recorded training session, you can edit information about the recording at any time. This information appears on the Recording Information page that users can view if they select a recording to view or download on the Recorded Sessions page.

Note: If your site has the On-Demand Module option, and the recording contains a Presentation Studio presentation, you can edit information about the recording only in the
To edit information about a recorded training session:

1. Open the My Training Recordings page. For details, see *Opening your list of recorded training sessions* (on page 516).

2. In your list of recordings, click **Modify** for the recording for which you want to edit information.
   
   If your site does not include the Presentation Studio option, the Edit Recording Information page appears.

3. Specify new information about the recording.

4. Click **Save**.
   
   If your site includes the On-Demand Module option, the On-Demand Module (Presentation Studio) editor opens to the Edit Properties page.

5. Specify new information about the recording.

6. Click **Submit Changes**.
   
   The Recording Updated page opens.

7. Click **OK**.
   
   You will receive an email confirmation that the presentation has been successfully republished.

**Note:** For details about the options on the Add a Recording page, see *About the Add a Recording/Edit Recording Information page* (on page 536).
Editing a recorded training presentation

If you publish a recorded training presentation that you created using the On-Demand Module, you can edit the recording at any time.

To edit a recorded training session:

1. Open the My Training Recordings page. For details, see Opening your list of recorded training sessions (on page 516).

2. In your list of recordings, click Modify for the recording for which you want to edit information.

The On-Demand Module (Presentation Studio) editor opens.

You can edit the presentation by clicking one of the four links at the top of the page:

- **Edit Properties**: Edit the training recording information. For details, see Editing information about a recorded training session (on page 523).
- **Customize Presentation**: (Optional) Customize the Presentation Player by adding your own logo or presenter image.
Chapter 30: Publishing a Recorded Training Session

- Slide Detail: Display slide title and start time, as well as display a larger image of the file.
- Edit Slides: Modify your presentation by:
  - Changing the title of a slide
  - Rearranging the slide order
  - Deleting a slide
  - Inserting a file. For details, see *Adding a file to your presentation* (on page 527).
  - Inserting a URL. For details, see *Adding a URL to your presentation* (on page 528).
  - Inserting a test. For details, see *Adding a test to your recording* (on page 528).
  - Inserting a Presentation Studio presentation. For details, see *Adding slides from a Presentation Studio presentation* (on page 530).

3. Click **Submit Changes** when you have completed your edits.

   The Recording Updated page opens.

4. Click **OK**.

   You will receive an email confirmation that the presentation has been successfully republished.

**Note:** For details about the options on the On-Demand Module (Presentation Studio) editor, see *About the Add a Recording/Edit Recording Information page* (on page 536).
Adding a file to your presentation

You can insert a slide from a file located on your computer.

To insert a file into your presentation:

1. In the On-Demand Module (Presentation Studio) editor, click **Edit Slides**.

2. Under Current Presentation, highlight the slide next to which you want to insert the file.

3. Under Source, ensure that **Insert a file** is selected.

4. From the drop-down list, select the appropriate insert option for the file, relative to your highlighted slide.

5. Click **Insert**.

6. In the Insert a File page, enter a title for the new slide that will contain the file.

7. Click **Browse** to insert the file from your computer.

8. Select the file and click **Open**.
Chapter 30: Publishing a Recorded Training Session

Adding a URL to your presentation

You can insert a slide that contains a URL. When this page is reached in the presentation, a separate window opens up at this Web address.

To insert a URL into your presentation:

1. In the On-Demand Module (Presentation Studio) editor, click **Edit Slides**.
2. Under Current Presentation, highlight the slide next to which you want to insert the URL.
3. Under Source, select **Insert a URL**.
4. From the drop-down list, select the appropriate insert option for the URL, relative to your highlighted slide.
5. Click **Insert**.
6. In the Insert a URL page, enter a title for the new slide that will contain the URL.
7. Enter the URL and click **Insert**.
8. Select the check box if you want to pause the Media Player at this URL slide during playback.
9. Click **Close** to return to the Edit Slides page.

Adding a test to your recording

To test users of a recorded training session, you must add tests to the training recording that they will be using.

Before you can add a test to a recording, the test must already exist in the Test Library. Tests cannot be created or edited in the On-Demand Module (Presentation Studio) editor.

For detailed information about testing users of the recorded session, see Testing and Grading on page 351.
To insert a test into your presentation:
1. In the On-Demand Module (Presentation Studio) editor, click **Edit Slides**.
2. Under Current Presentation, highlight the slide next to which you want to insert the test.
3. Under Source, select **Insert a test**.
4. From the drop-down list, select the appropriate insert option for the URL, relative to your highlighted slide.
5. Click **Insert**.
   The Add a Test page opens in a new window.
6. Select a test and click **Next**.
7. In the Test Delivery Options page that appears, select the appropriate options and click **Save**.
8. Click **Close** to return to the Edit Slides page.

**Adding PowerPoint slides from your desktop**

If your Training Center site includes the On-Demand Module option, you can insert slides from an existing PowerPoint presentation on your desktop.

To add PowerPoint slides from your desktop:
1. In the On-Demand Module (Presentation Studio) editor, click **Edit Slides**.
2. Under Current Presentation, highlight the slide next to which you want to insert the PowerPoint slides.
3 Under Source, select **Insert PowerPoint slides from desktop**.

4 From the drop-down list, select the appropriate insert option for the PowerPoint slides, relative to your highlighted slide.

5 Click **Insert**.

6 In the Insert slides page, click Browse to select the PowerPoint file to insert.

7 Click **Insert**.

8 Click **Close** to return to the Edit Slides page.

**Adding slides from a Presentation Studio presentation**

If your Training Center site includes the On-Demand Module option, you can insert a slide from one of your existing Presentation Studio presentations.

To add slides from another presentation:

1 In the On-Demand Module (Presentation Studio) editor, click **Edit Slides**.

2 Under Current Presentation, highlight a slide near the point in which you want to insert a new slide from an existing presentation.

3 Under Source, click **Select an online presentation**.

   The My Presentations page opens in a new window.

4 Click **Select** to select the presentation from which you want to insert a slide into your current presentation.

5 Highlight the slide that you want to insert.

6 Click **Replace slide only** to replace the highlighted slide in the current presentation with the highlighted slide in the source presentation.
Chapter 30: Publishing a Recorded Training Session

7. Click Insert before or Insert after to insert the Source highlighted slide into the Current Presentation relative to its highlighted slide.

Adding narration to your presentation

You can use your phone to record audio narration for your presentation slides. Your viewers will hear your narration when they view your presentation.

**Note:** You can add narration only to a PowerPoint presentation that has been successfully converted to a Presentation Studio presentation. Upon successful conversion, you will receive narration instructions by email.

To add narration to your presentation from the Recording Information page:

1. Open the My Training Recordings page. For details, see Opening your list of recorded training sessions (on page 516).
2. In your list of recordings, click the Topic for the recording for which you want to add narration.
3. From the Recording Information page, click Narrate.
4. Follow the instructions listed on the Record an Audio Narration page.

Removing a recorded training session from your site

You can either:

- Temporarily remove the recording from the Recorded Sessions page on your site but keep it in your list of recordings on your My Training Recordings page
- Permanently remove the recording from both the Recorded Sessions page on your site and your My Training Recordings page

(For sites without the On-Demand Module) To temporarily remove a published recorded training session from the Recorded Sessions page:

1. Open the My Training Recordings page. For details, see Opening your list of recorded training sessions (on page 516).
2. In your list of recordings, select Modify from the drop-down list for the recording for which you want to edit information.
3 Under **Type**, select **Private**.

4 Click **Save**.

(For sites with the On-Demand Module) To temporarily remove a published recorded training session from the Recorded Sessions page:

1 Open the My Training Recordings page. For details, see *Opening your list of recorded training sessions* (on page 516).

2 In your list of recordings, select **Modify** from the drop-down list for the recording for which you want to edit information.

   The On-Demand Module (Presentation Studio) editor opens to the Edit Properties page.

3 Select **Private**.

4 Click **Submit Changes**.

   The Recording Updated page opens.

5 Click **OK**.

To permanently remove a published recorded training session:

1 Open the My Training Recordings page. For details, see *Opening your list of recorded training sessions* (on page 516).

2 In your list of recordings, select **Delete** from the drop-down list for the recording that you want to delete.

   A confirmation message appears.

3 Click **OK**.

### Viewing the Recorded Training Access Detail Report

The Recorded Training Access Detail Report contains access information about recorded training sessions on your Training Center Web site. This report includes the following information for each time that your recorded training session is viewed:

- viewer's name and email address
- registration information
- download information
- access time and date
for WebEx presentations created with the On-Demand Module, the duration that the recording was viewed

To view the Recorded Training Access Detail Report:

1. Log in to your Training Center Web site, and then click My WebEx.
2. Click My Reports.
   The My WebEx Reports page appears.
   The Recorded Training Access Report page appears.

4. Specify your search criteria, such as a date range, topic, and sorting preferences, and click Display Report.
   The Recorded Training Access Summary Report page appears, which includes information on all the recorded training sessions that have been viewed.

5. Click the Topic for the recorded training session report that you wish to view.
Chapter 30: Publishing a Recorded Training Session

The Recorded Training Access Detail Report page appears.

6 If you wish to print the results, click **Printer-friendly format**.

7 If you wish to save the report as a comma-separated values (CSV) file, which you can export into a spreadsheet program, click **Export Report**.

**About the My Training Recordings page**

**How to access this page**

On your Training Center Web site, do one of the following:

- Click Host a Session > My Training Recordings.
- Click My WebEx > My Files > My Training Recordings.

**What you can do here**

You can use the My Training Recordings page to archive and publish recordings of training sessions that you host. You can record training sessions using WebEx Recorder, which is available in the Session window during a training session.

**Options on this tab**
### Chapter 30: Publishing a Recorded Training Session

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Topic</strong></td>
<td>Indicates the topic for the recording. Once you publish a recording, you can click this link to view information about the recording and access a page on which you can change information about the recording.</td>
</tr>
<tr>
<td><strong>Presenter</strong></td>
<td>Indicates the name of the person who presented information that was recorded. By default, your name appears as the presenter.</td>
</tr>
</tbody>
</table>
| **Type** | Indicates the publication status of the recorded training session, which can be one of the following:  
  - **Private**: The recorded session is not published; that is, the recorded session does not appear on the Recorded Sessions page on your Training Center Web site.  
  - **Public**: The recorded session is published; that is, the recorded session appears on the Recorded Sessions page on your Training Center Web site.  
  - **Internal**: The recorded session is published, but only users who have an account on your Training Center Web site can view the recording on the Recorded Sessions page on your Training Center Web site. |
| **Date** | Indicates the date that the recording was created. |
| **Size** | Indicates the size of the recorded file, in kilobytes. |
| **Duration** | Indicates the duration of the recording. |
| **Format** | Indicates the format of the recorded file. The recording may include a PowerPoint file (PPT), a network-based recording file (ARF), or an On-Demand Module file (Presentation Studio). |

- Click this icon to play the recording.
- Click this icon to send the recording via email.
- Click this icon to reveal the Download, Modify, and Delete options.
- Click this icon to download the recording to a local drive.
- Click this icon to change any information about the recording that appears in this list.

For details about the editing options, see *About the Add a Recording/Edit Recording Information page* (on page 536).

- Click this icon to delete the selected recording file from the list.
- If this icon appears, indicates that registration is required; that is, users must provide information on a registration form to view the recording. You can specify the information that you want users to provide by editing the

### Display this URL at end of playback
(Sites without the On-Demand Module)

Specifies a Web page that automatically appears once the recording ends.

### Add
(Sites without the On-Demand Module)

Adds the new recording to your list of recordings. If you published the recording, it appears on the Recorded Sessions page on your Training Center Web site.

### Add
(Sites with the On-Demand Module)

Opens the Recording Created page, which shows that your recording has been created successfully. Clicking OK adds the new recording to your list of recordings. If you published the recording, it appears on the Recorded Sessions page on your Training Center Web site.

### Save
(Sites without the On-Demand Module)

Saves your changes to the information about the recording.

### Save
(Sites with the On-Demand Module)

Opens the Recording Updated page, which shows that your recording has been updated successfully. Clicking OK saves your changes to the information about the recording.

### Submit Changes
(Sites without the On-Demand Module)

Opens the Recording Updated page, which shows that your recording has been updated successfully. Clicking OK saves your changes and opens the Recording Information page.

### Cancel
(Sites without the On-Demand Module)

Cancels all changes made on the page and returns you to the My Training Recordings page.

### Customize Presentation page (On-Demand Module only)

#### Option Description
- **opens the Recording Information page.**
- **Cancel**
  - Cancels all changes made on the page and returns you to the My Training Recordings page.
- **Slide Detail page (On-Demand Module only)**
  - **Thumbnail/Zoom**
    - Click the slide thumbnail or **Zoom** to view a larger image of the slide. If the slide contains a file, URL, or test, it will open in a separate window for viewing.
  - **Listen to Audio**
    - Click **Listen to Audio** to open the associated audio file in a new window.
  - **Submit Changes**
    - Opens the Recording Updated page, which shows that your recording has been updated successfully. Clicking **OK** saves your changes and opens the Recording Information page.
  - **Cancel**
    - Cancels all changes made on the page and returns you to the My Training Recordings page.
- **Edit Slides page (On-Demand Module only)**
  - **Source**
    - **insert before/insert after:** Inserts the file, URL, or test before or after the highlighted slide in the current presentation.
    - **Insert a file:** Opens a window where you can name and insert a new slide into the presentation from a file stored on your computer.
    - **Insert a URL:** Opens a window where you can name and insert a new slide into the presentation that contains a URL.
    - **Insert a test:** Opens the Add a Test page, where you can select a test from the Test Library and add it to the presentation.
    - **Insert PowerPoint slides from desktop:** Select **Insert** to add PowerPoint slides from your desktop into your presentation.
    - **Insert slides from an online presentation:** Click **Select an online presentation** to open a window where you select one of your Presentation Studio presentations, the slides of which will appear in the Select slide section.
      - **Replace slide only:** Replaces the highlighted slide in the current presentation with the highlighted slide in the source presentation.
      - **Insert before/after:** Inserts the highlighted slide into the current presentation according to insert settings and the selected location.
      - **Zoom:** Opens a larger image of the slide.
  - **Current Presentation**
    - **Modify slide title:** Opens a window where you can change the title of the highlighted slide.
    - **Delete:** Removes the highlighted slide from the presentation.

</tr>
</tbody>
</table>

Panel display options do not modify the panel display in the actual recording that is stored on the WebEx network.
## Chapter 30: Publishing a Recorded Training Session

### Option Description

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Recording Playback Range</td>
<td>Determines how much of the recording is actually played back. You can select <em>either</em> of the following:</td>
</tr>
<tr>
<td></td>
<td>- <strong>Full playback</strong>: Plays back the full length of the recording. This option is selected by default.</td>
</tr>
<tr>
<td></td>
<td>- <strong>Partial playback</strong>: Plays back only part of the recording based on your settings for the following options:</td>
</tr>
<tr>
<td></td>
<td>- <strong>Start: X min X sec of the recording</strong>: Specifies the time to start playback; for example, you can use this option if you would like to omit the &quot;dead time&quot; at the beginning of the recording, or if you would like to show only a portion of the recording.</td>
</tr>
<tr>
<td></td>
<td>- <strong>End: X min X sec of the recording</strong>: Specifies the time to end playback; for example, you can use this option if you would like to omit the &quot;dead time&quot; at the end of the recording. You can not specify an end time greater than the length of the actual recording.</td>
</tr>
<tr>
<td></td>
<td>The partial playback range you specify does not modify the actual recording that is stored on the server.</td>
</tr>
</tbody>
</table>

| Include NBR player controls | Includes full Network Recording Player controls, such as stop, pause, resume, fast forward, and rewind. This option is selected by default. If you would like to prevent viewers from skipping portions of the recording, you can turn off this option to omit Network Recording Player controls from the playback. |

### About the On-Demand Module

The On-Demand Module gives you the maximum flexibility to create high-impact, multimedia on-demand training content and publish it online for your attendees. You can use the On-Demand Module to:

- Re-create the live training experience for on-demand access by inserting a recording of a live session.
- Insert a test, and request your audience to take the test when they view the recording or presentation.
Create and deliver high-impact multimedia presentations complete with narration.

To create a presentation, select Create a Presentation Using Presentation Studio and specify one of the following files to upload (50 MB maximum):

- an existing WebEx recording file (WRF)
- a Powerpoint file (PPT)

Once you complete the Add a Recording page, your presentation will be submitted for processing. Once it is ready, you will receive an email explaining how to edit the presentation or add narration (Powerpoint only). By editing the presentation, you can also insert a test for your attendees to take when they view the presentation.

**About Optimizing Recording Playback Quality**

Once you specify a .wrf file to upload when creating a presentation using the On-Demand Module, you will be prompted to select which content to optimize.

**Options on this page**

<table>
<thead>
<tr>
<th>Option</th>

About viewing a recorded training session

If a training session host publishes a recorded training session on your Training Center Web site, you can view the recording. A host may require that you do one or both of the following to view a recorded training session:

- Enroll to view a recorded training session. In this case, you must provide your name, email address, and any other information that the host requires.
- Provide a password. In this case, you must obtain the password from the host.

To view a recorded training session, you must use either the WebEx Player or the Windows Media Player 9 (or higher) to view it, depending on how the training session was recorded.
Your Training Center Web site automatically downloads WebEx Player to your computer the first time you view a recorded training session. A WebEx Player is available for the Windows operating system. If you have a user account, you can also download WebEx Player for Windows from the Support page on your Training Center Web site.

If the recording contains a Presentation Studio presentation, you will need the Windows Media Player 9 (or higher) on your computer to view it, as well as the following:

- Flash Player 7 (recommended but not required if recording includes Flash content)
- Sound card with proper driver installed

Use the latest operating systems and browsers to best view your recording:

- Windows 7 with Internet Explorer 7 (32-bit)
- Windows 7 SP1 with Internet Explorer 7 (64-bit) or Internet Explorer 8
- Windows XP SP3 with Internet Explorer 8
- Mac 10.5 with Safari 4
- Mac 10.6 with Safari 5

These other operating systems and browsers will work as well:

- Windows 2000, XP, or Vista
- Internet Explorer 6 or later, Firefox 3.0 or later, or Chrome 11 or later

**Viewing a recorded training session**

You can view a recorded training session by streaming it from your Training Center Web site, or by clicking the recording URL link that the host has sent to you. Once you select a recording to view, your Training Center Web site automatically downloads WebEx Player to your computer, and then plays the recording. If the recording contains a Presentation Studio presentation, you will need the Windows Media Player 9 (or higher) to view it.

**To view a recorded training session:**

1. If the host requires that you have a user account to view a recording, log in to your Training Center Web site.
2. On the navigation bar, expand **Attend a Session**.
Chapter 31: Viewing a Recorded Training Session

3 Click **Recorded Sessions**.
   The Recorded Sessions page appears.

4 For the recording that you would like to view, click the **Playback icon**.
   - If viewing the recording requires a password or access code, enter the password or access code that the host gave to you, and then click **OK**.
   - If viewing the recording requires registration, provide the required information on the registration form that appears, and then click **Register**.
   - If viewing the recording requires payment information, provide the required information and any coupon codes on the registration form that appears, and then click **Register**.

The WebEx Player or Presentation Studio Viewer opens and begins playing the recording.

To access a recording URL from an email, instant message, or another Web site:

1 Click the recording URL link that was provided by the host.
   The Recording Information page appears.

   ![Recording Information: Recording0221](image)

2 Click **View**.
   - If viewing the recording requires a password or access code, enter the password or access code that the host gave to you, and then click **OK**.
If viewing the recording requires registration, provide the required information on the registration form that appears, and then click **Register**.

If viewing the recording requires payment information, provide the required information and any coupon codes on the registration form that appears, and then click **Register**.

The WebEx Player or Presentation Studio Viewer opens and begins playing the recording.

3 Optional. To download the recording, click the **Download icon** and save the file to your computer.
